RE: DOCKET NO. 950002-EG - Conservation Cost Recovery Clause.

Issue 1: Recommendation that the Commission grant FPL's motion for reconsideration of portions of Order No. PSC-95-0398-FOF-EI. In its motion, FPL informed the Commission that there were two errors in quantifying the actual end-of-the-year true-up amount. The mistakes are the result of calculation errors and do not affect the ECCR factors approved for FPL. Because the Commission has the power to correct errors in final orders regarding rates, staff recommends that the Commission grant FPL's Motion for Reconsideration. See, Richter v. Florida Power Corp., 366.S0, 2d 798, 800 (Fla. Dist. Ct. App. 1979).

APPROVED

Issue 2: Recommendation that the accurate end-of-the-year true-up amount is \$(4,113,134) overrecovery. This figure incorporates the corrections and adjustments noted in Issue No. 1 and additional interest of \$5,926 associated with the corrections.

APPROVED
