Re: Docket No. 930236-TL, Petition by the Marion County
Commission for countywide extended area service (EAS)
within Marion County

Dear Mr. Tribble:

Enclosed for filing in the above-referenced docket are the
original and three copies of United Telephone Company of
Florida's response to Order No. PSC 93-0512-PCO-TL, as per a
discussion with Mr. Julian O'Pry of Commission Staff.

A copy of this filing has been provided to all Parties of
Record.

Sincerely,

ACK

Analysis Statement
United Telephone Company of Florida
Docket No. 930236-TL, Order No. PSC-93-0512-PCO-TL
In Re: Resolution by the Marion County Commission for
Countywide Extended Area Service (EAS)

The calling volumes identified on Schedule I, (Exhibit 1, One-Way Toll, TollPac and OELC traffic) show a range for messages per access line per month from .00 to 25.95 for the routes studied. The percentage of customers making two or more calls per month ranges from a low of 0% to a high of 73%. Two of the routes meet minimum calling volume levels identified in FPSC Rule 25-4.060(3)(a) of three (3) or more M/A/M with fifty percent (50%) of the subscribers making two or more calls.

The calling volumes identified on Schedule II, (Exhibit 2, Two-Way Toll, TollPac and OELC traffic) show messages per access line per month of .00 to 2.21 for the routes studied. The percentage of customers making one or more calls per month ranges from a low of 0% to a high of 32%. None of the calling volumes identified on Schedule II meet the community of interest qualification levels outlined in Florida Public Service Commission Rule 25-4.060(3). Per the rule, "a sufficient degree of community of interest between exchanges, sufficient to warrant further proceedings, will be considered to exist when the combined two-way calling rate over each interexchange route under consideration equals or exceeds two (2) messages per main and equivalent main station per month (M/A/M) and fifty percent (50%) or more of the subscribers in the exchanges involved make at least one call per month."

Williston	209.2	3,823	18.27
Lady Lake	72.7	1,210	16.64

MARION COUNTY

All customers located within Marion County are provided county services such as Fire, Police/Sheriff, County/City government, Schools, and E-911 services. Ocala is the major area of employment in Marion County as well as being the county seat. United is unaware of any imminent major additions to the transportation system in Marion County although there are constant improvements being made to existing highways.

There are already eight major state and federal highways crisscrossing Marion County. Within the next 20 years, new major highways could include a Jacksonville/Tampa Turnpike, an extension of the Florida Turnpike, and an Ocala to Orlando Expressway, plus a bypass of US 301 and the multi-laning of US 27, SR 40, and SR 200.

OCALA

Ocala is situated in the near-perfect geographic center of the state. It is the largest city in the four-county region of Marion, Citrus, Sumter, and Levy counties and attracts more people for shopping and entertainment. Newcomers continue to be drawn into the Ocala area, coming from the north, from adjacent states, and from within Florida. In 1991, 17 people a day moved into the Marion metro area.

In the next 25 years, Ocala has the potential to become not only the center of activity for Marion County, but also for Citrus, Sumter, Levy, and Lake Counties. The large major shopping facilities, night clubs, and restaurants are going to be in Ocala. One of the attractions of the area's growth is that it is not limited to just one segment of the population, a key factor investors look at when deciding where to build a major project. It is a factor that has also insulated the area from most economic ups and downs. A large portion of newcomers moving north from Dade and Broward Counties are retirees who perceive this area to be more peaceful than South Florida. Young families are also being drawn to the area as is evidenced by the ever increasing student enrollment.

BELLEVIEW

Located in south Marion County, the Belleview exchange is mostly rural. South Marion County is a rapidly developing area supported by agriculture, construction, manufacturing, retirees, and service related businesses. New residential developments continue to be started.

The city of Belleview is the business center of the exchange. Although new development occurs all around, the city seems to be expanding most rapidly on the north side, toward Ocala. New industry and light manufacturing continue to locate in the area creating new job opportunities and a demand for new housing. Marion Oaks, a Deltona Corporation planned community, has been the largest single contributor to growth in the Belleview exchange. Floridian Club Estates, another new retirement community adjacent to Spruce Creek South, will also be contributing heavily to growth in the area.

OCKLAWAHA*

The Ocklawaha exchange is located in the southeast section of Marion County, 15 miles south of Ocala and 15 miles north of Leesburg, and serves approximately 72 square miles. The communities serviced include Ocklawaha, Moss Bluff, East Lake Weir and Sunset Harbor.

