## P R O C E E D I N G S

(Hearing convened at 6:00 p.m.)

1  
2  
3 CHAIRMAN CLARK: Ladies and gentlemen, can  
4 you hear me? We are ready to start the hearing. We  
5 have some formalities that we have to go through at  
6 the beginning of the hearing. One of those is the  
7 reading of the notice and we take appearances, then  
8 I'll be explaining to you what our purpose here is  
9 tonight. We'll allow some opening statements, brief  
10 opening statements, and then we will begin taking  
11 testimony from you all.

12 At this time I would like to ask Mr. Jaeger  
13 to read the notice.

14 MR. JAEGER: Pursuant to notice, this time  
15 and place has been designated for a customer service  
16 hearing in Docket No. 950495-WS, application for a  
17 rate increase and an increase in service availability  
18 charges by Southern States Utilities, Incorporated.

19 CHAIRMAN CLARK: We'll take appearances  
20 starting with you, Mr. Shreve.

21 MR. SHREVE: Jack Shreve and Charlie Beck,  
22 Office of Public Counsel, representing the customers,  
23 the Citizens of the State of Florida in opposition to  
24 Southern States. (Applause)

25 MR. JAEGER: Ralph Jaeger, appearing on

1 behalf of the Commission Staff, 2540 Shumard Oak  
2 Boulevard, Tallahassee, Florida, Public Service  
3 Commission.

4 CHAIRMAN CLARK: Mr. Armstrong.

5 MR. ARMSTRONG: Brian P. Armstrong,  
6 appearing on behalf of Southern States Utilities.

7 (Audience response.)

8 MR. TWOMEY: I'm not with him. My name is  
9 Mike Twomey, Route 28, Box 1264, Tallahassee, Florida  
10 32310. I'm appearing tonight on behalf, first of all,  
11 the Sugarmill Woods Civic Association, Inc.; the Marco  
12 Island Civic Association, Inc.; the Spring Hill Civic  
13 Association, Inc; the Concerned Citizens of Lehigh  
14 Acres, and lastly, the Harborwood Civic Association;  
15 in Arlington, Jacksonville. And like Mr. Jack Shreve,  
16 I, too, am opposed to any rate increase for this  
17 Company.

18 CHAIRMAN CLARK: Thank you. My name is  
19 Susan Clark. I act as Chairman of the Public Service  
20 Commission. With me at this hearing are all the  
21 Commissioners.

22 To my right is Commissioner Terry Deason.  
23 To his right is Diane Kiesling. To my left is  
24 Commissioner Julia Johnson, and to her left is  
25 Commissioner Joe Garcia. We will be hearing this

1 case, and we will be taking testimony at all the  
2 service hearings. And this is among those service  
3 hearings that we've been conducting and will conduct  
4 through the next two weeks.

5 Your comments today are going to be recorded  
6 by an official court reporter. That will allow us to  
7 rely on your comments when we make our decision.

8 To give you some background, the rate case  
9 was initiated by the filing of a petition by SSU for a  
10 rate increase. Along with that petition, they filed  
11 numerous documents substantiating their request for an  
12 increase in rates.

13 The Utility has requested a two-year uniform  
14 water rate along with a uniform wastewater rate. The  
15 Utility has requested a final rate increase of up to  
16 45.9% for water and 30.21% for wastewater. The  
17 Utility had also requested an interim rate increase.  
18 On January 4th of this year, we granted a partial  
19 interim increase. That interim increase is subject to  
20 refund depending on the facts developed in this case.

21 During the pendency of this proceeding, the  
22 parties are represented by attorneys. You were  
23 introduced to them as they made their appearances.  
24 Mr. Armstrong represents the Utility. Mr. Shreve  
25 represents the customers, and Mr. Twomey represents a

1 select group of customers.

2           As I said, we will be holding service  
3 hearings throughout the Southern States service areas.  
4 And then, beginning on February 29th, we will begin  
5 the technical hearing in Tallahassee.

6           You have received a handout, and it has the  
7 schedule of the service hearings. And I believe it  
8 also indicates when the technical hearings will held.  
9 These service hearings are specifically designed to  
10 gain information from you, the customers, with respect  
11 to the quality of service this utility renders and to  
12 get your comments on the rate increase. After all the  
13 service hearings, after the technical hearing, the  
14 Commission will meet again in an agenda conference to  
15 receive our Staff's recommendation on what, if any,  
16 increase is appropriate.

17           During the technical hearings, we will  
18 receive evidence from expert witnesses. Mr. Shreve  
19 will have his expert witnesses. The Utility will have  
20 expert witnesses. Staff is likely to present some  
21 testimony, and I would expect Mr. Twomey would,  
22 likewise, present expert testimony.

23           I would like to emphasize again that the  
24 purpose of this hearing is to hear from you. But  
25 before we begin, I have allowed the parties present to

1 give brief opening statements with respect to their  
2 positions in these cases. And I will get to that in a  
3 minute.

4           After we take those opening statements, I  
5 will ask everyone who is signed up to give testimony  
6 to stand and raise your right-hand. I will swear you  
7 in all together, and then we will begin going through  
8 the list of witnesses as you signed up, and Mr. Shreve  
9 will be calling out your names to testify.

10           At this time I have one other formality.  
11 Mr. Armstrong, do you have the proof of publication  
12 for this hearing?

13           MR. ARMSTRONG: Yes, Madam Chair, I do. I  
14 have a proof of publication, as well as an affidavit  
15 of service of the notice.

16           CHAIRMAN CLARK: Okay. The proof of  
17 publication and the affidavit of notice will be marked  
18 as Exhibit 31, and if you would please see that the  
19 court reporter has that information.

20           (Exhibit No. 31 marked for identification.)

21           MR. ARMSTRONG: Madam Chair, I do have one  
22 other issue. The affidavit of publication of the  
23 hearing on Monday in Collier County, we provided the  
24 affidavit of service, but the affidavit of publication  
25 had inadvertently been left out of that Exhibit 28.

1 CHAIRMAN CLARK: Okay.

2 MR. ARMSTRONG: So I request that either  
3 this be incorporated into Exhibit 28 or made Exhibit  
4 32, whichever.

5 CHAIRMAN CLARK: It will be incorporated  
6 into Exhibit 28.

7 MR. ARMSTRONG: Thank you.

8 CHAIRMAN CLARK: Before I allow the  
9 attorneys to make their opening statements, I would  
10 like to indicate we have other Commission Staff here  
11 today, and they are available to assist you in any  
12 way. You can ask them questions. If you choose not  
13 to testify, you may want to come up to them and talk  
14 to them about your specific concerns regarding this  
15 case or the service provided from SSU.

16 Let me introduce them to you. Sitting on  
17 Mr. Jaeger's right, is Mr. Marshall Willis, who is a  
18 Bureau Chief in our Division of Water and Wastewater.  
19 To Mr. Jaeger's right, is Mr. Troy Rendell, who is a  
20 rate supervisor. We also have Mr. Ted Davis -- Ted,  
21 where are you? He's in the back of the room. He is  
22 an engineer with our Water and Wastewater Department.  
23 Also in the back of the room is Sandy Simmons, who was  
24 at the table where you signed up. And Ms. Margaret  
25 Ring, who is with our Consumer Affairs Department.

1 And our court reporter tonight is Rowena Hackney. She  
2 is our court reporter, and she will be recording the  
3 testimony and the proceedings tonight.

4 With that, I would like to ask you,  
5 Mr. Armstrong, if you have an opening statement, to  
6 make it at this time; and I would remind you, you are  
7 limited to five minutes.

8 MR. ARMSTRONG: Thank you, Madam Chair.

9 As I indicated before, my name is Brian  
10 Armstrong, and I am representing Southern States  
11 Utilities in its rate application request.

12 The first question is why are we asking for  
13 a rate increase? The answer is, since 1992 and  
14 through 1996, Southern States will have placed  
15 approximately \$100 million of additional equipment  
16 into service to provide water and wastewater service  
17 to our customers. That \$100 million of equipment has  
18 not been included in the rates at this point in time;  
19 and, therefore, Southern States is not getting a  
20 recovery on those dollars, hasn't received a return on  
21 those dollars.

22 The second question is, well, what did  
23 Southern States do in the past concerning those  
24 returns? In 1995 Southern States lost money. There  
25 was no return on the money we have invested in our

1 equipment so, obviously, that's the reason, the  
2 primary most significant reason why we're involved in  
3 a rate case right now.

4 As Chairman Clark has indicated, effective  
5 today there are interim rates which have been approved  
6 by the Commission. The Commission was required to  
7 approve those rates by law, largely given to the fact  
8 that we had no earnings last year in 1995.

9 I'm sure all of you in the room are aware of  
10 the rate structure question which is another  
11 significant issue in this case and will be determined  
12 in this case. Many of you in our Sugarmill Woods  
13 facility are opposed to that uniform rate because you  
14 feel you would pay higher under the uniform rate than  
15 you would under other rate structures.

16 The rest of our customers in Citrus County  
17 will pay higher rates under any other structure than  
18 they would if they had uniform rates so, obviously,  
19 they have been pretty supportive of the uniform rate  
20 structure.

21 The Company has supported the uniform rate  
22 structure because we believe long-term that it is in  
23 the best interest of our customers, as well as our  
24 Company, as well as the environment, and the State of  
25 Florida. But the concerns of the Sugarmill customers

1 are understandable. And you have wonderful  
2 representation, and I know you are going to speak  
3 tonight and probably oppose uniform rates once again.  
4 There are reasons, pros and cons.

5 In this rate case, both in support of our  
6 rate increase, as well as in support of the rate  
7 structure, Southern States has already prefiled  
8 testimony of 22 witnesses. Those witnesses have  
9 experience in both utility equipment, utility  
10 engineering, as well as the rate structure matters  
11 that comprise probably more than 200 years of  
12 experience.

13 Now, there have been thousands of questions  
14 asked already of Southern States by your  
15 representatives and by the Staff of the Commission.  
16 We have produced hundreds of thousands of pages of  
17 documents. We come to these hearings, and we argue,  
18 to listen to you and your questions. And you'll raise  
19 many of those issues and sometimes additional issues.  
20 And they will be looked into. It's not the  
21 Commission's practice for me to be able to answer  
22 tonight and, obviously, I couldn't answer everybody's  
23 questions, but they will be answered. And they will  
24 be answered most particularly and most importantly  
25 under oath by those experts, not by myself or any

1 other lawyer in this room, but by experts under oath.  
2 And it is that testimony that the Commission will have  
3 to judge and rely upon when they make their final  
4 decision in this case.

5 So we look forward to hearing from you  
6 tonight. We encourage everybody to speak tonight,  
7 whatever your position would be regarding rate  
8 structure or regarding the rate increase. And we do  
9 appreciate your coming out in the evening to express  
10 your views. Thank you.

11 CHAIRMAN CLARK: Thank you, Mr. Armstrong.  
12 Mr. Twomey.

13 MR. TWOMEY: Ladies and gentlemen, I have to  
14 be quick here, we just have five minutes.

15 I want to say, first of all, he says they  
16 lost money. They made \$19.1 million profit on a \$37  
17 million sale. They made 19 million on a sale of \$37  
18 million at Venice Gardens down in Sarasota County.  
19 They kept it off the books so they could claim to  
20 these people that they lost a half a million or  
21 something like that, okay. Sent it off to Minnesota.

22 Now, I want to say to you, those of you from  
23 Sugarmill Woods, we beat the uniform rates last time  
24 in the District Court of Appeals last year. The  
25 Public Service Commission did the right thing, even

1 | though it was their order. They ordered the utility  
2 | to go back to a form of stand-alone rates which has  
3 | those of you -- some of you of Sugarmill paying modest  
4 | subsidies, it helps the rest of you even though your  
5 | rates are high. They ordered them to make \$9 million  
6 | worth of refunds, or thereabouts now, 8.7, whatever, 8  
7 | million. It's going up every month. They refuse to  
8 | do it. They've taken reconsideration. They're going  
9 | to appeal it, so you won't get your money back yet,  
10 | but you will.

11 |           Now, uniform rates, the problem, ladies and  
12 | gentlemen, is that it pits customers against  
13 | customers. There are people here tonight that are my  
14 | clients that are opposed to uniform rates and  
15 | rightfully so. There are other people here that have  
16 | been taught that uniform rates is good because it  
17 | gives you a free lunch. It pits customers against  
18 | customer. It's a conscious tactic on their part, and  
19 | it's wrong.

20 |           And what you need to be aware of, all of  
21 | you, is the underlying problem is this Commission gave  
22 | these people way too much money the last time they  
23 | came around, way too much money, and they are asking  
24 | way too much money this time. And the solution to all  
25 | of your problems is for them not to get any money at

1 all, and then everybody will be okay. That's the  
2 solution.

3 Now, let me tell you something. They've  
4 misled people on some of these bill inserts they've  
5 got. They didn't give you adequate information.  
6 Other folks are going to talk about that.

7 I want to talk about a petition I presented,  
8 if not filed, Monday night in Marco Island that asked  
9 the Commission to hand over this case to an  
10 independent administrative law judge, and I'll tell  
11 you why. What it says is -- and I don't want to act  
12 like a rude dinner guest and talk about money, but I  
13 am a lawyer for you people, not a guest of these  
14 folks. So here's the deal. They make \$96 to \$97,000  
15 dollars a year, someplace in that neighborhood not  
16 counting their benefits. They have some of the most  
17 powerful, prestigious jobs in the state of Florida.  
18 And I'm happy for them. I'm not opposed to that.

19 The problem is this: The single vote that  
20 decides whether these people keep their jobs -- and  
21 three of them are up for reappointment before the end  
22 of the year in 1998 -- is Lawton Chiles, the Governor.  
23 He has the sole vote when it comes down to it.

24 Now, the reason I don't want them to hear  
25 this case, not just on my clients' behalf, but all of

1 you, is that the Lieutenant Governor, Buddy MacKay  
2 stuck his nose in the case, wrote a one-page letter  
3 that transmitted a four-page letter from  
4 Mr. Armstrong's' firm, said he was worried about the  
5 financial viability of the utility, which to me means  
6 he's afraid they didn't get enough of your money,  
7 okay.

