| PROCEEDINGS: | MOUNT DORA SERVICE HEARING |
| BEFORE: | COMMISSIONER JULIA L. JOHNSON COMMISSIONER DIANE K. KIESLING COMMISSIONER JOE GARCIA |
| DATE: | Wednesday, November 8, 1995 |
| TIME: | Commenced at 6:00 p.m. Concluded at 9:30 p.m. |
| PLACE: | Mount Dora Community Center 520 Baker Street Mount Dora, Florida |
| REPORTED BY: | JOY KELLY, CSR, RPR Chief Bureau of Reporting Official Commission Reporter |

DOCUMENT NUMBER-DATE

FLORIDA PUBLIC SERVICE COMMISSION 1804 318V20¹⁸FPSC-RECORDS/REPORTING
3670

1 APPEARANCES:

2 BRIAN P. ARMSTRONG, 1000 Color Place,
3 Apopka, Florida, 32703, Telephone No. (407) 880-0058,
4 and KENNETH A. HOFFMAN, Rutledge, Ecenia, Underwood,
5 Purnell & Hoffman, P. O. Box 551, Tallahassee,
6 Florida, Telephone No. (904) 668-6788, appearing on
7 behalf of Southern States Utilities, Inc.

8 MICHAEL B. TWOMEY, Route 28, Box 1264,
9 Tallahassee, Florida 32310, Telephone No. (904)
10 421-3586, appearing on behalf of Sugarmill Woods Civic
11 Association, Inc., Spring Hill Civic Association and
12 Marco Island Fair Water Rate Defense Fund Committee.

13 SCOTT EDMONDS, Florida Public Service
14 Commission, Division of Legal Services, 2540 Shumard
15 Oak Boulevard, Tallahassee, Florida, 32399-0870,
16 Telephone No. (904) 413-6199, appearing on behalf of
17 the Commission Staff.

18 JACK SHREVE, Public Counsel, and CHARLES J.
19 BECK, Associate Public Counsel, Office of Public
20 Counsel, 111 West Madison Street, Room 812,
21 Tallahassee, Florida 32399-1400, Telephone No. (904)
22 488-9330, appearing on behalf of the Citizens of the
23 State of Florida.

1 P R O C E E D I N G S

2 (Hearing convened at 6:00 p.m.)

3 COMMISSIONER JOHNSON: Good Evening, ladies
4 and gentlemen. I'm going to go ahead and call this
5 hearing to order.6 My name is Julia Johnson. I'll be presiding
7 over the proceedings here tonight, and I'd like to
8 just, first of all, welcome you all here and let you
9 know that we are here to receive all of your input and
10 any testimony that you might have.11 Anyone that did not receive the special
12 report which basically outlines the case, it provides
13 you with information with respect to what the utility
14 is requesting and there's some very specific
15 information in here as to the process and procedure
16 that will occur here. It gives information regarding
17 when our final hearings will be held. There's also
18 information in this packet that allows for customer
19 comments for those who may just want to provide
20 written comments.21 But for now I want to go ahead and have the
22 notice of this proceeding read, and then I'll begin
23 the proceeding.24 MR. EDMONDS: Pursuant to notice this time
25 and place has been designated for a customer service

1 hearing in Docket No. 950490-WS, application for a
2 rate increase and increase in service availability
3 charges by Southern States Utilities, Inc.

4 COMMISSIONER JOHNSON: Thank you.

5 Again, my name is Commissioner Julia
6 Johnson, and I'll be presiding over this proceeding.
7 To my right is Commissioner Diane Kiesling, to my left
8 is Commissioner Joe Garcia. Information regarding
9 each of the Commissioners that will be serving -- that
10 will be deciding this decision is also presented in
11 the blue document. Tonight we have a three-member
12 panel, but for the final decision we will have the
13 entire Commission deciding this case. The other
14 Commissioners will also have the benefit of your
15 testimony in that those of you who testify today, your
16 testimony will be made a part of the official record
17 of this proceeding.

18 I'd like to now take appearances from the
19 parties.

20 MR. ARMSTRONG: For Southern States
21 Utilities, Brian P. Armstrong and Kenneth Hoffman,
22 1000 Color Place, Apopka, Florida 32703.

23 MR. TWOMEY: I'm Mike Twomey. I'm appearing
24 on behalf of the Sugarmill Woods Civic Association,
25 Inc., the Spring Hill Civic Association, Inc, and the

1 Marco Island Civic Association, Inc. My address is
2 Route 28, Box 1264, Tallahassee, Florida 32310.

3 MR. SHREVE: Jack Shreve and Charlie Beck,
4 Office of Public Counsel, Claude Pepper Building,
5 Tallahassee, Florida, appearing on behalf of the
6 citizens of the state of Florida in opposition to the
7 rate increase. (Applause)

8 MR. EDMONDS: Scott Edmonds, appearing on
9 behalf of Commission Staff, 2540 Shumard Oak
10 Boulevard, Tallahassee, Florida 32399.

11 COMMISSIONER JOHNSON: Thank you. There are
12 several members from the Commission Staff that are in
13 the audience, so to the extent that you have questions
14 that you'd like to ask Staff members, I'd like to go
15 ahead and recognize those Staff members now.

16 And some of the Staff members are sitting
17 here to the left. Others are in the back of the room.
18 I think we may have some disbursed throughout the
19 audience. Mr. Marshall Willis is here. He's the
20 bureau chief of the economic regulation for the Water
21 and Wastewater Division. Troy Rendell is a rate
22 supervisor. Scott Edmonds, again, is our attorney.
23 Lee Monroe is one of our engineers. He's standing
24 there in the back. Melinda Pace is also here; she's
25 with Consumer Affairs.

1 Sandy Simmons, with Records and Reporting.
2 I think she was one of the people that greeted you and
3 handed out the initial information.

4 We also have an official court reporter who
5 will be reporting all of your comments that you have
6 to make today here on the record, and for that reason
7 we'll need each of you who intends to testify to not
8 only sign the sheet there with your name and address,
9 but also as you come forward if you could state your
10 name and your address again for the record, that will
11 help facilitate the process and her recording each and
12 everyone who would like to testify their official
13 statements.

14 I think we now have a list of those people
15 who have signed up to testify. If there are any
16 others who decide that they want to testify, if you
17 could fill out one of the sheets and just have it
18 brought up to the Public Counsel, we will accommodate
19 that, too. But for those -- or you can hand it to
20 Staff in the back and they'll bring it up to the front
21 here. But for those who have signed up to testify, if
22 you'd now stand I'd like to go ahead and swear you in.
23 Let me explain to you the process there.

24 Because this will be evidence in the record,
25 before the Commission, we need to have the evidence

1 sworn to. Therefore, we go through this process not
2 to intimidate but just to make sure it is accurate and
3 something we can use as evidence in our record and
4 base our decision upon. We'd like to hear from you in
5 terms of not only the rates but the quality of service
6 or any other questions or concerns that you might have
7 concerning this utility. This is your opportunity to
8 let us know how you feel about the Company, how you
9 feel about the rate increase and how you feel about
10 the Commission in general. We welcome any and all of
11 your comments and your testimony.

12 With that, I'd like to go ahead and swear in
13 the witnesses at this point in time. If you could
14 stand and raise your right hand.

15 (Witnesses sworn collectively.)

16 COMMISSIONER JOHNSON: Thank you very much.
17 You may be seated.

18 It is my understanding that the attorneys
19 would like to make an oral presentation and have
20 opening remarks; is that correct?

21 MR. ARMSTRONG: Yes.

22 COMMISSIONER JOHNSON: What I'd like to do
23 is -- because we want to hear from our customers and
24 don't want this to turn into a legal battle here. I'd
25 love to have those opening statements, but I want to

1 limit those to five minutes, so that we can
2 accommodate these good people that have come to
3 testify and so we won't be here all night listening to
4 the attorneys.

5 So, with that in mind, who would like to
6 proceed? Southern States, could you, please?

7 MR. ARMSTRONG: Thank you, Madam
8 Commissioner, appreciate it.

9 First of all, we'd like to thank all of you
10 for coming here tonight. I know one question in your
11 mind is why the rate increase is being requested by
12 Southern States. And up front, I'd like to indicate
13 that the primary reason is the fact that Southern
14 States, since rates were last established based on
15 1991 costs, has placed approximately \$100 million of
16 equipment into service for our plants and facilities.

17 That \$100 million of plant placed into
18 service has not been recovered by Southern States;
19 there's been no recovery on that investment to date.
20 It's akin to placing millions of dollars into a bank
21 for a period of four years now, with no interest being
22 obtained on those millions of dollars. That's a
23 situation confronting Southern States at this point in
24 time, and that's the primary reason for this rate
25 increase request.

1 A significant portion of that plant placed
2 into service is due to regulatory requirements and
3 governmental mandate. We'd like all of you to be
4 aware, and I'm sure you are by being here tonight, of
5 the process which is Southern States has to present
6 evidence under oath from witnesses to support our rate
7 increase request and to bear up what I've just
8 indicated to you.

9 There is one factor, though, that has taken
10 place in recent events that you might have heard
11 about.

12 Southern States is requesting a uniform rate
13 structure in this proceeding. You may have heard that
14 in April of this year a court of appeals reversed the
15 uniform rate structure and declared it to be unlawful.
16 However, what you might not know is that the uniform
17 rate structure is unlawful but only until this
18 Commission makes a finding that Southern States
19 facilities are functionally related. You may also
20 know that in June of this year the Commission did make
21 that finding, that our facilities are functionally
22 related. Now to date, the Commission has made a
23 determination that Southern States should revert to
24 what is called a stand-alone rate structure, where we
25 will provide rates to each service area based on that

1 specific service area.

2 Southern States continues to support uniform
3 rates and would like the Commission to reconsider that
4 decision, and we've ask them to do that, and I'm going
5 to give you some facts as to why we support that.

6 The vast majority of you here in the service
7 areas here in Lake County will benefit from the
8 uniform rate. Let me give you a for instance. If we
9 revert to stand-alone rates based on average
10 consumption, customers here in Lake County can see
11 monthly increases in their bill of up to \$78 based on
12 their average consumption. That is not a rate
13 increase yjsy Southern States has requested; that is
14 what will happen solely by changing the rate structure
15 that now exists.

16 Another, for instance, Holiday Haven is a
17 service area. Some of you might live in Holiday
18 Haven. The average consumption of customers there is
19 only 3,300 gallons a month. But Holiday Haven
20 customers will see an increase of approximately \$27 a
21 month in their rates for that only 3,300 gallons a
22 month.

23 To give you some comparison, the only
24 service areas that are benefiting from lower rates
25 under what was called a stand-alone rate are service

1 areas where the customers are using significantly more
2 water. That is in the area of 10,000 gallons, 12,000
3 gallons and more water a month.

4 Now, if there's one thing that's a simple
5 fact in ratemaking, it's that if we have two separate
6 service areas with the same identical cost, the rates
7 being charged in the service area which uses more
8 water, the rates are going to be lower than the rates
9 being charged to an area where customers are already
10 conserving their water use.

11 Now, I know all of you have read about the
12 need to conserve water in Florida. It's a reality.
13 It's something we all face, and we must conserve water
14 in Florida. And Southern States believes that
15 reverting away from this uniform rate and going to
16 stand-alone rates is going to permit consumers who are
17 using great deals of water or more excessive amounts
18 of amount to have those lower rates, and we don't
19 think that's the right message to send.

20 COMMISSIONER JOHNSON: Mr. Armstrong, you
21 have one more minute.

22 MR. ARMSTRONG: Thank you, Madam Chairman.

23 We do welcome your comments. We want to
24 hear what you have to say about quality of service.
25 We will commit to follow up with you, if you would

1 like, give me your names and addresses, as well as the
2 Commission Staff, to follow up with your complaints
3 tonight if you have any. And we do want to hear what
4 you have to say regarding the rate structure, as well,
5 if you see fit to make your recommendations known.

6 Thank you for coming.

7 MR. TWOMEY: Ladies and gentlemen, I don't
8 want to try and steal Jack Shreve's thunder. He's
9 your Public Counsel here in the state of Florida, but
10 I, too, am against this rate increase totally. We're
11 on the same side of the fence there. I represent
12 about 37,000 to 40,000 customers of SSU in three
13 counties, in Citrus County, Hernando County and Marco
14 Island.

15 Let me say to you this is the most
16 contentious rate case, water and sewer rate case, in
17 the history of this state, okay? SSU is asking for --
18 I don't know if you noticed, if you read this little
19 handout the Public Service Commission gave you,
20 they're asking for about \$18.1 million in increased
21 rates every year, okay? This follows on the heels of
22 massive rate increases that most of you experienced
23 just two years ago. The rate increases equal
24 somewhere in the neighborhood of 45%, ladies and
25 gentlemen; water rates going up in some places in the

1 neighborhood of 30%. If you get COLAs in your Social
2 Security or your retirement or anything else, anybody
3 that knows the economy knows that nothing went up 45%.
4 Inflation is about 2%, between 2 and 3 at the most.
5 Okay.

6 The core problem that you're faced with here
7 is not uniform rates; it's this Company and its
8 Minnesota parent asking you people for too much money
9 to carry their dividends for their shareholders in
10 Minnesota. That's the problem and don't you forget
11 it, please.

12 Now, Mr. Armstrong talked about uniform
13 rates. Okay. Well, bad habits die hard. Uniform
14 rates -- I haven't got a lot of time to tell you about
15 it, but uniform rates are a form of socialism, ladies
16 and gentlemen; socialism, pure and simple. It
17 promises some folks a free lunch. And I'm here to
18 tell you socialism is dead in Russia, it's dead here
19 in Florida. I helped kill uniform rates in this state
20 in this year, in the last two years, and I'm going to
21 help see that it stays dead. So don't be sucked in by
22 Mr. Armstrong telling you that my clients or anybody
23 else owes you a free lunch when the core problem is
24 them asking for too much money; greed in the first
25 place. Nothing goes up 45% in two years, okay?

1 Nothing does.

2 Now, let me tell you what the bigger problem
3 is right now. They filed this rate case the latter
4 part of June of this year. It was accepted by the
5 Public Service Commission sometime in August, and I
6 will challenge you, ladies and gentlemen, to read this
7 document. I will challenge you to look at anything
8 you've received from the Public Service Commission or
9 SSU and figure out what your rates are going to be if
10 they get what they want compared to what they are now
11 and, more importantly, compared to what they should
12 be.

13 I beat these people in the District Court of
14 Appeals this year. The Public Service Commission
15 entered an order weeks ago telling them to change
16 their rates -- to change their rates and make refunds
17 of \$8.7 million to my clients and to some of you out
18 there. They are sitting on their hands. They are
19 going to appeal it, of course. They haven't done it.
20 As a consequence, none of you know what your rates
21 are, should be now. You don't know what exposure you
22 have in this case. And the problem there, ladies and
23 gentlemen, is the hearing starts in January. And
24 worse yet, if you want to help your representative,
25 Jack Shreve, or if you wanted to hire me as a private

1 lawyer and participate in this case, the Public
2 Service Commission is going to make you file testimony
3 on November 20th, 12 short days from now for you to
4 get all of you knowledge together, and everything, and
5 participate in this case. If you want to fight the
6 big money issue, the \$18.1 million, the 45%, you can't
7 do it, ladies and gentlemen.

8 Jack Shreve has asked the Public Service
9 Commission to put the kibosh on this case and dismiss
10 it; to stop it. I've joined him. And the Public
11 Service Commission to date has refused. One of the
12 Commissioners voted just yesterday, or made a motion
13 to do just that, to kill it. Two of the Commissioners
14 here made noises to the extent that they don't think
15 you have adequate notice, whether it is legal or not.
16 The problem is we have asked for the case to be
17 dismissed, to be stopped, put on hold. Public Counsel
18 has asked repeatedly of the Prehearing Officer that he
19 have more time to file and prepare testimony in your
20 defense, and his requests have either been denied or
21 ignored to date.

22 Now, my time is up.

23 COMMISSIONER JOHNSON: No, you have one
24 minute.

25 MR. TWOMEY: My time is about up.

1 But what I want to tell you ladies and
2 gentlemen, is you've got a serious problem here.
3 They're asking for too much money. Power company
4 rates haven't gone up. Telephone rates have stayed
5 about the same or gone down. There's something wrong
6 here. And if you want to get in the fight, you have
7 to have knowledge. Knowledge is power. You have to
8 have access to the knowledge. When you get up, in
9 addition to whatever complaints you have to voice
10 these Commissioners, ask them specifically, "What
11 should my rates be today and where has somebody told
12 me what they are?" The Company has taken the position
13 that you've heard enough for your own good and that
14 whatever comes out of this proceeding that's just too
15 bad.

16 So thank you for being here. If any of you
17 are from Silver Lake Estates -- is anyone from Silver
18 Lake Estates in this audience? I would like to speak
19 to any of you or all of you after the hearing is over.
20 Thank you very much. (Applause)

21 MR. SHREVE: I appreciate all of you being
22 here. It seems like we have been doing this for about
23 15 years down here in Lake County fighting Southern
24 States and the rate increases, but it used to be
25 easier. And I don't think you can take much more help

1 from Minnesota Power and the Topeka Group. Since they
2 have bought Southern States, your rates have done
3 nothing but up, up, up. I thought they were supposed
4 to be providing some good administration, some
5 economies, when all it has done is go up.

6 Mr. Armstrong mentioned that some of your
7 rates could go up to as much as \$78. I don't know why
8 he didn't tell you in that same context that that did
9 not include the rate increase they have asked for and
10 why didn't he tell you how much that would go up with
11 the new rate increase? That has not been put out in
12 any notice anywhere. Nobody in this audience knows
13 how much the rate increase is that they have asked
14 for. They have told you about a 77% increase of water
15 on your uniform rates. That is not your maximum
16 exposure, and it has not been filed. You can go look
17 at the minimum filing requirements, you can look at
18 any notice you have; you do not know. Perhaps they'd
19 like to tell you tonight. I don't think anybody here
20 is going to find it out, though.

21 Southern States, Minnesota Power, can give
22 you all of the garbage they want to about anything and
23 why they are raising their rates. They are after the
24 money and that is all. They have gone up constantly,
25 one thing after another. They have brought in 150

1 different systems into this one rate case, and we're
2 still on the same time frame trying to get it done.
3 We used to have individual rate cases or just Lake
4 County rate cases. Now we've got them all over the
5 state of Florida.

6 Mr. Twomey mentioned that we asked for
7 additional time. The reason we asked for additional
8 time is because in so many instances Southern States
9 has delayed giving us the information they were
10 supposed to give us, which puts us in a time bind in
11 trying to handle all of these systems. We have moved
12 to dismiss their case. We will continue to be pushing
13 in that area throughout.

14 They have stretched every possible way to
15 get more money out of you. They've asked for an
16 additional margin of reserve, which means you are
17 going to be paying for a part of the cost of future
18 customers. That is not fair.

19 They talk about being hurt so badly. He
20 didn't tell you about the \$6.5 million that they made
21 when they sold St. Augustine Shores after the purchase
22 from Deltona. We tried to get that put into your last
23 rate case so that you'd receive the benefit of that.
24 They opposed it. And at that time, the Public Service
25 Commission did not let you have the benefit of it.

