Re: Conservation Cost Recovery Clause  
FPSC Docket No. 950002-EG

Dear Ms. Bayo:

Enclosed on behalf of Tampa Electric Company are fifteen (15) copies of proposed Revised Sheet No. 6.020 which we ask that you substitute in place of those we filed on March 24, 1995. This version of Sheet No. 6.020 has been revised to remove the Energy Conservation Factor for GSD-Subtransmission, GSLD-Subtransmission and SPF-Subtransmission rate categories per request of the Electric and Gas rate staff.

Please acknowledge receipt and filing of the above by stamping the duplicate copy of this letter and returning same to this writer.

Thank you for your assistance in connection with this matter.

Sincerely,

*James D. Beasley*

**ENERGY CONSERVATION COST RECOVERY CLAUSE**

An energy conservation cost recovery factor shall be applied to each kilowatt-hour delivered and shall reflect increases or decreases to the nearest .001¢ per KWH to recover the conservation related expenditures of the Company. The procedure for the review, approval, recovery and recording of such costs and revenues is set forth in Commission Rule 25-17.15, F.A.C.

**OIL BACKOUT COST RECOVERY CLAUSE**

An oil backout cost recovery factor shall be applied to each kilowatt-hour delivered, and shall reflect increases or decreases to the nearest .001¢ per KWH to recover the cost of the Company's oil to coal conversion of Gannon Units 1 through 4 (the "Project"), as approved by the Florida Public Service Commission.