8 Commerce Secretary Dusseau also wrote a  
9 two-page letter whining about the same thing. It's  
10 none of his business, none of his business. I'm going  
11 to take his deposition in the next couple weeks. We  
12 are going to find out why. He copied on the letter,  
13 he copied SSU's lobbyist. The letter that came from  
14 the Lieutenant Governor's office had time stamps from  
15 a fax machine that showed that one of the attachments  
16 had been facsimile copied from the firm Capital  
17 Strategies, Inc., which is the firm of their lobbyist,  
18 who just happens to have been a former business  
19 associate of the Governor's son, Bud, okay.

20 Their lobbyist, I say, orchestrated the  
21 whole thing, probably draft most of the letters to put  
22 pressure on these five people, okay. Out of the  
23 Governor's office, he is the sole person who decides  
24 whether they keep these powerful prestigious jobs.

25 The influence, the undo influence is there,

1 ladies and gentlemen. I submit that they can't put it  
2 back. It's like toothpaste out of the tube, and we  
3 can't afford to have them sit in judgment of this case  
4 and have to hope -- I'm not accusing them of a thing.  
5 It's not their fault. It's the Governor's fault, the  
6 Lieutenant Governor's fault for letting this thing go  
7 out. And you can't afford, ladies and gentlemen, when  
8 they come down to the hard decisions in this case that  
9 involves a minimum of \$18 million out of your pockets  
10 to hope that they're not going to have in the back of  
11 their minds someplace a fear, that if they don't make  
12 the Governor's office happy, by making them happy,  
13 that they'll lose their jobs next time around.

14           So you ought to be mad about this. I'm mad  
15 about it. They have the statutory authority to  
16 transfer this case to the Division of Administrative  
17 Hearings to an independent law judge. They can do it.  
18 They could have done it earlier. They can do it now,  
19 and that's what we're asking them to do. If I were  
20 you I would register your concern about this. It  
21 affects all of you, not just my clients, not just the  
22 folks -- we're getting close to five? -- not just the  
23 folks that are my clients losing under uniform rates,  
24 it affects each and every one of you. Thank you very  
25 much. (Applause)

1                   CHAIRMAN CLARK: Mr. Shreve.

2                   MR. SHREVE: Thank you. I've represented a  
3 lot of you over the last 18 years in individual cases  
4 where it was fairly simple, we just put on our case in  
5 opposition to the company. This case is the biggest  
6 mess I have ever seen in my life. It is the most  
7 confused mess. We've been months even trying to get  
8 the right information out to the customers. And it is  
9 understandable that there is a difference of opinion,  
10 about 50/50, on who should pay uniform rates and who  
11 should pay stand-alone rates. Now, I want to put that  
12 aside for a while because Southern States has had  
13 their little meetings all over the state -- I guess  
14 they've had one here -- trying to take the view of the  
15 people away from what's really happening here.

16                   I want to talk about what Southern States  
17 has done, what Minnesota Power has done, since they  
18 came into the picture here in Citrus County. Citrus  
19 Springs, I've represented you before when Deltona was  
20 there. Coming into the last rate case, 1992, the  
21 revenue that Southern States was bringing in from  
22 Citrus Springs was \$269,000 for water. Coming out of  
23 this case, they are asking for \$648,000. There's a  
24 part of your problem.

25                   Now, here's one that I don't even have any

1 idea that I understand. Is anybody here from Gospel  
2 Island? What do you have, about eight customers out  
3 there? That's what they had listed.

4 Now, this is an extreme example, but it's an  
5 example of what's going on. Coming into the '92 rate  
6 case, the last one, that still hasn't been finished or  
7 straightened out, before this one, Gospel Island was  
8 paying in \$1,148 total revenue to Southern States.  
9 Out of the last case, it went up to -- now, not that  
10 you were paying it, but what they were taking because  
11 of your system and what they were using, your system,  
12 to justify it -- \$1,148 to \$10,419. That is  
13 outrageous.

14 Rates are supposed to be fair, just, and  
15 reasonable. The rates that Southern States Utilities  
16 would be charging the Gospel Island customers would be  
17 coming from a \$5 base facility charge, \$1 per 1,000  
18 gallons, I believe is what it was, or a total bill for  
19 6,000 gallons of \$11. Out of the last case, that  
20 would have gone up so that -- you didn't pay it, but  
21 Southern States got the money; they used you to  
22 justify it -- \$38.98 base facility charge and \$11.46  
23 per thousand gallons. The rates are supposed to be  
24 fair, just, and reasonable. That is not fair, it is  
25 not just, and it is not reasonable; and the Public

1 Service Commission never should have given them the  
2 money no matter who it was paid for, nobody.

3 (Applause)

4 Then there is a little trick I still don't  
5 understand, and I have got the figures here in front  
6 of me. They have what is called "indexing" and  
7 "pass-through." I'm sure all of you have seen that,  
8 when you get these increases throughout the years that  
9 you don't get to say anything about. They took that,  
10 your rates, 38.98 and 11.46, which is bad enough, up  
11 to 51.48 and 15.14. Now, how do you get an inflation  
12 increase that comes with that, I don't know. Now, you  
13 weren't paying it, but they were getting it.

14 Somebody needs to get back to basics and  
15 count the money and see what it is. They filed so --  
16 you are right about all the paperwork they've filed,  
17 and I will guarantee you with 150 systems that they've  
18 been allowed to bring in, nobody is going to know  
19 what's going on but Southern States Utilities.

20 Here is a list of the investments they have  
21 supposedly made in Citrus County; and I will guarantee  
22 you, there will be nobody on the Staff of the Public  
23 Service Commission or in my office that will be able  
24 to go to 150 systems and count, or check and see if  
25 they, in fact, were made, or if they paid the right

1 amount for the investment in the first place. It is  
2 not going to be done. It is an unfair situation. It  
3 is just not right to lump that many systems together  
4 and let them walk away with the money.

5           Just for the water -- out of Citrus County,  
6 before they came in -- now, I'm starting not back at  
7 the very beginning, but just before the last rate case  
8 in 1992. In Citrus County water they were bringing in  
9 \$854,000. That's what they were bringing in. So they  
10 come in and they ask for the rate increase. Do you  
11 know what they are asking for from the water  
12 customers, you in Citrus County coming out of this  
13 case? \$2,500,000. (Audience response.)

14           We'd better stop arguing so much about just  
15 the rates. That's an interesting thing and we all  
16 have a position, but the first thing to do is to get  
17 the pot right and back where it should. It's just not  
18 right.

19           In sewer you have one, two, three, four,  
20 five systems. They were taking in \$620,000 before the  
21 case in '92, now they are asking for \$1,105,000.  
22 That's where the money is going. When a rate reaches  
23 a certain point, it is not fair, just, and reasonable,  
24 no matter what kind of points they put on board, no  
25 matter what kind of figures they put out there.

1           They're going around. I know that they have  
2 already been telling some of you probably, I know  
3 they've already told other customers, that they didn't  
4 ask for as much of the interim rate increase as the  
5 Public Service Commission gave them. I don't know if  
6 they told any of you this at the meeting. They said  
7 they asked for less, but the Commission gave them  
8 more. They asked for the whole thing.

9           We tried to raise the fact that they were  
10 putting out misleading information. The information  
11 they put out that they'd requested, they had already  
12 been turned down on. You can't get to the bottom of  
13 the whole thing.

14           We are going to put on a case as best we can  
15 under the time frame we can with 150 utilities in this  
16 case and show that they do not need a rate increase.  
17 As a matter of fact, what they really need, with  
18 what's been happening in the past, is a rate decrease,  
19 count the money and see where it is. And that's what  
20 we need out of this case. (Applause)

21           CHAIRMAN CLARK: Thank you, Mr. Shreve.

22           At this time I would like everyone who is  
23 signed up to provide testimony to stand and raise your  
24 right hand, and I will swear you in.

25           (Witnesses collectively sworn.)

1           Thank you, you may be seated. And,  
2 Mr. Shreve, would you please call the first witness?

3           MR. SHREVE: Be glad to. Somebody up here  
4 must have gotten excited and lost the names.

5           I'm going to start with Mr. Gary Bartell,  
6 Commissioner, representing the County Commission.

7           CHAIRMAN CLARK: Commissioner Bartell, if  
8 you would give us your name and perhaps spell your  
9 last name. It's helpful to the court reporter. And,  
10 also, it would be helpful if customers would give us  
11 their address and let us know from which facilities  
12 you receive service.

13

14

**GARY BARTELL**

15 was called as a witness on behalf of the Citizens of  
16 the State of Florida and, having been duly sworn,  
17 testified as follows:

18           WITNESS BARTELL: My name is Gary Bartell.  
19 I'm a resident of Homossassa Springs. My professional  
20 address is 110 East Main Street, Inverness, Florida.  
21 I am not a customer of SSU.

22           Ladies and gentlemen of the Public Service  
23 Commission, my name is Gary Bartell. I'm a  
24 Commissioner from District 2 of the Board of County  
25 Commissioners of Citrus County. First of all, I would

1 like to welcome you to Citrus County. With me this  
2 evening is my fellow Commissioners, Ms. Vicki Phillips  
3 and Jim Fowler in the back of the room. (Applause)

4 At yesterday's regular session of the Board  
5 of County Commissioners, they unanimously agreed to  
6 have me be their spokesman for this evening, so I am  
7 speaking for the unanimous Board of County  
8 Commissioners.

9 In 1992 the Board authorized our county  
10 attorney, our attorney general to intervene in the  
11 application for the rate increase filed by Southern  
12 States Utilities, which involved over 127 utilities  
13 located in counties scattered throughout the state of  
14 Florida. The reason for the said intervention was the  
15 fact that we found out that the Public Service  
16 Commission was perhaps going to order statewide  
17 uniform rates for Southern States Utilities which had  
18 no basis in law, which would result in an unfair tax  
19 against certain citizens of Citrus County.

20 As a member of the governing body of the  
21 county, I am well aware that it is necessary to tax  
22 one citizen more in order to benefit other citizens  
23 who are less fortunate. But such is the power and  
24 obligation of government in providing necessary  
25 services to its people. It is not the power, nor the

1 responsibility of the Public Service Commission to tax  
2 people of one county in order to provide artificially  
3 lower rates for water and sewer to another county.

4           Fees levied by the Utilities for connection,  
5 operation, and maintenance are just that, fees for  
6 providing the service which must relate by necessity  
7 to the costs of providing such service. It is  
8 therefor impermissible to levy a fee which has no  
9 relation to the cost of the utility service being  
10 provided merely to subsidize a utility customer in  
11 another remote location throughout the state of  
12 Florida.

13           By way of example, Citrus County citizens  
14 living in the Sugarmill Woods community would be  
15 paying over a half a million dollars in increased  
16 utility rates purely for the purpose of subsidizing  
17 the rates of utility customers located in other areas  
18 of the state should the uniform rate system have  
19 ultimately been approved.

20           A more shocking example is the Spring  
21 Gardens system which serves a subsidized housing  
22 development of 38 units called the Homossasa Commons.  
23 Many of these residents are on food stamps, Medicare,  
24 and some have monthly incomes of \$500 or less. Under  
25 statewide uniform rates, they would pay a subsidy of

1 \$23 per month, or about \$280 per year, while some  
2 affluent community receives the benefit of subsidized  
3 rates.

4           Unfortunately, the Public Service Commission  
5 adopted uniform rates which we were forced to appeal  
6 to the First District Court of Appeals. And as we had  
7 felt all along, the court overturned the decision of  
8 the Public Service Commission rejecting uniform rates.

9           I stand before you again, as I did on April  
10 11th, 1994, in Tallahassee, requesting that the Public  
11 Service Commission adopt stand-alone rates, which are  
12 based upon actual cost of providing utility services  
13 to the community that they service. To subsidize  
14 utilities, particularly in the other areas of the  
15 states where comprehensive plans are, in fact,  
16 discouraging growth, is to not only impose an illegal  
17 tax, but to frustrate the legislature's attempt to  
18 provide common sense planning throughout the state of  
19 Florida. Too often, the Public Service Commission has  
20 only given a cursory review of the community's  
21 comprehensive plan when reviewing rate cases and other  
22 decisions with respect to the expansion of utilities  
23 into unserviced areas.

24           As in the first rate case, which was  
25 overturned by the courts, this case is also riddled

1 with irregularities with respect to the application  
2 filed by SSU. By way of example, Florida State  
3 Statutes require that a full set of minimum filing  
4 requirements be available so that effected ratepayers  
5 may have a chance to review those filings and be able  
6 to make intelligent comments at hearings, such as this  
7 one this evening, with respect to the rates increase.

8           In the current rate increase, SSU did not  
9 supply the customer review of Volumes 1 through 6 and  
10 9 through 11 of the original filing. It is only  
11 through a great deal of effort extended by some of our  
12 citizens that they were able to obtain the minimum  
13 filing requirements in order to speak intelligently to  
14 this subject matter.

15           Further, as evidenced by the record of the  
16 Public Service Commission, there has been repeated  
17 ex parte communications between the Lieutenant  
18 Governor, Buddy MacKay, and the Public Service  
19 Commission concerning this rate case. This is a  
20 violation of Section 350.042 which discourages such  
21 communication and requires disclosure.

22           In closing, I would like to reiterate that  
23 the Board of County Commissioners of Citrus County  
24 supports stand-alone rates which are based upon the  
25 actual cost of providing utility services. That if

1 the Public Service Commission feels compelled to  
2 provide for subsidies that it approve a modified  
3 stand-alone rate system that would not exceed a  
4 subsidy cost of more than 5%.

5 We would respectfully request that the  
6 Public Service Commission adopt final rates which are  
7 just and in accordance with the laws of the state of  
8 Florida so that perhaps the citizens of Citrus County  
9 and the ratepayers of SSU will no longer have to  
10 endure expensive litigation and can get on with their  
11 lives without having to be involved in a continuous  
12 battle for reasonable utility rates.

13 I would just like to conclude by agreeing  
14 with Mr. Shreve. I think that this board needs not  
15 only to deny the rate increase, but needs to look at a  
16 rate decrease. Thank you very much. (Applause)

17 CHAIRMAN CLARK: Thank you, Mr. Bartell.  
18 When people come up to testify there is an opportunity  
19 for the attorneys to ask questions, they usually  
20 don't, but I have to provide that opportunity.

21 Mr. Armstrong.

22 MR. ARMSTRONG: No questions.

23 CHAIRMAN CLARK: I do have a question.  
24 Commissioner Bartell, as far as I know, I have only  
25 received one letter from the Lieutenant Governor and

1 one from the Secretary of Commerce. That's the only  
2 correspondent I have received, and I put that on the  
3 record so the parties can see it. Those are the only  
4 correspondence that I have received.