1 However, in a rate case a few years back here in Lake
2 County when they lost money on a sale up in Lady Lake,
3 you picked up the tab for that. Now, I think what is
4 good for the goose is good for the gander, and you
5 should receive the benefits. They also made \$19
6 million on a sale of the system in Sarasota County.
7 We think that money should go to benefit you and not
8 just go up to line the pockets of Minnesota Power,
9 their owner.

10 I'm not going to go any further, but I think
11 you have been dealt a raw deal at this point. Your
12 rates have continued to go up, up, up, and you have
13 not been given fair notice in this case. This
14 audience probably would be packed if the people knew
15 what their real possible exposure was.

16 One other point: Southern States keeps
17 talking about the Public Service Commission changing
18 the rates and bad-mouthing them on that. They
19 followed the order that came out of the Court
20 Commission. They had earlier voted a different way,
21 but that's what they were doing when they changed
22 their rates. I think they felt that that was what
23 they had to do under that order. Southern States
24 wants to get the money no matter what and no matter
25 who pays for it, and that is the main thing they are

1 after.

2 Thank you very much for coming out.

3 (Applause)

4 COMMISSIONER JOHNSON: Are there any other
5 preliminary matters? Seeing none, I know that we have
6 at least one public official here, Senator Karen
7 Johnson. Are there others? Representative Everett
8 Kelly, who is behind the podium here.

9 First, I'd like to thank both of them for
10 coming out. They have been very supportive and very
11 helpful for you all in Tallahassee, and it's wonderful
12 to see them here to hear your concerns, too. There
13 have been, as Mr. Twomey stated, lots of legislative
14 issues and lots of question regarding what the rate
15 structure should be, what kind of regulation the PSC
16 should actually have, so it's good to have them here
17 to hear from you, hear your comments. And they, too,
18 I believe, have signed up to testify and we'll be
19 hearing their comments, too.

20 At this time, Mr. Shreve, if you could call
21 your first witness.

22 MR. SHREVE: Mr. Lee Snyder.

LEE SNYDER

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS SNYDER: My name is Lee Snyder and I live at 821 Dundee Circle in Leesburg, and we live in the Silver Lake Water District.

Your application states that Southern States has or will have placed over \$100 million in plant improvements since 1992. This does not tell us did \$25 million go in in 1992? Did 25 million go in in 1993? It doesn't tell us when it went in. And if all 100 million went in at that time, why weren't we concerned with the money at that time?

I strongly oppose any authorization of SSU implementing a so-called normalization adjustment charge. You tell us nothing on how this is going to be controlled. Does the company automatically add on a \$10 bill to our water bill every month when they feel like they need the money? This doesn't tell us how this is controlled.

I'd like to review the history of increases. We will go through the basic monthly charges.

Back in September '92, the basic charge went from 322 to 445; 38.2%. A year later, 9-15, it went

1 from 4.45 to \$5; 12.4%. In December '93 it only went
2 up 5%, reasonable. In '94, in July it only went up 1%
3 or 1.6%. The three-year increase on basic charges,
4 though, was 59.3%.

5 Now, the basic charges, if you take up your
6 interim and final rate, it will go up a grand total of
7 78.8%. That's just the basic charges. Now let's look
8 at the gallon usage charges. In September '92 it went
9 up from 57 cents per thousand to 87 cents. This is a
10 52.6%. A year later it went up from 87 cents to
11 \$1.19, another 37%. In '93 and '94, 1.7% each year.
12 That's reasonable. The three-year increase is 115%.
13 And now with the proposed changes going from \$1.23 to
14 \$2.16, that's a 75% on that part.

15 Now, if you go back from September of '92 to
16 these increases, the basic charge will have gone up
17 284%. The gallon charges will go up 378%. In three
18 years, four months time our rates will have changed
19 that much. Is that fair?

20 These are very exorbitant. This is more
21 than a 107 times the national cost of living increase
22 index, 107 times. Now, all of these statistics were
23 pulled off from my own water bills. (Laughter)

24 Where was management in their preplanning
25 when they had to put in all of this equipment? Hey,

1 you just go out and spend \$100 million, don't worry
2 about it; hey, we'll get it all from the customers
3 later on or something.

4 Couldn't they have had other means of
5 financing, such as utility bonds, et cetera? Okay. I
6 was a little provoked here with the water rates, so I
7 decided I'd go back and check my gas bills, my phone
8 bills, and my electrical bills for the same periods,
9 and this is what I found: The gas company, which is
10 the City of Leesburg in my case, the unit rates and
11 basic charges hasn't changed since 1992. The
12 electrical company, SECO in my case, the rates are the
13 same. The basic rate and the kilowatt rate. The
14 phone company, United Telephone, didn't bother to
15 check the long distance and all these taxes that get
16 added. I just checked the basic rates; it went up 3%
17 in four years.

18 Now, I'm sure these utility companies had to
19 meet environmental standards, had to put in new
20 equipment, but they came up with a fair profit. Where
21 was management on solid state utilities. Why can't
22 they match it? Now the electrical company they had a
23 lot of environmental items that they had to meet
24 within the last four, five, six years.

25 This increase should be disallowed and I

1 rest my case.

2 COMMISSIONER JOHNSON: Thank you. Are there
3 any questions? (Applause)

4 Mr. Snyder. Mr. Snyder.

5 COMMISSIONER KIESLING: Mr. Snyder.

6 MR. TWOMEY: I don't have any questions.

7 COMMISSIONER JOHNSON: You do or --

8 MR. TWOMEY: I do not.

9 MR. ARMSTRONG: No questions.

10 COMMISSIONER KIESLING: They get to ask you
11 questions.

12 WITNESS SNYDER: Sure.

13 COMMISSIONER JOHNSON: Thank you, sir.

14 MR. SHREVE: Thank you, sir.

15 (Witness Snyder excused.)

16 - - - - -

17 MR. SHREVE: Representative Kelly.

18 Representative Kelly, I'd like -- it's been
19 over many years that we have been fighting this water
20 and sewer business. I'd like to thank you and Senator
21 Johnson for your support, not just in this case, but
22 on behalf of the customers over a period of time. We
23 really appreciate it. (Applause)

24 - - - - -

25

1 **REPRESENTATIVE EVERETT KELLY**

2 was called as a witness on behalf of the Citizens of
3 the State of Florida and, having been duly sworn,
4 testified as follows:

5 **REPRESENTATIVE KELLY:** We sort of have a
6 reputation in Tallahassee, both myself and Karen, and
7 this is that we're pretty nice people, and we get
8 along most with everybody up there, but don't mess
9 with our people, because then you bring down the wrath
10 of whatever we've got on you.

11 Madam Chairman and members of the
12 Commission, we want to thank you for coming down and
13 gracing our fair county with your presence tonight.
14 We hope that you enjoy your stay here. I know it's
15 probably going to get a little warmer here tonight
16 before it's all over, but this does not in any way
17 take away from the courtesy and the very fine people
18 that we have here, because they will treat you nice in
19 this county. We have a lot of good people here.

20 I used to be a direct customer of Southern
21 States when I lived in East Lake Harris Estates and at
22 that time I remember going through these things and
23 fighting these wars. I was not only fighting these
24 wars as a customer, direct customer, but also as a
25 legislator. And I'm a pharmacist by profession.

1 Hearing the attorneys here tonight, it's almost like
2 being in court, and I love when they get coming back
3 and forth, to a layman like myself, it's sometimes
4 very, very entertaining. Of course, I've known this
5 one a long time. I don't know that one (indicating),
6 but I like the way he talks. (Laughter)

7 I want to just say that our people here that
8 are going to be affected by this rate increase should
9 be granted -- are some of the same people that I see
10 in -- when I was in retail pharmacy, when they would
11 come into the drugstore, call me aside and say,
12 "Mr. Kelly, you know, I've got to buy my prescription
13 because I need my medication. I'll probably die if I
14 don't have it. And medications are too high." Rest
15 assured, I'm the first to admit that and to complain
16 about the high cost of prescription drugs. But
17 we're not here to talk about prescription drugs
18 here tonight. But what I'm telling you is if you will
19 keep the comparison in mind that these citizens, many
20 of these citizens out here, cannot afford to buy just
21 their medications and to pay their living expenses and
22 still survive.

23 So I suppose that when you have a rate
24 increase like this occur, should it be granted by the
25 Commission, that's going to be one of the things

1 that's going to cut into that meager, in many cases --
2 in most cases, now, the meager income that our
3 citizens have -- that our retired citizens have. I
4 think my responsibility and Senator Johnson's is to
5 try to make their lives here as happy and as healthy
6 and as worrisome-free as it possibly can be. I tend
7 to agree with the attorney over here, that if all of
8 the facts are out in this case -- and I've worked with
9 this Company a lot, I chair the Committee on Natural
10 Resources in the House, it's our responsibility to
11 make sure that our citizens get clean, healthy water,
12 and that they have clean healthy water in all of our
13 rivers and our streams. Now, we're working on that,
14 but what I'm saying to you is that all of these things
15 cost money, and I don't believe -- I don't know what
16 these rate increases are going to mean to these
17 citizens. I have no idea what it's going to mean. I
18 haven't seen anything yet that says if you grant this
19 increase, this is what it's going to cost each of our
20 citizens here in this county. I'd like to see that in
21 print before you consider granting any rate increase
22 to these individuals.

23 I'm not exactly sure how the, you know, the
24 rates that the gentlemen here that was representing
25 the people from -- some people in Citrus County on the

1 issue that you got involved in in the Court. Some of
2 the figures I've seen in that cause me a great deal of
3 concern. And I hope that you will be very careful in
4 your deliberations and the decisions that you make to
5 make sure that we don't put any more unnecessary
6 burden on our people here who are trying to, as I
7 said, live in retirement and enjoy the remainder of
8 our lives.

9 So I didn't come tonight to fuss with you as
10 a Commission. I came tonight to implore you as a
11 public official to consider these individuals who are
12 sitting behind me here, they are the people that are
13 going to have to come forth with the money. The
14 Company, I'm sure, has expenses that they have to
15 meet. I think they've taken a lot of the systems down
16 here that were in very poor condition, they've made
17 good systems out of them. But they, in turn, have to
18 be very careful about what all they ask these people
19 to pay for and how much dividends they ask these
20 people to pay for.

21 So when you put all of that together
22 tonight, and in your deliberations and when you take
23 all of this evidence back and you do your homework to
24 try to make a decision, the proper decision, I hope
25 that you'll remember all of this, that there's a human

1 side of this and that there's only so much that we can
2 take from these people and still not have them -- have
3 the quality of lives go down.

4 So I wish you God speed in your
5 deliberations. I know that all of you are reputable
6 people and that you will make the appropriate
7 decisions that have to be made with these people who
8 are going to be paying the bill in mind.

9 And thanks again for coming down, and I'll
10 be in touch with Jack. We'll be working, and I
11 probably will be talking to this gentlemen over here,
12 if I can get him up to Tallahassee, we'll get together
13 and talk some more about this. And, of course, I'd
14 like to talk to the Company, also, because I want to
15 fully understand what -- the decision that you make,
16 what it is going to mean to these people before that
17 decision is made. So I'd ask you to please consider
18 delaying this rate increase until they know what it's
19 going to mean to them. I know as a public official,
20 and Senator Johnson knows as a public official, what
21 it is going to mean to them in their monthly budgets.

22 So, again, thank you very much for coming.
23 I hope your enjoy your stay. If there's anything we
24 can do for you while you're here, please feel free to
25 call on us, and thank you very much. (Applause.)

1 COMMISSIONER JOHNSON: Thank you.

2 MR. SHREVE: Thank you, Representative Kelly.

3 (Representative Kelly excused.)

4 - - - - -

5 MR. SHREVE: Senator Johnson, would you like
6 to go now?

7 **SENATOR KAREN JOHNSON**

8 was called as a witness on behalf of the Citizens of
9 the State of Florida and, having been duly sworn,
10 testified as follows:

11 SENATOR JOHNSON: I don't know if I could
12 possibly add a whole lot that Representative Kelly has
13 said. I like following him because he is very
14 eloquent and succinct so everyone clearly understands
15 what he's talking about. Not all legislators do that.

16 I have a concern, also, with the increase
17 that I perceive coming to a lot of my constituents,
18 not just in Lake County, but what is happening in
19 Citrus County. And as you know, I have five counties
20 in my district, so I have a lot of constituents out
21 there that are going to be really concerned about any
22 rate increase.

23 And when I stand here and I'm looking at
24 this room and I see all of the empty seats, that
25 bothers me. It bothers me immensely that I don't know

1 if enough publicity wasn't done. I don't know if my
2 constituents even realize that a rate increase is
3 possibly going to happen and that concerns me. I
4 know -- I plan on talking and asking a lot of these
5 citizens that are here how they happened to find out
6 this meeting was taking place tonight.

7 I think I have the same concern that
8 Representative Kelly has, is I've got all of this
9 paperwork in front of me, and yet I don't know what I
10 can tell my citizens and my constituents in my
11 district what their rate increase is going to be.
12 That is the same concern that Representative Kelly
13 has.

14 I'm standing here asking you to please do a
15 lot of deliberations, do a lot of considerations, be
16 careful what you're doing to our citizens in this
17 district, in Lake County. You know, it's real easy to
18 look at a rate increase for companies, but I don't
19 know when our senior citizens or our constituents in
20 the districts have had a cost of living increase that
21 is significant to take care of all of the other costs
22 that go up within their expenses, medical expenses or
23 anything else, as you heard Everett say. So every
24 time I hear of a large company -- and I don't have any
25 problem with big business and that's what makes this

1 country work, and I'm really pleased that Southern
2 States has bought a lot of the systems that were at
3 default and were not doing what they needed to be
4 doing, but I also have a problem if I go out and buy a
5 new car, that's my investment. And I don't need to
6 ask for my neighbor to help me pay for that new car,
7 because I'm the one that's benefiting from that new
8 car and I'm the one when it goes to making a trade-in
9 on that car, I'm going to get the better benefit than
10 the person that's got a car that's 20 or 30 years old.
11 So when I see a company, I know that company is going
12 to have a great increase in their income, in their
13 profits, but I don't see my constituents having a
14 great increase in their cost of living. I don't see
15 their Medicaid going up, their Medicare going up and
16 that, I think, is my real concern.

17 I hope that the Commission will truly take
18 everything into consideration when they go to looking
19 at an increase. I do know that uniform rate increases
20 were fair; actually looked like they were fair for a
21 lot of people in the district over here rather than
22 the stand-alone, mainly because the stand-alone, the
23 paperwork I have, still does not have a lot of the
24 costs figured in here in additional increase.

25 My other concern is the pass-through cost.

1 The pass-through cost, that doesn't even come to a
2 public hearing, doesn't even come to the Public
3 Commission. It is Staff, I believe, that makes that
4 decision. So our constituents have no idea what the
5 pass-through increases are going to be from time to
6 time because that's not done in a public hearing. So
7 I certainly hope that the Commission, the attorneys
8 that are representing everyone, and I don't always
9 agree with all attorneys, will take everything into
10 consideration and not just look at one area that may
11 be affected. But I think its important we look at
12 everyone and how they're affected, whether an attorney
13 represents that area or not.

14 And thank you, Jack. I'm glad you're out
15 there with the citizens in this state, and I know
16 we're going to be communicating a lot more because I
17 have a lot of the districts that are going to be
18 affected.

19 MR. SHREVE: I know you do.

20 SENATOR JOHNSON: Thank you.

21 MR. SHREVE: Thank you, Senator. (Applause)

22 COMMISSIONER JOHNSON: Thank you very much.

23 (Senator Johnson excused.)

24 - - - - -

25 MR. SHREVE: Mr. Ryan.

1 TOM RYAN

2 was called as a witness on behalf of the Citizens of
3 the State of Florida and, having been duly sworn,
4 testified as follows:

5 WITNESS RYAN: My name is Tom Ryan. I live
6 at 1906 Tweed Court in Leesburg, Florida.

7 Naturally, I oppose this rate increase as
8 I'm sure everybody out there behind me does also. I
9 thought maybe I could give you some information that
10 might help you in your decision. I do have a couple
11 of questions, and I don't know if I'm entitled to ask
12 questions or not. I am?

13 COMMISSIONER JOHNSON: Sure.

14 WITNESS RYAN: Good. I have one that
15 relates to a question later on, and that is the
16 operating capacity level of Southern States Utilities.
17 They indicated they've invested \$100 million, or about
18 to, by the end of the year. And I'm just wondering
19 what your operating level is. Is it 50% or 80%, or do
20 you know what that is?

21 COMMISSIONER JOHNSON: If you know the
22 answer, you can answer.

23 COMMISSIONER KIESLING: It would vary from
24 small facility to facility.

25 WITNESS RYAN: I'm looking at the total

1 company. I mean not just any one facility. I imagine
2 some facilities may be operating at 90% capacity, but
3 I just wondered if there's an average overall?

4 COMMISSIONER KIESLING: That I don't know.

5 WITNESS RYAN: And I know there has to be
6 some margin in there. You can't operate at 100%
7 capacity all the time. But I'm just wondering if it's
8 50% or -- inasmuch as you've invested this much in
9 capital improvements, obviously, you're not at 80 or
10 90%. There must be an investment for some of the
11 future.

12 MR. ARMSTRONG: Sir, we don't have a number
13 where that is rolled in to say what the overall is.

14 WITNESS RYAN: Okay. All right.

15 COMMISSIONER KIESLING: Mr. Ryan, while
16 you're at a stopping point, could you tell me what
17 system you are on?

18 WITNESS RYAN: Pardon?

19 COMMISSIONER KIESLING: What system are you
20 on?

21 WITNESS RYAN: I live at Scottish Highlands.

22 COMMISSIONER KIESLING: Silver Lake.

23 WITNESS RYAN: Silver Lake. I'm sorry, I
24 didn't know that. I live at Scottish Highlands.

25 MR. TWOMEY: Mr. Ryan.

1 WITNESS RYAN: Yes, sir.

2 MR. TWOMEY: Over here. Just real quickly.

3 Also you need to understand that all of the money they
4 say they are going to spend in this case is through
5 the end of 1996, so all of it hasn't been spent yet,
6 either.

7 WITNESS RYAN: Yes, I noticed. I have a
8 copy of Minnesota Power's financial report for '94,
9 and it indicated that something like \$75 million of it
10 had been spent for '92, '3 and '4. Now, that includes
11 Heater Utilities, which represents, I'm not sure,
12 maybe 15% of the total water utilities of SSU, as I
13 understand it -- or Minnesota Power, I'm sorry. And I
14 couldn't really break out SSU with Heater Utilities
15 other than the fact that it looked like it was about
16 15% the size of SSU, and I'm just guessing at that.

