> Docket No. 950495-WS -- Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Hernando, Highlands, Hillsborough, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Polk, Putnam, Seminole, St. Johns, St. Lucie, Volusia, and Washington Counties.

Dear Ms. Bayo:

Enclosed herewith for filing in the above-referenced docket are an original and nineteen copies of the Amended and Restated Application of Southern States Utilities, Inc. ("Southern States") for Increased Water and Wastewater Rates, Allowance for Funds Prudently Invested and Service Availability Charges. The Amended and Restated Application includes Southern States' service areas in Hernando, Hillsborough and Polk Counties and, thus, addresses revenue requirements for 105 water and 47 wastewater service areas. -The Amended and Restated Application continues to include the water and wastewater facilities currently owned by Orange-Osceola Utilities, Inc. in the Buenaventura Lakes service areas for the -1996 projected test year only. This application for increased water and wastewater rates, AFPI and service availability charges includes all of these 152 service areas. In support of the Amended and Restated Application, we also are filing copies of supplemental volumes to the Minimum Filing Requirements ("MFRs") and the other pertinent information previously filed in this docket.

Please acknowledge receipt of these documents by stamping the extra copy of this letter "filed" and returning it to the undersigned.

#### BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Hernando, Highlands, Hillsborough, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Polk, Putnam, Seminole, St. Johns, St. Lucie Volusia and Washington Counties.

Docket No. 950495-WS

Filed: August 2, 1995

AMENDED AND RESTATED APPLICATION OF SOUTHERN STATES UTILITIES, INC. FOR INCREASED WATER AND WASTEWATER RATES, ALLOWANCE FOR FUNDS PRUDENTLY INVESTED AND SERVICE AVAILABILITY CHARGES

Southern States Utilities, Inc. ("SSU"), hereinafter referred to as the "Applicant", pursuant to Rule 25-30.436, Florida Administrative Code, hereby files its Amended and Restated Application ("Amended Application") for authority to increase water and wastewater rates and charges and states as follows:

The name and principal business address of the Applicant is as follows:

> Southern States Utilities, Inc. 1000 Color Place Apopka, Florida 32703

The persons authorized to receive notices, orders, 2. pleadings and other documents and communications with respect to this Amended Application are as follows:

> Kenneth A. Hoffman, Esquire Rutledge, Ecenia, Underwood, Purnell & Hoffman, P.A. 215 South Monroe Street, Suite 420 Tallahassee, Florida 32301

> > and

DOCUMENT NUMBER-DATE

07350 AUG-28

Brian P. Armstrong, Esquire Southern States Utilities, Inc. 1000 Color Place Apopka, Florida 32703

- 3. Applicant was incorporated on November 22, 1961 under the laws of the State of Florida and is currently authorized to conduct business in the State of Florida. Applicant is a wholly-owned subsidiary of Topeka Group, Inc. ("Topeka"). Topeka's address is 30 West Superior Street, Duluth, Minnesota 55802.
- 4. This Amended Application is filed pursuant to Chapter 367, Florida Statutes (1993 and Supp. 1994), and, in particular, Sections 367.081 (Supp. 1994) and 367.082, Florida Statutes (1993).
- 5. Applicant requests that this Amended Application be scheduled for formal hearing and not be processed pursuant to the Proposed Agency Action procedure outlined in Section 367.081(8), Florida Statutes (Supp. 1994).
- 6. An affidavit signed by Forrest L. Ludsen, Vice President-Finance and Administration of the Applicant, stating that Applicant will comply with the noticing requirements set forth in Rules 25.22.0407 and 25-22.0408, Florida Administrative Code, for applications and water and wastewater rate increases, allowance for funds prudently invested and service availability charges is attached hereto as Appendix "A".
- 7. Except as may be specifically identified herein, Applicant does not know of any manner in which this Amended Application deviates from the policies, procedures or guidelines prescribed by the Commission in relevant rules or prescribed by the Commission in Applicant's last rate case.

- 8. Four checks in the amounts of \$4,500, \$4,500, \$2,250 and \$2,250 accompanied the original Application as the filing fees for the requests for increased water and wastewater rates and water and wastewater service availability charges, respectively. No further fees are due as a result of this Amended Application.
- 9. Applicant provides water and wastewater service in 139 service areas (96 water and 43 wastewater service areas), in 22 counties pursuant to certificates issued by the Commission. Applicant currently has pending before the Commission an application requesting approval of the transfer to Applicant of the water and wastewater facilities currently owned by Orange-Osceola Utilities, Inc. in the Buenaventura Lakes service area (Osceola County). In addition, Applicant provides water and wastewater service to the Spring Hill service area in Hernando County pursuant to Commission issued certificates and provides service to 6 water and 3 wastewater service areas in Polk and Hillsborough Counties. This Amended Application for increased water and wastewater rates, allowance for funds prudently invested ("AFPI"), allowance for funds used during construction ("AFUDC") and service availability charges includes all of the 152 service areas.
- 10. The names of the 152 service areas, the county in which each service area is located, the certificates of authority, if any, pursuant to which Applicant provides service to each service area and the number of the last order from the Commission or other rate setting authority which previously considered Applicant's rates for each service area are identified in Appendix "B".

