higher gas costs during the winter months, the Company requests that its projected firm winter average cost of gas for the months of October 1995 through March 1996 be approved as the maximum PGA factor to be charged during the period of April 1995 through March 1996.

7. Allocation of the total gas costs to firm and interruptible customers results in a firm WACOG of 37.675 cents per therm, including the true-up factor and taxes, for the April 1995 - March 1996 period. The Company projects the interruptible winter WACOG including the true-up factor and taxes, to be 26.637 cents per therm for the April 1995 - March 1996 period.

WHEREFORE, for the purpose of establishing the maximum rate to be charged for all gas sales during the period April 1995 - March 1996, Chesapeake Utilities Corporation petitions the Commission to approve a factor of 37.675 cents per therm.

DATED this 13th day of January, 1995.

Respectfully submitted,