17 MR. SHREVE: Sir, if I may, on your
18 question, I don't have the answer to that either, but
19 I see exactly what you're getting at. One example
20 that comes to mind is Sunny Hills over in Washington
21 County. Their investment -- now, two of their years
22 are totally projected. Now, supposedly they put some
23 of that in in '95 already, but that's projected at
24 this point. The Sunny Hills investment was over
25 \$700,000 but that was earlier. That was primarily for

1 mains and distribution. I think they had three
2 additional customers. So that kind of is what I think
3 you're getting at, how much of that is really needed
4 for future growth.

5 WITNESS RYAN: Well, I guess what I'm
6 looking at is the prudence of the \$100 million
7 investment, so-so.

8 I want to point out something, and I know
9 you don't like to hear how they do it up north, but
10 maybe you'd like to hear how we did it out west.

11 (Laughter) (applause)

12 I came here in 1990 from Albuquerque, New
13 Mexico. Everybody said, "Why?" But, believe me, it
14 gets cold in Albuquerque in the wintertime. The water
15 rates there today -- and you have to remember, I
16 guess, and I guess you know in Florida we have what,
17 50 to 60 inches of rain? I think last year we almost
18 broke a record of 68 inches of rainfall a year. In
19 Albuquerque we have 8 to 12, and that includes snow.
20 In Albuquerque the water rates today, \$4.84 base
21 charge and 91 cents or .9128 per gallon. The proposed
22 rates here are more than double that. Now, if water
23 supply has anything to do with rainfall, I guess you
24 might want to take that into consideration. I guess I
25 just don't understand the numbers. They are so much

1 different.

2 The 1994 annual report of Minnesota Power --
3 and the reason I'm using this is I had called Southern
4 States Utilities about sending me their 1994 financial
5 statements, and they said they couldn't do it, but
6 they did provide me with Minnesota Power's financial
7 statement and also a second quarter of 1995 report.
8 So some of the information I'm getting from that and
9 having to extract it because they do have a breakdown
10 for their water utilities. But their 1994 annual
11 report stated that rainfall was 41% above average in
12 the Orlando area, decreasing water consumption and
13 lowering SSU's revenues. From this, this sort of
14 contradicts, I think, the law of supply and demand or
15 supply and consumption because it seems like the more
16 it rains and the more we conserve, the higher the
17 rates go. (Applause) I guess as Johnny Cochran would
18 say, "It just don't fit." (Laughter)

19 Minnesota Power's 1994 annual report also
20 stated that a proposed rate increase with SSU will
21 generate about \$10 million to \$12 million in
22 additional revenues -- that's on Page 17, if you'd
23 like to look it up -- which appears to be about
24 between a 15% and 20% increase in water and utility
25 revenues. I say that "appears," because in there is

1 Heater Utilities, and I had to sort of interpolate to
2 get that figure. Yet my water rates are going to go
3 up 76%. I think the actual basic rate is going up
4 79% -- I'm only addressing water rates -- and 76% on
5 the per gallon charge.

6 Then in their second quarter report for
7 1995, the shareholder report, they stated that their
8 rate increase would increase revenue by 33%, or \$18.6
9 million. Somewhere between the end of '94 and June of
10 1995, they increased this request for revenue by 50%.
11 What happened? I thought this was going on since
12 1992? Why was there an increase of 50% in the rate
13 that they requested in just that short six-month time?
14 Something doesn't appear equitable. If they need, and
15 actually need, a 33% rate increase, why are my water
16 rates going up 76%? Is there some other factor in
17 here that I'm missing? Is there some other expenses
18 that I haven't factored in? I just don't know. Is
19 there -- and I guess that comes down to the question
20 that I was going to ask in regard to the operating
21 capacity. We had -- here, again, it's out west -- we
22 had in New Mexico a public utility, Public Service
23 Company of New Mexico, that had purchased an interest
24 in the Palo Verde generating plant in Arizona to
25 generate electricity for customers in New Mexico. To

1 make a long story short, the Public Service Commission
2 approved only 10% of that investment -- would let them
3 include only 10% of that investment in their rate
4 base. The reason being is that their operating
5 capacity was already sufficient that they didn't need
6 to purchase that much equipment. So I'm wondering
7 whether -- and I know they have indicated that the
8 majority of the increases have been for environmental
9 protection laws, and I saw in the Minnesota Power's
10 report, I think for 1994, it wasn't quite a majority;
11 it was a little less than 51%. But have all of these
12 capital expenditures been necessary to operate at a
13 capacity necessary to provide the proper service to
14 the customers that they are serving today? Or, as one
15 of these gentlemen indicated, are we paying for
16 capital that is -- that is invested for anticipated
17 usage of water resources? Or are we paying just for
18 what we are using today, with some margin for, you
19 know, the expansion?

20 I guess I just really have one other
21 question, and that would be -- maybe you can't answer
22 this now, but will the Public Service Commission
23 refrain from granting any increase until this Supreme
24 Court ruling is passed down, or will that make any
25 difference?

1 COMMISSIONER KIESLING: I'm not sure I know
2 which Supreme Court ruling you're speaking of.

3 WITNESS RYAN: Well, in this daily
4 commercial, just the other day, there was an article
5 and it mentioned, "After court actions in 1994,
6 Southern States and the Public Service Commission
7 asked for a Supreme Court review of an appeals
8 decision to overturn an earlier court order upholding
9 a uniform rate structure and the case is pending.

10 COMMISSIONER JOHNSON: That was denied last
11 week.

12 MR. TWOMEY: They lost that.

13 WITNESS RYAN: Oh, okay. That's all I have
14 to say. Thank you very much.

15 COMMISSIONER GARCIA: Let me just tell you
16 something just so you know, and I guess the Clerk's
17 Office can correct me, or you can correct me. The
18 financial records that the Company has provided the
19 Public Service Commission are located, I guess where
20 it would be, at your office here, I would assume?

21 MR. ARMSTRONG: In the local library here in
22 Lake County.

23 COMMISSIONER GARCIA: At the local library
24 here in the county, and you have a right to look
25 through all of that. And some of those questions that

1 you have or others will be developed from looking at
2 that, but it is filed there and you can ask our clerk
3 precisely where it is, and those records are available
4 to you. And the issue that you brought up, Mr. Willis
5 pointed out to me, so I just wanted to let you know --
6 the capacity that you're talking about, that's to us
7 used and useful portion, and that is a central issue
8 in this case, and it is something that Staff is
9 looking at very, very specifically. In other words,
10 they have said they have had \$100 million worth of
11 investment, were going to have \$100 million, but all
12 of that has yet to be determined. We may decide that
13 certain expenses that they have had are incorrect, and
14 we can disallow them and they can't write those off
15 into the rates.

16 WITNESS RYAN: Thank you.

17 COMMISSIONER GARCIA: Thank you.

18 COMMISSIONER JOHNSON: Any other questions
19 for Mr. Ryan?

20 MR. SHREVE: To follow up on that, I agree
21 with the Commissioner. There are some other things
22 we're going to be looking at. In the Deltona
23 purchase, they paid \$9 million less than they have in
24 their rate base and they're receiving a return on
25 that. And we're going to try again to get that

1 knocked out.

2 You hit the nail on the head about the
3 weather normalization. They have specifically asked
4 for that in this case. In other words, if the weather
5 changes so they don't get as much money, they want
6 their rates to go up. That's already asked for in
7 this case. But what it really is is a revenue or
8 money normalization rather than a weather
9 normalization. They want the total money, that's it.
10 But you hit the nail on the head.

11 WITNESS RYAN: I guess I have one further
12 question, then. Would the rates go down if we have a
13 drought?

14 MR. ARMSTRONG: Exactly, Mr. Ryan. That's
15 exactly right. If you use more water the rates will
16 go down, that's exactly right. It's an even, both
17 sides.

18 WITNESS RYAN: Just one other comment, and
19 that is -- I don't know if this will make any
20 difference to the Commission or not.

21 COMMISSIONER JOHNSON: We're going to need
22 for you to not speak while the witness is speaking,
23 because we can't hear him and he's asking some
24 excellent questions.

25 WITNESS RYAN: I don't know if it will make

1 any difference in your decision or not. Coming from
2 New Mexico, I don't know if you realize perhaps what
3 the impact might be on a rate increase of this size.
4 We have what we call the gray lots or the gray yards.
5 If you can't afford the water, you just rock it in.
6 And you may turn Florida gray from green.

7 Thank you.

8 COMMISSIONER JOHNSON: Thank you.

9 MR. SHREVE: Thank you, sir. (Applause)

10 (Witness Ryan excused.)

11 - - - - -

12 MR. SHREVE: Anna Cowin.

ANNA COWIN

1
2 was called as a witness on behalf of the Citizens of
3 the State of Florida and, having been duly sworn,
4 testified as follows:

5 WITNESS COWIN: My name is Anna Cowin. I'm
6 from Leesburg. I'm in the Morningview Subdivision,
7 and I'm also blessed to have a condominium in Volusia
8 County in Jungle Den Villas, so I'm doubled blessed or
9 cursed.

10 I have been working on Southern States
11 Utilities cases for the last 15 years. As a matter of
12 fact, just as background, back in 1981, before the
13 Public Service Commission actually -- and the Public
14 Counsel involved itself in water and sewer cases, I
15 brought attention to the increased rates. At that
16 particular time, they played the same game they are
17 playing right now. They didn't let the public know
18 about the hearings. At the same time, they also
19 didn't let the public know about the actual cost of
20 the increases. It took me putting a port-a-pot in
21 front of my front lawn at the time in order to get the
22 press to notify the public that the actual case was
23 being taken care of.

24 As far as how the public got notice today,
25 we received a little notice quite like this in

1 paragraph form from Southern States with no rates
2 listed on it. All that it stated was that there would
3 be a rate increase. Of course, we have been facing
4 pass-throughs for a number of years.

5 I think that the quality of water is another
6 issue. I'm not going to address it, but I will make
7 one quick comment that was a personal experience with
8 the quality of water. Actually, water was cut off in
9 my subdivision, in Morningview, within this past year,
10 perhaps maybe six months ago or so. They were doing
11 construction on it. There was not notice to the
12 public that we had to boil our water for two days in a
13 row, following the construction. And how we found out
14 about it was through the construction workers. I
15 never did get notice. And having been involved in
16 Southern States Utilities for a number of years, my
17 name is quite known, and I expected they certainly
18 would have notified me, which they did not.

19 COMMISSIONER JOHNSON: When did you say
20 that --

21 WITNESS COWIN: It was this past year. I
22 have it written down at home. I didn't even think to
23 address quality of service -- in the spring of last
24 year.

25 COMMISSIONER KIESLING: Of '94?

1 WITNESS COWIN: I'm sorry?

2 COMMISSIONER KIESLING: '94?

3 WITNESS COWIN: No, this year. It was '95.

4 COMMISSIONER KIESLING: You were saying last
5 year, so I'm trying to figure out --

6 WITNESS COWIN: Well, we're going into next
7 year. My mind thinks ahead. Okay. It was the spring
8 of '95.

9 COMMISSIONER JOHNSON: And perhaps, at least
10 with respect to that issue, the engineer, Mr. Monroe,
11 after you've testified, perhaps you could get with him
12 so that we can check into that.

13 WITNESS COWIN: Okay. Again, I wrote it
14 down and complained bitterly to -- I didn't call the
15 Public Service Commission at the time, but I did
16 complain and register a complaint to Southern States
17 at the time.

18 It's very difficult, you know, not to know
19 what we're paying. I'm quite -- having been involved
20 in this for 15 years, I'm quite aware of rate of
21 return. In fact, I was one of the first to testify
22 before all of you. And at that particular time the
23 public was not even aware of issues until after they
24 were decided before and then you opened it up through
25 a change in your own Public Service Commission rules.

1 My concern is a number of things. The first
2 concern I have is about the projection cost that we
3 have that are in the costs that Southern States puts
4 in.

5 I have been an elected member on the school
6 board for almost a decade. I'm very involved in the
7 knowledge of school construction. We could never, in
8 school construction, build a school unless we know how
9 many students we're going to put in it. We can't even
10 project. Even if we know that we're going to have
11 growth the next year, we can't say, "We're going to
12 have 500 new students; so, therefore, we want to build
13 a school and get state money to build that school.
14 But, yet, Southern States Utilities can go out, build
15 lines for a division -- a subdivision that they may
16 not have developed yet, project whatever they want and
17 the costs be tacked back to the consumer.

18 COMMISSIONER KIESLING: That's not quite
19 correct. They can only get back what is the used and
20 useful portion of that plant. So if they put in a
21 plant and only 10 people use it, it will not be 100%
22 used and useful.

23 WITNESS COWIN: Okay. I understand --

24 COMMISSIONER GARCIA: They can ask for it,
25 though. I just want you to understand that, you know,

1 they can ask for it. That doesn't mean we're --

2 COMMISSIONER KIESLING: It doesn't mean that
3 they are going to get it. We calculate used and
4 useful.

5 WITNESS COWIN: Okay. So they can come in
6 and they can say they're going to do all these
7 different thing, but they can also go buy a very poor
8 utility system for the customers with the idea of
9 building up that utility system and projecting the
10 cost in the rate case, right? It will become 100%
11 used and useful, correct?

12 COMMISSIONER KIESLING: Not necessarily.

13 WITNESS COWIN: Well, let's say it is, that
14 whatever their projection is 100% used and useful, and
15 then turn around and sell it as a profit as it was
16 done in St. Augustine Shores or somewhere else and
17 tack the profit on to their Minnesota company and the
18 customers don't even get a benefit of it.

19 CHAIRMAN CLARK: That is an issue in this
20 case, whether they can do that or not.

21 WITNESS COWIN: Okay. So the bottom line is
22 they are projecting -- they are projecting costs that
23 they may, in fact, use, but any profit of that doesn't
24 necessarily go back to the customer as in that one
25 case scenario.

1 COMMISSIONER JOHNSON: Yes and no.

2 WITNESS COWIN: Yes. Second point.

3 COMMISSIONER KIESLING: It's an issue.

4 That's still an undecided issue, whether they are
5 going to have to account for --

6 WITNESS COWIN: Okay. I hope you consider
7 this.

8 COMMISSIONER KIESLING: We are.

9 WITNESS COWIN: Because they're projecting a
10 two-year \$100 million cost for '95 and '96. It's the
11 end of '95, I don't know what they have spent, and I
12 don't even know what they are planning to spend it on.
13 In fact, I don't even think the Public Service
14 Commission knows, but yet you're going to be acting on
15 this projection?

16 COMMISSIONER JOHNSON: No, I think one of
17 the things -- you're raising some good points, and I
18 think almost every point that you're raising will be
19 an issue in this case. And I can see Jack jumping out
20 of his seat now, because he's saying, "She's raising
21 good points." And these are the issues we're going to
22 have to consider. Each of the points you're raising
23 -- and I know you aren't doing this, but we're not
24 assuming what they are saying is true. Jack is going
25 to try to prove to us that it is not; they are going

1 to try to prove to us that it is. And it's good to
2 hear from citizens like you that are just making us
3 aware that you know what is going on, you understand
4 it and that you want each of these issues to be heard.
5 So that if we issue an order, I would expect our order
6 on each of these issues to delineate what we did and
7 why, because that's what you're asking.

8 WITNESS COWIN: Well, I would certainly
9 recommend that when you go and issue your orders, that
10 projections not be considered. Like in the school
11 system, you don't look at projections. What you do is
12 you look only at what the actual costs that have been
13 incurred. Let them wait the two years and incur the
14 expense and then come back and justify it and show
15 that. In fact, don't project because I have not seen
16 money come back the other way, either.

17 In education issues, we can project the
18 number of exceptional education students we have and
19 increase the amount of money per student that you get
20 based on the FTE on that particular count that you
21 have an exceptional students. But if the projection
22 does not match it, the money has to be given back.
23 Not at the next term or next four years, it has to be
24 given back the following year immediately and given
25 back to the state. And I think that is a far more

1 accurate and a far more, shall I say, accountable
2 system than depending on the projections of a company
3 whose main goal is to get a huge profit.

4 That brings me to the next point. 12.5%
5 rate of return, is that about what I am understanding,
6 12.25, 12.5, is something similar to the rate of
7 return? That's certainly what it has been over the
8 number of years. I don't know where -- I still am
9 trying to seek out getting a 12% return on my money in
10 my investments when the inflation rate is at 2%.

11 It's very interesting -- it's very
12 interesting when we talk about reasonable rates. As
13 you see in this particular notice, we did not get any
14 notice. The Public Service Commission should be
15 asking, why did Southern States Utilities come in with
16 a rate case after the courts ruled in April?
17 According to our newspaper article what I have just
18 found out tonight, that is finished; it is a done
19 deal. They filed -- in April is when the courts ruled
20 that the uniform rates were not legal. The Public
21 Service Commission properly took action on it. They
22 came in with a rate increase based on uniform rates.
23 Why? I think the only reason why is because they are
24 trying to deceive the public. It's trying to go back
25 to the same time that I had to put a port-a-pot on my

1 lawn because the public had no idea of the rates.

2 What is happening is in those days they
3 would be confusing the public by saying these are the
4 current rates, this is what is proposed, these are the
5 interim rates. It took 15 years for Lake County to
6 figure out what the difference was between interim and
7 proposed rates and a flow through. Now we're stuck
8 with, what is it, stand-alone uniform rates? And the
9 reason why they are doing that is they are playing the
10 game by coming in with a rate increase under the
11 uniform rates, and everybody knows that it's going to
12 be a stand-alone rate. So what does that mean? Okay.
13 Their revenues will remain constant from what I'm
14 understanding. Is that correct?

15 COMMISSIONER GARCIA: Excuse me. I want to
16 make sure what you said there is factually correct.
17 You said that everybody knows that in the end it's
18 going to be stand-alone in this case?

19 WITNESS COWIN: No. What I'm saying --
20 okay, you have not made your final determination, but
21 the courts have said that it's illegal -- if I'm
22 correct -- to have --

23 COMMISSIONER GARCIA: No, ma'am. The
24 courts --

25 WITNESS COWIN: -- uniform rates.

1 COMMISSIONER GARCIA: No, the courts have
2 said that unless we do a proper finding -- and that's
3 how we interpret the court decision, or at least how I
4 interpret it and that's how I voted accordingly on
5 this -- we can't have uniform rates. So on the case
6 that we have, the court has disallowed uniform rates
7 and that's why we voted to go back to the -- what is
8 it called, capped --

9 WITNESS COWIN: Stand-alone, stand-alone
10 capped rates.

11 COMMISSIONER GARCIA: But that doesn't mean
12 that in the final outcome of this case we can't go
13 with uniform rates.

14 WITNESS COWIN: So, then, what's going to
15 happen? The courts are going to rule on that one
16 again, and then we're going to be stuck with going
17 back and we're still not going to know.

18 COMMISSIONER GARCIA: It's called due
19 process, everybody has a right --

20 WITNESS COWIN: Okay. I think it was due
21 process. Did it not go to the Supreme Court on that
22 last case, and wasn't that recently decided? As a
23 matter of fact, the Supreme Court, from my
24 understanding, doesn't necessarily need to take on
25 that issue and once it is appealed, that's it? Is

1 that not correct?

