NOTICE OF PROPOSED AGENCY ACTION
ORDER TYING CHANGES IN TYPE 2A-CCS7 RATES
TO CHANGES IN SWITCHED ACCESS RATES

BY THE COMMISSION:

NOTICE IS HEREBY GIVEN by the Florida Public Service Commission that the action discussed herein is preliminary in nature and will become final unless a person whose interests are substantially affected files a petition for a formal proceeding, pursuant to Rule 25-22.029, Florida Administrative Code.

Mobile service provider network usage rates are presently determined through use of a formula which is based on switched access rates. The formula was established in Docket No. 870675-TL, order No. 20475, issued December 20, 1988. As switched access rates change, MSP usage rates change accordingly. Since the decision in Docket No. 87675-TL BellSouth Telecommunications Inc. d/b/a Southern Bell Telephone and Telegraph Company (Southern Bell) has introduced Type 2A-CCS7 trunks which utilize a new signalling format for mobile interconnection.

Upon consideration, we find that when switched access rates change, the rate for Type 2A-CCS7 mobile interconnection service shall be changed to reflect the flow through of access rate reductions to mobile service provider rates. In addition, Southern Bell shall keep records by month showing minutes of use for Type 1 and Type 2A trunks, and make such information available at staff's request.
