**RE:** Docket No. ~~931074-TP~~ - Petition for expanded interconnection for alternative access vendors within local exchange company central offices by Intermedia Communications of Florida, Inc.

Staff is requesting that Item No. 29 on the June 21, 1994, agenda be deferred. This recommendation addresses reconsideration requests of the Commission's decision on special access and private line expanded interconnection (Order No. PSC-94-0285-FOP-TP). Issue No. 2 is GTEFL's request for a stay of mandatory collocation pending the outcome of the federal appeal of the Federal Communications Commission's decision on mandatory collocation. On June 10, 1994, one day after the recommendation was filed, the Federal Appeals Court overturned the FCC's decision. Staff is requesting deferral in order to evaluate our recommendation for any impacts that the federal appeal may have. Once this review is complete, we will refile a recommendation for the Commission's review.