2 COMMISSIONER GARCIA: Correct, and that's
3 why, again, we're going through this whole process.

4 WITNESS COWIN: Okay. If you really want to
5 be straightforward, and if Southern States really
6 wants to be straightforward, and the Public Service
7 Commission really wants to be straightforward, talk
8 about the rates as they're going to be proposed, talk
9 about the rates as to how the public is going to pay
10 for it. If you will not do that, then dismiss this
11 case and wait until the decision is made. In the very
12 least, if that's not made, then stall it, you know,
13 postpone it until that decision is made.

14 COMMISSIONER GARCIA: Ma'am, that has also
15 been discussed, but by state law we have a certain
16 amount of time frame that a case has to be handled.

17 WITNESS COWIN: Okay. And that will come to
18 my other point, which I see Senator Johnson is still
19 here. And my suggestion to our legislators is to go
20 ahead and propose a law where no case, the time frame,
21 whatever that time frame is, is not decided until
22 there is full discovery by the citizens of Florida, by
23 the Public Counsel representing the citizens, by the
24 attorneys representing other citizens within a rate
25 case.

1 To start a clock at a certain time and then
2 play the game of not giving accurate information,
3 whether it be playing around with the rates, the
4 stand-alone rates and uniform rates, or whether it be
5 because you don't know what the acquisition costs of a
6 utility is, that is not playing fair. And I think if
7 nothing else, your goal as Public Service Commission
8 would be to make sure that the public is fully aware
9 of what is happening and to get their input when they
10 are fully aware of what is happening to them.

11 The other concern that I have is the actual
12 -- and I haven't heard this in this particular case,
13 there has not been much discussion of it, I have not
14 had any discussion, I'm not familiar with it -- what
15 the rate case expenses are for having this particular
16 rate case.

17 In the past that has been a major issue. As
18 you extend the cost of the case and extend it out
19 throughout the whole state, we're spending more and
20 more money in defending cases and again that's going
21 back to the consumer in their rate case. And I'm
22 hoping that as watchdogs of the public funds that you
23 would be sure that those rate case expenses meet
24 within normal bounds and don't exceed, as they have in
25 the past, the actual return that they get from the

1 utility, increase in funds, which has happened in the
2 past.

3 In closing, what I would like to say is that
4 the profits, when they come just, you know -- and I
5 happen to be very familiar with the Skyline Hills when
6 that was being bought by the City of Lady Lake and
7 other utilities -- it would seem to me that if we go
8 ahead and actually pay the cost of a loss by the sale
9 of a utility, certainly the citizens should profit by
10 the profit of the sale of the utility and the money
11 should not be channeled to someplace up in Minnesota
12 as a way of circumventing giving the money back to the
13 people in Florida.

14 I understand there might have been some --
15 it was under county or not under the Public Service
16 Commission, but it's my understanding now that the
17 Public Service Commission has assumed all of these
18 utilities are now under their wing; is that not
19 correct? Or you're trying to get everything under
20 your little wing there? Well, if that's the case,
21 then, certainly, both the profit and losses should be
22 attributed to the companies. Because I can tell you
23 that Southern States is not going to worry about a
24 loss, unless the loss can benefit them in some sort of
25 a way.

1 In closing, then, what I'd like to see is
2 that there be -- the time frame changed, as far as the
3 rate case, time frame changed so that there be full
4 discovery before you meet with that time frame and
5 that may be a legislative decision. I'd like to see a
6 reduction or a limit to the rate of return tied to an
7 inflation rate. And, again, this can certainly be
8 done legislatively. And if it's pushed by the Public
9 Service Commission, wow, I mean, I think the public
10 will say, "Wow, the Public Service Commission may be
11 in for the public." If an effort by the Public
12 Service Commission to push in some of these directions
13 legislatively, perhaps the perception of the Public
14 Service Commission might be equal or, at least, come
15 close to something of the Public Counsel as
16 representing the people.

17 And I also think that the projection should
18 be based on the actual cost of the -- not based on --
19 that they should not be a projection, that they should
20 be the actual costs as being a part of the rate case.

21 Thank you for your attention.

22 COMMISSIONER JOHNSON: Thank you.

23 (Applause)

24 (Witness Cowin excused.)

25

- - - - -

1 MR. SHREVE: Mr. Emmons.

2 WINTHROP EMMONS

3 was called as a witness on behalf of the Citizens of
4 the State of Florida and, having been duly sworn,
5 testified as follows:

6 MR. SHREVE: Commissioner, before Mr. Emmons
7 gets started, I think there was some confusion on one
8 thing that Ms. Cowin had asked about. And I wonder if
9 I could have just a minute to ask her if she
10 understood.

11 Mr. Emmons, I apologize, but we didn't ask
12 anyone --

13 COMMISSIONER JOHNSON: Okay.

14 MR. SHREVE: One thing that you had
15 mentioned, and I wasn't sure you got a clear answer on
16 it. They are asking for 12.5% return on equity or
17 12.25 if they get their weather normalization. You're
18 exactly right. You are familiar and in that case
19 where the loss on sale was placed -- was a burden
20 placed on the ratepayers in Lake County when Southern
21 States sold that system and lost money on it, that was
22 placed on it. And you're exactly right, the sale in
23 St. Augustine of St. Augustine Shores was up in the
24 last rate case, and the benefit did not go to the
25 customers. We're having another argument this time

1 about the gain on the sale in Sarasota County. But
2 you're exactly right on those points.

3 I'm sorry, sir.

4 WITNESS EMMONS: Thank you.

5 COMMISSIONER JOHNSON: And could you repeat
6 your name for the record?

7 WITNESS EMMONS: Winthrop Emmons, Lakeside
8 Terrace.

9 We moved to Lakeside Terrace ten years ago.
10 We had Lake County Utility Commission there. We paid
11 \$22 a month. We had no problems, and all of a sudden
12 we had this new outfit come in with all their trucks.
13 And we got a letter from them raising my bill from \$22
14 up to \$73 a month.

15 I called the Commission, and I asked them
16 what criteria they used for determining the prices.
17 They said their expenses. Well, their expenses are
18 probably very high, because they have bought up
19 everything there is in the county or the state. But
20 what about their profits? Their income certainly
21 should be -- compensate for something. Lake County
22 gave us \$22 a month for ten years, and I don't know if
23 they were hurting that bad. I don't know.

24 It kind of reminds me of Wal-Mart. Wal-Mart
25 moves into a town, they build a big store and they put

1 in everything from drugs down to farm machinery, and
2 they sell everything cheaper than anybody else can buy
3 it. And when all of the other companies have gone out
4 of business, they raise their prices. Sound familiar?
5 It happens all over the country. If you don't believe
6 it, just check it out. The same thing with these
7 garbage collectors, they start out with one little
8 truck, then they put on another one, and pretty soon
9 they get up to six trucks and have got a pretty good
10 business going. All of sudden some big outfit comes
11 along and wants to buy them all. If they sell out,
12 they're okay. But if they refuse, the big company
13 puts them out of business.

14 And this kind of reminds me of the Clinton
15 Administration. (Laughter)

16 Now, the Clinton Administration put through
17 a couple of bills, one was NAFTA and the other was
18 GAT, and you know what wonderful bills those were.
19 And I wonder how they went through the house so fast
20 and how that clown signed it so quickly. Do you
21 suppose they were paid off by the big companies like
22 Rockefeller and his bankers from New York? My
23 question is here, are we dealing with the same thing
24 as the Clinton Administration? Are we being paid off
25 to pass this bill? Or are we not? I'm not

1 criticizing anybody or condemning anybody, but I'm
2 just asking the question.

3 I have a lawyer who is investigating it.
4 He's a friend of mine. It doesn't cost me anything
5 because I don't have that much money to spend. But
6 he's checking it out.

7 Now, if this thing passes through, and I
8 have to spend \$73 a month for this water thing, I'm
9 going to have to either cash in my Blue Cross/Blue
10 Shield for my supplement or cancel my water. And I'm
11 trying to decide which it is.

12 Thank you. (Applause.)

13 COMMISSIONER JOHNSON: Thank you.

14 MR. SHREVE: Thank you, sir.

15 Witness Emmons excused.)

16 - - - - -

17 MR. SHREVE: Loren Foote.

18 LOREN B. FOOTE

19 was called as a witness on behalf of the Citizens of
20 the State of Florida and, having been duly sworn,
21 testified as follows:

22 WITNESS FOOTE: My name is Loren Foote, and
23 I live is Lakeside Terrace at 61 Terrace Drive. I'm
24 in the Valencia Terrace Water District. And when I
25 got notice of this rate change, I was in Canada, since

1 I spend from May to October up there, so I couldn't do
2 much research or find out much about it. I did write
3 and ask for some information, which I finally did get
4 something.

5 But the thing that gets me with this rate
6 increase, right now they give us an estimate based on
7 8,500 gallons a month. More or less, my average bill
8 is 10,000 gallons a month and right now that costs me
9 \$36.75. Under their proposed system it's going to
10 cost me \$55.55, and under their final price it's going
11 to cost me \$91.80.

12 And the thing that I don't understand about
13 big business like this is Lake Utilities has run this
14 utility system of the water well and the sewer system
15 ever since I have been in Lakeside Terrace, which was
16 1989, January 1. And I can't believe that Lake
17 Utilities operated at a loss all of this time. Now,
18 there was a rate shift, and as I understand it, they
19 wanted to put through a rate increase. And they went
20 to the county at that time, and the county said,
21 "Well, you cannot have a rate increase unless you
22 start charging"-- we were paying a flat charge, and
23 you have to start charging by use. So they shifted
24 the rates and started charging by the use of gallons.
25 And this to me is fair. I can understand that. But

1 the thing I don't understand is since they took
2 over -- it's been like six months since they bought
3 the facility from Lake Utilities -- there has been
4 more service than there was. They have painted, and
5 they have cleaned up around the wastewater treatment
6 facility over there. And here, again, to be fair
7 about it, I feel a small rate increase for improved
8 looks and possibly, you know, something in terms of
9 environmental rules. I don't know what rules they
10 have to meet with that little plant over there. But
11 they certainly haven't changed it noticeably, other
12 than painting and cleaning and, obviously, it looks
13 like it's being kept up somewhat better. But I still
14 don't understand why my rate has to jump from 36.75 to
15 91.80 to do what little they have done to the facility
16 that serves me.

17 I basically, I guess, don't have too much
18 interest in facilities located 300 miles away or
19 hundred miles away. Obviously, I'm interested in the
20 one that serves me.

21 And I checked on the city of Fruitland Park,
22 and since they don't have a sewer treatment facility,
23 obviously, the only thing I could check is water
24 rates. But over there, 10,000 gallon water usage per
25 month would cost me \$17 in the city of Fruitland Park.

1 And if I lived in Leesburg, my bill would be about \$17
2 or \$18 a month. And since Leesburg does have sewer
3 treatment facilities, I asked about that and the
4 minimum charge is \$16.45 a month. The maximum payment
5 is 18.50, no matter how much water you use, or
6 whatever, you're maximum payment would be \$18.50.
7 Under their new schedule of payment my maximum rate,
8 which I would have to pay every month, based on the
9 water I use, is \$46 a month for waste treatment. And,
10 you know, I just don't understand how, as a company,
11 you can go and buy a facility and suddenly need the
12 type of increase they're asking for. In other words,
13 they certainly have not spent the kind of money on the
14 facility that they're asking me to, in a sense,
15 reimburse them with. And I just don't understand how
16 they can be so far out of line with the City of
17 Leesburg providing the same kind of water treatment
18 and the same well water, essentially, that I'm using,
19 and that Fruitland Park is pumping and selling to
20 everybody in Fruitland Park, you know, an average bill
21 of \$15 to \$17 a month. I just don't see how they can
22 justify this type of thing to the Commission.

23 And I don't understand even in a business
24 sense, if you go around and you've bought something
25 that was that terrible, such as our little system in

1 Valencia Terrace, why you would even buy it. In other
2 words, if it's such a money-losing proposition as
3 that, that you need to jump the rates this much to run
4 this thing, then I just for the life of me can't
5 understand that.

6 And the other thing that, you know, I looked
7 in this thing and it says, you know, they feel a fair
8 return is 10.32%, and he's saying, "Well, really, it's
9 more like 12-something." I'll tell you right now, I
10 can't find anyplace where I can buy a CD or make any
11 kind of business investment that's going to earn me
12 that kind of return to help pay these rates. You
13 know, I own some GE stock, but it doesn't pay that
14 kind of dividend, I'll tell you right now. And I
15 don't know what the stock that this Minnesota outfit
16 has and what their dividends are, but maybe I should
17 buy some. (Laughter)

18 That's basically what I have to say. The
19 main thing, I've listened to everybody else's points
20 and they are all, you know, things that I feel are
21 well and true, but my big thing is I don't understand
22 the system that sits right 200 yards from Leesburg's
23 city line and Fruitland Park's city line and this
24 little plot in the middle has got to have rates that
25 far out of line with everybody else. It doesn't make

1 any sense. Thank you.

2 MR. SHREVE: Sir.

3 COMMISSIONER JOHNSON: Mr. Foote.

4 MR. SHREVE: Sir, you asked the question
5 about the two different figures you heard on the
6 return.

7 WITNESS FOOTE: Right.

8 MR. SHREVE: When they put out the
9 information that's in there asking for a 10.37, or
10 whatever it was.

11 WITNESS FOOTE: 10.32, yes.

12 MR. SHREVE: And I said it was 12.5 return
13 on equity. Equity is their investment. That's the
14 money they have in it, and they want 12.5 on it. When
15 they put out the 10.37 that averages in the loans that
16 they have out that has a lower interest rate on it,
17 and then by putting that in there, it sounds like they
18 are actually getting less of a return, but that's the
19 reason you have two different figures there. The
20 return that they want and they are asking for on their
21 money is 12.5.

22 WITNESS FOOTE: Well, I know when I was at
23 GE we had several departments, and they received the
24 word, like housewares, for instance, were selling \$4
25 billion worth of goods a year, but they were making

1 1.7% on investment. And Jack Well says, "Raise it or
2 you're gone." And they went. Well, 1.7% I can
3 understand, but he would have been very happy with
4 about 5%. And I don't understand when somebody wants
5 10 or 12%.

6 MR. TWOMEY: Sir.

7 MR. SHREVE: Thank you, sir.

8 MR. TWOMEY: Just a minute, Jack.

9 Sir, did I hear you ask the question why SSU
10 buys these little systems if they are such obvious
11 money losers?

12 WITNESS FOOTE: Why would you buy a
13 money-losing situation?

14 MR. TWOMEY: I can't answer that question,
15 but I suggest that you ask the members of the
16 Commission, the Public Service Commission, if it is
17 not their official announced policy or hasn't it been
18 their policy that they wanted to encourage Southern
19 States to buy such systems.

20 WITNESS FOOTE: Well, you know, the other
21 thing that, I guess, that's kind of slipped by the way
22 here which I told you about, is from May to October
23 I'm in Canada, so I didn't hear anything about all of
24 this, except we got into a little trouble because the
25 mail forwarding didn't forward our bill from Southern

1 States. And finally, after about a month and a half,
2 we called from Canada down to Apopka and the lady
3 said, "Well, it's a good thing you called because
4 we're shutting your water off tomorrow." I wasn't too
5 happy about that, so we found out what we owed and we
6 sent them a check, and forestalled the thing being
7 turned off. But in the future, the notice of things
8 like this, I think somehow that you have to make sure
9 the information gets out to people better than it did
10 this time, because, you know, I didn't find out about
11 it until, in a sense, it was, you know, way, way down
12 the road. And you don't have time to search around
13 and find out rates from places or anything, when it
14 all happens in such short term when you are not always
15 right here.

16 MR. SHREVE: Thank you, sir. (Applause)

17 (Witness Foote excused.)

18 - - - - -

19 MR. SHREVE: Carroll Fulmer.

20 CARROLL FULMER

21 was called as a witness on behalf of the Citizens of
22 the State of Florida and, having been duly sworn,
23 testified as follows:

24 WITNESS FULMER: Good evening. I'm Carroll
25 Fulmer, Post Office Box 5000, 8340 American Way,

1 Groveland, Florida 34736. Carroll Fulmer Group, we're
2 a trucking company located in the new industrial park.
3 And everything I've heard here tonight sounds so true.
4 I don't have a lot to add to it. I do want to make
5 some comments about capital investment.

6 I can't understand why the Internal Revenue
7 Service makes us spread our investments over 39.5
8 years and most capital expenditures, unless it's a
9 moving vehicle or something. A pipe that's laid in
10 the ground, it would seem to last a number of years.
11 Why wouldn't they spread their costs over a much
12 longer period of time, rather than the five-year
13 period? That's a very costly factor for businesses.
14 I think I'm the only business that's spoke tonight,
15 but I can assure you that we have to spread it longer
16 than that.

17 And several other things concerning the
18 environment. In October of '94, it was called the
19 Sulfur Act, the federal government gave us 7.3 cents a
20 gallon on our fuel cost. And I'll tell you, we used
21 to be regulated by this body a number years ago until
22 dereg came in 1980. And back then we were called a
23 controlled monopoly. And these people -- obviously,
24 we don't have many water companies out there, so we
25 can't look at them in the same respect that you look

1 at a trucking company. But, certainly, there has to
2 be some rational as to how do we create competition to
3 keep these people in line and, certainly, as we stand
4 here, we're in your hands. And I would hope that what
5 the people have said here today, and I'm sure you
6 will, will give real good consideration to that. But
7 there are just a lot of things that need to be
8 considered, and I'm sure you'll take that into
9 consideration.

10 I want to only bring a couple of other
11 points. I don't want to rehash what everybody else
12 has said and hold you long in this meeting.

13 I think the attorneys have spoke well for
14 their clients. I would endorse what they've said in
15 most cases. I don't have anything at all that
16 wouldn't agree with what they've said.

17 As to a service nature, we're new and have
18 only been under Southern States approximately through
19 July 1st. We do have -- I don't know whether it's a
20 service problem or not, but it is a concern problem.
21 We have been told by the Fire Department of Lake
22 County that the water pressure is insufficient at our
23 fire plugs, that if we were to have a fire, it is
24 doubtful where you could protect my investment of \$2.5
25 million in Lake County and property buildings, so I

1 would be real concerned. They tell me the pressure is
2 not there now. Obviously, in business -- I don't know
3 how they have to do it in the residential -- but we
4 have to install all of the lines within our premises
5 and then pay the certain fees that is required. And
6 then we have to dedicate it or deed it to the facility
7 and they maintain it. And, I guess, it's tested
8 before they accept it. But I have been told since
9 then by the Lake County Fire Department that the
10 pressure is a problem, and they do have a concern in
11 our facility, and this is in the New Lake County
12 Industrial Park. And I want that to be noted.

13 COMMISSIONER JOHNSON: Your statement is
14 that the pressure for the entire industrial park?

15 WITNESS FULMER: No, at the fire plugs, is
16 where I have been told. At the fire plugs is where
17 the test -- there probably needs to be some
18 consideration given or checked or whatever they do.
19 I'm not familiar with the terminology to tell them
20 what to do.

