HAND DELIVERY

RE: Docket No. 920199-WS

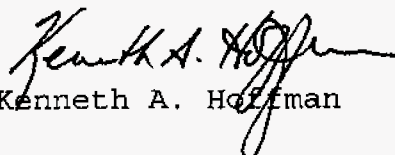

Dear Mr. Tribble:

Enclosed for filing in the above-reference docket are an original and fifteen copies of Southern States Utilities, Inc.'s Status of Meter Testing and Replacement Program Per Final Order in Docket No. 920199-WS, Report No. 3.

Please acknowledge receipt of these documents by stamping the extra copy of this letter "filed" and returning the same to me.

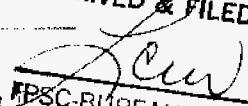

Thank you for your assistance with this filing.

Sincerely,

Kenneth A. Hoffman

**METER REPLACEMENT
PROGRAM STATUS**

November 2, 1993

TO: Gary Morse
FROM: Frank Sanderson *FS*
RE: Meter Replacement Program

This is an update to my memorandum of September 27, 1993.

Doylan Smith of Citrus County Pipeline has reneged on the agreed price of \$11.00 to replace residential water meters. After changing out approximately 50 meters in Springhill, Mr. Smith decided the price was not profitable and requested SSU increase the price to \$25.00/meter.

I discussed this turn of events with the Operations Team and the decision was reached to change out meters using in-house labor. Bill Williams has indicated he has hired one temporary person and intends to hire at least one more temporary person to assist with his meter replacement program in the West region. The option of using temporary help to reach our targeted goal of 5% replacement of meters in 1993 is available for consideration by each region.

Charles Sweat testified to the Public Service Commission that Southern States Utilities, Inc. would change out 5% of its residential meters in 1993. The testimony was in accordance with the Comprehensive Meter Program prepared by John Hilton, Ed Mangold and Darrell Sweat.

Following is a brief summary, by region, of the current status of the Meter Replacement Program:

SOUTH Region

Goal 1287 meters
To-date 835 meters

WEST Region

Goal 2150 meters
To-date 1008 meters

CENTRAL Region

Goal 711 meters
To-date 176 meters

NORTH Region

Goal 1678 meters
To-date 213

00087

2740

Page 2
Meter Replacement Program
November 2, 1993

The Total number of meters to be changed out in 1993 to meet our goal of 5% is approximately 6,000 meters. As you can see by the summary, we have changed about a third of the meters required to reach our goal

Ten large meter (3" and larger) installations at Marco Island have been retro fitted with by-pass lines and test plugs to allow annual testing of the meters. These meters will be tested in November 1993 using the sensus meter tester purchased by SSU for that purpose.

WFS/jmc

ACTION PLAN 1994

Inspect 234 production well and plant flow meters for proper installation and accuracy by december 1994.

Install by-passes and test plugs on 20% of the 3 inch or larger commercial meters so they can be tested for accuracy by december 1994.
