

BellSouth Telecommunications, Inc.
Docket No. 950985-TP
Staff's First Set of Interrogatories
September 27, 1995
Item No. 6

PROPRIETARY

REQUEST: Please provide the current cost of originating or terminating a call for local interconnection purposes on a per-minute basis.

RESPONSE: BellSouth has not conducted a cost study to determine the costs specific to local interconnection. However, it is assumed that the costs would approximate those for switched access. The 1994 Florida intrastate estimated 24 hour average incremental cost per originating or terminating access minute of use for Local Transport and for Local Switching 1 and 2 (LS1/LS2) are as follows:

17	Local Transport	\$
18	Local Switching 1	\$
19	Local Switching 2	\$

BellSouth objects to this interrogatory to the extent the information requested is proprietary. BellSouth will provide the proprietary information to the FPSC Staff under a Notice of Intent to Request Confidential Classification to be filed contemporaneously with the serving of the Interrogatory responses.