The Ocklawaha exchange surrounds Lake Weir and Little Lake Weir and is bisected by the Ocklawaha River. The exchange also includes part of the Ocala National Forest. Outdoor recreation such as camping, hunting, fishing, and water sports of all kinds play a large part in the economy of the area. Many residents in the exchange live on small lots in camping areas. Some of these residents live here only part of the year. Many of the homes surrounding Lake Weir belong to families who live and work in Ocala and retreat to Lake Weir on weekends and holidays.

The citrus industry was destroyed by the 1983-85 freezes which adversely affected the economy. At one time over half the state's production of gift citrus was packed here and shipped to points all over the world. The present economy is based on retirees, service related businesses and outdoor recreation. There is no manufacturing or industrial development in the exchange and none is expected in the near future. Residential development is expected to continue in established subdivisions, especially those around or near Lake Weir. Most new subdivisions are small, less than 20 lots. The largest potential for growth exists in the Silver Springs Shores development which contain over 11,000 residential lots. The core of the development is located in the Silver Springs Shores exchange which is enjoying a substantial amount of residential construction.

* (The spelling of Ocklawaha has recently been changed from Oklawaha to Ocklawaha. Both versions appear throughout this filing as portions of the filing were being processed and finalized before the change became effective.)

FOREST

The Forest exchange is located in east Marion County approximately nine miles east of Ocala and serves 233.6 square miles. It is bordered by the Ocklawaha River on the west and the Marion/Lake County line on the east. S.R. 40 bisects the exchange from east to west. The Ocala National Forest occupies about 194 square miles of the Forest exchange, which amounts to 83% of the exchange. The remaining 17% of the exchange (40 square miles) is where virtually all growth will occur. These privately owned lands are primarily in the west two-fifths of the exchange, from the Ocklawaha River to Levy Hammock Road.

The economy of the area is supported by the Ocala National Forest, real estate, limited agriculture, recreation, mobile home sales, and service related businesses. It is estimated that 35 to 40 percent of the population is retired. The majority of the labor force is employed in Ocala.

Many homes in the Ocala National Forest are just part-time residences used on weekends and during the hunting season or by northerners during the winter months. Mobile homes make up a large percentage of existing and new residences in the Forest exchange. Commercial development will continue to concentrate predominantly along S.R. 40.

SALT SPRINGS

Salt Springs is located in the Ocala National Forest with access to Lake Kerr, Lake George, Salt Springs, the Ocklawaha River, and Silver Glen Springs. It is a sportsman and recreation oriented community. Many of the residents are retirees, some of whom live here only during the winter months. Many other homes are second homes used as weekend retreats and some are used only for a couple of months out of the year by hunters. There is no industry in Salt Springs and business is restricted to the minimum needs of the community. Of those residents who work, most are employed outside the exchange, primarily in Ocala and Palatka. Most shopping, banking, etc. is also done in these cities.

Development in Salt Springs is primarily residential and is restricted to the areas around Lake Kerr, the Ocklawaha River, and along U.S. 19 at Yellow Bluff on Lake George. The Salt Springs exchange has a sufficient amount of undeveloped, privately owned land to support slow growth indefinitely. Most of the exchange is owned/occupied by the Ocala National Forest and therefore will not be developed. There are only about 10 square miles of privately owned land in the exchange and some of it is marsh land.

SILVER SPRINGS SHORES

The Silver Springs Shores exchange covers approximately 39.6 square miles in southeast Marion County.

The Silver Springs Shores exchange serves the development of Silver Springs Shores for which it is named. The Shores development covers 17,000 acres which accounts for almost half of the exchange. The exchange also serves the community of Candler. The remainder of the exchange is swamp land. Silver Springs Shores is a planned community designed for 33,400 single family homes, townhouses, and garden apartments. Schools, shopping, banking, industrial, and recreational facilities are provided for in the design. Much of the area has been improved by paved streets.

The Silver Springs Shores area is supported by retirees, service type businesses, and a strong industrial park which is home to Martin Marietta Corporation.

UMATILLA

The entire Umatilla Exchange area covers approximately 205.6 square miles of area with 163 square miles located in Lake County. The remaining 42.6 square miles are in Marion County. Although this exchange is the largest in land mass in Lake County, the northern half is Ocala National Forest property and not subject to much development. The area served by the Umatilla Central Office is very rural in nature and includes the communities of Altoona, Paisley, Saltdale, Lake Mack, Lake Kathryn, and Emeraldalda.

State Road 19 is the main north-south artery in the Umatilla exchange. S.R. 42 runs east and west with the two highways intersecting at Altoona, about 2.5 miles north of the Umatilla city limits. There are no federal highways within the exchange boundaries and all of the thoroughfares are county roads.