21 And to the return on equity or return on
22 investment, again, we're not regulated any longer by
23 the Public Service Commission, but I can assure you
24 that 12.5% or 10.32, there would never be a shortage
25 or trucks or anything that hauls freight at any rate,

1 at 10% on investment. I made a \$20 million investment
2 in the last three years, and if I get 10% on my return
3 on equity, I'll be the happiest guy in Lake County;
4 you can charge me what you want. (Applause)

5 I don't want to come across as criticizing
6 anyone here. That's not my intent. I just want it to
7 be recognized that most of the things that have been
8 said, we all need to listen to and take note of.

9 Thank you very much.

10 COMMISSIONER JOHNSON: Thank you very much.

11 COMMISSIONER KIESLING: Mr. Fulmer.

12 WITNESS FULMER: Yes.

13 COMMISSIONER KIESLING: Would you get with
14 our engineer back in the back, Lee Monroe, and maybe
15 he can figure out what the problem is, too, with the
16 flows at the --

17 WITNESS FULMER: Okay. I'll be delighted
18 to, but one of the inspectors for the Lake County Fire
19 Department is the one that told me. At my office, I
20 probably could come up with his name, that told me
21 about the concern there. And I'm not trying to paint
22 a picture to keep these people from doing whatever you
23 do, but we all need to be recognized if there is a
24 problem that needs to be looked at.

25 COMMISSIONER KIESLING: Yes, and our

1 engineer will get with you.

2 WITNESS FULMER: Sure, I'd be delighted to.

3 COMMISSIONER KIESLING: And he's in the
4 back. He's the one with the coat and tie back there
5 with his hand up, if you would get with him to follow
6 up on that.

7 WITNESS FULMER: Sure, I'll be glad to.
8 Thank you very much.

9 COMMISSIONER JOHNSON: Thank you.

10 MR. SHREVE: Thank you, sir. (Applause)
11 (Witness Fulmer excused.)

12 - - - - -

13 MR. SHREVE: Mr. Henry Flora.

14 HENRY FLORA

15 was called as a witness on behalf of the Citizens of
16 the State of Florida and, having been duly sworn,
17 testified as follows:

18 WITNESS FLORA: Madam Chairman and members
19 of the Commission. Madam Chairman, I would like to
20 hand to all members --

21 COMMISSIONER KIESLING: Would you tell us
22 your name, please?

23 WITNESS FLORA: Henry Flora, 03625 Trout
24 Avenue, Fruitland Park, which is Valencia Terrace.
25 And I have an exhibit I'd like each of you to have, if

1 someone would distribute them.

2 I'm looking at this in a very personal way.
3 That is, what will this cost me? SSU gave me, dated
4 July 24, 1995, a typical SSU residential bill. The
5 present and proposed interim and a proposed final.
6 Each one of those figures included both water and
7 wastewater. I have worked with the total, rather than
8 with just the water or the wastewater. I wanted to
9 look at what is the impact to me in total. I'm going
10 to start with my conclusions first.

11 The increases have a large undue and
12 unacceptable impact on my personal finances, that the
13 above conclusion would extend to the Valencia Terrace
14 community.

15 Prior to looking at the charts that I'd just
16 like to take your time long enough to make sure you
17 understand them, I do want to tell you what my
18 assumptions were. The charts go into costs over a
19 five-year period, which I have kept on my computer in
20 a database, both the water quantity cost and the
21 wastewater cost. And I've used that five-year period
22 in doing my calculations.

23 This five-year period showed a quite
24 consistent use of water over these years. That made
25 me make the assumption that I could base these

1 increases on my use over those years. And, in effect,
2 it could look like an increase or looking at those
3 interim and final rates over an extended five-year
4 period.

5 I am very likely a typical consumer in
6 Valencia Terrace. In fact, I could be on the low side
7 of consumption as I am away for three or four months
8 each summer. My sprinkler system is on, but I have a
9 neighbor who kindly turns it off when there's a lot of
10 rain. And, of course, there's a lot of other house
11 consumption that does not happen.

12 The SSU document here that I have of July
13 the 24th -- and this is the one that I had available
14 to me to make my assumptions and to show the figures
15 that I have presented. I assume that they were valid
16 figures that they presented, and I based my figure
17 assumptions on that. One thing that becomes very
18 apparent, that the interim totals was one and
19 twenty-nine hundredths times what the current rates
20 are, that the proposed final figure totals was two and
21 one-seventeenth times present for final.

22 Now I'd like you to take a look at the
23 charts. If you take the solid black bar, that is the
24 actual cost total to me per year for the last five
25 years. I extended 1995 on the basis of average to

1 make a complete year picture. The light bar chart
2 would be, is based in my consumption, based on the
3 interim rates. And the shaded bar would be the final.
4 Now let's take a look at what those figures look like
5 on an average.

6 My average actual use over that period is
7 \$52 a month. The interim would be \$67 a month. And
8 the final is \$113 a month. The total cost over five
9 years -- take a look at these figures. My actual has
10 been \$3,116. The interim cost, based on that price,
11 would be \$4,019. And based on the final price the
12 cost to me would be \$6,761. And that gets me right
13 back to the conclusions that I made originally, that
14 these rates are unacceptable from a very personal
15 viewpoint.

16 I have a couple of comments. SSU came in --
17 I don't know exactly what month they took over Lake
18 Utilities. It was in the spring. And they have much
19 improved the water system. It had been going
20 downhill. It was working okay, but I had my doubts
21 when I looked at some of the equipment. They did do
22 some badly needed maintenance.

23 I would like the Commission to look closely
24 at their profit and loss statements and break it out
25 from their holding company. Look at their cash flow

1 and someone else mentioned depreciation schedules.
2 Usually capital equipment of this nature is
3 depreciated over a long term. My point is just to
4 bring to you the personal situation of these rate
5 increases. They would impact me quite badly. I
6 retired in 1984, and for some unknown reason, nobody
7 gives me increases each year.

8 Thank you very much.

9 COMMISSIONER JOHNSON: Thank you.

10 MR. SHREVE: Thank you, sir.

11 (Witness Flora excused.)

12 - - - - -

13 MR. SHREVE: Dale Bratt.

14 DALE BRATT

15 was called as a witness on behalf of the Citizens of
16 the State of Florida and, having been duly sworn,
17 testified as follows:

18 WITNESS BRATT: I really don't have much
19 more to add to that. He's in my neighborhood, and he
20 said pretty well what I wanted to say.

21 MR. SHREVE: All right. Thank you, sir,
22 Mr. Bratt.

23 (Witness Bratt excused.)

24 - - - - -

25 MR. SHREVE: Mr. Tony Puleo.

1 COMMISSIONER GARCIA: As Mr. Puleo comes up
2 here, just so you know, and I'm sure the Chairman
3 mentioned this, but you can when you come up here,
4 adopt the statements of people before you. In other
5 words, there's no need to repeat it. You can adopt
6 the statements that people have made before you and
7 still make your presence known on there. I'm sure
8 that they got you, anyway.

9

- - - - -

10

TONY PULEO

11 was called as a witness on behalf of the Citizens of
12 the State of Florida and, having been duly sworn,
13 testified as follows:

14 WITNESS PULEO: All right. My name is Tony
15 Puleo. I live in Valencia Terrace at 34449 Black Bass
16 Circle. And I have in front of me the rates that --
17 the current rates and the proposed rates. I'll
18 quickly go through them and give you my assessment of
19 these things. The current rate for a five-eighths
20 times three-quarter meter is 6.39, and their proposed
21 final rate is 9.17. That's a 44% increase. Also on
22 the gallons, present it's .67, and the final is 2.16.
23 That's a 225% increase. On the wastewater the current
24 cost is 8.49, and the final is 17.59. That's 107%
25 increase.

1 It seems to me that SSU is like a big
2 octopus, sticking its arms out. Its tentacles are
3 gobbling up every company that they can get ahold of.
4 Right now they own 154 companies in Florida. They
5 want to make money. And the cost of living has only
6 gone up 2.6, and they want an increase of over 100%.

7 They had sent out a typical residential
8 bill, and they were using an example of 8,500 gallons,
9 and said that that was what the normal usage was for
10 each family. Well, I use a lot more water than that.
11 I have a pretty good size lot, and I have a sprinkler
12 system. And I run that system three times a week in
13 the summertime. And, you know, that we have to water
14 our lawns and our flowers and our gardens if we want we
15 want them to grow. And so I use anywhere from 21,000
16 to 23,000 gallons. And they gave a sample that 85
17 (sic) gallons is what the people use, and the present
18 water bill was \$33, and that the proposed final bill
19 for that same 8,500 gallons would cost \$73.56, and
20 that's 117.4%. I sure would like to get that on my
21 money if I had it invested anyplace. Cost of living
22 is only 2.6%. The government says that is too much,
23 that they're figuring it wrong. They want to knock it
24 down another percent. That would be 1.6% I would get
25 on my money, on my Social Security increase.

1 I agree that they need to have some kind of
2 a raise for their investment, but my God, not that
3 much. A neighbor of mine gave me a little piece that
4 was taken out of the Orlando paper. It says, "A 10%
5 increase a year to 2000 would fund a better treatment
6 technique," and they have given it as -- it says, "To
7 pay for improvements and related enhancements, OUC
8 plans to increase water charges to more than 106,000
9 customers by 10% annually through the year 2000. That
10 means the average water bill in Orlando and parts of
11 Orange County will raise from 8.93, present, to 14.42
12 at the turn of the century." That's lower than they
13 want right now from us. And I don't see that they are
14 justified to get that much money. I know they need
15 something to run a company, but my God, if they can't
16 make it, what happened to lean and mean? They should
17 take a lesson from IBM and them companies; trim down,
18 cut out the waste, cut out the fat, and be profitable.

19 Thank you very much. (Applause)

20 COMMISSIONER JOHNSON: Thank you.

21 MR. SHREVE: Thank you, sir.

22 (Witness Puleo excused.)

23 - - - - -

24 COMMISSIONER JOHNSON: Ladies and gentlemen
25 we're going to take a break at this point. We only

1 have one court reporter here, and she's been going at
2 this for about two hours now, and we're going to take
3 a ten-minute break.

4 MR. SHREVE: Commissioner, would it be
5 possible to take one more witness before we break?
6 Representative Bainter has come in and he has another
7 appointment, I think. Would that be okay?

8 COMMISSIONER JOHNSON: Okay. We're going to
9 try to take one more witness, who -- and I'm sorry, I
10 didn't catch the name.

11 MR. SHREVE: Representative Bainter.

12 COMMISSIONER JOHNSON: Okay.

13

- - - - -

14

REPRESENTATIVE STAN BANTER

15 was called as a witness on behalf of the Citizens of
16 the State of Florida and, having been duly sworn,
17 testified as follows:

18 REPRESENTATIVE BANTER: I do appreciate
19 this. I'm sorry being late. I've been in Volusia
20 County all day and still got one more to go.

21 Welcome to Lake County. I appreciate
22 talking to you here rather than in Tallahassee. And
23 some of my questions may have already been answered.
24 If they have, just stop me.

25 I have four questions I'd like to ask the

1 Commission. What can a customer expect his maximum
2 rate to be? Did anybody -- were any of these
3 customers notified what the maximum rate would be?
4 And if so, where on their billing could they find
5 that? I'm not talking about estimate; I'm talking
6 about the maximum.

7 COMMISSIONER KIESLING: Well, it's not as
8 easy as one might think to calculate what the maximum
9 would be. We would have to make a number of
10 assumptions, that at this point I don't think there's
11 anybody sitting up here who can tell you, with any
12 certainty, what the maximum --

13 REPRESENTATIVE BAINTER: Well, I bring this
14 up for one reason. You know, when we enter our tax
15 bill every year, we are told what the maximum can be.
16 And I think these people are entitled to know what the
17 maximum could be. We're talking about estimates right
18 now. And if they are not notified of what the maximum
19 could be, then I think we need to change our practice,
20 so that they will know. Because we have been shocked
21 before when we thought we knew what it could be.

22 The next question, then, as you know, the
23 legislature, many years ago, several years ago, we
24 asked the PSC to set up conservation measures and make
25 sure the public utilities practice conservation,

1 notified their customers of the conservation of their
2 electricity because we had some real problems with it.
3 Will rates go up if these customers practice
4 conservation? Now, you have been talking about return
5 on investment, and I've heard several people talk
6 about it. Now, if everybody practices conservation
7 that we are told that we're supposed to do, will the
8 rates still go up?

9 COMMISSIONER KIESLING: Staff can do a
10 better answer than I can. I mean, it's speculative.

11 REPRESENTATIVE BAINTER: Well, isn't it
12 counterproductive?

13 COMMISSIONER KIESLING: Is what
14 counterproductive?

15 MR. SHREVE: Representative Bainter, they
16 have actually, in their filing, in their request, have
17 put in a proposal that if customers conserve -- now,
18 it's not worded just that way -- but if they conserve
19 so that less water is sold, the rates would go up,
20 yes, sir.

21 COMMISSIONER KIESLING: But that's in their
22 proposal. That is not anything that we've approved.
23 and that's why I'm saying we don't know until we
24 review their entire proposal.

25 REPRESENTATIVE BAINTER: If their rates are

1 going to be double and people start conserving, those
2 rates are still going to go up.

3 COMMISSIONER JOHNSON: I'm going to have one
4 of our engineers, who has been -- I'm sorry, one of
5 our bureau chiefs, who has been working this case, he
6 may be able to provide a more sufficient answer for
7 you. But I think Commissioner Kiesling is right,
8 that's one of the issues in this case. We can't
9 answer it at this point in time, but perhaps Marshall
10 can explain what they've requested and what has been
11 filed.

12 MR. WILLIS: Well, getting back to your
13 first question of the rates, will your rates go up
14 because of conservation. If conservation continues,
15 and there is not just a point in time where it just
16 drops to one level and then starts to go back up, if
17 it continues over a long period of time, the natural
18 tendency is the rates will go up, because there will
19 be a drop in revenues. And you see that everywhere.
20 It's a downside to conservation. It's how much does
21 the State of Florida and the consumers need to pay to
22 conserve the natural resource? That's where
23 conservation comes in.

24 As far as what the company has proposed,
25 they have proposed in this application a method of

1 dealing with natural drought periods or wet periods in
2 the state of Florida, which they are calling something
3 like a conservation clause which will basically hold
4 them harmless. That's an issue in this case. Their
5 methodology would allow the rates to rise during
6 periods of wet seasons when consumers use less water.
7 but on the other hand, during periods when you're
8 using a dramatic amount of water, when you have a
9 drought season, your rates would go down. That's
10 basically what they've proposed.

11 REPRESENTATIVE BAINTER: Well, what you're
12 telling me is the more water we use, the less our
13 rates are going to go up; the more we conserve, the
14 more our rates will go up.

15 MR. WILLIS: That's basically correct.

16 REPRESENTATIVE BAINTER: Okay. Thank you.
17 I've got one more question.

18 COMMISSIONER GARCIA: Representative, that's
19 not what we're tell you; that's what the Company has
20 submitted for us to look at.

21 REPRESENTATIVE BAINTER: Well, I bring this
22 to your attention, okay?

23 Last question. Well, next to last. How
24 much have the rates increased along with the increased
25 requested since Minnesota Power purchased Southern

1 States Utilities?

2 COMMISSIONER KIESLING: We sure don't have
3 that calculation.

4 COMMISSIONER JOHNSON: We don't have that
5 calculation.

6 REPRESENTATIVE BAINTER: You can't tell us
7 how much their rates have increased since the
8 purchase? I mean it's very significant.

9 MR. WILLIS: Representative, we have the
10 information. I don't have it with me. I can supply
11 it to you. I can go back and calculate it. We have
12 all the information from many years back when we were
13 first regulating Southern States Utilities, but I
14 don't have that with me tonight to give you here.

15 REPRESENTATIVE BAINTER: Well, I'd like to
16 close by simply saying I looked over the chart in the
17 whole state of Florida that I was furnished -- I think
18 I got it last week -- of Southern States and the
19 increases in the different areas in the state. And it
20 seems to me like this particular area of Florida,
21 Central Florida, and I have Deltona, too, that the
22 increase requests are higher here than anywhere else
23 in the state. I just don't think it's fair -- you
24 know, we can plead our cases, but we're basically a
25 retirement area around here and yet this is the

1 largest increase area that they've requested. And I'd
2 urge you to take a close look at this.

3 Thank you.

4 MR. SHREVE: Representative Bainter.

5 COMMISSIONER JOHNSON: There may be some
6 questions. Did you have some questions?

7 MR. SHREVE: On your first question
8 concerning notice to the people as to what their -- I
9 think maximum exposure. Generally speaking, when you
10 have a rate case which is different for this one
11 because it happens 150 systems in it, the Company
12 would come in and say these are the present rates; we
13 need this much revenue increase and this is what the
14 rates would be that came out. In this case since
15 there's some confusion with uniform rates and
16 stand-alone rates and nobody knows exactly how it's
17 going to come out -- it's going to benefit some people
18 and hurt some people -- the company filed their case
19 on uniform rates, after the court had ruled that those
20 rates were illegal. We have asked the Company, and
21 it's still before the Commission, to have them furnish
22 the customers the extremes, the exposure that they
23 might have on either side. I'll guarantee you the
24 Company has the calculations. There is absolutely no
25 way they don't have the calculations, and it should

1 have been furnished to the people. And if the people
2 knew what their exposure was, the maximum exposure,
3 you probably wouldn't be able to get a seat in this
4 auditorium tonight because no one out here has been
5 told what the true exposure is. It's a good question,
6 sir.

7 REPRESENTATIVE BAINTER: Thank you very
8 much.

9 MR. ARMSTRONG: Representative Bainter,
10 before you leave, however -- I hate to bring you back,
11 but I just want to make sure. I think a misstatement
12 was just made.

13 The Company does not have that exposure,
14 does not have those numbers. We have been working on
15 those numbers. You weren't here earlier, but it is
16 not an easy thing to do. When we filed our case
17 uniform rates were the rate structure. The Commission
18 has made determinations which would authorize uniform
19 rates in this case. We do not have the numbers. We
20 hope to have them very, very shortly and we'll provide
21 that as soon as we do have that to customers.

22 REPRESENTATIVE BAINTER: Okay. Thank you,
23 sir. (Applause)

24 (Representative Bainter excused.)

25

- - - - -

1 COMMISSIONER JOHNSON: We're going to take a
2 ten-minute break at this time.

3 (Brief recess.)

4 - - - - -

5 COMMISSIONER JOHNSON: Ladies and gentlemen,
6 we've taken a 15-minute break as opposed to that ten.
7 I know some people are anxious to testify and are
8 really more anxious to get home. So if we can settle
9 down again, we'll go ahead and set started so that we
10 can hear from the remaining customers.

11 COMMISSIONER JOHNSON: Public Counsel.

12 MR. SHREVE: Mr. Barrows.

13 - - - - -

14 ROBERT P. BARROWS

15 was called as a witness on behalf of the Citizens of
16 the State of Florida and, having been duly sworn,
17 testified as follows:

18 WITNESS BARROWS: Madam Chairman, members of
19 the Commission, members of the panel, my name is
20 Robert P. Barrows. I live at 15 Brigadoon Circle in
21 Scottish Highlands, which is part of the Silver Lake
22 system.