5 WITNESS BARTELL: And we do commend you for  
6 putting it on the record, but as the Florida State  
7 Statute says, that there would not be any ex parte  
8 communication. And I appreciate you --

9 CHAIRMAN CLARK: Well, I've been trying  
10 to -- a lot of times people don't know, and we have  
11 been putting it on the record so people have the  
12 opportunity. But you indicated there were repeated  
13 violations. I want you to know those are the only  
14 two. I've gotten one from the Lieutenant Governor and  
15 one from Commerce.

16 WITNESS BARTELL: Thank you, Mrs. Clark.  
17 Thank you, members of the Public Service Commission.

18 CHAIRMAN CLARK: Thank you.

19 MR. SHREVE: Thank you, Commissioner.

20 (Witness Bartell excused.)

21 - - - - -

22 MR. SHREVE: While Mr. Shackelford is  
23 getting ready, I don't know what it is, it's  
24 whistling, or a speaking playing back, or something,  
25 but there's something that's really interfering with

1 mine and probably part of the people out here.

2 CHAIRMAN CLARK: Are you saying there is a  
3 buzz? I mean, I hear the echo, but I don't know that  
4 there's much we can do about that.

5 MR. SHREVE: There was a whistling coming  
6 back from the back as well as -- do you think there  
7 must be a speaker or something back that way that's  
8 interfering? That seems to be a little better now.

9 CHAIRMAN CLARK: Go ahead, Mr. Shackelford.

10

- - - - -

11

**RAY SHACKELFORD**

12 was called as a witness on behalf of the Citizens of  
13 the State of Florida and, having been duly sworn,  
14 testified as follows:

15 WITNESS SHACKELFORD: Commissioners, ladies  
16 and gentlemen, my name is Raymond Shackelford. I live  
17 in the Rosemont community. My address is 8830 East  
18 Maplewood Street, Inverness 34450-7370. My phone  
19 number is 352-344-8836.

20 I passed to the Commissioners a copy of my  
21 presentation. It doesn't have all of my comments, but  
22 it has the basic thrust of my comments. And I would  
23 have had a fifth copy for the fifth one, but I had to  
24 look at my money, and I had to put some back for this  
25 massive increase on this water I've got coming, so I

1 could only copy four copies.

2           In the past couple of years, from one  
3 citizen, this represents some of the work that I've  
4 had to do fighting the rate increases that's been  
5 asked over the past four years -- five years,  
6 actually. Now, we citizens of the Rosemont Rolling  
7 Green subdivision of Citrus County are here tonight to  
8 express vehement opposition to the interim modified  
9 stand-alone rates that have been levied against us.  
10 It seems unconscionable to us that our representatives  
11 would permit Southern States Utilities an increase in  
12 excess of 360% on our base rate and 130% on the  
13 gallonage, an increase of \$39 per month. This raises  
14 our rate to \$59 under your modified stand-alone rate  
15 that you recently approved.

16           These rates cannot be justified by any  
17 stretch of the imagination, and I am prepared to give  
18 examples why this is true. What you are about to hear  
19 may sound like something out of the Keystone Cops  
20 episodes, but to us it's been a nightmare.

21           But, first, let me say that we did support  
22 the uniform rate structure the PSC implemented in  
23 1992. We believe that any of the other approaches  
24 listed on your interim and final rate chart, we  
25 recently received, will be as unworkable and

1 unmanageable as the specific stand-alone rate  
2 structure you threw out in 1992 and again rejected in  
3 1993.

4           We were told that the court ruled that the  
5 Public Service Commission did not have the authority  
6 to establish a uniform rate structure, but recently we  
7 hear that is not exactly what the court said. We  
8 would appreciate the PSC, or rather your  
9 representative, explain just where this issue stands  
10 with the courts today. It seems everything we get  
11 from the media and from Southern States Utilities and  
12 from the Commission is in conflict with the other.

13           We believe the PSC not only has the  
14 authority to establish and control rates, because  
15 that's what your charter says, but you also have the  
16 authority to establish the method for doing so. Some  
17 say you cannot have a uniform rate unless all water  
18 plants are interconnected. This reasoning is flawed  
19 and not valid because there are cities, towns, and  
20 counties, throughout Florida, and other states, which  
21 have unconnected plants or wells, yet they have  
22 uniform rates.

23           Workers and former workers of the county  
24 water systems in Citrus have said that this is, in  
25 fact, the case here in Citrus County. If true -- and

1 I say, if this is true, then it begs for reason as to  
2 why the county commissioners would vote to give many,  
3 many thousands of Citrus County taxpayers' dollars to  
4 a lawyer hired by Sugarmill Woods to fight uniform  
5 rates in direct opposition to the other citizens of  
6 this county, thereby pitting one community against the  
7 other.

8           Now to the reasoning why we believe the  
9 stand-alone structure has not worked in the past for  
10 the good of the citizens or the physical  
11 responsibility. We will show that each stand-alone  
12 plant has never been adequately investigated,  
13 analyzed, or studied as Commissioner Bartell seems to  
14 think has happened in the past to determine increased  
15 or decreased rates. To prove the point, I offer the  
16 following statements and a case history for Rosemont  
17 and Rolling Green.

18           During community meetings, without public  
19 counsel representatives and others from Tallahassee,  
20 some have made documented statements as follows:  
21 Rather than separate proposals -- I quote, "Rather  
22 than separate proposals for individual facilities, the  
23 Company has combined all into one package." At that  
24 time it was 127. "However, the PSC has given itself  
25 the same amount of time as if it were a single

1 application." Continuing the quote: "A typical rate  
2 increase request takes about eight months. It is an  
3 impossible situation. There is no way this time  
4 frame, anyone, can make sense of this," end of quote.

5 Now, under stand-alone rates, you would have  
6 to conduct 127 separate investigations, instead of the  
7 one under a uniform rate system. It seems clear to  
8 the majority of us in Rosemont and Rolling Green that  
9 the stand-alone rates are totally unmanageable and  
10 certainly not cost-effective.

11 During yet another meeting, Public Counsel  
12 stated, quote: "With so many separate requests, it is  
13 impossible to manage it. Now, if it's impossible to  
14 manage stand-alone rate structures, then why in the  
15 world are we continuing with it?"

16 Yet at another meeting, an audio take that  
17 is somewhat garbled can be understood to say,  
18 "Spreading costs from one system to another is going  
19 on. If one plant needs, say, a 94% increase, some of  
20 it would be spread to other plants. All we can do is  
21 try to hold down the overall rate increase."

22 Now, that's not correct. If you don't look  
23 at each individual system, somebody is going to get  
24 bit; and we have been bitten in Rosemont and Rolling  
25 Green. I am convinced we have never functioned under

1 a true or even a modified stand-alone rate system that  
2 is a true stand-alone rate system where, as  
3 Mr. Bartell said, would require individual analysis  
4 and studies. And by their own words of our people in  
5 Tallahassee, that's an impossible situation.

6           These past actions in this water rate  
7 process is proof positive that we, the consumers, have  
8 not been protected from unjustified gauging by this  
9 water company. The current request is certainly no  
10 different.

11           Now, to show that the request received by  
12 the Commission from SSU are highly suspect, I offer  
13 the following facts as pertains to their request of  
14 1992, the test year being 1991, which helped at that  
15 time to convince the Commission the stand-alone system  
16 was not working and that uniform rates was the only  
17 way they could go and then keep a handle on the  
18 Company. I will use the case concerning Rolling Green  
19 and Rosemont communities.

20           During 1991 SSU completely rebuilt the water  
21 plant in the Rosemont subdivision. For the most part,  
22 to provide water from our well in Rosemont to the  
23 Rolling Green community, approximately a half a mile  
24 down the road. While they, that's the Company, will  
25 state that other considerations were involved, the

1 major reason was because their plant that was located  
2 in that community was failing, losing pressure, and  
3 otherwise inadequate.

4           While we in Rosemont fought diligently  
5 against the expansion of our smaller system, which was  
6 adequate for Rosemont, SSU continued to build, was in  
7 violation of special county codes of several county  
8 codes for that location. However, they were too  
9 powerful a force for the county planning board and for  
10 the 33 homeowners of Rosemont, and we were defeated.

11           SSU claimed the project cost \$275,000. Part  
12 of the project was for the complete close down and  
13 dismantling of the plant in Rolling Green once they  
14 came on line with the massive plant they put in our  
15 front yards. However, when SSU submitted -- now,  
16 here's where the point lies that you cannot believe  
17 anything they put out -- however, when SSU submitted  
18 their rate increase request in 1992, it showed both  
19 communities as having its own separate plant. And I  
20 will refer you to the enclosure that I have given four  
21 of you up there.

22           SSU actually lowered the average monthly  
23 rate for the Rolling Green customers, but have  
24 amortized the total \$275,000 to the 33 customers of  
25 Rosemont. They had asked to increase Rosemont's base

1 rate at that time from \$5.20 to a massive \$28.75, a  
2 whopping 450% increase. The gallonage increase from  
3 \$1.21 to 2.33, over 100% increase. Based on our  
4 average usage in Rosemont, at that time our average  
5 monthly bill would have risen from \$20 to \$52, a \$32  
6 increase.

7           Had SSU used proper accounting and  
8 management at that time and spread the cost to the  
9 total number of users, that's 33 at that time in  
10 Rosemont -- and that has gone up since then; we have  
11 new homes -- and 73 in Rolling Green, and that has  
12 risen, their request could not have possibly been for  
13 more than \$8 per month average from each customer.

14           I testified during your hearing for that  
15 rate request. The former president, Mr. Phillips, of  
16 SSU was in attendance at that meeting, and after  
17 hearing my complaints, asked to meet with me. The  
18 meeting was later held at my home in Rosemont. All  
19 agreed that a bad error had been made. No admission  
20 that there was mismanagement or inefficiency.  
21 Mr. Phillips agreed to have his people make the  
22 correction and have it to the Commission before the  
23 next scheduled hearing meeting of that hearing process  
24 that year.

25           But to my amazement, the so-called corrected

1 rate sheet did nothing more than to show that Rosemont  
2 and Rolling Green now were served by the same plant,  
3 but they still were asking for a 450% increase from  
4 all of its customers. Not just the 33 customers, but  
5 all the rest. (Audience response)

6           If this was not challenged and if it is not  
7 challenged at this time, SSU will reap additional  
8 millions of dollars over the amortized period. Common  
9 sense says if you've got 33 customers paying \$275,000  
10 back with that much of an increase, that when you  
11 multiply that by five more groups of people, or  
12 another community, up to 120 people, common sense  
13 tells you that the percentage of increase should be  
14 only one fifth.

15           We believe those baseline erroneous  
16 stand-alone figures were the departure point for this  
17 late assault on us. If one were to take the \$275,000  
18 renovation cost in 1991 and added the minimal  
19 operating cost from this new plant over these  
20 additional years, there is no way to justify the  
21 present interim modified stand-alone rate increase of  
22 360%. That's what you people just put on us in  
23 Rosemont and Rolling Green, and 129% gallonage rate  
24 for all 119 customers of the two communities.

25           Now, this makes the third time that I have

1 testified before the Commission with numerous  
2 discussions and letters to the consumer affairs  
3 office, and the Public Counsel Office, and to the SSU  
4 people with no relief on this specific matter. I  
5 suppose no action was taken to correct any of this  
6 because PSC established the uniform rates in 1993 so  
7 this became a dead issue. However, it's now raised  
8 its ugly head again under your modified stand-alone  
9 rates. So somebody has got to come back and look at  
10 this plant as Mr. Bartell recommends that we do if you  
11 are going have a stand-alone rate system and do an  
12 adequate, efficient study to get those rates back down  
13 to where we can live with them. (Applause)

14 We believe and I believe -- (Audience  
15 response.)

16 CHAIRMAN CLARK: Mr. Shackelford --

17 WITNESS SHACKELFORD: -- that you junk --

18 CHAIRMAN CLARK: Mr. Shackelford, just a  
19 minute. I don't put a time limit on anyone during  
20 these hearings, and I ask simply that the customers be  
21 aware of the fact, that we have at least 30 people who  
22 have signed up to speak, and we need to be fair, and  
23 let our fellow customers speak.

24 WITNESS SHACKELFORD: I'm about to finish.

25 CHAIRMAN CLARK: Thank you.

1                   WITNESS SHACKELFORD: We recommend that you  
2 junk the stand-alone and modified stand-alone system  
3 and return to the uniform rates where your people and  
4 the people's representatives will be able to provide  
5 the citizens with adequate analysis and study of each  
6 of the systems, of their overall rate requirement.  
7 Our people, mostly citizens, are mostly retirees on  
8 fixed incomes. Several of them are shut ins unable to  
9 fight for themselves. We cannot stand for this kind  
10 of treatment from this Company and from those who are  
11 supposed to protect us. Thank you. (Applause)

12                   CHAIRMAN CLARK: Thank you, Mr. Shackelford.  
13 Are there any questions?

14                   MR. TWOMEY: I do. Mr. Shackelford? Sir?

15                   WITNESS SHACKELFORD: Yes.

16                   **EXAMINATION**

17 BY MR. TWOMEY:

18                   Q     Over here. I want to ask you a few short  
19 questions because I, too, don't think this thing was  
20 addressed properly in the last couple cases.

21                             Now, isn't it your testimony essentially  
22 that the plant improvements that were made to join  
23 Rolling Green to Rosemont were necessitated by the  
24 failure of their plan and not necessary to provide you  
25 service, right?

1           A     Well, as I told you, you'll have to talk to  
2 Southern States Utilities on that because they did  
3 have -- they had several reasons that they claim, but  
4 we in Rosemont had no complaint on our water system.  
5 They said that the iron was too high, or something,  
6 and that they were going to put on line the bigger  
7 well. See, we had two wells in our location, a large  
8 one and a small one. We were operating off the small  
9 one; SSU owned the larger one. So when the one failed  
10 up in Rolling Green, they came down and activated the  
11 larger well, built a new system, moved their tank from  
12 down in Rolling Green, brought the 10,000 gallon tank  
13 in our front yard and piped the water back up to them.

14           Q     You said they defeated you, right?

15           A     Yeah. We were fighting to keep our separate  
16 system. Yeah, the Rosemont system.

17           Q     Isn't it true, to your knowledge, that there  
18 was an alternative discussed about them serving  
19 Rolling Green from the city of Inverness?