In spite of drastic cutbacks in the citrus industry, Golden Gem Growers Inc. is still the largest single employer in the area. Umatilla's business sector is quite small as compared to other communities of the same size. Umatilla over the years has had difficulty in attracting business growth. This is due to the low population per square mile. On the average there are 29 customers per square mile.

WILLISTON

The Williston exchange covers approximately 209 square miles, of which 164 are in Levy County and 43 are in northwest Marion County. It includes the City of Williston and the communities of Raleigh, Montbrook, and Morriston. Williston is the largest city in Levy County.

Williston is served by several major highways including U.S. 27, U.S. 41, U.S. 27A, and S.R. 121 and has been known as the "Crossroad of Florida".

The Williston exchange is a rural, agricultural area. The local economy is supported by agriculture and local businesses. Williston lacks a developed and diversified export industrial base and, other than service related businesses, has limited job opportunities. There is an abundance of land suitable for development; however, much of it is prime agricultural land and associated horse and cattle farms which places a limit on development in some areas. Many of the older subdivisions have unlimited potential for growth and will be a significant factor in future development. The city of Williston is in the process of developing a 420-acre industrial park at the airport. 200 acres of the Williston Industrial Park will become the Williston World Wood Products Park if negotiations are successful. A company that manufactures ready-to-assemble furniture, and several other related businesses and manufacturers, are expected to locate in the park.

LADY LAKE

The Lady Lake exchanges covers approximately 72.7 square miles in the northwestern part of Lake (32 square miles) and Sumter (4.5 square miles) Counties and the southeastern part of Marion County (36.2 square miles).

Lady Lake was one of the smallest municipalities when incorporated in 1925 with 325 residents and by 1985 its population barely broke the 1,000 mark. Now, Lady Lake has a population of more than 11,000 and is growing by more than 1,100 people per year.

The Marion County portion of Lady Lake is also known as Weirsdale or Lady Lake(821). This area of Lady Lake has the ability to call the majority of Marion and Lake counties. They have toll free calling to their schools and local and county government. E911 Service is provided by Marion County.

- Exhibit 109 - Williston to Umatilla Pocket Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 110 - Williston to Silver Springs Shores Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 111 - Williston to Umatilla Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 112 - Williston to Salt Springs Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 113 - Williston to Ocklawaha Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 114 - Williston to Ocala Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes OELC, LEC and IXC toll.
- Exhibit 115 - Williston to Belleview Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 116 - Williston to Orange Springs Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 117 - Williston to McIntosh Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 118 - Williston to Micanopy Pocket Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 119 - Williston to Micanopy Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.

- Exhibit 120 - Williston to Dunnellon Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC and IXC toll.
- Exhibit 121 - Williston to Citra Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 122 - Williston Pocket to Forest Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 123 - Williston Pocket to Salt Springs Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 124 - Williston Pocket to Ocklawaha Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 125 - Williston Pocket to Lady Lake (821) Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 126 - Williston Pocket to Dunnellon Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC and IXC toll.
- Exhibit 127 - Williston Pocket to Silver Springs Shores Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 128 - Williston Pocket to Ocala Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes OELC, LEC and IXC toll.
- Exhibit 129 - Williston Pocket to Belleview Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 130 - Williston Pocket to Orange Springs Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 131 - Williston Pocket to McIntosh Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.

- Exhibit 132 - Williston Pocket to Micanopy Pocket Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 133 - Williston Pocket to Micanopy Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 134 - Williston Pocket to Citra Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.

One Way Studies for Toll and Discounted Toll:

- Exhibit 135 - Completed Schedule I as requested in Order No. PSC-93-0512-PCO-TL. It depicts the various routes studied in order of highest to lowest M/A/M and identifies the number/percent of customers making two or more calls.
- Exhibit 136 - Completed Schedule II as requested in Order No. PSC-93-0512-PCO-TL. It depicts the routes studied in order of highest to lowest M/A/M and identifies the number/percent of customers making one or more calls.
- Exhibit 137 - Umatilla Pocket to Williston Pocket Two-Way Point-To-Point Study - includes LEC toll.
- Exhibit 138 - Umatilla Pocket to Silver Springs Shores Two-Way Point-To-Point Study - includes LEC toll.
- Exhibit 139 - Silver Springs Shores to Williston Pocket Two-Way Point-To-Point Study - includes LEC toll.
- Exhibit 140 - Ocala to Williston Pocket Two-Way Point-To-Point Study - includes LEC and IXC toll.
- Exhibit 141 - Ocala to Umatilla Pocket Two-Way Point-To-Point Study - includes LEC and IXC toll.
- Exhibit 142 - Silver Springs Shores to Williston Two-Way Point-To-Point Study - includes LEC toll.
- Exhibit 143 - Ocala to Williston Two-Way Point-To-Point Study - includes LEC and IXC toll.
- Exhibit 144 - Williston Pocket to Umatilla Two-Way Point-To-Point Study - includes LEC toll.
- Exhibit 145 - Umatilla to Williston Two-Way Point-To-Point Study - includes LEC toll.

