**UNITED TELEPHONE COMPANY OF FLORIDA'S**  
**REQUEST FOR SPECIFIED CONFIDENTIAL CLASSIFICATION**

United Telephone Company of Florida (United), pursuant to the provisions of Florida Public Service Commission (FPSC) rule 25-22.006, Florida Administrative Code, requests the Prehearing Officer to enter his or her order declaring that the information described below is confidential information as that term is defined in Rule 25-22.006(1)(a), and as such is exempt from Section 119.07, Florida Statutes (1989). In support of this Request, United states that:

1. On January 17, 1995, the Florida Public Service Commission issued Order No. PSC-95-0080-PCO-TL in this Docket, which requested that United prepare traffic studies on certain routes under consideration in this Docket .

All of the routes considered in the traffic studies submitted are interLATA routes and the traffic on the routes represents confidential business information of AT&T, which is the primary carrier of traffic on these routes.

2. Rule 25-22.006(4), Florida Administrative Code, requires that confidential information be highlighted, and identified with the page and line at which the confidential material is found, and that the utility correlate the page and line identified with the specific justification proffered in support of the classification of such material.

The pages containing the confidential material with the confidential material highlighted are attached to the original only of this Request as Exhibit "A". One copy of the pages containing confidential information with the confidential information blocked out are attached to the original only of this Request as Exhibit "B". Copies of this Request served on parties do not have Exhibit "A" attached and have only one copy of Exhibit "B" attached.

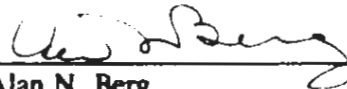

A listing of the pages and lines at which the confidential materials are found is attached to this Request as Exhibit "C". A listing correlating the pages and lines with the specific justification proffered in support of the classification of the confidential matter is attached to this Request as Exhibit "D".

3. Because the confidential data consists of traffic studies which delineate volumes of traffic, the information will remain confidential through the entire course of this proceeding and thereafter.

4. Upon conclusion of this Docket, United requests that the information described above be returned to United.

WHEREFORE, United Telephone Company of Florida requests that the Prehearing Officer enter his or her order declaring the information described above as falling within the specified confidential classification.

Respectfully submitted,

---

**service (EAS) to the Orlando, Winter Garden and Windermere exchanges**

The calling volumes identified on Schedule I, (Exhibit 1, Toll traffic) show messages per access line per month of .07 to 6.36 for the routes studied. The percentage of customers making two or more calls per month ranges from a low of 2% to a high of 47%. Rule 25-4.060 (3)(a) states "...will require a calling rate of three (3) or more M/A/M with at least fifty percent (50%) of the exchange subscribers making two or more calls per month."

The calling volumes identified on Schedule II, (Exhibit 2, Toll traffic) shows messages per access line per month of .09 to 6.36 for the routes studied. The percentage of customers making one or more calls per month ranges from a low of 3% to a high of 58%. Per Rule 25-4.060 (3)"...a sufficient degree of community of interest between exchanges, sufficient to warrant further proceedings, will be considered to exist when the combined two-way calling rate over each interexchange route under consideration equals or exceeds two (2) messages per access line and equivalent access line per month (M/A/M) and fifty percent (50%) or more of the subscribers in the exchanges involved making one or more calls per month..."

Docket No. 941281-TL

**REQUEST FOR CONFIDENTIAL TREATMENT OF TRAFFIC STUDIES**

The information listed on all pages and line numbers in Exhibit C consists of market information including volumes of traffic on specific interLATA routes broken out in several different categories including volumes of messages by messages, minutes, revenues, time-of-day, and residence and business. In addition, averages of messages per access and by minutes per message, revenue per message, revenue per access line and revenue per calling customers are also provided.

The information included in the studies is completely or substantially AT&T traffic information. The public disclosure of this information would allow competitors of AT&T an undue advantage in pinpointing those routes or segments of routes which are most susceptible to competition. The information is even more detailed, and is at least as sensitive and as useful to competitors as the capacity information which the Commission held was entitled to confidential status in Order No. 21362, issued June 9, 1989.

No public benefit would offset the harm which would be caused by the public disclosure of this information.