20           A     I believe there was. I'm not sure.

21           COMMISSIONER GARCIA: Mr. Twomey, before you  
22 get off that, can I ask a quick question?

23           MR. TWOMEY: Yes, sir.

24           COMMISSIONER GARCIA: Was that, the need to  
25 combine to those systems, based on the growth of

1 either of those communities? Was there like a --

2 WITNESS SHACKELFORD: No.

3 COMMISSIONER GARCIA: Were you promoting it  
4 or anything?

5 WITNESS SHACKELFORD: No. However, you need  
6 to know that that system, that system is large enough  
7 not only to take care of Rolling Green and Rosemont,  
8 but for many, many more customers in the future, which  
9 it did.

10 COMMISSIONER GARCIA: Do you think it was  
11 designed with that intent to accommodate for large  
12 growth?

13 WITNESS SHACKELFORD: Oh, yes. Oh, yes,  
14 absolutely. Their engineers will tell you that, so  
15 would their lawyer.

16 COMMISSIONER GARCIA: And I just want to  
17 make sure I got this at the end. You believe that you  
18 would like to see the Commission implement a uniform  
19 rate?

20 WITNESS SHACKELFORD: I think the only way  
21 to go is a uniform rate across the board, yes.

22 (Audience response.)

23 Q (By Mr. Twomey) Wait a minute.

24 Mr. Shackelford, I'm not through. I'm sorry.

25 Isn't it an alternative to uniform rates,

1 Mr. Shackelford, that is to get your bills down, isn't  
2 an alternative to that possibly that you just be  
3 charged for the plant necessary to provide you  
4 service? You were doing okay back in 1991, weren't  
5 you?

6 A Oh, yes, we were doing fine.

7 Q Now, what was the bad error that  
8 Mr. Phillips admitted to you in your home?

9 A The rate structure that they asked for, all  
10 \$275,000, be amortized to the 33 customers of Rosemont  
11 versus spreading it over all the 120 customers at the  
12 time.

13 MR. TWOMEY: I see.

14 COMMISSIONER GARCIA: And just so I can get  
15 that precisely -- back over here -- he stated to you  
16 that they wanted the 33 customers of Rosemont to pay  
17 that --

18 WITNESS SHACKELFORD: No, he didn't say he  
19 wanted us to do it, he admitted that the request was  
20 incorrect. And our point was that if it was  
21 incorrect, then somebody's not managing the cost  
22 incurred; they cannot show adequate justification for  
23 what they lost or gained at any time. Something's  
24 wrong with the accounting system.

25 COMMISSIONER GARCIA: Thank you.

1 Q Now, sir, you said -- I'm sorry, over here  
2 again.

3 A I've got bad eyes.

4 Q Yes, sir. Do you feel that the Public  
5 Service Commission adequately looked at the details --

6 A Absolutely not.

7 Q -- in 1993?

8 A Absolutely not.

9 Q And there were 127 systems involved then,  
10 right?

11 A Yes.

12 Q And I thought I heard you say earlier in  
13 your presentation that you think it's essential that  
14 the Commission and Public Counsel and other lawyers  
15 have an opportunity to examine each system in detail.

16 A If you are going to go to a stand-alone  
17 system, sir, you are going to have to do that.

18 Q Yes, sir, but let me ask you this.  
19 Mr. Shackelford, isn't it just as important that the  
20 Commission, and your lawyer, Public Counsel, has an  
21 opportunity, and I have an opportunity for my clients  
22 to examine these systems in detail and stop them  
23 from -- (Simultaneous conversation.)

24 A You absolutely --

25 Q -- irrespective of whether it's --

1           A     Irrespective of the structure that you pick.

2                   MR. TWOMEY: Thank you very much.

3                   CHAIRMAN CLARK: Thank you, Mr. Shackelford.

4     (Applause)

5                   (Witness Shackelford excused.)

6                                   - - - - -

7                   MR. SHREVE: Mr. Caldera.

8                   CHAIRMAN CLARK: Go ahead Mr. Caldera.

9                                   - - - - -

10                                   **DANTE J. CALDERA**

11     was called as a witness on behalf of the Citizens of  
12     the State of Florida and, having been duly sworn,  
13     testified as follows:

14                   WITNESS CALDERA: My name is Dante J.  
15     Caldera. I live at 8850 East Rosemont Street in  
16     Inverness, the Rosemont section of Citrus County. My  
17     telephone number is 860-0725.

18                   Ladies and gentlemen, during the past six  
19     months or so, we have been receiving information from  
20     SSU and the newspapers regarding the application of  
21     Docket No. 950495-WS by SSU for a rate increase to  
22     compensate the Company for their water and wastewater  
23     facilities' operation. The information we have been  
24     exposed to is confusing, to say the least.

25                   As an example, SSU states that they have 152

1 facilities in one correspondence, and 127 in two  
2 others. The Chronicle states that the Company has 150  
3 facilities. The St. Petersburg Times states that the  
4 Company has 127 facilities. Question, how many  
5 facilities are there?

6 The St. Petersburg Times states in its  
7 January 8, 1996 edition, Page 10A that, quote: "The  
8 First District Court of Appeals last year correctly  
9 ruled that the PSC didn't have the authority to  
10 approve uniform rates in the absence of a central  
11 system." So the PSC ordered an \$8 million refund.  
12 The Company responded by filing for a \$12.3 million  
13 increase. What has become of the refund? (Audience  
14 response.)

15 On Thursday, January 4th, the Public Service  
16 Commission approved an interim rate increase designed  
17 to produce additional revenues of 3.1 million for the  
18 Company's water operation and 2.8 million for  
19 wastewater operation. An article in the January 5,  
20 1996 issue of the Chronicle mentions that Mr. Hansen,  
21 speaking for Sugarmill residents, states that the  
22 current uniform water rates will drop under the new  
23 approved interim rates.

24 Question, unless Mr. Hansen's statement is a  
25 personal opinion, how can the lowering of rates by

1 Sugarmill Woods achieve the additional revenue granted  
2 by PSC to SSU? Please note that by lowering the rates  
3 in one area, you must raise the rates in another in  
4 order to achieve a balanced return. How can this be  
5 justified?

6 A notice from SSU, dated January 9, 1996,  
7 attempts to compare the uniform rate versus a  
8 stand-alone rate as to how they affect the consumer of  
9 Southern States Utilities. There is no logical  
10 description in this notice as to how these figures are  
11 arrived at. The only way I could rationalize the  
12 amounts stated was to go back to the undated  
13 tabulation that was labeled Plant 988/985, and I have  
14 it attached to what was distributed to you.

15 Using the figures presented in the columns  
16 under the potential final rates and calculating the  
17 results, using a consumption 12,577 gallons per month,  
18 which is a figure that was used by SSU, the question  
19 is here, where are the actual analyses describing the  
20 cost of operation and improvements claimed by SSU for  
21 updating the standards to comply to EPA's  
22 requirements?

23 CHAIRMAN CLARK: Mr. Caldera?

24 WITNESS CALDERA: Yes.

25 CHAIRMAN CLARK: Let me ask you a question.

1 I notice that you are basically following what you  
2 provided here.

3 WITNESS CALDERA: Yes.

4 CHAIRMAN CLARK: And I do have a concern  
5 that we have a lot of people that want to testify, can  
6 you summarize this?

7 WITNESS CALDERA: I will summarize.

8 CHAIRMAN CLARK: And let me tell you one  
9 other thing. We can answer your specific questions.  
10 We have Staff here. My aide is in the back, and he's  
11 capable of answering these questions.

12 WITNESS CALDERA: Okay, sure. All right.  
13 What I have done is I have prepared an exhibit here  
14 which shows the actual gallons used by one family, and  
15 that comes to 22,000 gallons. Now, based on the  
16 present rates, the existing rates as they stand, the  
17 cost is \$386.28 a year. Then what we have here also  
18 is the present rates compared to the proposed interim  
19 rates which shows a 31% increase. And the stand-alone  
20 rates, they go from 5.13 up to \$23.15. That's a 351%  
21 increase. I don't see how or where the justification  
22 is for such an increase. I have the same figures for  
23 the gallonage consumption.

24 My next point is that PSC approved about 42%  
25 of the requested increase. Now, based on this 42%

1 increase, I have gone through a number of figures, and  
2 I will summarize. The approved rates will go from,  
3 basic, from 5.13 to 5.79; and the gallonage rate will  
4 go from 1.33 to 1.39. Now, cost on the approved  
5 interim rates, everything based on 22,000 gallons,  
6 will show an increase of 12% on the approved interim.  
7 Now, cost based on the SSU proposal goes to a 76%  
8 increase.

9           Now, again, we have, the basic facility, if  
10 it goes to \$23.15 and the consumption based on what  
11 SSU said, we will have \$94 a month, or \$1,133 a year,  
12 for a 22,000 gallon consumption. Ladies and  
13 gentlemen, if you analyze these exhibits presented to  
14 you, I'm sure you will be left with three questions in  
15 mind, at least these three: What is the real basis  
16 for the requested hikes as presented to you? What  
17 justification is there for a rate hike that approaches  
18 200%? And is such a rate justified?

19           In spite of all I have said and the  
20 confusion created by the data presented, I must admit  
21 that any company is not unreasonable for asking for a  
22 10% return on its operation. But this return must  
23 also be based on solid facts and expenditures for  
24 operation versus the income levied on the customer.

25           In closing, I would like to make the

1 following recommendation as seed for thought. Florida  
2 depends strongly on its aquifer for portable water,  
3 therefore, if we are looking to save water and at the  
4 same time offer the utility company an equitable  
5 return for its operation of the systems, why not  
6 consider a uniform rate and a graduated rate charge.  
7 The user gets to pay a basic rate for water  
8 consumption, let's use the 20,000 gallons per month,  
9 and after that a stepped up rate for the next 10,000.  
10 And again, another stepped up rate over the 30,000.  
11 This system will deter the user from using water  
12 indiscriminately and save our aquifer from depletion.

13           Finally, I would like to add that something  
14 does not fit. And if it doesn't fit, look into it.  
15 Thank you. (Applause)

16           CHAIRMAN CLARK: Thank you, Mr. Caldera.  
17 What I'd like to do, since you did abbreviate your  
18 presentation, we will mark this as the next exhibit  
19 number, Exhibit 32. And I'll make sure the court  
20 reporter has a copy of that.

21           (Exhibit No. 32 marked for identification.)

22           CHAIRMAN CLARK: Are there any questions of  
23 Mr. Caldera?

24           MR. TWOMEY: Just one. Yes, sir, did SSU  
25 provide a meeting or a presentation to your community

1 prior to this meeting?

2 WITNESS CALDERA: No, it did not, not to my  
3 knowledge. If it did, I don't know.

4 MR. TWOMEY: Thank you.

5 (Witness Caldera excused.)

6 MR. SHREVE: Mr. Radford.

7 - - - - -

8 **W. T. RADFORD**

9 was called as a witness on behalf of the Citizens of  
10 the State of Florida and, having been duly sworn,  
11 testified as follows:

12 WITNESS RADFORD: And I do thank you.  
13 Ladies and gentlemen of FPSC, I'm concerned tonight  
14 with water charges and not wastewater, so anything I  
15 have to say will have to be directed to water.

16 COMMISSIONER DEASON: Sir, we need to get  
17 your name and your address for the record.

18 WITNESS RADFORD: I'm going to give it right  
19 this minute, Terry. My name is George Radford, I live  
20 in an area located on Highway 41 North, right outside  
21 the city limits of Inverness, Florida. There are 240  
22 lots in the subdivision where we live with  
23 approximately 90 homes being served with water by  
24 Southern States Utilities.

25 COMMISSIONER GARCIA: Sir, real quick, could

1 you just give us your address, if you've got one?

2 WITNESS RADFORD: 910 North Sabal Palm Way,  
3 Inverness 34453.

4 COMMISSIONER GARCIA: And the system that  
5 you belong to?

6 WITNESS RADFORD: I belong to Southern  
7 States Utilities system.

8 COMMISSIONER GARCIA: Right, but the  
9 particular --

10 WITNESS RADFORD: I come from the Lakeside  
11 Country Club.

12 COMMISSIONER GARCIA: Thank you.

13 WITNESS RADFORD: I was going to read that  
14 in there in just a minute, but I want to make a  
15 comment about that.

16 COMMISSIONER GARCIA: All right, thank you.

17 WITNESS RADFORD: Okay. Now, can I go back?  
18 And please don't cut me off. (Laughter)

19 And I'm going to talk fast. I'm  
20 representing about 90 people in this room -- well,  
21 maybe not that many. There are 240 lots in the  
22 subdivision where we live with approximately 90 homes  
23 being served with water by Southern States Utilities.  
24 All the lots have waterlines to serve future growth if  
25 there is any. I'll explain later why I said that.

1 The Southern States Utilities bought the water system  
2 serving our area in March of 1995, when we received  
3 our first bill for water.

4 There is a large group of our folks  
5 attending this meeting. We belong to our group  
6 association known as the Connell Lake Estates  
7 Homeowners Association. I have been the president of  
8 our association for two years and been closely and  
9 deeply involved with FPSC, FPC and SSU.

10 Our association asked me to alone address  
11 this group tonight about the issues we are facing in  
12 our representative consensus. I'm also going to give  
13 you a petition signed by 89 individuals. I must  
14 confess that four of our folks would not sign our  
15 petition, and here's why. You know what they said?  
16 They said you fine people from FPSC had already made  
17 up your minds, and no matter what we said, we could  
18 not make a difference here tonight. And I don't  
19 believe that. (Applause)

20 There's a large group of us in this room who  
21 do not believe that. The area where I live, and I  
22 refer to it as Lakeside Country Club, but please do  
23 not let the word "Country Club" raise any dollar signs  
24 in anyone's mind. (Laughter)

25 We're not that kind of ritzy country club.

1 Only a very few middle-class retired group of folks,  
2 most of whom do not even belong to the country club.  
3 We have been for at least 12 years using water  
4 distributed -- listen to this -- free of charge, how  
5 about that, until Southern States Utilities, Apopka,  
6 Florida purchased our water system. You cannot get  
7 water any cheaper than that. We knew eventually there  
8 would be a charge for water, but never in our wildest  
9 dreams and imaginations did we ever believe that our  
10 water could be in future days -- cost so much.