- Exhibit 146 - Umatilla to Silver Springs Shores Two-Way Point-To-Point Study - includes LEC toll.
- Exhibit 147 - Umatilla to Ocala Two-Way Point-To-Point Study - includes LEC and IXC toll.

- Exhibit 222 - Umatilla to Belleview Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 223 - Umatilla to Williston Pocket Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 224 - Umatilla to Williston Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.

- Exhibit 225 - Umatilla to Silver Springs Shores Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 226 - Umatilla to Ocala Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 227 - Umatilla to Salt Springs Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 228 - Umatilla to Ocklawaha Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 229 - Umatilla Pocket to McIntosh Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 230 - Umatilla Pocket to Micanopy Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 231 - Umatilla Pocket to Dunnellon Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 232 - Umatilla Pocket to Citra Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 233 - Umatilla Pocket to Orange Springs Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 234 - Umatilla Pocket to Forest Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 235 - Umatilla Pocket to Belleview Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 236 - Umatilla Pocket to Silver Springs Shores Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 237 - Umatilla Pocket to Ocala Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.

- Exhibit 238 - Umatilla Pocket to Williston Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 239 - Umatilla Pocket to Salt Springs Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 240 - Umatilla Pocket to Ocklawaha Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 241 - Williston to Citra Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 242 - Williston to Dunnellon Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC and IXC toll.
- Exhibit 243 - Williston to Micanopy Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 244 - Williston to Micanopy Pocket Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 245 - Williston to McIntosh Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 246 - Williston to Orange Springs Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 247 - Williston to Belleview Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 248 - Williston to Ocala Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC and IXC toll.
- Exhibit 249 - Williston to Umatilla Pocket Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.

- Exhibit 250 - Williston to Silver Springs Shores Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 251 - Williston to Umatilla Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 252 - Williston to Salt Springs Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 253 - Williston to Ocklawaha Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 254 - Williston to Lady Lake (821) Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 255 - Williston to Forest Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 256 - Williston Pocket to Micanopy Pocket Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 257 - Williston Pocket to Micanopy Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 258 - Williston Pocket to Citra Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 259 - Williston Pocket to McIntosh Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 260 - Williston Pocket to Orange Springs Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 261 - Williston Pocket to Belleview Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 262 - Williston Pocket to Dunnellon Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.

- Exhibit 263 - Williston Pocket to Silver Springs Shores Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 264 - Williston Pocket to Ocala Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC and IXC toll.
- Exhibit 265 - Williston Pocket to Salt Springs Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 266 - Williston Pocket to Ocklawaha Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 267 - Williston Pocket to Lady Lake (821) Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.
- Exhibit 268 - Williston Pocket to Forest Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes LEC toll.

One Way Studies for OELC Messages

- Exhibit 269 - Completed Schedule I as requested in Order No. PSC-93-0512-PCO-TL. It depicts the various routes studied in order of highest to lowest M/A/M and identifies the number/percent of customers making two or more calls.
- Exhibit 270 - Completed Schedule II as requested in Order No. PSC-93-0512-PCO-TL. It depicts the routes studied in order of highest to lowest M/A/M and identifies the number/percent of customers making one or more calls.
- Exhibit 271 - Ocala to Williston Two-Way Point-To-Point Study - includes OELC.
- Exhibit 272 - Ocala to Williston Pocket Two-Way Point-To-Point Study - includes OELC.
- Exhibit 273 - Williston Pocket to Ocala Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes OELC.
- Exhibit 274 - Ocala to Williston Pocket Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes OELC.

- Exhibit 275 - Williston to Ocala Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes OELC.
- Exhibit 276 - Ocala to Williston Point-To-Point traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers. Includes OELC.
- Exhibit 277 - Station classification data showing by class of service the number of main and equivalent main stations in service for the exchanges studied.
- Exhibit 278 - Alternative Toll Calling Plans - Tariff and Subscriber Data
- Exhibit 279 - Average Revenue Per Message - One-way Route Analysis - Calls Originating from Equal Access Offices
- Exhibit 280 - Map showing the existing EAS routes.
- Exhibit 281 - Maps showing the proposed EAS routes with the M/A/M and percent of subscribers making two or more calls identified.
- Exhibit 282 - Interexchange toll rates and the distance between rate centers.
- Exhibit 283 - Foreign Exchange information for toll traffic. Includes number in service, average calling volumes and M/A/M calculations as if the FX were considered Point-to-Point.
