Docket No. 950015-WU

Affidavit of John J. Ustica, President
concerning the acquisition adjustment

Tamiami Village Water Company withdraws its request for inclusion of an acquisition adjustment for the following reasons:

1. On the original application it stated that an acquisition adjustment results when the purchase price differs from the original cost calculation. Based on this I thought a acquisition adjustment had to be approved by the commission in order to balance the books for reporting purposes. It is now my understanding that the contra asset account used to balance the books does not have to be approved by the commission.

2. It was not my intention to ask for a negative acquisition adjustment since I agreed with staffs finding on the rate base. I did not realize that by asking for this acquisition adjustment it would effect the rate base. I believed it only to be an accounting adjustment to balance the books.

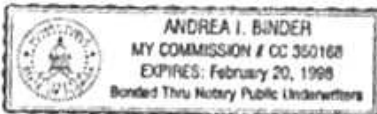

3. I agree with the staff recommendation that a negative acquisitic . adjustment should not be included in the calculation of the rate base for transfer purposes.