11 We had a good system, and the water was  
12 good; we certainly were not complaining. We never  
13 heard of SSU before being notified in November of 1944  
14 that they were going to buy the system and the deal  
15 was to be consummated within 30 days. Needless to  
16 say, we were shocked and took appropriate action to  
17 delay the sale until we could investigate our options.

18 I learned an awful lot about the water  
19 situation in the state of Florida following that  
20 notification. I perceived early on that were two  
21 groups of water users in Florida who were at odds with  
22 one another about the rate structure being used by  
23 Southern States Utilities. To some extent, I  
24 understand their concerns. But I firmly believe there  
25 are abundantly more reasons to stay the course with

1 uniform rates. Please let me explain.

2 Our homeowner association seriously  
3 considered buying our system. We knew how much SSU  
4 was going to pay for it, \$119,625, a good buy, so we  
5 could objectively figure our options. During this  
6 time we learned how much the city of Inverness and  
7 Citrus County were charging their water customers, and  
8 we especially took notice of the Citrus County water  
9 charges because the county owns 12 small water systems  
10 about the same size of our system.

11 The uniform rate system is used by Citrus  
12 County, and none of the systems are contiguous. If we  
13 knew then what we know now, we somehow would have  
14 bought the system, and we wouldn't be here tonight.

15 Both the city of Inverness and Citrus County  
16 charge their water customers a little more than the  
17 uniform rate which SSU charges their customers all  
18 over the state of Florida. When I found this out, it  
19 spread to our homeowner's association. I called a  
20 meeting and gave the members this information. We  
21 were told and believed our rates would be the uniform  
22 rate. A decision was made at that meeting to stand  
23 aside our objection to the purchase of our water  
24 system by SSU.

25 Southern States took control of our system

1 in March of 1995, less than a year ago. At that time  
2 we did not understand that SSU could use a figure of  
3 \$340,000 to use as a rate base to charge for water.  
4 See, that brings up an important point to us on a  
5 stand-alone basis. We feel such a concession is  
6 unconscionable. I understand that in my way of  
7 thinking, SSU, when they buy, they bulk their water  
8 system. My Lord, suppose we paid \$8 million for the  
9 system, what would they charge?

10 Now, we find ourselves in a pickle. Please  
11 do not let us be pickled. We have feelings and much  
12 concern to our friends who have been suing SSU and you  
13 at the FPSC. There are considerably more SSU water  
14 users in the state of Florida being served by smaller  
15 water systems than the number being served by the  
16 larger water system who have complained about the SSU  
17 uniform rate. It is sad that these numbers, our small  
18 systems, are fragmented and, therefore, are not  
19 represented by lawyers as the larger groups are. All  
20 of us are relying on your good judgment to understand  
21 the dire consequences if we were to be charged as an  
22 independent water unit.

23 I'm not an attorney and surely hope it makes  
24 no difference to you. Our current in uniform rates  
25 for 10,000 gallons is \$17.43. Using the SSU

1 stand-alone rate, the 10,000 gallons would cost us  
2 \$81.41; and we're now paying \$17.43 for 10,000  
3 gallons. The modified rate for 10,000 gallons is  
4 less, but I'm going to skip that.

5 I do not think anyone in the state had an  
6 increase such as that. There was a small increase in  
7 some of the systems, but nothing to compare to ours  
8 and others in the state. Now, let me read something  
9 to you. Spring Hill, September 1988, were paying  
10 \$2.75 base, plus 74 cent gallonage. 10,000 gallons of  
11 water cost them \$10.15. Today it costs them \$17.34  
12 for water. That's only a \$7 increase for 10,000  
13 gallons, and that ain't bad.

14 Now, Sugarmill Woods were hurt worse. Their  
15 base rate in 1988, December, was \$9.96 base, 57 cents  
16 per 1,000 gallons. Now, that's cheap water, folks.  
17 Their developer must have been paying for some of that  
18 water. But, anyway, 10,000 gallons of water cost them  
19 \$7.66. I'm not talking about wastewater, just water.  
20 Now, they are paying \$17.43 for 10,000 gallons, which  
21 ain't too bad, I don't think.

22 There must be some sort -- listen to this,  
23 folks -- there must be some sort of a compromise or  
24 middle ground the PSC and the SSU can take to cause a  
25 welcome relief. Someone must be able to figure out a

1 way to use the uniform rate and not cause such weeping  
2 and wailing and gnashing of teeth among so many water  
3 users in Florida, and here in this room. All of this  
4 just makes common sense. Why should SSU be required  
5 to seek rate adjustments of 127, or more systems,  
6 which they own as opposed to asking for just one rate  
7 increase.

8 I can say this for sure. They will not be  
9 able to get such a large increase when they are  
10 looking at all of the users in the state as compared  
11 to each small group individually. Let's not be  
12 shortsighted, but look at the long time frame.

13 I'd hate to be part of one of the large  
14 systems and have a major overhaul of the system and be  
15 charged on a stand-alone basis even. The rate base  
16 expense could extend to all customers with uniform  
17 rates if we did it that way. It really scares me that  
18 our rate structure can possibly be based on such a  
19 small system as ours and have to pay the entire cost  
20 of major overhaul and repairs, and it is not the  
21 smallest in SSU's portfolio.

22 Referring to the fact that Southern States'  
23 systems are not contiguous, therefore, they cannot  
24 charge uniform rates. There certainly is nothing in  
25 Florida that is more contiguous than the water aquifer

1 from which our water is drawn. Everyone in this room  
2 should know that not only do the electric companies  
3 and telephone companies have uniform rates, but the  
4 biggest of all of the insurance companies.

5 Insurance companies are certainly not  
6 contiguous. A primary example of cost shifting  
7 occurred after Hurricane Andrew, and many companies  
8 just quit writing. Or they raised their rates, and  
9 they're still raising them. Is there anyone in this  
10 room who has not been affected? Just think what could  
11 have happened in Florida and other states if the  
12 insurance companies attempted to charge the rate based  
13 on the location where those terrible hurricanes passed  
14 through. I'm concerned. I'm about through. I'm  
15 concerned. (Audience response.)

16 I wish you all would let me talk. I won't  
17 do that to you. (Applause)

18 CHAIRMAN CLARK: Mr. Radford --

19 WITNESS RADFORD: I'm about done.

20 CHAIRMAN CLARK: I understand you are not  
21 done, but let me ask the audience to extend to you the  
22 courtesy of letting you finish your talk, and I would  
23 ask you in future, please let each person who has come  
24 up to talk have their say. (Applause)

25 I realize there are disparate opinions here.

1 We are here to hear from you, but we cannot hear if we  
2 hear a lot of rumbling in the audience. Please be  
3 courteous to your fellow customers.

4 WITNESS RADFORD: I thank you for that. I  
5 appreciate it very much.

6 CHAIRMAN CLARK: Go ahead.

7 WITNESS RADFORD: I'm concerned this room is  
8 not filled with real estate people, salespeople. And  
9 I'm also concerned it's not filled with builders who  
10 will have the problems of selling homes and property  
11 in the area when it becomes known by buyers what they  
12 will have to pay for water. I don't know if you all  
13 have heard from any of those people or not, but they  
14 ought to be concerned about it. The value of our  
15 homes will be devalued if, in fact, they become  
16 increasingly harder to sell because of the horrendous  
17 water bills. Just imagine what we feel, and put  
18 yourself in our shoes, please.

19 Before I stand down, let me please give you  
20 a personal example that happened to me on my last  
21 water bill. Quite by accident, I went to check my  
22 water meter on January the 10th of this year. I  
23 hadn't looked at that water meter in six months. But  
24 I went out just to check on it, you know, and it was  
25 moving. No water on. I found the leak, repaired it,

1 and shortly thereafter received my monthly bill.

2 I had used 17,000 gallons of water, and my  
3 bill was \$26.04. That ain't bad for 17,000 gallons of  
4 water. Using the current stand-alone rate that they  
5 have suggested that we would be charged -- now, hear  
6 me on this -- the current stand-alone rate assigned to  
7 our system, my water bill would have been \$121.06;  
8 now, it was \$26.04. I sent them a check for it, and I  
9 should have written them a nice little thank you. But  
10 I cannot write them a nice note and say thank you for  
11 a \$121 water bill. I just cannot do that.

12 I just can't believe that those of you who  
13 want to change the rate structures to stand-alone  
14 rates would feel -- I think you'd feel exactly like I  
15 do had you gotten the bill for \$121. I hired you to  
16 please keep the uniform rate structure throughout the  
17 systems owned by Southern States Utilities, and I  
18 thank you kindly for your indulgence.

19 CHAIRMAN CLARK: Thank you. Are there any  
20 questions?

21 MR. TWOMEY: I have a question, yes, ma'am.

22 WITNESS RADFORD: I do have a copy of this  
23 for you, and I also have a petition signed by 89  
24 people that live in our area.

25 COMMISSIONER GARCIA: Give that to

1 Mr. Shreve as you leave, but stay at the mike for a  
2 second.

3 MR. TWOMEY: I have a couple of questions  
4 for you, please. I want to see if I understand what  
5 you said correctly.

6 EXAMINATION

7 BY MR. TWOMEY:

8 Q You did tell the Commission and this  
9 audience that SSU, when they acquired your system, got  
10 it for \$19,000?

11 A No. I said \$119,625, that's what they paid  
12 for the system.

13 Q \$119,000.

14 A \$119,000.

15 Q And didn't I hear you say that now they are  
16 using a rate base of 340,000?

17 A They were allowed and still would be allowed  
18 that because the Public Service Commission told them  
19 they can use the book value. The book value of that  
20 system was \$340,000. Literally, it cost over \$340,000  
21 to put that system in; but that system, it covers the  
22 whole 240 lots out there where we live.

23 Q Yes, sir. But don't you see part of the  
24 problem there? I mean, don't you see a problem,  
25 Mr. Bradford in --

1 A Radford, R-A-D-ford.

2 Q I'm sorry.

3 A I'm sorry, I didn't give you all this  
4 information.

5 Q I misheard you. Don't you see a problem  
6 with them paying 119,000 cash, and them giving them  
7 permission to use 340,000?

8 A Absolutely. I said that. But I was talking  
9 so fast, I'm sure you didn't catch it. (Laughter)

10 I said what if we had paid -- what if  
11 someone had paid them \$8 million for it, what is the  
12 book value on an \$8 million system? I don't know what  
13 it is. I don't have those numbers.

14 Q Sure. And don't you see that that bump --  
15 that's a pretty big bump. Don't you see that that  
16 bump which is almost 300% --

17 A Yeah, I understand that.

18 Q -- it's easier for people, it's easier for  
19 them to get the money on it if it's spread around?

20 A Sure, I understand. Sure.

21 Q And wouldn't the better solution be,  
22 Mr. Radford, that they had not gotten that money in  
23 the first place and that you hadn't been, you and your  
24 neighbors, subject to paying for the whole thing?

25 A I agree with that. But as it stands, we are

1 paying for it, and we are going to pay for it. I  
2 think they are charging too much for water. I think  
3 they're asking for too much, let me put it that way.  
4 Right this minute I don't think they are charging us  
5 too much for water.

6 Q I don't think anybody would disagree with  
7 you on that.

8 A Well, I'll tell you, I've checked with the  
9 city of Inverness and the county. Citrus County gave  
10 us hell, I'd say, a while ago, and I went to talk to  
11 Larry Haag, the attorney, and he gave me the water  
12 rates. And they were less than the uniform rates  
13 were.

14 Q Yes, sir. I wanted to ask you, you've read  
15 out what the rates were in Spring Hill, I think. And  
16 I think I heard you read out the rates in --

17 A I did.

18 Q -- in Sugarmill Woods. And I wanted to ask  
19 you in all seriousness, with all due respect, what has  
20 that got to do at all with what the cost of your  
21 service is?

22 A I said that in here, but you didn't hear me.

23 (Laughter)

24 I said it because their rate, their water  
25 rates now, I'm just talking about water, went from a

1 low figure to a figure that's \$17. First, it was \$7.  
2 Sugarmill Woods had their water rates increased more  
3 than Spring Hill, and their water rates in Sugarmill  
4 Woods was \$7.66 per 10,000 gallons of water. It was  
5 raised to \$17.34. Sure, that was a 200% increase.

6 Q My question to you is: What does that got  
7 to do with you?

8 A It's got a lot to do with it because if  
9 you're talking about stand-alone rates for me, my  
10 water bill would be \$81 for 10,000 gallons.

11 Q So you want to take it from them, right?  
12 You want to take it from them; is that correct?

13 (Laughter)

14 CHAIRMAN CLARK: Excuse me. Let him answer.

15 A I want to get it from anywhere where we can,  
16 that's right. I said, and I told this group here,  
17 there must be -- and I told Jack Shreve -- there must  
18 be a way to compromise and hit a middle of the ground.  
19 I don't care how you do it; I don't care what you call  
20 it. But there's got to be some way that I don't have  
21 to pay 80-some-odd-dollars for water, and somebody  
22 else pays \$13.22 for it. It's the same water, the  
23 same place.

24 Q (By Mr. Twomey) It's not the same water,  
25 but you should have to --

1           A     This is.  It's all out of the aquifer.

2           Q     Let me ask you another question.  I heard in  
3 your testimony a lot of discussion about power  
4 companies and telephone companies and insurance  
5 companies.  Now, I've heard a lot of testimony like  
6 that from the expert witnesses of this Company in the  
7 last rate case.  Now, I want to ask you, and I'm  
8 serious about this, sir, did they help you write this  
9 testimony?

10          A     No, they did not help me write this.  They  
11 don't even know I'm saying this, absolutely not.  Now,  
12 I stand on my own two feet, and I talk where I want  
13 to, and I say what I want to.  I do know these people,  
14 yes, and I argue with them a lot.

15                   I know Brian Armstrong.  And I know Jack  
16 Shreve; I got a call from him this morning.  And he  
17 said that the Southern States Utilities is trying to  
18 charge too much water to everybody, wherever it's paid  
19 for, however.  (Applause)

20          Q     I have one last question.  You made a  
21 comment about builders and real estate people.  What  
22 was your point there?

23          A     My point was that they come out there to  
24 show a home.  Suppose I'm selling my home, and the  
25 real estate person comes to my house with a customer,

1 a prospect. And they ask me, as they should, what is  
2 your utility bills each month. And I say, well, my  
3 light bill is \$92.44 a month and electric bill; and my  
4 water bill is \$81 a month for 10,000 gallons of water.