23 I kind of feel tonight I might be the only
24 friend of that fellow sitting in the corner, because I
25 tell everybody we've got the best tasting water in

1 Scottish Highlands.

2 However, after reviewing and lifting what
3 felt like 250 pounds of disorganized material left at
4 the Tavares Library by SSU relative to this hearing
5 tonight, I'm now aware that SSU may well need more
6 money by the end of 1996. The question in my mind is
7 to where it should come from. And after looking at
8 all of that disorganized printed material, I know they
9 need some of the money just to pay their printing
10 bill.

11 Much of the needed money will be spent for
12 systems and system extensions needed to serve as new
13 customers and expand their customer base. Since this
14 impact on Florida's resources will be caused by those
15 moving into Florida, it seems reasonable to me,
16 notwithstanding the fuzzy thinking of the Florida
17 Supreme Court, that those who will use the new
18 facilities should pay for them, not the customers who
19 have already paid for the excellent existing system.

20 Much of the additional need for funds will
21 be required by the "one size fits all" mandates of the
22 several environmental protection agencies.

23 Congressman McCollum and Sterns have made us aware
24 through their article in the recent Sentinel of some
25 of the nonpressing need for some of these national

1 regulations, such as the testing of 83 contaminants,
2 one of which is used only for the growing of
3 pineapples. Regarding many of the other contaminants,
4 Dr. Bruce Ames of the University of California and
5 Berkley, and others, have published burning criticisms
6 of the current methods of laboratory animal testing
7 for carcinogens, pointing out the severe unreliability
8 of such test methods. However, EPA continues to
9 require us to spend millions of our dollars in monthly
10 billing so that water companies can undertake these
11 probably useless tests. I can understand that water
12 companies may not wish to go to war with the EPA to
13 demand reasonable regulation. It occurs to me that
14 state regulatory commissions might well group together
15 to do so, therefore, better protecting the citizen.

16 In any event, it is my opinion that the
17 pending uniform rate proposal is most unfair to
18 current SSU customers and should be disapproved.

19 Thank you. (Applause)

20 COMMISSIONER JOHNSON: Thank you.

21 MR. SHREVE: Thank you, sir.

22 Mr. Jordon.

23 COMMISSIONER GARCIA: Sir, can I ask you
24 something, the gentlemen that just spoke. Just a
25 second. I'm over here.

1 I wanted you to tell me what you found at
2 the library. What was the problem you said?

3 WITNESS BARROWS: When I went to the library
4 last month and requested the information, I was
5 directing to four large packing boxes. Each packing
6 box contained between 10 and 30 volumes, ranging
7 anywhere from a half inch to three inches thick in no
8 particular order. They were labeled with volumes and
9 section numbers, but I was unable, in going through
10 all four boxes, ever to find Volume 1, No. 1.
11 However, there was lots and lots of statistical
12 material that was there far beyond my poor
13 comprehension in an hour and half to thoroughly
14 comprehend.

15 COMMISSIONER GARCIA: You said they were
16 missing certain books?

17 WITNESS BARROWS: I don't know that they
18 were missing certain books. They were so disorganized
19 that I was unable to put them in any order to find out
20 which were missing.

21 COMMISSIONER GARCIA: Okay. Thank you. I
22 appreciate that.

23 WITNESS BARROWS: Thank you.

24 - - - - -

25

ROBERT JORDAN

1
2 was called as a witness on behalf of the Citizens of
3 the State of Florida and, having been duly sworn,
4 testified as follows:

5 WITNESS JORDAN: Madam Chairperson, members
6 of the Commission, the Staff and the panel, my name is
7 Robert Jordon, and I live at 1314 Noble Court in
8 Scottish Highlands, Leesburg. I reside and am a
9 member of the Silver Lake Water Commission.

10 I have a prepared statement. It will only
11 take me a few minutes to read it. I want to make sure
12 I have the right location and the right words for
13 these people.

14 My first big question is why, why must we
15 have such a horrendous rate increase? I simply can't
16 understand it. It's beyond my reasoning. It seems to
17 me that something is amiss. We all know and concede
18 the fact that we have tremendous growth in Florida,
19 that we must keep up with the times, and that
20 inflation takes its toll. As ordinary citizens, and
21 I'm sure most of us are, we must live up to our fiscal
22 responsibilities and we all try to. I keep very
23 careful records of my expenditures month after month,
24 year after year. And I find that in July, 1989 -- and
25 I have a fairly large lot with a sprinkler system on

1 it -- I find that in July of 1989 I paid \$18.96 for
2 30,000 gallons of water. Six years later, July of
3 this year, 1995, I used 30,540 gallons of water, and
4 this year my water bill for the same amount of water
5 was \$42. This is approximately 130% increase in my
6 water bill in six years. Approximately 20% per year.
7 Very subtly the rates have gone up and nobody has
8 really said much about them. We've all eaten this
9 apple and tried to digest it and not much has been
10 said. It's well above what we can expect in our COLAs
11 for retired persons or for the working people who
12 receive pay raises and you are asking for another
13 doubling of our water bills. I say please give us all
14 a break. We need it.

15 We are just now learning that all of our
16 insurances, auto and home have been doubled. I know
17 mine have; I don't know about the rest of you people.
18 Even my termite inspection, I had a termite inspection
19 the other day, and lo and behold, 66%. It totally
20 surprised me. And now Congress is going through their
21 fiasco and asking us all to go down the drain over our
22 medical bills. We are not deep pockets. I don't know
23 where all of this money comes from. I'm retired. And
24 I'm a serviceman retired, and I'll tell you I don't
25 get very much. I don't get as much as IBM and GMC,

1 Tenaco and places like that. I've lost a lot of my
2 benefits just because they don't believe in taking
3 care of service people. When I joined the service in
4 World War II, they told me "cradle to grave." Now I
5 struggle trying to pay \$1,500 a year in medical
6 insurance and things of that nature. I no longer have
7 these options and opportunities to be taken care of by
8 Uncle Sam. I'm not really complaining, but that's the
9 way it is.

10 Somewhere in the long- and short-term
11 planning there has been a lack of insight and
12 foresight by these water people. Are you telling us
13 that you have been operating all of these years
14 without capital planning or reserves or alternate ways
15 to finance the equipment you need, the improvements
16 you have to make? And without long range -- or
17 without long-range forecasts of what the future might
18 suggest. No planning has been made. You just dropped
19 this on us like a time bomb. I will admit that you
20 probably need an adjustment into rates, but what you
21 ask for is unconscionable and heartless. First, you
22 must cut the fat with fewer benefits, fewer holidays,
23 pensions, pay raises, casual time off, get more and
24 better use of your equipment, reduce inventories and
25 better scheduling and the use of personnel, and on,

1 and on, and on it goes. There are thousands of ways
2 of reducing your overhead. We citizens are at the
3 saturation point. I ask you where does it end?

4 Thank you very much.

5 MR. SHREVE: Thank you, sir.

6 (Applause)

7 (Witness Jordan excused.)

8 - - - - -

9 MR. SHREVE: Clair Gill.

10 **CLAIR GILL**

11 was called as a witness on behalf of the Citizens of
12 the State of Florida and, having been duly sworn,
13 testified as follows:

14 WITNESS GILL: Clair Gill, 17 Easter Ross
15 Court. I'm in the Silver Lake water division.

16 First thing, I'd like to thank you for
17 having this meeting. As it's very informational here,
18 to the reason that the things in the newspaper doesn't
19 tell us a thing of what is happening, and then the
20 fliers we get from the Company, which is even less.
21 I'm glad I came tonight. I have learned what's going
22 on here through the questions and the complaints. I
23 only have a couple of questions.

24 And one of them was -- and I heard you
25 mention earlier that this uniform rate was in court,

1 and I understood that it was illegal. Now, here we're
2 going into it again, and that's what I came to find
3 out. I think it's 22 counties that SSU wants to bond
4 together here, which this was proven illegal in
5 northwestern Ohio a number of years ago. We had the
6 same problem. This is what we had up there, was you
7 took the money from one person and took it into
8 another complete area, and made it a little easier for
9 those people over there.

10 Now, in this subdivision that I live in,
11 everyone there paid for everything that went in. The
12 plumbing, all the water, the waste, the whole complete
13 thing was paid when they bought their home. Now when
14 you take your money from these people, and take it
15 into a different county, and set up another complete
16 system in there, these people aren't really paying for
17 the complete thing.

18 Now, in this here little breakdown that they
19 have, that you have broke down different areas, you've
20 got in Charlotte County a development there, or a
21 water system, I should say, in Deep Creek that they
22 get a 50% break in their gallonage charge. And then
23 you have the one here where we're at, in Lake County,
24 which is a 300% raise. Now, how can this be legal? I
25 mean, I'm confused with what I'm hearing tonight and

1 what I see in print here. I don't understand that.

2 What I see here and what I've heard is SSU
3 runs out and buys a lot of companies. I don't know
4 anything about their procedure, but what I've heard is
5 like buying up the water system here in Lake County,
6 which must have been pretty profitable on the books,
7 the way they looked at it. Then they have a water
8 system here in Marco Island which is very, very
9 expensive and another one in Charlotte County, which
10 all of them along the coast has to be very expensive
11 because of the saltwater coming into their systems.
12 So if they want to get a 12% return on their money,
13 and that's what they are getting from these high cost
14 areas, they must be getting a return of about 80% from
15 Lake County here to take and put it into their pool,
16 so that it averages out a 12% return. Now, why should
17 we be getting ripped off at such a high profit of the
18 system that we have in Lake County? Again, I can't
19 see where that is legal at all, what I'm hearing
20 tonight.

21 MR. TWOMEY: It's not legal, sir.

22 COMMISSIONER JOHNSON: Perhaps -- Mr. Gill,
23 I understand that you keep using the term that uniform
24 rates, that they are illegal and that the court found
25 them to be illegal. And I know your concern is, then,

1 if the court ruled that they are illegal, then why are
2 we still looking at uniform rates?

3 WITNESS GILL: Yes.

4 COMMISSIONER JOHNSON: The court did not
5 rule that uniform rates were illegal. But what they
6 did find fault with was the way -- the manner in which
7 we reached the conclusion or reached our decision to
8 apply uniform rates. Perhaps our legal counsel, and
9 then if Mr. Twomey wants to follow up, can explain to
10 you exactly what the court concluded and why we're in
11 the posture that we're in today.

12 MR. EDMONDS: Well, the court, the First
13 DCA, found that uniform rates could not be implemented
14 without the Commission first making a finding that
15 SSU's systems are functionally related. And the court
16 said in the last case that the Commission did not make
17 that finding. Now, in this case the Commission has
18 made that finding. So it is possible that uniform
19 rates could be placed into effect. And if that
20 decision were upheld, then uniform rates would be
21 legal.

22 COMMISSIONER JOHNSON: Mr. Twomey, did you
23 want to add?

24 MR. TWOMEY: Yes, ma'am. In the first case
25 they just did it. "They," the PSC. SSU didn't ask

1 for uniform rates. The PSC cooked it up and did it
2 after the hearings and ordered SSU to do it. SSU
3 embraced it, squeezed it to death. I challenged it on
4 behalf of my clients. The court didn't exactly -- not
5 exactly, the court didn't reject it for the reasons
6 that I said, including that it was unconstitutional
7 and a number of other things, illegal -- not in
8 accordance with the statutes and so forth. What the
9 court said was that it wasn't legal because the PSC,
10 as their Staff counsel said, hadn't made a finding,
11 which you have to have facts to make a finding, hadn't
12 a made a finding that all of these separate systems
13 all around the state were, quote/unquote,
14 "functionally related in a operational sense." Okay?
15 The court went a little bit further and it said, based
16 on the evidence in the record of that case, the PSC
17 couldn't have made any such finding.

18 Now, the PSC or, I think, at least at the
19 moment, a majority of its members think they can fix
20 that. They think they can just go back and look at it
21 again and say, "We find it's functionally related in a
22 operational sense." They want to ape the words the
23 court said, and they think that will make everything
24 okay with uniform rates. SSU is willing to gamble a
25 lot of their shareholder money on thinking the same

1 thing is true.

2 Now, I'm here to tell you that what the
3 court really said was, "they," the Public Service
4 Commission, can't say the magic words. The PSC asked
5 the court to send back a second case that it had so
6 they could say those words, and the court refused to
7 do that just yesterday.

8 I'm suggesting to you, and my argument is
9 going to be, that what the court meant to say was that
10 functionally related in a operational sense means they
11 have to be hooked together by pipes. That in order
12 for you people to be charged for someone else's plant
13 system, wherever it is located, that plant has to be
14 able to supply you with water or treat your sewage, or
15 whatever, okay? And it can't do that without pipes,
16 ladies and gentlemen. And what I'm saying to you is
17 if they think -- "they," the Commission, think that
18 they can look at this evidence again and find it's
19 functionally related, they are sadly mistaken. If SSU
20 thinks that they can get the Commission to do it and
21 have it survive judicial review, they are wrong, in my
22 estimation.

23 So what I'm suggesting to you is the court
24 said that when they are not hooked together, it's
25 illegal. And that's the position we're taking now.

1 It's the position we're going to continue to take.
2 It's the commonsense situation which you realize right
3 now.

4 MR. ARMSTRONG: Madam Commissioner, one
5 point, 30 seconds.

6 COMMISSIONER JOHNSON: Certainly.

7 MR. ARMSTRONG: One thing that has not been
8 pointed out is that the Court of Appeals has already
9 determined that it is not necessary to have physical
10 connection between facilities to make the
11 determination that they are functionally related. The
12 court has already squarely addressed the issue and
13 suggested that that is not necessary. That just
14 completes the whole picture.

15 COMMISSIONER JOHNSON: As you can see,
16 Mr. Gill, it's a very complicated legal issue. But
17 you seem to follow it. (Simultaneous conversation.)

18 WITNESS GILL: I think they explained it
19 very good. If I can get it, they had to explain it
20 very good. (Laughter)

21 But in the same line, if you people are
22 thinking that all of these counties are in the same
23 boat, I mean Lake County is holding back on any real
24 fast growth in this county. And you look at some of
25 these other counties that's in this group of 22,

1 and -- I mean, there's just no stopping there. So,
2 again, I think you're putting some counties in the
3 same boat with something that is a very foreign
4 obstacle there.

5 COMMISSIONER KIESLING: Just so that we're
6 clear, we haven't put them anywhere yet. We haven't
7 made a decision in this case.

8 WITNESS GILL: Pardon me?

9 COMMISSIONER KIESLING: I said we haven't
10 put those systems together. That is still pending as
11 an issue in this case.

12 WITNESS GILL: I understood the gentleman to
13 say that you have more or less suggested this to SSU.
14 Did I accept that wrong? That --

15 COMMISSIONER KIESLING: That we've
16 suggested.

17 WITNESS GILL: The Commission, yeah. The
18 Commission is more or less looking favorably into this
19 uniform --

20 COMMISSIONER KIESLING: We've not expressed
21 any opinion whatsoever in this case. We can't until
22 we hear all of the evidence.

23 WITNESS GILL: I understood --

24 MR. TWOMEY: I'll explain it. It wouldn't
25 be profitable to sit up here and -- we don't have

1 time. But if you'll wait a few minutes afterwards,
2 I'll explain the whole thing to you.

3 WITNESS GILL: Okay. Thank you. Thank you
4 very much.

5 COMMISSIONER JOHNSON: Thank you, sir.

6 (Applause)

7 MR. SHREVE: Thank you, sir. Mr. Weimer.

8 (Witness Gill excused.)

9 - - - - -

10 MR. SHREVE: Mr. Weimer.

11 WARREN G. WEIMER

12 was called as a witness on behalf of the Citizens of
13 the State of Florida and, having been duly sworn,
14 testified as follows:

15 WITNESS WEIMER: Warren Weimer, W-E-I-M-E-R,
16 919 Dundee Circle, Scottish Highlands, also in Silver
17 Lake.

18 Probably some of my questions will be
19 repetitive, but just very quickly I want to repeat
20 again that in 1990 I was paying 55 cents a thousand,
21 now \$1.23. And the new rates are who knows what.

22 Some of the questions -- your depreciation
23 rates, what are they? What percent of your income,
24 this 12% that you're asking for, is that on the
25 original cost basis, the inflated rates that you

1 possibly use? What are you using for a cost basis?
2 Mr. Shriver (sic) mentioned that you bought a utility
3 at some point for 9,000 and it's on your books for
4 90,000. How did this get there?

5 I was using a 10.3, as you stated, profit.
6 I know a lot of companies that would certainly love to
7 make that kind of money on their investment.

8 The thing that really bothers me is that
9 you're a wholly-owned subsidiary of an out-of-state
10 utility company. A real fine cozy deal. How many
11 stockholders of Minnesota Power and Light live in your
12 territories? What percent of your company's profits
13 go to Minnesota Power and Light, and what does this
14 increase their dividends to?

15 One of the things that I have talked to your
16 service department, I've talked to your former
17 president and I've talked to your acting president.
18 For over the last three years, I have requested, and
19 many other people have requested, that you get
20 automatic drafting, or at least have lockbox available
21 to us here in Lake County for your bill payment. I
22 was promised by your former president, before he
23 retired or was forced to retire, that he would have it
24 in place this last June before many of us went on
25 vacation so that we could get the automatic draft of

1 your bills. I have talked since I have been back, and
2 I still do not have a firm date when this is in place.
3 They say they don't have the computer capability, they
4 don't have the program capability. I am sure that
5 your parent company could send a program down and say,
6 "Here, use this for automatic drafting and get the
7 banks to send out the proper forms."

8 I would like to know and see in your cost
9 statements how much you put in to a lobbyist and
10 lawyers up in Tallahassee. I understand Florida -- by
11 Public Service Commission, the telephone company now
12 has their rates frozen for three years.

13 I, too, went over to the Tavares Library.
14 Fortunately -- there's now five boxes. (Laughter)
15 Fortunately, they are on the floor because I could not
16 have picked them up. I sat on the floor, and I peeled
17 through every box, looking for an index. What's
18 there? Where can I start? What can I dig into?
19 There were these boxes, there were paper boxes,
20 they're -- there is no rhyme or reason. I think
21 somebody up in the Washington circle put this together
22 maybe to confuse the Commission Staff, because there's
23 just nothing there that I can make any sense out of.

24 There was one box there I looked at, and
25 about 40 pages were blank, left blank on purpose.

1 Some future date they will fill them in. (Laughter)

2 The \$100 million that you say you've spent,
3 how long a period has this been spent over? You know,
4 is this acquisition money that you're talking about or
5 actual plant investment, new equipment or plant
6 acquisition or extending your wares?