- 11. The documents containing the minimum filing requirements ("MFRs") in support of and accompanying this Amended Application are outlined in Appendix "C" and are incorporated herein by reference.
- 12. This Amended Application and supporting documents may be inspected at the locations listed in Appendix "D".
- 13. The necessity for a rate increase arises from the fact that Applicant did not earn a fair and reasonable rate of return for the base year ended December 31, 1994 and, based on the budget for the interim test year ending December 31, 1995 and the projections for the final test year ending December 31, 1996, Applicant will earn no return on equity during 1995 and 1996.
- 14. For the 103 water service areas filed in this Amended Application (excluding Buenaventura Lakes), Applicant experienced a rate of return of only 6.43% and a return on common equity of 2.34% during the base year ended December 31, 1994. For the interim test year ending on December 31, 1995 (excluding Buenaventura Lakes and service areas in Hernando, Hillsborough and Polk Counties), Applicant projects a rate of return of only 4.29% and a return on equity of -1.87% from water operations. For the final test year ending December 31, 1996 (including Buenaventura Lakes and the service areas in Hernando, Hillsborough and Polk Counties), Applicant projects a rate of return of only 3.99% and a negative return on equity of -3.23%.
- 15. For the 47 wastewater service areas filed in this Amended Application (excluding Buenaventura Lakes), Applicant experienced

a rate of return of only 6.18% and a return on common equity of 2.34% during the base year ended December 31, 1994. For the interim test year ending December 31, 1995 (excluding Buenaventura Lakes and the service areas in Hernando, Hillsborough and Polk Counties), Applicant projects a rate of return of only 4.21% and a negative return on equity of -2.05% from wastewater operations. For the final test year ending December 31, 1996 (including Buenaventura Lakes and the service areas in Hernando, Hillsborough and Polk Counties), Applicant projects a rate of return of only 4.38% and a negative return on equity of -2.27%.

- 16. The primary reason for the continued deterioration of returns through 1995 and 1996 is the addition of approximately \$116 million to plant-in-service for water and wastewater operations since rates last were established. Appendix "E" provides two schedules which breakdown the additional plant in service by water, wastewater and general plant categories as well as by priority code. The MFRs identify each project added to plant-in-service, by service area, since rates last were established.
- 17. The Applicant proposes and will establish in this proceeding that a fair and reasonable rate of return on its combined water and wastewater rate base is 10.32%. This proposed rate of return is based in part on the Commission's approval of a return on equity invested in water and wastewater operations of 12.25%. The requested return on equity is based on the Commission's leverage graph formula, as modified to make the formula consistent with Applicant's particular business and

financial risks and to correct certain mistakes in the application of the formula.

- 18. Applicant's requested return on equity of 12.25% reflects a reduction from the otherwise required return on equity in anticipation of the Commission's approval of the normalization clause ("WNC") proposed by Applicant. The WNC is designed to provide monthly adjustments to the gallonage charge for water service based on deviations from the consumption per bill identified in this proceeding. Applicant anticipates that Commission approval of the WNC will materially reduce the business and financial risk to which Applicant is exposed thereby reducing Applicant's cost of debt and equity, stabilizing revenues and moderating the frequency of rate relief requests associated with weather and other variables beyond Applicant's control.
- 19. Based on the application of the Conservation Rate Structure Study and Elasticity Study performed by the Southwest Florida Water Management District, Applicant has determined that (1) the base facility/gallonage charge proposed in this Amended Application is a conservation rate structure and (2) consumption in the 1996 projected test year should be reduced by 10.9%. Therefore, Applicant has made this adjustment to consumption in the MFRS.
- 20. Based on the foregoing and in order to have an opportunity to earn a fair and reasonable return on the rate base for water and wastewater services for all 152 service areas, including service areas in Hernando, Hillsborough and Polk Counties

as well as the Buenaventura Lakes service areas in Osceola County, the Commission should allow Applicant to place into effect final rates which will produce additional sales revenues for water operations of \$11,430,465 and for wastewater operations of \$7,214,608. These increases result in consolidated water revenues of \$44,479,271 and consolidated wastewater revenues of \$31,947,518. The combined increase in revenues from water and wastewater operations of \$18,645,073 results in total combined water and wastewater revenues of \$76,426,789.