5 I don't think that if I was buying that  
6 house that I would want to pay \$81. I have never in  
7 my lifetime paid \$81, and I have lived in many cities:  
8 Jacksonville, Florida; Memphis, Tennessee; Panama  
9 City, Florida. I've lived in Inverness, and I've  
10 never paid \$81 for 10,000 gallons of water. And I  
11 never would have paid \$121 for 17,000 gallons if I had  
12 a water leak either. I never. And rates have never  
13 been that high in water.

14 COMMISSIONER GARCIA: Let me ask you an  
15 additional quick question --

16 WITNESS RADFORD: Yes, Mr. Garcia.

17 COMMISSIONER GARCIA: -- because you stated  
18 that there are 91 homes in your development.

19 WITNESS RADFORD: There are 90 there.

20 COMMISSIONER GARCIA: But the development is  
21 slated for --

22 WITNESS RADFORD: 240.

23 COMMISSIONER GARCIA: -- 240. And are they  
24 currently selling more homes in that development or  
25 not?

1                   WITNESS RADFORD: There are very few homes  
2 being sold in that division.

3                   COMMISSIONER GARCIA: Okay. I'm talking  
4 about, is the developer still actively working to  
5 sell?

6                   WITNESS RADFORD: No, no, no, no, no. There  
7 have been two or three different developers in that  
8 area. They are trying to promote it. Now, we're  
9 going to be even worse -- I saw Ron Stuart back there  
10 a while ago, and they raised our taxes into something  
11 awful until I went down there and talked to them.

12 (Audience response.)

13                   CHAIRMAN CLARK: Thank you, Mr. Radford.

14                   Mr. Twomey, do you have another question?

15                   Q     (By Mr. Twomey) Only to ask him if he  
16 knows -- are you aware that an affiliate of SSU's is a  
17 major land development company in this state?

18                   A     Sure, I know it. I absolutely do know it.  
19 They bought a parcel of land down here past the  
20 Sugarmill Woods. Yes, I know. Hey, I know about this  
21 stuff. I know as much about it as you do. (Applause)

22                   I don't have the right to charge like you  
23 do. I do mine free, Mr. Twomey. And I'll tell you  
24 one thing, I object to Citrus County paying you  
25 \$10,000 on your charge, too; but I don't think they

1 should use my tax money to pay you to represent  
2 somebody else. (Applause)

3 CHAIRMAN CLARK: Thank you, Mr. Radford.

4 COMMISSIONER GARCIA: Just give it to  
5 Mr. Shreve, and he'll pass it down to us.

6 WITNESS RADFORD: (Witness complies.)

7 CHAIRMAN CLARK: And we will mark it as  
8 Exhibit 33.

9 (Exhibit No. 33 marked for identification.)

10 **EXAMINATION**

11 BY MR. SHREVE:

12 Q My turn. I'll be very brief, Mr. Radford,  
13 and I appreciate very much you coming in and giving  
14 your testimony.

15 A Thank you. I've been looking forward to it.  
16 (Laughter)

17 Q What were your rates at the time Southern  
18 States purchased your system?

19 A We had none whatsoever. Our water was free.

20 Q Zero. And the developer was still running  
21 the system at that time?

22 A The developer was paying for the water. If  
23 we had a problem, we went to the Country Club and said  
24 we're having problems, and they'd send somebody out  
25 there to fix it.

1           Q     Mr. Twomey was asking you about the amount  
2 that they paid for it, that you had already testified  
3 that they had rate base, already getting a return on  
4 340,000, and they only paid 119. Didn't you and your  
5 community originally, were going to protest that  
6 figure and did not like it at the time?

7           A     I did. And I was prompted when I came up  
8 here to hurry up, and I skipped the fact that we were  
9 going to buy it. If we had had to pay this much money  
10 for it, we're talking about now, we would have bought  
11 the system if we'd had to go down to the bank and get  
12 on our hands and knees and beg for the money.

13          Q     Isn't the main point that you're trying to  
14 make in your testimony is that \$24.11 base facility  
15 charge and \$5.73 which was the stand alone calculated  
16 on what they would like coming out of your system or  
17 now, \$62,423, is really not a reasonable rate for you  
18 to pay.

19          A     I absolutely agree with that. It is  
20 absolutely unreasonable. I can't live with it. I'm  
21 getting gray hairs about this. (Laughter)

22                   MR. SHREVE: Thank you, Mr. Radford.

23                   MR. ARMSTRONG: Madam Chair? Mr. Radford,  
24 one question has come to mind.

25                   CHAIRMAN CLARK: Go ahead, Mr. Armstrong.

1           WITNESS RADFORD: I didn't have any idea I  
2 would be here this long. I was supposed to be at a  
3 prayer meeting.

4           MR. ARMSTRONG: Thank you for testifying,  
5 Mr. Radford, and I just have one question for you.  
6 Our records show that since Southern States has  
7 acquired your facilities, that the average use of your  
8 customers has been approximately 6,000 gallons a  
9 month.

10           WITNESS RADFORD: That's right.

11           MR. ARMSTRONG: Now, are you aware that had  
12 your consumption not been at that lower level at 6,000  
13 gallons, but, say, you were using twice that amount or  
14 10,000 gallons of water, the rates per 10,000 gallons  
15 would be significantly lower than what we are being  
16 required to charge to you in a so-called stand-alone  
17 rate.

18           WITNESS RADFORD: But I say this about it, I  
19 used 10,000 gallons of water as an example because I  
20 can multiply by 10 easier than I can multiply by  
21 6.910. (Laughter)

22           And I don't know. I have used 7,000 gallons  
23 of water and others have used less, so I know what our  
24 average water consumption is out there. And your  
25 basing that on the fact a lot of people don't stay

1 there all the time. These are a lot of people who are  
2 retired and they're not in their homes, they're paying  
3 the minimum rate. And I suspect if you ferret out  
4 those that use the water regularly, like I do, live  
5 there, that you'll find about 7,500 to 8,500 gallons.

6           And I'll tell you one thing, folks, you all  
7 ought to hear this, people don't use their sprinkler  
8 systems out there anymore. I've got a fine stand of  
9 grass in my yard, and it looks like merde. It looks  
10 terrible because I cannot run my water system. That  
11 meter just runs off the hook. I stood there and  
12 watched that thing with my water system going, and I  
13 was shaking my head. I cannot afford to do that.

14           What's going to happen if we continue to  
15 increase the payment for water throughout the state of  
16 Florida? People are not going to be able to use our  
17 water system. If they do, they're rich people; and  
18 they're not rich like I am. I guarantee you, I'm  
19 poor. I am poor. (Applause)

20           CHAIRMAN CLARK: Thank you, Mr. Radford.

21           (Witness Radford excused.)

22           MR. SHREVE: Mr. James Sanders.

23

24

25

**JAMES T. SANDERS**

1  
2 was called as a witness on behalf of the Citizens of  
3 the State of Florida and, having been duly sworn,  
4 testified as follows:

5           WITNESS SANDERS: Madam Chairman, and  
6 members of the Commission, I'm James Sanders, Jim  
7 Sanders. My mailing address is P.O. Box 3809,  
8 Homosassa Springs, Florida, and tonight I'm  
9 representing two corporations. One is Sugarmill Woods  
10 Country Club. The other is Southern Woods Golf Club.  
11 I'm also a resident and have been a resident of  
12 Sugarmill Woods since 1979, and I came there to  
13 develop Sugarmill Woods in 1973. (Audience Response.)

14           We are very much, our company, is very much  
15 opposed to this rate increase, and it's mainly because  
16 it's based on the uniform rates, as opposed to the  
17 stand-alone rates. Since the uniform rates were  
18 imposed in September of 1993, our company water and  
19 sewer bills have increased drastically. It's imposed  
20 a hardship on our operation.

21           As an example -- and I am speaking to the  
22 increases, monthly increases only. At the Sugarmill  
23 Woods Country Club, we have about 16 connections, some  
24 of which are just rain shelters on the golf club. Our  
25 increase has been about \$600 per month. At our

1 Southern Woods Golf Club, since the uniform rates were  
2 imposed, our increase has been about \$200 per month.  
3 Now, if you extend that out over a year or 28 months,  
4 you come up with a pretty big number, Madam Chairman.

5           Also, I would like to tell you -- and you  
6 probably already know this -- the golf business today  
7 is probably like a lot of businesses, it's a very  
8 competitive type of operation. There are many, many  
9 more golf courses and clubs in the state of Florida  
10 today than there were 10 or 15 years ago. So we find  
11 ourselves with these uniform rates, and we are  
12 subsidizing our competitors, subsidizing Citrus  
13 Springs, Pine Ridge, Lakeside, Port of the Woods, and  
14 there may be others. That really creates a hardship  
15 on us because we are trying to compete with these  
16 people.

17           Another thing I would like to point out to  
18 you which very much -- I very much doubt SSU's record  
19 keeping system and the accuracy of same. I just  
20 discovered, to my sorrow, about 10 days ago that out  
21 of 16 connections for the Sugarmill Woods Country Club  
22 overall operation, that about eight of those we are  
23 being charged for sewer monthly, and none of them are  
24 on the sewer. (Audience response.)

25           To my sorrow, we paid those bills. I

1 reported it to their Apopka office, and today I  
2 received a call from the local manager telling me that  
3 I probably would receive a refund dating back to  
4 January of 1993. I said to this local manager, no, we  
5 are going to go back further than that because that  
6 system was purchase in 1988, and I'm not so sure, but  
7 what I've been paying sewer on, eight connections, for  
8 all those years, that would be a sizable refund to our  
9 company if we could prove it.

10 I stand here today and also support many a  
11 person in this room, and they're the Sugarmill Woods  
12 residents. I can say that I don't blame them one bit  
13 in the world for opposing this rate increase and any  
14 uniform rate that's been opposed on that system. I  
15 was there, ladies and gentlemen. I was there. I  
16 developed that community. I built that water and  
17 sewer system, and it was Twin County Utility Company,  
18 and then along came SSU. The Company had to do some  
19 liquidations, and we sold it, to my sorrow and to  
20 their sorrow.

21 When they came, when those retirees came to  
22 that community, Madam, they were told about golf  
23 courses; they were told about greenbelt community;  
24 they were told about deed restrictions; they were told  
25 about a utility company. Yes, we have central water

1 and sewer, and they are reasonable rates, and they  
2 were reasonable rates. So I cannot blame these people  
3 for opposing these drastic increases.

4 So ladies and gentlemen of this Commission,  
5 I respectfully request that you deny this request, and  
6 let's get on with those refunds. Thank you.

7 (Applause)

8 COMMISSIONER GARCIA: Sir, I just want to  
9 let you know that if you can, see one of our Staff in  
10 the back and explain that problem that you had with  
11 the Company, and we can intercede and work with you to  
12 make sure you get the proper refund. Okay?

13 WITNESS SANDERS: Thank you very much. And  
14 to my sorrow, we paid it, but I hope we get it back.

15 MR. SHREVE: Mr. Sanders, one question. I  
16 don't know if you recall the last rate case, the 1992  
17 case?

18 MR. PELLEGRINI: Somewhat, yes.

19 MR. SHREVE: It's all getting a little  
20 foggy; it's still hanging out there. Before the rate  
21 case, the revenue that was coming in for water for  
22 Sugarmill Woods to Southern States was \$300,000.  
23 Coming out of this case, the rate that would be a  
24 result of Sugarmill Woods requirements, they are  
25 asking \$739,000. That's what they want, regardless of

1 where it's coming from. Thanks, sir.

2 WITNESS SANDERS: Yes, I understand that.

3 And that's going to be more of a hardship on our

4 company, sir.

5 CHAIRMAN CLARK: Thank you, Mr. Sanders.

6 WITNESS SANDERS: Thank you. (Applause)

7 (Witness Sanders excused.)

8 MR. SHREVE: Mr. Bertram.

9

- - - - -

10 **ALBERT E. BERTRAM**

11 was called as a witness on behalf of the Citizens of

12 the State of Florida and, having been duly sworn,

13 testified as follows:

14 WITNESS BERTRAM: Hi, my name is Albert E.

15 Bertram. I am a professional engineer. I live at

16 17 Begonias Court, Homosassa, Florida.

17 As a resident of Sugarmill Woods, I'm

18 opposed to uniform rates for SSU customers throughout

19 Florida. I retired in '72 from the U.S. Public Health

20 Service as a sanitary engineer officer with 30 years

21 service. Then, as a professional engineer in the

22 state of Florida, I held environmental health and

23 engineering positions over a 12-year period with

24 public health and utility departments in Jacksonville;

25 that's Duval County and Hillsborough County. In these

1 positions I had responsibilities for environmental  
2 health and engineering, including water supply,  
3 wastewater systems, and was directly involved in city,  
4 county, and franchise plant inspections, plant review,  
5 design, operations, in the two county areas.

6 I am familiar with the design and  
7 construction and operation at the federal, state, and  
8 local levels. Since moving to Sugarmill Woods last  
9 year, I have conducted reviews of reams of minimum  
10 filing requirements submitted by SSU for rate  
11 increases starting back in 1989. I am concerned about  
12 the misinformation by SSU for rate increases  
13 starting -- misinformation that SSU has sent, various  
14 letters, to their customers and others advising of  
15 their position at the various hearings.

16 SSU has repeatedly created illusions to  
17 justify gross expenditures on the basis of a very  
18 extensive state and federal environmental laws,  
19 environmental compliance, and regulatory mandates.  
20 You look in their submittals, and you see this  
21 creeping up continuously. Frankly, SSU has spent very  
22 little for these purposes. Most actual expenditures  
23 have been limited to additional water and wastewater  
24 sampling to meet with clients' standards. There's  
25 very little plant facilities involved in meeting these

1 mandates they keep talking about.

2           In Sugarmill Woods, major water and  
3 wastewater plant or capital improvements have been  
4 grossly overstated by SSU since 1989. For some  
5 reason, most of the program improvements have never  
6 been built. Most of these program improvements were  
7 for growth and system upgrading and not for the stated  
8 environmental compliance.