7 I looked up in this morning's paper, it was
8 Minnesota Power and Light's quote, "278," and it's
9 paying 203 -- 51 cents a quarter, 203 a year. And I
10 did call my broker, says, "Gee, what do you say about
11 them?" Well, he says, anticipate rate increases in
12 Florida, and they're going to increase their dividends
13 right after the first of the year by two cents a
14 share." I, too, don't like to mention "up north," but
15 Illinois and Wisconsin has a CUB, Citizens Utility
16 Board, that has fought the utility companies up there
17 in court and tied up utility companies for years. The
18 Commonwealth Edison Company that I formerly worked
19 for, finally gave up and rebated \$1 billion to the
20 customers, overcharges. I worked for the company. It
21 hurt me. My stock devalued 50%, and they cut the
22 dividends 50%. It hurt me, but that's what a Citizens
23 Utility Board can do to a utility company.

24 I beg the Commission, which is a Public
25 Service Commission, "public service," to be user

1 friendly, not utility friendly.

2 Thank you so much. I thank Mr. Shriver for
3 being here. I've talked to you many times.

4 MR. SHREVE: Thank you, sir. Good to talk
5 to you again. (Applause.)

6 MR. TWOMEY: I have a couple of questions,
7 sir.

8 WITNESS WEIMER: Yes, sir.

9 EXAMINATION

10 BY MR. TWOMEY:

11 Q The autodrafts, you're just asking them to
12 be able to send the bill and make a draft against your
13 checking account --

14 A Yes.

15 Q -- like a health club or insurance company
16 would do?

17 A No, no, no, no. The telephone company has
18 it. Leesburg Gas Company, who we are subscribers to,
19 have it, SECO has it. You sign a form that your bill
20 will be drafted automatically on the due date, on the
21 due date, right out of your checking account. I don't
22 have to mail it. I don't have to --

23 Q They don't have to open the envelope, they
24 just get the money.

25 A sir?

1 Q They don't have to open the envelope, they
2 just get the money.

3 A They get the money, right.

4 Q And they're telling you they can't --
5 they're not sophisticated enough to do that, is that
6 it?

7 A That's what they have been telling me for
8 three years, sir.

9 Q Okay.

10 A Probably longer than that, but that's how
11 long I have been trying to do it.

12 Q Okay. I have a couple of questions. You
13 went to look at the filing at the Tavares Library.

14 A Yes, sir.

15 Q There were five boxes.

16 A Five boxes, and all but one was full.

17 Q Okay. Are you aware that the mass, the
18 volume of that filing, is due in large part to the
19 fact that there are 141 water and sewer systems
20 involved in this rate case?

21 A I understand that, sir. And I was trying to
22 find some documentation as to the Silver Lakes system;
23 when they bought it, how much they invested, the
24 improvements that they've made. And I couldn't find
25 anything on Silver Lakes.

1 Q Do you realize, sir, that under the uniform
2 rate system that they are asking for, that you are
3 potentially responsible, not just for the expenses
4 they have for providing your system water in Silver
5 Lake, not just for the plant in Silver Lake, but that
6 you and your neighbors are potentially liable for
7 carrying the expenses and supporting the plant in each
8 and every one of those 140 other systems?

9 A That's why I'm so against a uniform --
10 every utility should have to carry its own.

11 Q Yes, sir. And lastly, were you here earlier
12 when Mr. Shreve said that one of the problems he has
13 with this system is that as your representative and
14 the representative of all of the customers, that
15 notwithstanding the fact that there are 141 of those
16 different systems, he only has the same amount of time
17 that he used to have legally to examine one such
18 system. Did you hear that?

19 A Yeah.

20 MR. TWOMEY: That's all I have. Thank you.

21 WITNESS WEIMER: Thank you so much.

22 MR. SHREVE: Thank you, sir. (Applause)

23 (Witness Weimer excused.)

24 - - - - -

25 MR. SHREVE: Mr. Harper, Mr. Roger Harper.

1 **ROGER L. HARPER**

2 was called as a witness on behalf of the Citizens of
3 the State of Florida and, having been duly sworn,
4 testified as follows:

5 WITNESS HARPER: My name is Roger Harper. I
6 live at 1713 Orkney Drive in Leesburg, and that's in
7 Scottish Highlands, also.

8 I want to just follow up on what Mr. Weimer
9 said because I, too, three years ago decided that
10 since every other utility that I have in my home was
11 paid for through bank drafting -- and if you're
12 familiar with that that's where they electronically
13 tap your bank account for the amount of your bill.
14 The reason I was concerned with it was not only for
15 myself -- I'm not gone that much from here. But in
16 our community I would say 50% of the people in our
17 community, during the summer months, are gone for
18 three or four months. The times that I have been gone
19 over my billing period with the water company, I had
20 to prepay my water bill. Now, how do I know how much
21 my water bill is going to be over the next 30 days
22 when I'm gone and I don't know whether it's rained
23 sunny or what? So I set my sprinkler system to go on
24 three days a week, okay? And I generally send SSU
25 \$100, and I always put a little note on my bill, you

1 know, "If this doesn't take care of it, please don't
2 turn off my water because I'll be home in 30 days or
3 so and I'll pay for it."

4 Now to me, living in Florida, that great
5 state of retirees, if not a majority, at least a large
6 amount of SSU customers are retirees and are gone part
7 of the time, it just doesn't compute in this little
8 brain of mine why they, of all people, could not have
9 bank drafting. So what I did was I called them and
10 she said "Well, we're talking about it." But she
11 said, "You know," she said, "There are other
12 ramifications." So I said, "Okay, fine." I let her
13 off the hook. Well, about a year later this thing
14 boggled my mind again, so I called down at Apopka and
15 I asked her the same question, "Why cannot we have
16 bank drafting? Think of what this would do for all of
17 your customers that leave during the summertime.
18 Think of all of the problems you would eliminate by
19 not having to go out and shut off the water and then
20 come back and turn it on." Well, I can imagine that
21 doesn't cause them too much of problem, because they
22 charge a big fee to come back and turn your water on.
23 That's the way the Company works.

24 But anyhow, her comment was this, and listen
25 to me very clearly. "There are legal ramifications

1 with utilities that don't allow us to do that." Now,
2 I wasn't born yesterday. I'm not an attorney, thank
3 God -- and I know you all are, and I'm just kidding
4 with you.

5 MR. SHREVE: I object. (Laughter)

6 WITNESS HARPER: You're overruled. But
7 anyhow, you know, I'm thinking, the gas company, they
8 don't have any legal ramifications. The telephone
9 company, they don't have any legal ramifications. You
10 know, I don't know -- none of them do. So I asked
11 her, I said, "What can there be?" She said, "Well,
12 there are and our attorneys are discussing it." Well,
13 that kind of got to me a little bit. So let me tell
14 you what I did. I got ahold of my friend, Everett
15 Kelly, who called me a constituent. And my education
16 doesn't allow me to figure out what a constituent is,
17 but I guess it's one of these people in the great
18 state of Florida that pays the bill for all of you
19 attorneys so that you can represent us.

20 But anyhow, I got ahold of Everett and
21 Everett put me in touch with a lady in your Public
22 Service Commission. And she wrote me a nice letter.
23 And she said, "Mr. Harper, I'd like to have you know
24 you have a friend here, and I would like you to know
25 that you have someone you can write to, and I'd like

1 you to receive correspondence from them." So I now
2 wrote a letter to the Public Service -- or to SSU, and
3 put it in writing, and I said plainly, you know, "I'd
4 like to know when you're going to do this." Now I'm
5 getting results because I put on the bottom, "copy,
6 Public Service Commission." That brings results.

7 So anyhow, I got a letter, and the letter
8 stated that we plan -- "We're working on this and we
9 plan on having bank drafting at the last quarter of
10 1995." Now, according to my calendar, the last
11 quarter of 1995 started in October. Does anybody
12 disagree with that? And it ends December 31st. So I
13 kind of let it sit. I put it in my file. In fact, I
14 have a file on SSU, and I put it into file. And the
15 other day I happened to pick up the file, and I
16 thought doggone it's the last quarter. I think I'll
17 write them a letter. So I wrote her a letter. "Well,
18 we don't quite have it going yet. It will probably be
19 the end of the year." Okay. They're a public service
20 utility. They're serving the public. It gives me a
21 lot of confidence is what I'm leading up to -- it
22 gives me an awful lot of confidence in this Company.
23 I didn't even know when I started this that this
24 Company was owned by Minnesota Power.

25 I used to live in Minnesota, used to live in

1 Minneapolis. Let me tell you something, their taxes
2 are one hell of a lot higher than ours. And their
3 standard of living is probably a little better than
4 ours. And I know there's a lot of people up there
5 living a lot better than we are. And I'd hate to
6 think that a state full of retirees would have to
7 support those people up there. But the great American
8 way says that the big company can buy out the little
9 company. And the bottom line, the bottom line in
10 corporate politics is how many dollars can we earn and
11 how much money can we pay our stockholders, and how
12 much more investment can we get from them? That's the
13 bottom line.

14 Now, I'd like to ask the Commissioners a
15 question, because I don't know the answer and this is
16 not a trick question. When you're appointed as
17 Commissioners, who are you appointed to serve?

18 COMMISSIONER JOHNSON: When we're appointed
19 as Commissioners, our duty is to protect the public
20 interest, and oftentimes no one likes us, because we
21 aren't here to support the company, we aren't here
22 just to support the customers. We're here to do what
23 is in the public interest. Oftentimes Mr. Shreve,
24 whom we all respect very much, he's an excellent
25 advocate for the consumers. He doesn't think about

1 the company, the welfare, the viability of the company
2 at all. So when we listen to him, his main concern is
3 that of the customers. And when the company speaks, I
4 think that probably one of their first concerns will
5 probably be the company, and perhaps their secondary
6 concern, the customers. What we have to do is balance
7 all of that.

8 WITNESS HARPER: Okay. How deep do you go?
9 When you balance this out, how deep do you go into,
10 for example, the corporate structure of Minnesota
11 Power, what their bottom line figure is, how much
12 money do they make, what their expenses are? How deep
13 do you go into records? I doubt if you go all that
14 extensive, because, you know, corporate records take
15 up rooms, and I know you people don't have that kind
16 of time. And I'm not trying to get at you. What I'm
17 trying to say is that it's mind boggling, and I
18 wouldn't want to be in your position. I don't know
19 what they pay you, but they don't pay you enough. I
20 wouldn't want to be in your position.

21 COMMISSIONER JOHNSON: You raise a good
22 point, and I know that Mr. Twomey was stating earlier
23 some of the people that are being deposed are from the
24 Company. I know that Mr. Shreve, that they are
25 interested in finding out about the Company, so that

1 they will bring that evidence, that testimony, perhaps
2 through deposition, perhaps through live testimony, to
3 the Commission so that we can evaluate that. Our
4 Staff will be looking at those issues. But you're
5 right, it's a lot of information. It's very
6 voluminous. But I'll tell you, you have some very
7 good attorneys here that to the extent that the
8 evidence and information is discoverable, they will
9 present it to us.

10 WITNESS HARPER: Well, I learned a long time
11 ago that there's a difference in what's legally right
12 and what's morally right. And I know that everybody
13 out here looks at everything from a moral standpoint;
14 you look at everything, I hope, from a legal
15 standpoint, and I understand that difference. But I
16 worked for the government, federal government, the
17 FAA, for 29-1/2 years. And one of the things I never
18 lost sight of in that time was the fact that I was
19 serving the public. I wasn't serving American
20 Airlines, or TWA or Ozark, or anybody. I was serving
21 the public, and that encompasses an awful lot. And
22 your job does, too.

23 And I would just like to lay upon you
24 tonight the fact that the average person in Florida
25 doesn't have the resources that SSU through Minnesota

1 Power does. You know, we can't go out and hire a
2 lawyer. In fact, you have -- not you, but the system,
3 the American system, or the Florida system puts these
4 people and myself in a very peculiar position, because
5 if you should rule in favor of SSU, the only recourse
6 we have is to turn to some other lawyers and pay them.
7 So you know the great American system says that the
8 attorneys own you. And you're going to -- you're
9 eventually, whether you like it or not -- you know,
10 the last shot they are going to have at you is when
11 you die. They are going to get you, okay. But that's
12 the perception of the average person in American
13 today, I believe.

14 COMMISSIONER JOHNSON: It's understandable.

15 WITNESS HARPER: I believe that why this
16 country is so screwed up. But the thing is, that I
17 just want to lay upon you the fact that you are
18 serving I don't know how many millions of people in
19 the state of Florida. And what you do to educate this
20 thing is going to determine how well they live, how
21 much money they can retain, and how well SSU lives and
22 how wealthy they can become. And I would just hope
23 that everyone of your Commissioners would take a good,
24 hard, honest look at we, the people of the state of
25 Florida, and say, "Hey, look, they deserve better than

1 what they are getting."

2 Thank you.

3 COMMISSIONER GARCIA: Sir, before you go
4 away, sir, I'd like to ask if you could send our Staff
5 the phone and address -- I'm over here.

6 WITNESS HARPER: Oh.

7 COMMISSIONER GARCIA: -- the phone and --

8 WITNESS HARPER: You sound like him.

9 MR. EDMONDS: I'm trying to. The phone and
10 address --

11 MR. SHREVE: He's just older.

12 WITNESS HARPER: He's better looking,
13 though.

14 COMMISSIONER GARCIA: This case did this to
15 Jack. But, anyway, the phone and address of our
16 Commission is there, and I'd like you to send us that
17 letter that the Company gave you. Because I think
18 it's something that Staff should consider when doing
19 this.

20 You're right, I don't know why the Company
21 doesn't do it. I'm sure that they probably have a
22 better explanation for us than the one they gave you.
23 But with that done, all I'm asking is if you could
24 send us that letter, so that we can Staff lock into
25 it, because I do know that most of the utility

1 companies -- or a lot of the utility companies in our
2 state do do that, and it is quite burdensome when they
3 do turn you off.

4 WITNESS HARPER: I know you don't understand
5 how your mind goes after the age of 40, but -- I wish
6 I could remember the name of the lady in your
7 Commissioner office.

8 COMMISSIONER GARCIA: That's not important.

9 WITNESS HARPER: She has the files.

10 COMMISSIONER GARCIA: In her office?

11 WITNESS HARPER: Yes.

12 MR. EDMONDS: Okay.

13 WITNESS HARPER: Well, if you'll give me
14 your card, I'll be sure that you get that information.

15 MR. SHREVE: Just a minute. Thank you, sir.
16 Were you talking to me when you said I wouldn't know
17 what it was like when we get to 40?

18 WITNESS HARPER: Well, with you, I meant 30,
19 but that's all right.

20 MR. SHREVE: I think Commissioner Johnson
21 did adequately explain the situation, but I did want
22 to elaborate a little bit on that, to make sure you
23 understand.

24 We're representing you as your advocates,
25 and that's exactly what we plan to do. The Company is

1 an advocate for the other side. Now, I have no
2 interest in bankrupting the Company, but I don't have
3 any interest in seeing them make an unduly high profit
4 or expenses at your expense. I am your advocate and I
5 intend to do that. I did want you to understand that
6 we work for the state. We're actually under the
7 legislature. We have the office of the Public
8 Counsel. So regardless of the situation, you would
9 not have to come up and at some time in the future pay
10 us. Now, we're paid through your taxes, so we're paid
11 for value. You, of course, will be paying Southern
12 States expenses in this case, which that may bother
13 you a little bit more when you pay their lawyers'
14 fees.

15 WITNESS HARPER: Well, it's easier when you
16 divide it by big numbers, though.

17 MR. SHREVE: Right. But the one thing I did
18 want to make clear was that we're there.

19 Now, there are some issues in this case that
20 make it very difficult for a lawyer to represent one
21 group of customers against another.

22 WITNESS HARPER: I understand.

23 MR. SHREVE: And it's tough right now. And,
24 frankly, I think every customer deserves
25 representation on those individuals issues. I'm not

1 going to represent one of your groups against another.
2 I have to try to hold the rates down all the way. I'm
3 trying to make some provisions to have some lawyers
4 set up and paid for, so that everyone's interest --
5 and yours may be different than another system, even
6 here in Lake County. And I think there's a situation
7 coming, and has been there, where certain interests
8 may not be represented. And we're trying to take care
9 of that and I think some of the Commissioners probably
10 want to help us out with that. But we're going to
11 take a look and try and see if we can do that, too.
12 And I promise you we'll try to pursue that as much as
13 we can.

14 WITNESS HARPER: Well, I understand that.
15 And I also understand that, you know, the Company is
16 supposed to make a fair rate of profit and I
17 understand that. I don't understand 50% rate
18 increases. I don't understand 100% rate increases. A
19 lot of things that have been said here tonight that
20 totally turn me off. And I would think would totally
21 turn anyone who has some kind of rationale. I'm not
22 saying I'm the smartest guy in the world, but I do
23 have a good education. But, you know, I get turned
24 off when I hear people citing figures, like this
25 gentleman over here, his Company has cited to us. And

1 it just boggles my mind to think that the
2 Commission -- you know, I know they have to -- but it
3 boggles my mind that they would even have to consider
4 those kind of figures, because it's just -- you know,
5 I guess the only thing you could classify it in a
6 nonlegal sense was it's stealing. And I think that
7 the people of Lake County, if not the entire state of
8 Florida or anybody in their jurisdiction, is going to
9 take just that attitude. After the 50% increase we
10 just had, or whatever it was, anything further is
11 getting -- you know, in the medical term they call it
12 a billfold biopsy, and that's just exactly what they
13 are doing. They're going to extract it one way or the
14 other. (Applause)

15 MR. SHREVE: Thank you, sir. You make some
16 good points.

17 (Witness Harper excused.)

18 - - - - -

19 MR. SHREVE: Mr. Carr.

20 Madam Chairman, while Mr. Carr is coming up,
21 I wanted to remind you or explain, Mr. Carr appeared
22 in Sanford and has made an effort to come over here
23 because we were short of time in Sanford, and he was
24 not given the opportunity to complete his testimony
25 without interruption, and had the opportunity to put

1 it in writing, but really prefers to make an oral
2 presentation to the Commission.

3 COMMISSIONER JOHNSON: I understand that. I
4 haven't had an opportunity to speak with Mr. Carr and
5 thank him for waiting. I understand he was the first
6 person here, but he understood that the citizens from
7 the systems that were noticed today had not testified,
8 so he volunteered to wait and be the last presenter
9 for the evening, and we welcome his comments.

10

- - - - -

11

GENE CARR

12 was called as a witness on behalf of the Citizens of
13 the State of Florida and, having been duly sworn,
14 testified as follows:

15 WITNESS CARR: Thank you very much. My name
16 is Gene Carr. I live at 112 West Hillcrest, and
17 that's in Altamonte Springs.

18 Madam Chairman, Commissioners and counsels,
19 I thank you for giving me the opportunity to be here
20 tonight, another opportunity. My first presentation
21 was interrupted, and I did want to present some
22 information that I think might be of interest to you.

23 And I'm very glad to hear that Lake County
24 people are informed about who and what and why is
25 happening in this case. I know in my county, in

1 Seminole County, many people do not know that
2 Minnesota Power is involved with Southern States
3 Utilities. And I'm glad to know that Lake County
4 people are well-informed of this fact.

