BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Application of PALM COAST
UTILITY CORPORATION for Approval
of Revised Service Availability
Charges in Flagler County

Date Issued:
December 28, 1982

NOTICE OF APPLICATION

Palm Coast Utility Corporation will apply to the Florida Public Service Commission for an increase in water and wastewater service availability charges (system capacity charges) in Flagler County. The increased system capacity charges are to pay for growth in the utility systems and are to be paid by new, not existing, customers. A copy of the application may be inspected at the office of Palm Coast Utility Corporation at the following location:

2 Utility Drive
Palm Coast, FL 32137
Telephone: (904) 445-3311

Business Hours: 8:00 a.m. to 4:30 p.m.
Monday through Friday

It is proposed that the water system capacity charge be increased from \$766.00 to \$1500.00, and that the wastewater system capacity charge be increased from \$1466.00 to \$1600.00. These charges are for a single family residence served by a 4" x 4" meter. For all other customers, the water system capacity charge would be increased from \$2.64/gallon of average daily usage as determined by the utility to \$7.97/gallon of average daily usage as determined by the utility; and the wastewater system capacity charge would be increased from \$6.37/gallon of average daily usage as determined by the utility to \$11.69/gallon of average daily usage as determined by the utility.

EXHIBIT 1

This application is for final approval for increased system capacity charges.