9           As proof of what I have stated, SSU is  
10 classified in 1996 forecast expenditure of a \$716,000  
11 for one-half million gallon water storage tank as  
12 being required by regulatory mandate in filing  
13 environmental, whereas the actual purpose was for  
14 capacity increase to cover growth. It also seems that  
15 the expenditure will be covered by existing customers.  
16 In this instance for economies of scale, a 1 million  
17 gallon tank should have been planned for the  
18 installation in the first place.

19           On a system and statewide basis, SSU has  
20 used the capital improvement budgets to significantly  
21 inflate their rate request. This problem was  
22 recognized by Commissioners Easley and Gunter in  
23 Docket No. 900329-WS, Order No. 24715, issued 6/26/91,  
24 Page 5, which stated that SSU had overstated capital  
25 expenditures by over 50% for 34 systems. That was at

1 that time in the seven county area. This practice  
2 appears to be continuing.

3 Another area of concern should be SSU's  
4 effort to justify uniform rates on the basis of their  
5 contention that all Floridians get their water from a  
6 series of interconnected aquifers. Just because most  
7 Florida water is obtained from the ground, does not  
8 mean that the aquifers, nor the systems, are  
9 interconnected. My personal comment to this would be  
10 strongly worded and censured. Thank you. (Applause)

11 CHAIRMAN CLARK: Thank you, Mr. Bertram.  
12 Any questions?

13 (Witness Bertram excused.)

14 MR. SHREVE: Mr. Case.

15 - - - - -

16 **ALLEN CASE**

17 was called as a witness on behalf of the Citizens of  
18 the State of Florida and, having been duly sworn,  
19 testified as follows:

20 WITNESS CASE: Good evening, Chairman Clark,  
21 and members of the Florida Public Service,  
22 Commissioners. My name is Allen Case, and I am the  
23 current president of the Sugarmill Woods Civic  
24 Association. My address is 22 Linder Circle,  
25 Homosassa, Florida; phone number, area code

1 352-382-3974. And, unfortunately, I am an SSU  
2 customer. (Laughter)

3 We appreciate the hearing. In view of the  
4 early rain we had over in Sugarmill Woods and the  
5 23-mile ride over to the hearing, I am very proud of  
6 all those from Sugarmill Woods who made the trip; and  
7 I would just ask for a second if they would stand to  
8 be recognized.

9 Thank you very much. (Applause)

10 Commissioners, I have given my handout to  
11 our attorney, Mike Twomey, and I hope he has made the  
12 pass out. Thank you.

13 First and foremost, I wish to state that we  
14 are opposed to the return of statewide uniform rate  
15 schedule proposed by SSU in their new rate case  
16 currently before you. They are discriminatory and  
17 inequitable. Despite the courts' rulings and your  
18 mandate for modified stand-alone rates and refunds  
19 from the previous rate case and your denial on October  
20 6, 1995 of their initial request for this rate case,  
21 they continue to push for uniform rates. When will  
22 they get the message and accept the fact that uniform  
23 rates are illegal, and they are under a mandate to  
24 make refunds.

25 In their letter of December 29, 1995, SSU

1 states that the new rates will be lower for the vast  
2 majority of service areas under uniform rates. That  
3 is true. While only 21% of water and sewer systems in  
4 the new rate case are subsidy payers, they contain 54%  
5 of the SSU customers and pay a total subsidy of \$8.6  
6 million. It is interesting to note that SSU always  
7 stresses that the majority of systems benefit with  
8 uniform rates, but never states that the majority of  
9 the customers are the ones who pay a subsidy.

10 (Applause)

11 SSU always drags up economies of scale and  
12 uniform rates, but the plain truth is that the  
13 economies of scale are just as great with stand-alone  
14 rates. An example of some of the misinformation we  
15 received from SSU was in their letter dated December  
16 29, 1995, mailed January 8, 1996, which was four days  
17 later than the interim rate approval by the PSC on  
18 January 4, 1996. This letter was quite confusing to  
19 our customers with incorrect rate information and only  
20 showed costs for five-eighths by three-quarter meters  
21 when 77% of our customers have one-inch meters. Their  
22 line identifications should have been interchanged in  
23 the table, final rates where they state interim rates,  
24 and interim rates where they state final rates. Since  
25 what was finally approved in the last rate case was

1 the modified stand-alone rates, the same  
2 classification should have been included in this  
3 table.

4 Their subsequent updated January letter --  
5 undated January letter, pardon me, mailed on January  
6 16th and received on January 18th, finally got it  
7 right by showing the modified stand-alone rates that  
8 had been approved by the PSC. This additional mailing  
9 is just another added cost to the consumers for which  
10 SSU has already budgeted nearly \$1 million in this  
11 rate case alone.

12 SSU is seeking to impose uniform rates which  
13 will increase our revenue requirements by 94% over  
14 standard rates. The alternative, modified stand-alone  
15 rates, are less severe with a 20% increase. However,  
16 in either case, the rate exceeds our guideline limit  
17 of 5% that was acceptable in the last rate case.

18 In conclusion, we are still willing to help  
19 out the so-called horror cases, but our 5% limit over  
20 stand-alone rates must be respected. Thank you.

21 (Applause)

22 CHAIRMAN CLARK: Thank you. Go ahead,  
23 Mr. Shreve.

24 (Witness Case excused.)

25 MR. SHREVE: Jim Desjardin.

**JIM DESJARDIN**

1  
2 was called as a witness on behalf of the Citizens of  
3 the State of Florida and, having been duly sworn,  
4 testified as follows:

5           WITNESS DESJARDIN: Good evening,  
6 Commissioners. My name is Jim Desjardin. I reside at  
7 14 Balsam Court West, Homosassa, Florida. I'm a  
8 customer of Southern States Utilities for both water  
9 and wastewater, and I am a member of the Sugarmill  
10 Woods Civic Association Utility Committee.

11           We've spent many hours pouring over the MFRs  
12 submitted by SSU in an attempt to understand their  
13 rate request. It boggles my mind to find that SSU is  
14 asking for a revenue increase almost double the  
15 current modified stand-alone rates in order to  
16 subsidize other systems while the current interim  
17 rates already include a subsidy for troubled systems.

18           The SSU proposal to return to statewide  
19 uniform rates would drive the water and sewer charges  
20 for the typical Sugarmill Woods household from a  
21 monthly charge of \$47.93 to \$94.37. This is an  
22 increase of \$557 annually all for subsidy. But their  
23 basic costs are excessive due to SSU management  
24 policies on top of this.

25           As I read the MFRs, the combined water and

1 wastewater operational and maintenance costs in  
2 Sugarmill Woods projected for 1996 is \$459,000 with  
3 the overhead costs of \$3,062. Dividing this out into  
4 the total shows that SSU projects an overhead cost of  
5 44.1%.

6           If SSU would cut back their bloated  
7 bureaucracy, their lobbyists, their public relations  
8 staff, their stable of lawyers who are going out  
9 beating the bushes to buy up additional systems,  
10 perhaps we would see the overhead rates drop, maybe a  
11 little close to the rates we experienced before SSU  
12 bought our utility system from the previous owner.

13           SSU prides itself in the quality of its  
14 staff, yet apparently is incapable of handling the  
15 rate case with this staff and hires scores of  
16 consultants and lawyers. This is reflected in their  
17 rate case expense of \$995,000 for Docket 950495, and  
18 they also include \$432,000 for the investigation case,  
19 Docket 930880. Meanwhile, we are still paying the  
20 four-year amortization of the \$1.3 million they just  
21 spent on the last rate case, Docket 920199.

22           SSU refuses to accept the Public Service  
23 Commission response to the court's mandate on the  
24 statewide uniform rate scheme, and now opposes your  
25 October 19, 1995 refund order and continues to spend

1 even more money on Docket 920199.

2           The Public Service Commission should not  
3 reward SSU for its misguided management by accepting  
4 their excessive overhead charges, or by allowing  
5 excessive rate case expense on the three referenced  
6 dockets to be passed onto SSU's helpless customers.  
7 If the Public Service Commission does not protect  
8 Florida consumers from this giant out-of-state owned  
9 monopoly, who will? (Applause)

10           There's a small comfort in the SSU's  
11 statement in their letter, dated January 1996,  
12 announcing the interim rate schedule where they state,  
13 and I quote, "The Commission may order a refund, with  
14 interest, of any interim rates that may exceed the  
15 final revenues authorized by the Commission at the  
16 conclusions of this case," end quote.

17           The Commission previously issued order  
18 PSC-95-1292-F0F-WS, dated October 19, '95, which  
19 directed SSU to restructure the rates for the modified  
20 stand-alone structure, the same structure as in the  
21 new interim rate order, and to refund the excess  
22 revenues collected under the unlawful statewide  
23 uniform rate structure. The typical Sugarmill Woods  
24 customer has a refund of \$653 due under this order.

25           SSU picks and chooses whichever PSC order

1 they feel like following and has chosen to appeal the  
2 October 19th order which put it on hold. They boasted  
3 to one of our attorneys that they could keep this tied  
4 up in court for a couple of years, perhaps hoping that  
5 they could drive up our legal costs and force us to  
6 drop out. They plan, meanwhile, to charge off their  
7 legal expense in our water bills. (Audience  
8 response.)

9           Perhaps SSU would also choose not to refund  
10 this excess interim rates at the conclusion of this  
11 case. It's up to you, the Public Service Commission,  
12 to stop the abuse of excessive legal expense  
13 pass-through for those of us who have the grave  
14 misfortune of being SSU's customers. (Applause)

15           CHAIRMAN CLARK: Questions? Mr. Shreve.

16           MR. SHREVE: Yeah. Thank you for your  
17 testimony, and a couple points that you made there  
18 that really were interesting to me. SSU just bought  
19 Buena Venture Estates in Osceola County. The point  
20 you made about administrative costs. Immediately upon  
21 their purchase, their overhead went up \$500,000 for  
22 the next annual thing. So that type of efficiency is  
23 kind of hard to live with.

24           WITNESS DESJARDIN: Yes, I understand the  
25 overhead in our case was about a four-fold increase

1 after they purchased it from the previous company,  
2 yes, sir.

3 MR. SHREVE: Thank you, sir.

4 CHAIRMAN CLARK: Thank you.

5 (Witness Desjardin excused.)

6 MR. SHREVE: Mr. Merck.

7 - - - - -

8 **AL MERCK**

9 was called as a witness on behalf of the Citizens of  
10 the State of Florida and, having been duly sworn,  
11 testified as follows:

12 WITNESS MERCK: Good evening, Commissioners,  
13 and ladies and gentlemen. My name is Al Merck.

14 CHAIRMAN CLARK: Could you spell your last  
15 name?

16 WITNESS MERCK: M-E-R-C-K. 10 Blair Court,  
17 Sugarmill Woods. I oppose the uniform water rate  
18 because there's no justifiable reason for them.

19 SSU has linked their uniform rate request to  
20 other utilities who may or may not be using this rate  
21 structure. The power company has been singled out as  
22 an example of uniform rate billing. In no way can  
23 groundwater and an individual water system be compared  
24 to a power company grid network.

25 The telephone system is another example

1 given for the right to use uniform rates. I was an  
2 employee of the Bell System for 32 years, holding a  
3 position as engineering manager of numerous areas. To  
4 my knowledge, pricing was done by the number of  
5 stations a subscriber was able to access. Small  
6 cities paid a smaller base rate than larger cities.

7 Both of the above companies manufactured a  
8 product that they sold to the public using a regulated  
9 monopoly. SSU manufactures nothing. They take a  
10 natural resource that already belongs to the public,  
11 that the public must use, and set unjust rates for  
12 their own economic benefit and convenience of future  
13 rate request, such as a blanket request, instead of a  
14 justification on a case-by-case basis.

15 New competition in the telephone and cable  
16 industry brought along by deregulation will ensure  
17 there will be no uniform rates for telephone service  
18 in the future. A controlled monopoly that has no  
19 competition, and especially one that uses a public  
20 natural resource as their product, must be held to a  
21 high standard; and the public's interest must always  
22 take precedence. Thank you.

23 CHAIRMAN CLARK: Thank you, Mr. Merck.

24 MR. TWOMEY: One question. Real quickly,  
25 Mr. Merck. Are you aware that the largest telephone

1 company in the state of Florida has about 12 or 13  
2 separate residential rates?

3 WITNESS MERCK: Yes.

4 MR. TWOMEY: Is that consistent with your  
5 testimony?

6 WITNESS MERCK: Yes.

7 MR. TWOMEY: Thank you.

8 CHAIRMAN CLARK: Thank you. Ladies and  
9 gentlemen, we have been going now for about two hours.  
10 We do have one court reporter, so we are going to take  
11 a 10-minute break, and then we will start up where we  
12 left off on the witness list. Thank you.

13 (Witness Merck excused.)

14 (Brief recess.)

15 - - - - -

16 CHAIRMAN CLARK: Ladies and gentlemen we are  
17 ready to reconvene this service hearing.

18 Mr. Armstrong, we are ready to start.

19 Mr. Shreve, would you call the next witness,  
20 please?

21 MR. SHREVE: Ms. Barbara Karibo.

22 - - - - -

23 **BARBARA KARIBO**

24 was called as a witness on behalf of the Citizens of  
25 the State of Florida and, having been duly sworn,

1 testified as follows:

2 WITNESS KARIBO: Members of the panel, I  
3 felt that maybe it was time women had a little bit of  
4 representation up here this evening. My name is  
5 Barbara Karibo, K-A-R-I-B- as in boy -O, 8821 East  
6 Rosemont Street, Inverness, Florida 34450.

7 Yes, I am from Rosemont. And although I  
8 agree completely with Mr. Shackelford and Mr. Caldera,  
9 my purpose in speaking here tonight is math, pure and  
10 simple. I have heard of new math. I have heard of  
11 modern math. But SSU's rate increase is definitely  
12 based on creative math. (Laughter)

13 No matter which way these rates are finally  
14 set, stand-alone or fixed rates, each set of figures  
15 for each service area, well and plant, must be looked  
16 at and given a reality check. SSU cannot be allowed  
17 to go unchecked.

18 Now, contrary to most opinions that woman  
19 are the yakers of the race, I end my statement. Thank  
20 you very much.

21 CHAIRMAN CLARK: Thank you.

22 (Witness Karibo excused.)