5 Southern States has really pushed a button
6 here in the state of Florida, because I know by the
7 turnout that you have seen here and in other counties
8 and will see throughout your tour around the state,
9 that you'll have responses like this all over the
10 state, probably for the first time in Southern States
11 Utilities' history.

12 Many of the people that spoke here tonight
13 had the same thing to say that I was going to say, so
14 I will not repeat a lot of that testimony. Everything
15 that you have heard is absolutely right on the button.

16 But I did want to give a few details that
17 maybe some of the other people did not know. I've
18 done some research on Minnesota Power and Light. I am
19 a stockholder of Minnesota Power and Light, not very
20 much, but I'm a stockholder. And I have gotten their
21 mailings and their reports. And in their report one
22 of the things that struck me was the breakdown of
23 their earnings per share. Southern States Utilities
24 has contributed 48 cents per share of the Minnesota
25 Power and Light profits. That represents 23% of their

1 total per share payout. They pay out 98% of their per
2 share income. That is way, way too high when a
3 company pays out 98% of its income in dividends. Now,
4 a company can do that but only for so long and then
5 they run into trouble. And Minnesota Power and Light
6 is in trouble. Part of their trouble was caused by
7 some of their other investments. They have a \$300
8 million portfolio of investments, stocks and bonds
9 that didn't do too good last year. And it's alluded
10 to in their annual report.

11 The other one was unfavorable weather
12 conditions, which you've heard here tonight of the
13 people here in Florida. And now we are being punished
14 because of weather conditions. And rates are now --
15 they want to try to tie rates to weather conditions by
16 this system of adjustable rates. And I would like to
17 know who is going to administer that particular system
18 of rate increases or decreases. I'd like to know who
19 is going to administer that. Certainly, I don't think
20 you're going to administer it, are you?

21 COMMISSIONER JOHNSON: Your question goes to
22 the conservation -- the normalization mechanism, and
23 who would actually administer it or how it would be
24 administered.

25 WITNESS CARR: Have you figured that out

1 yet.

2 COMMISSIONER JOHNSON: Marshall, is that
3 something that will be considered in this?

4 MR. WILLIS: That's part of the Company's
5 testimony. They are going to be presenting that to
6 the Commission as part of their testimony through
7 their witness, and they will be explaining that before
8 the Commission. Their witness will be doing that.

9 WITNESS CARR: So that has not even been --
10 any details of that program.

11 MR. WILLIS: They presented direct testimony
12 on the subject to the Commission, had prefiled that
13 direct testimony. That's just part of what goes on in
14 the hearing process. Everyone else, Mr. Shreve,
15 Mr. Twomey, Staff, will have every opportunity at this
16 point to do depositions. Further discovery on the
17 subject, can present their own witnesses for or
18 against that at that point in time. I don't know what
19 else I can tell you on the subject.

20 WITNESS CARR: Okay. Well, that's going to
21 be a sticky wicket. I don't care who administers it,
22 because the -- I know if we have a wet year, the rates
23 will go up pretty fast. When we have a dry year, the
24 rates are going to go down pretty slow. You can
25 almost bank on that.

1 I'd like to read to you what the CEO of
2 Minnesota Power and Light says in his stockholders'
3 report about the investment he has made in Southern
4 States and what he expects. He states that, "We have
5 done our part now, and it's time to fully recover the
6 cost of the improvements through higher water rates."
7 Now, they have invested money down here. An
8 investment is usually recouped by depreciation and not
9 through high water rates. That is their goal and the
10 force that they are exerting down here is just for
11 more and more profits. They have stated that they
12 want one-third of their earnings per share to come
13 from Southern States. One-third. Minnesota, the
14 electric utility in Minnesota is only to contribute
15 one-third, and they have other investments that they
16 will contribute one-third, so it's going to be an even
17 division of this earnings per share.

18 Right now, today, they are contributing or
19 contributing to their own earnings per share of 57%.
20 And like I said, we are contributing 23%. Their
21 contribution comes down and ours goes up. And we,
22 right now, are contributing the highest of any of the
23 other subsidiaries in that family of companies.

24 They are in a multitude of different
25 companies. They are in coal mining. They are into

1 real state. They're into paper mills. And they've
2 just invested \$167 million in a used car auction
3 company by the name of Odessa. So they are expanding
4 out all over the place. And everybody is going to be
5 contributing to their bottom line.

6 In this case bigger is not better. And by
7 the year 2000 they expect to be earning \$3.25 per
8 share. It is now \$2.06, and this is all coming by
9 growth and from -- and from companies like Southern
10 States Utilities and all these other subsidiaries.

11 I can't ask you any stronger to take a
12 serious look at Minnesota Power & Light and their
13 bottom line and what they expect from Southern States
14 and from the people of Florida. Southern States has
15 put a noose around our neck, but Minnesota Power and
16 Light holds the end of the rope. And this is
17 completely unfair. And the people of Florida ought to
18 have the right to look at companies like Minnesota
19 Power to determine what is fair and what is not.
20 Minnesota Power and Light is putting pressure on
21 Southern States and all of the other subsidiaries.
22 And we are being asked to prop up the shortcomings of
23 Minnesota Power and Light as we speak. They are a
24 company that is in financial difficulties. They have
25 been downgraded. Standard & Poor's has downgraded

1 them from a stable to negative. They have \$757
2 million in outstanding debt that they are trying to
3 pay off with their \$2.06 earnings. They are scared
4 and they are running scared. And we are pawns in this
5 quest for more money. And we are caught in a Catch-22
6 position.

7 Most of what the other people here have said
8 tonight was basically what I was going to try to
9 present. They've done it probably better than I
10 could. These are a well-educated group of people
11 here. And we all hope that you will take these
12 concerns and this testimony and deliberate and give us
13 a fair ruling on this issue. And that's all we can
14 ask. And I thank you for your time.

15 MR. TWOMEY: I have a question.

16 WITNESS CARR: Yes, sir.

17 MR. TWOMEY: First of all, it was a very
18 good presentation, Mr. Carr.

19 I have a question. Are you aware that with
20 respect to this uniform rate issue that as a result of
21 my clients defeating the uniform rate issue, the
22 Public Service Commission has ordered Southern States
23 to make refunds of as much as \$8.7 million, and that
24 these people will get part of that if they are
25 successful in that?

1 WITNESS CARR: Are you asking me if I
2 understand that?

3 MR. TWOMEY: Yes, sir, did you understand
4 that?

5 WITNESS CARR: That's the first time I've
6 heard it tonight, that there's been any effort to get
7 Southern States to refund anything.

8 MR. TWOMEY: Well, the Public Service
9 Commission has, in fact, issued an order telling them
10 to change rates and to make refunds. And if, in fact,
11 that happens, these people from Silver Lake will get
12 part of the refunds.

13 My question in asking you, though, is
14 because of your emphasis on Minnesota Power and Light
15 and as a shareholder. And I don't mean this to be
16 mean or painful to you, but do you realize, sir, as a
17 shareholder, that if we're successful in making
18 Southern States carry out the refund provisions the
19 PSC has ordered it to do, that it will cost you and
20 your fellow Minnesota Power and Light shareholders
21 \$8.7 million?

22 WITNESS CARR: That's okay. That's okay.
23 I'm not a very big shareholder. (Applause)

24 MR. TWOMEY: I thought you were a big fan.
25 Thank you.

1 WITNESS CARR: No, I would like to ask the
2 Commission -- I've heard you allude several times
3 tonight to ask the Commission whether this Commission
4 or the past commissions have, in effect, encouraged or
5 begged Southern States to purchase failing and
6 substandard, or some of these other water and sewer
7 systems. Do you know this for a fact or can any of
8 you answer that? I mean, several people have alluded
9 to it, but nobody has asked a question.

10 COMMISSIONER JOHNSON: Marshall.

11 MR. WILLIS: I don't believe the Commission
12 has ever begged a utility to take over any system.
13 Not to my knowledge, and I have been with the
14 Commission for about 20 years almost. And I've never
15 been privy to anybody begging the Company to take over
16 another one. The Commission has come forward with
17 some policies, some of those regularly related to
18 acquisitions that would encourage some of the larger
19 utilities who have the financial well-being and are
20 viable companies to take over, if they so desire, some
21 of the smaller companies who don't have the financial
22 capability to make needed improvements if they need
23 to. They have done that.

24 WITNESS CARR: Isn't there a danger or a
25 propensity then to offer utilities favorable rates in

1 exchange for taking over and upgrading some of these
2 things, some of these failing and substandard water
3 systems, water and sewer systems? I mean, there's
4 been a bunch of them that were failing that were
5 substandard that the people were -- that owners have
6 just walked away -- almost walked away from them.
7 Isn't there a propensity that if you take this over,
8 we will give you a favorable rates to recover your
9 investment?

10 MR. WILLIS: Not in every case, because
11 there are many utilities --

12 WITNESS CARR: But there has been cases,
13 right?

14 MR. WILLIS: There have been cases where the
15 Commission has granted a utility company favorable
16 status in their rate base, which actually doesn't hurt
17 the customers, because they have been given the same
18 rate base as they were under the prior owner. In
19 other words, I'm talking about their investment when
20 I'm talking about rate base. All the Commission has
21 done in those case is said, "We're not going to change
22 the level of investment." And if there's nothing
23 substandard about the condition of the facilities that
24 the company is purchasing, then they will grant that
25 company the same investment level as they had under

1 the prior owner when they take it over. Now, they do
2 that because there are so small -- what we call mom
3 and pop utilities out there, who just can't survive
4 under the current environmental standards out there.
5 There are some that are so small that there's no one
6 who could afford to take those over and provide that
7 kind of status, and provide any kind of help to a
8 company like that. There are many in the state of
9 Florida who are under receivership right now that
10 nobody wants. They are in that bad of condition.

11 WITNESS CARR: But is it the place of the
12 Public Service Commission to grant any special favors
13 for doing that, or is that dirty pool?

14 MR. WILLIS: I don't know that you would be
15 calling that a favor.

16 WITNESS CARR: I would.

17 MR. WILLIS: I think what the Commission has
18 looked at is they have looked at a broad policy and
19 that's part of what the Commission is charged for
20 doing is looking at what is favorable to the public as
21 a whole, and that's where that policy comes from.

22 MR. SHREVE: Madam Chairman.

23 COMMISSIONER JOHNSON: Mr. Shreve.

24 MR. SHREVE: I understand what Mr. Willis is
25 saying, and we've been around this for a long time.

1 But I see the point you're making, and I agree with
2 you completely. I think your question is not
3 necessarily whether the Commission has begged anyone
4 to take it, but whether or not they have encouraged it
5 and whether or not they would give any special
6 treatment to a utility that carried out that wish of,
7 not necessarily the Commissioners, but the Staff of
8 the Commission.

9 WITNESS CARR: Okay.

10 MR. SHREVE: Mr. Willis -- and I understand
11 what he's saying about -- he says it doesn't hurt the
12 customers when they give the rate base that's in
13 place, even though the company may pay less for the
14 system. To me if the customers rates are not lowered
15 to a point they should be, hurts the customers. One
16 of the arguments that we have had over the years --
17 and you had systems rights here in this county, not --
18 you're from Sanford -- but the systems in this county,
19 where Southern States has paid less for a system than
20 they were allowed to put in their rate base. And when
21 that happens, when you're talking about a fair
22 investment on your investment, if they're getting a
23 return on something they didn't invest, then that's
24 not fair. They're getting more than their actual
25 investment. And that's one of the things we have

1 really tried to get at, and it is tough. And that's
2 what happened to the Deltona system to the tune of
3 about \$9 million. It happened again to a very large
4 amount in the Lehigh Acres system. It happened in
5 Grand Terrace, right here in this town -- in this
6 county. Many, many systems that's happened. I think
7 other customers have raised this same point, and I
8 think it's something that we will definitely go into.
9 I think the Commission would like this type of
10 information brought to them, if there is something out
11 there that would even give the appearance of some type
12 of undeserved treatment to the Company. And I don't
13 know that it has ever happened, but if it has, I think
14 it's something that should be brought out because it
15 has been raised by the customers. They should not
16 receive any favorable treatment because of the wishes
17 of the Staff of the Public Service Commission.

18 WITNESS CARR: We had a meeting with
19 Southern States back two years ago. We had a
20 representative come out and talk to our homeowners
21 association. And among other things, we talked about
22 the person that was representing Southern States at
23 that time, alluded to us and actually told us that --
24 because we asked her about this acquisition of other
25 systems like -- or helping other systems like Chuluota

1 and Deltona and all of the rest of them around here.
2 And she told us that at times that the Public Service
3 Commission -- now, whether she was talking about the
4 Commission or the Staff, I don't know, but that's just
5 a general euphemism for the Public Service Commission,
6 that the Public Service Commission had encouraged and
7 at times begged them to take over some of these
8 failing -- now that was out of her mouth. Maybe she
9 used the wrong word, but it stuck in my mind. What is
10 the Public Service Commission or anybody connected
11 with the Commission doing begging an out-of-state
12 water company to come in and buy failing water and
13 sewer companies.

14 MR. SHREVE: Two points that I'd like to
15 make. Most of the Public Service Commissioners that
16 we have now are new, and she might not have been
17 referring to the Commissioners or the Commission. And
18 maybe it was the wrong referral to the Staff, too.

19 And I did discuss what Mr. Willis said, and
20 I want to make one point. I've known Mr. Willis for a
21 long time, and as far as I'm concerned there's nobody
22 any straighter than him. We have a little difference
23 of opinion and expression. I'm not talking about you,
24 but me and we said. But I want everybody to know that
25 I have am great deal of respect for Mr. Willis, and I

1 he is straight and will tell you exactly what he
2 thinks.

3 I will look into this and commit to you that
4 we'll look into this and check into it, because I know
5 several customers have mentioned this. We'll see what
6 the situation is and present it to the Public Service
7 Commission.

8 WITNESS CARR: I didn't mean any of this
9 personally or anything. I mean, I'm just relying upon
10 what was said to me and asking a question, that's all.

11 MR. SHREVE: Yes, sir.

12 WITNESS CARR: And I don't -- I'm not
13 accusing anybody personally or specifically on this.
14 That is all I have to say.

15 These people have given a wonderful,
16 wonderful presentation and their testimony is
17 something I hope that you will consider. And I thank
18 you very much. (Applause)

19 COMMISSIONER JOHNSON: Thank you, Mr. Carr.
20 Appreciate your comments.

21 MR. SHREVE: Thank you, Mr. Carr. Thanks
22 for coming over and taking your time.

23 COMMISSIONER JOHNSON: Mr. Shreve, are there
24 any other --

25 MR. SHREVE: That's the last one we have.

1 COMMISSIONER JOHNSON: You said that was the
2 last witness for this evening.

3 MR. SHREVE: Last one, uh-huh.

4 COMMISSIONER JOHNSON: With that in mind,
5 I'd like to thank all of you for coming out this
6 evening. And I, too, would like to echo some of the
7 comments of Mr. Carr and Mr. Shreve that this has been
8 a wonderful audience that provided us with much needed
9 information that will be made a part of this record,
10 and I assure you it will be considered in our final
11 deliberations of this case. Thank you very much.

12 MR. ARMSTRONG: Madam Chairperson, one
13 housekeeping matter.

14 COMMISSIONER JOHNSON: One last matter?

15 MR. ARMSTRONG: One housekeeping matter is
16 The introduction of the affidavit of publication, as
17 well as the affidavit of mailing of customer service
18 notices.

19 COMMISSIONER JOHNSON: Okay. And we are --

20 MR. ARMSTRONG: They have been distributed
21 and the court reporter does have a copy.

22 COMMISSIONER JOHNSON: AND we have marked
23 those as Exhibit No. 25. Show those admitted without
24 objection.

25 COMMISSIONER KIESLING: Identified.

Affidavit of Publication

The Daily Commercial

Leesburg, Lake County, Florida

DOCKET 950495-WS

EXHIBIT NO. 25

CASE NO. 96-04227

Case No. _____

STATE OF FLORIDA
COUNTY OF LAKE

Before the undersigned authority personally appeared Jim Perry, who on oath says that he is Publisher of The Daily Commercial, a daily newspaper published at Leesburg in Lake County, Florida, that the attached copy of advertisement, being

Ad # 38926

in the matter of Notice of Service
Hearing

in the _____ Court,

was published in said newspaper in the issues of _____

October 17, 1995

Affiant further says that the said Daily Commercial is a newspaper published in said Leesburg, in said Lake County, Florida, and that the said newspaper has heretofore been continuously published in said Lake County, Florida each day and has been entered as second class matter at the post office in Leesburg in said Lake County, Florida, for a period of one year preceding the first publication of the attached copy of advertisement; and affiant further says that he has neither paid nor promised any person, firm or corporation any discount, rebate, commission or refund for the purpose of securing this advertisement for publication in said newspaper.

Signed Jim Perry

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION NOTICE OF SERVICE HEARING DOCKET NO. 950495-WS

Docket No. 950495-WS - Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange - Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay Collier, Duval, Hernando, Highlands, Hillsborough, Lake Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Polk, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.

Notice is hereby given that the Florida Public Service Commission will conduct a service hearing to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for the utility's customers in Lake County(ies) will be held at the following time place:

November 8, 1995

6:00 p.m.

Mt. Dora Community Center
520 Baker Street
Mt. Dora, FL 32757

All persons who wish to testify are urged to be present at the beginning of the service hearings as the hearing may be adjourned early if no customers are present. Any persons requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior to the hearing. If you are hearing or speech impaired, please contact the Florida relay Service by using the following numbers: 1-800-955-8770 (VOICE) OR 1-800-955-8771 (TDD).

PURPOSE

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly \$100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity, and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.

_____)

AFFIDAVIT

STEVEN M. GALLIS, having been duly sworn, states as follows:

1. I am Supervisor of Administrative Services in the Office Services Department of Southern States Utilities, Inc. ("SSU"), whose central office is located in Apopka, Florida.
2. As part of my duties, I am responsible for administering mailings to SSU customers, such as notices required by Florida Public Service Commission Rules and Orders.
3. In my presence and under my supervision, SSU personnel mailed to the customers in Lake County a copy of the document identified as "Notice To Customers Of Service Hearing Letter" attached hereto and marked "Exhibit A."
4. The names and addresses of the aforesaid customers were previously obtained from SSU Information Services Customer Address Files. A copy of the list of SSU customer names and addresses for the aforesaid county is attached hereto and marked "Exhibit B."
5. On October 18, 1995, my staff and I machine postmarked the envelopes containing copies of the aforementioned document(s) and hand delivered the envelopes to a representative of the United States Postal Service for delivery.
6. Attached hereto and marked "Exhibit C" is a copy of the relevant page of SSU's Office Services' Postage meter logbook. The logbook is used to record mailings from SSU's Office Services Department. Exhibit C contains information pertinent to the aforementioned mailing, to wit: on October 18, 1995, SSU mailed 3487 pieces of mail fitting the description of "Mt. Dora Customer Hearing." I personally made these entries into the logbook, and the recordations therein coincide with my personal observation that Exhibit A was mailed.

Steven M. Gallis

Any person requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) OR 1-800-955-8771 (TDD).

PURPOSE

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly \$100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity, and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.