21. Pending the establishment of permanent rates in this proceeding, Applicant requests interim water and wastewater rates which are set forth in Volume II of Applicant's original MFRs. These interim rates are based on the test year ending December 31, 1995 and include the 139 service areas served by SSU other than service areas in Hernando, Hillsborough and Polk Counties and the Buenaventura Lakes service areas in Osceola County. The interim rates being requested will produce additional sales revenues for consolidated water operations of \$7,428,460 and for consolidated wastewater operations of \$4,920,387. The combined increase in

¹This Amended Application incudes SSU's land and facilities in Hernando, Hillsborough and Polk Counties. The total combined increase in revenues from water and wastewater operations requested in this Amended Application is based on the assumption that the Commission decision establishing its jurisdiction over SSU's land and facilities in said counties is affirmed in the likely event of an appeal of the decision in Docket No. 930945-WS. If the Commission lacks jurisdiction over such land and facilities for any reason, including the pendency of such appeal, at the time the Commission votes on SSU's requests set forth herein, then SSU requests that it be granted a combined increase in revenues of \$18,137,502 in a manner consistent with its original Application filed in this docket on June 28, 1995.

revenues from water and wastewater operations of \$12,348,847 results in total combined water and wastewater revenues on an interim basis of \$54,499,601.

- Applicant requests that the Commission approve the proposed AFUDC charges contained in Volume III, Books 1 of 6 and 2 of 6 and Supplemental Volume III-A of the MFRs; AFPI charges contained in Volumes VII and VII-A of the MFRs; and service availability charges contained in Volumes VIII and VIII-A of the MFRs. Appendix "F" provides a list of the previous Commission or other rate setting authorities orders (if any exist) established AFPI and service availability charges. Applicant has provided the information required under Rule 25-30.434, F.A.C. and Rule 25-30.565, F.A.C. for AFPI and service availability charges in Volumes VII, VII-A, VIII and VIII-A of the MFRs. The testimony of Forrest L. Ludsen and Charles Bliss explain the basis for the requested changes in charges and, together with the information volumes, provided in the referenced demonstrates the appropriateness of the proposed charges.
- 23. Applicant requests that the Commission approve the division of water service areas into two service classifications, Conventional Water Treatment and Reverse Osmosis Water Treatment, and that the Commission approve uniform rates for each of these

<sup>&</sup>lt;sup>2</sup>Please see footnote 1 of this Amended Application. Applicant's requests concerning AFUDC, AFPI and service availability charges for service areas in Hernando, Hillsborough and Polk Counties are similarly contingent upon unquestioned Commission authority to establish such charges at the time of the Commission's vote on SSU's requests.

service classifications. Applicant further requests approval of uniform rates for the wastewater service areas included in this Amended Application.

- 24. Applicant requests that the Commission find that the Lakeside, Spring Gardens, Valencia Terrace and Buenaventura Lakes service areas recently acquired or to be acquired by Applicant are part of Applicant's water and wastewater system.
- 25. Applicant expects to complete construction shortly of central laboratory analytical facilities in Volusia County. The lab will provide water and wastewater testing services for Applicant's facilities available statewide and displace certain testing services provided by outside vendors. Applicant expects qualitative benefits and cost efficiencies from the centralized laboratory facilities.
- 26. Except as may be indicated in this Amended Application, Applicant has no knowledge of any material facts at issue.

WHEREFORE, the Applicant requests:

- A. that the Commission take jurisdiction over this Amended Application;
- B. that the Commission allow Applicant to place into effect on a permanent basis final rates which will produce additional operating revenues for its combined water and wastewater operations in the amount of \$18,645,073;
- C. that the Commission find that a fair and reasonable rate of return on Applicant's combined water and wastewater rate bases is 10.32% based on a return on equity of 12.25% for the test year

ending December 31, 1996;

- D. that the Commission allow Applicant to place into effect the interim rates requested in Volume II of Applicant's original MFRs which will produce additional operating revenues for its combined water and wastewater operations (exclusive of service areas in Hernando, Hillsborough and Polk Counties and the Buenaventura Lakes service areas in Osceola County) in the amount of \$12,348,847.
- E. that the Commission approve the AFUDC, AFPI and service availability charges filed herewith:
- F. that the Commission approve the proposed uniform rates for Conventional Water and Treatment, Reverse Osmosis Water Treatment and Wastewater Service;
- G. that the Commission find that the Lakeside, Spring Gardens, Valencia Terrace and Buenaventura Lakes service areas each constitute part of Applicant's water and wastewater system; and,
- H. that the Commission grant any other relief it deems fair, just, equitable and appropriate.

Respectfully submitted,

KENNETH A. OFFMAN, ESQ.
