Re: Docket No. 931111-SU

Dear Mr. Rendell:

Enclosed, please find copies of 2 maps which have been provided in response to your request for revisions to the Resort Village Utility, Inc.'s Application for Certificate to Operate Wastewater Utility.

The first map is provided pursuant to Rule 25-30.033(m) F.A.C., and is in response to item 1, page 1, of your letter dated December 8, 1993. This map shows the anticipated location of the treatment facility and collection lines. It should be noted that this map is conceptual in nature. The locations in question are subject to revision, depending upon the outcome of the Permit Application which is currently pending before the Department of Environmental Protection, and other factors.

The second map is provided pursuant to Rule 25-30.033(n) F.A.C., and is in response to item 2, page 1, of your December 8, 1993 letter. At your suggestion, I discussed this map with Richard Redman. Mr. Redman requested that we supplement our previously submitted map by showing the legal calls contained in our territory description. The enclosed map accommodates his request.
