ORDER INDICATING EXEMPT STATUS OF  
PARK CREST APARTMENTS AND CLOSING DOCKET

BY THE COMMISSION:

Pursuant to Section 367.022(8), Florida Statutes, and Rules 25-30.060(2) and 3(h), Florida Administrative Code, Park Crest Apartments (Park Crest) filed an application for a reseller exemption on March 22, 1993. Mr. Robert F. Oulton, president of H2Oulton Metering System, Inc. d/b/a Water and Sewer Services of Florida (WSS), is the agent and contact person for Park Crest. Park Crest's mailing address is c/o Mr. Robert F. Oulton, P.O. Box 5430, Lighthouse Point, Florida 33074-5430.

Park Crest's service area is a 129 unit apartment complex located at 148-210 NE 38th Street, Ft. Lauderdale, Florida. The apartment complex receives water and wastewater service from the City of Oakland Park through three 2-inch meters. Previously the service was included as a nonspecific portion of the rent. To promote water conservation and reduce the owner's costs for these services, Park Crest contracted with H2Oulton Metering Services, Inc. d/b/a Water & Sewer Services of Florida (H2Oulton) to submeter each unit and begin billing for service based on actual consumption.

Upon request and sufficient proof, the Commission will issue an order indicating the nonjurisdictional or exempt status of water or wastewater systems if they qualify under the appropriate provision of Chapter 367, Florida Statutes. The application was

filed in accordance with Section 367.022(8), Florida Statutes, and Rules 25-30.060(2) and (3)(h), Florida Administrative Code.

Section 367.022(8), Florida Statutes, states, in part, that "[a]ny person who resells water or wastewater service at a rate or charge which does not exceed the actual purchase price thereof," and who complies with certain reporting requirements, is exempt from Commission regulation. According to Park Crest's application, service is provided at a charge that does not exceed the actual purchase price. The City of Oakland Park charges Park Crest a base rate of \$2.00 and a gallonage rate of \$1.75 per 1,000 gallons for water; and a base rate of \$8.80 and a gallonage rate of \$2.50 per 1,000 gallons for wastewater. According to the application, Park Crest will collect from its tenants only that amount billed by the City.

It should be noted, however, that the agent, H2Oulton, will collect a customer deposit which exceeds the amount of deposit the City of Oakland Park collects from Park Crest. The City of Oakland collects a \$460 combined water and wastewater deposit for each 2-inch master meter, which is a total deposit of \$1,380. According to the information provided, Park Crest's agent will collect a combined water and wastewater deposit of \$60 per unit, which totals \$7,740. However, \$60 is the deposit amount charged by the City of Oakland to other residential customers with an individual meter. Although Park Crest is collecting deposits which are in excess of that paid to the City of Oakland, we find that Park Crest qualifies for exemption as a reseller pursuant to Section 367.022(8), Florida Statutes, as long as the amount of the deposit collected from the tenants of Park Crest does not exceed the amount the City of Oakland Park would collect from the same tenants if each individual apartment was connected directly to the City system.

Park Crest is aware of the requirements of Rule 25-30.111, Florida Administrative Code, which requires a reseller to file a report with the Commission each year indicating whether or not it has collected more than the amount paid by the reseller to the provider of service, and that it provides water and wastewater service only to the apartment complex.

In addition, pursuant to Section 837.06, Florida Statutes, and Rule 25-30.060(2)(f), Florida Administrative Code, anyone knowingly making a false statement in writing with the intent to mislead is guilty of a misdemeanor. By signing the application, Mr. Oulton acknowledged that he is aware of Section 837.06, Florida Statutes, and the penalties for making false statements in the application.
