RE: Request for Confidentiality

In conjunction with the Semi-Annual Fuel proceedings, Florida Power and Light filed responses to Staff's Second Set of Interrogatories, Nos. 10-14, and Staff's First Request for Production of Documents, Nos. 1-2. The documents are considered by FPL to contain confidential information and were filed with an intent to request confidentiality. All of the documents relate to FPL's determination of the cost-effectiveness of its recent rail car purchase. Staff requested these documents as a part of normal discovery in the Fuel docket, 950001-EL. In accordance with our rules, 25-22.006,5d, confidential information not entered into the record shall be returned to the provider no later than 60 days after the final order. Though relied upon to determine the appropriate recommendation to the Commission, the documents were not officially made a part of the record. Therefore, having sufficiently reviewed the material, Staff requests that the documents, #07134-95 and #07135-95, be returned to Florida Power and Light Company.