23 MR. BECK: Mr. Slezak.

24

- - - - -

25

**EDWARD SLEZAK**

1 was called as a witness on behalf of the Citizens of  
2 the State of Florida and, having been duly sworn,  
3 testified as follows:

4 WITNESS SLEZAK: First, I want to welcome  
5 you to Citrus County, all of you. I don't know how  
6 many of you Commissioners heard of the Lehigh  
7 Corporation. They own --

8 CHAIRMAN CLARK: Mr. Slezak, would you give  
9 us your name and spell your last name?

10 WITNESS SLEZAK: Yes. My name is Edward  
11 S-L-E-Z-A-K, 4588 North Rushmore Loop, Beverly Hills,  
12 Florida 34465, telephone is 746-1153.

13 COMMISSIONER KIESLING: And what facility is  
14 that? I'm right here.

15 WITNESS SLEZAK: Pine Ridge. I'm the  
16 chairman and commissioner of Pine Ridge, of the water  
17 committee that is. Chairman of the water committee at  
18 Pine Ridge.

19 CHAIRMAN CLARK: Go ahead.

20 WITNESS SLEZAK: I don't know how many of  
21 you Commissioners have heard of the Lehigh  
22 Corporation. They own 1,250 lots in Sugarmill Woods.  
23 To make a long story short, SSU, or Minnesota Power  
24 and Light Company, bought the lots for a sum of \$4  
25 million.

1           Just a bit of information on Minnesota Power  
2 and Light who owns SSU. They are in the water  
3 business, as you know. They have diverse operations  
4 somewhere in the water and wastewater business in the  
5 states of North and South Carolinas, a coal company in  
6 North Dakota, electrical plants in Minnesota and  
7 Wisconsin. Now, get this. Also, an auto auction  
8 business throughout the Eastern Coast of the United  
9 States starting in Florida, and as far north as  
10 Canada. They are a conglomerate which is out to grab  
11 money every which way they can from its customers.

12           Before you Commissioners make any concession  
13 to SSU, please stop and think where are the people  
14 going to get the money from. You have seen people  
15 picking up soda and beer cans along the highways to  
16 supplement their incomes, to eke out a mere living.  
17 Older retired people's income is fixed. They don't  
18 get raises every few months like SSU would have you  
19 believe.

20           If there is no uniform water rate structure,  
21 Sugarmill Woods' interim water rate will be 4.45 base,  
22 and \$1.19 per each 1,000 gallons used, while other  
23 areas have to pay a higher rate for water use. What  
24 will it take to get the water rates down? Will the  
25 answer be to sue PSC like Sugarmill Woods did?

1           In 1993, Southern States Utilities owned 127  
2 utilities. Now, they bought 23 more utilities making  
3 a total of 150 units that they own. If they are in  
4 such dire straights, how come they are expanding? Do  
5 they want us to pay for the utilities they have just  
6 bought?

7           I have a map issued by SSU which shows they  
8 absorbed about three-quarters of the utilities in the  
9 state of Florida right now. I'm sorry I don't have  
10 this map with me because I loaned it to Vicki  
11 Phillips, she's a commissioner here in Citrus County.

12           Southern States has become a monopoly which,  
13 I believe, is against the Federal Government. Their  
14 service is not the greatest. Our washing machine  
15 broke down, I disconnected the cold water hose and  
16 found about 10 little pebble stones about the size of  
17 small peas in the hose stream. In essence, they are  
18 sending us stones for the money we pay them.

19           In 1993 Southern States received an \$8  
20 million raise. Now you are awarding them another  
21 raise in 1996. When is this going to stop?

22           The people of Pine Ridge are well aware the  
23 president of Minnesota Power and Light Company called  
24 Buddy MacKay, Lieutenant Governor, to get the interim  
25 rate passed. I know if you don't obey the Governor,

1 your jobs are in jeopardy as PSC Commissioners. Well,  
2 to tell you the truth, it's Buddy MacKay whose job is  
3 in jeopardy. Come the next election he will be out  
4 on the street looking in. Thank you.

5 CHAIRMAN CLARK: Thank you, Mr. Slezak. Any  
6 questions?

7 MR. TWOMEY: Yes, ma'am. I have a question.

8 WITNESS SLEZAK: Yes, sir.

9 EXAMINATION

10 BY MR. TWOMEY:

11 Q You were asking the question does SSU expect  
12 you, the customers, to finance their expansion.

13 A That's right that's correct.

14 Q I want to read you something very quickly.  
15 This is the fourth page of the -- I want to read it to  
16 you and ask you a question in relation to it, so no  
17 one will think I'm doing wrong here. This is the  
18 fourth page of the letter the Lieutenant Governor  
19 attached in his ex parte communication to Chairman  
20 Clark. It is a four-page letter he forwarded to the  
21 Commission, from Arend Sandbulte, who is the Chief  
22 Executive Officer of Minnesota Power. The letter  
23 whines and cries about the treatment, to the Governor,  
24 that Minnesota Power and SSU has received from the  
25 Commission for doing primarily --

1           A     The right thing.

2           Q     -- what the court ordered them to do based  
3 upon Sugarmill Woods reversal of their order.

4                     Now, I want to read this. I want to ask you  
5 if this doesn't sound like it's consistent with  
6 exactly what you said a minute ago. That is, the  
7 adverse impacts he lists of the PSC's order reversing  
8 the uniform rates and ordering the refund, one of the  
9 things they complain about, it says, "SSU is being  
10 forced to relinquish -- and it's accentuated --  
11 "relinquish its role as receiver of Enterprise  
12 Utilities Corporation because of the approximately 1  
13 million needed to provide new adequate means for  
14 effluent disposal and the impact such an investment  
15 would have on customers."

16                     And my question to you is, do you read that  
17 as I do, that their complaining that in the absence of  
18 uniform rates, they don't have your million dollars so  
19 they can be a receiver for a bankrupt company? Is  
20 that how you read it?

21           A     Well, I read it that way, but we have a  
22 difference of opinion. We are for uniform rates.  
23 Because back in '88, I think it was, SSU took over the  
24 Pine Ridge water system, and they were charging \$22.83  
25 for 5,000 gallons of water. Now, I'm talking about a

1 one-inch pipe or a one-inch meter. Now, it's down to  
2 \$12.83, and we have to pay \$1.23 for their water from  
3 the first drop that we use.

4 But if you figure this out, say you figure  
5 out 5,000 gallons of water that you use with the rate  
6 we're under, plus \$12.83, we're paying about \$19 for  
7 our water. And I don't think that's right. We're  
8 supposed to be on uniform rates, which we want uniform  
9 rates; but there's different rates in uniform rates, I  
10 don't understand it.

11 Q Yes, sir. But hasn't Mr. Bud Hansen told  
12 you on numerous occasions, Mr. Slezak, that one of the  
13 reasons that the stand-alone rates, if you were forced  
14 to pay them, are so high is because the Commission  
15 gave SSU way too much in the used and useful  
16 calculation of rate base? Hasn't he told you that?

17 WITNESS SLEZAK: Oh, yes, I've heard that.  
18 I agree.

19 MR. TWOMEY: That's all I have. Thank you.

20 WITNESS SLEZAK: Do you have anything, Jack?

21 MR. SHREVE: That will do it. Thanks again.

22 CHAIRMAN CLARK: Thank you, Mr. Slezak.

23 WITNESS SLEZAK: Thank you.

24 (Witness Slezak excused.)

25 MR. SHREVE: Carlette Max.

- - - - -

**CARLETTE MAX**

1  
2  
3 was called as a witness on behalf of the Citizens of  
4 the State of Florida and, having been duly sworn,  
5 testified as follows:

6           WITNESS MAX: Good evening. My name is  
7 Carlette Max, M-A-X. I live at 4133 North Hatched  
8 Circle, Beverly Hills, which is Pine Ridge.

9           I've spoken before you before. I would like  
10 to speak on two items. The first is the increase in  
11 general. For over the past six years, from 1988 to  
12 '95, we suffered from low water pressure, poor water  
13 quality, and questionable service. At one time we  
14 were without water for over a day as the operator did  
15 not report our outage over a weekend. I tried for  
16 four years to get the Company to correct this problem,  
17 all of our problems and, frankly, got the runaround.

18           In 1992 I brought this up at one of your  
19 hearings and was given assistance on how to proceed.  
20 I tried various people one at a time, things were  
21 going very, very slowly. It was not unusual for our  
22 home to receive a residual pressure of 9 PSI. Our  
23 fire marshal checked our fire hydrant by our house,  
24 and he got a residual of 11 PSI. I have this  
25 paperwork at home. I have stacks of it. This would

1 not be anywhere adequate for fire protection.

2           Then one day when my water pressure was low  
3 and my blood pressure was high, I just got on the  
4 phone and called everyone I could think of in about  
5 the space of an hour. I called the Florida Department  
6 of Environmental Regulations in Tampa, HRS in Citrus  
7 Country, Citrus County Fire Marshal, Public Service  
8 Commission, our local county attorney, and anyone else  
9 I could think of that I thought would listen. This  
10 must have all hit SSU at one time, because I started  
11 then to get some action; but not until I'd produced  
12 official flow chart records, pressure tests, et  
13 cetera. And it wasn't even until March of '95 that a  
14 booster pump was finally in service and operating on a  
15 periodic basis.

16           When we were building our home in 1987, Pine  
17 Ridge water was in the \$10 to \$11 bracket. And as  
18 soon as we moved in, it had already gone up to 19.79.  
19 And in 1991, it was then raised again to 20.61. All  
20 of these included a 5,000 gallon amount before you had  
21 to pay anything extra.

22           We then had a higher rate, interim rate,  
23 waiting for the final rates which came out about  
24 September, October of '93. Pine Ridge had been paying  
25 some of the highest rates among all the SSU

1 communities up until then. In 1993 the current rates  
2 went in; and for the first time, it appeared that we  
3 were being treated fairly. Most of this time that I  
4 had spent -- all of this time, the higher price, I was  
5 getting poor water quality, poor pressure, and very  
6 little service.

7 Just when this started going in, just when  
8 our pump went into service and when they got it  
9 settled in, I don't even think it's been nine months,  
10 now we've got higher interim rates again. So after  
11 paying high rates for very little, just nine months  
12 later, the pump went on. And it would appear that we  
13 have a substantial interim rate increase of about 50%  
14 and probably more on the final rates.

15 It doesn't seem fair after all that we've  
16 been through. And it reminds me of the landlord who  
17 rents a dump, and then when the tenants paint it, he  
18 raises the rates because of the improvement to the  
19 property. It seems like that.

20 The other thing, my second point, is the  
21 uniform rates. I am in favor of the uniform rates. I  
22 believe the Public Service Commission were the ones  
23 who set it up, uniform rates, in the first place; and  
24 they stated that power and phone rates were uniform,  
25 and it would be more equitable to all concerned.

1 engineer, as many of you know. As a resident of  
2 Sugarmill Woods since 1983 and as a board member and  
3 past president of COVA, now known as Sugarmill Woods  
4 Civic Association, I've been intimately involved in  
5 the ongoing attempts by SSU to subvert the regulatory  
6 process which you, as Public Service Commissioners,  
7 are appointed to uphold.

8           When SSU was negotiating to buy Twin County  
9 Utilities from Punta Gorda, they sent their then  
10 president, Sweat, to a meeting of our civic  
11 association. He insisted that SSU would always treat  
12 Sugarmill Woods as a separate entity, would do nothing  
13 to unfairly damage our fine customer relationship and  
14 would always be available to meet with us to discuss  
15 our problems. Based upon this, we did not attempt to  
16 void the sale.

17           Then things started to fall apart. New  
18 wells were supposed to be added to our system, but  
19 they were not drilled. Above-ground storage tanks,  
20 which were required to meet county fire protection,  
21 were not installed. In desperation, we got the county  
22 fire marshal to threaten a moratorium on building in  
23 Sugarmill Woods to get SSU's attention. At a meeting  
24 which Mr. Sweat did not attend, many promises were  
25 made. Finally, time tables to accomplish these

1 promises were put in writing, but nothing happened.

2           When the 1990 rate case was announced, we  
3 were furious. Much of the promised improvement was  
4 shown in that case as having been accomplished. It  
5 had not been. There were numerous errata which had  
6 not been found by either by SSU or your Staff. They  
7 completely ignored the stand-alone concept which had  
8 been promised to us prior to the acquisition. They  
9 were totally shocked when Commissioners Gunter and  
10 Easley threw out the request and ordered the refund of  
11 the interim rates. After much wasted effort and  
12 expense by SSU, those refunds reached us in November  
13 1992. Meanwhile, they're submitting another rate  
14 case. This case ignored the reasons for the previous  
15 case being thrown out.

16           In order to hide the final desire of both  
17 SSU and PSC Staff, the MFRs did little to indicate  
18 what the final result would be. After intervening, it  
19 still was not evident that they were planning to  
20 create uniform rates for all the systems in the  
21 filing. During the various meetings and the final  
22 hearings, uniform rates were only referred to in one  
23 or two instances, and one of SSU's experts stated that  
24 he would not recommend them without substantial  
25 further study, period. Evidently the courts felt as

1 he did. And you, in your analysis of this opinion,  
2 required SSU to refund and to return to stand-alone  
3 rates.

4 We're now entering a new round of more  
5 wasted effort and expense. Perhaps SSU figures that  
6 by using pressure from their He-Coon to our He-Coon,  
7 they can get you bow to their desires. Each day that  
8 goes by, makes their refund liability that much  
9 greater and puts them closer to default on their  
10 obligations.

11 The disturbing part of this poor-mouth  
12 argument is that in the 1993 rate case, one of  
13 Minnesota Power and Light's executives wrote an  
14 opinion stating that many of SSU's acquisitions in  
15 Florida were not economically sound. Now, how about  
16 that? Are we supposed to bail them out of poor  
17 management decisions?

18 As usual, they brag about water conservation  
19 and are making a large increase in staff and budget to  
20 reduce consumption. SWFWMD has been doing this for  
21 years. COVA worked with SWFWMD several years ago to  
22 lower our consumption for lawn watering. All new  
23 construction in Sugarmill has rain sensors to control  
24 excess watering during rainy seasons. They also have  
25 faucet restrictors. Most of the older homes have

1 installed their own restrictors.

2           Since most of our lots are large, even with  
3 the recommended minimum sprinkling, one watering per  
4 month can increase water consumption by 5,000 gallons.  
5 This may not be enough irrigation to keep a lawn  
6 growing during very dry periods. Inspections in  
7 various parts of Sugarmill Woods show this to be the  
8 case. We've recommended to our residents that they  
9 manually operate their automatic sprinklers, and in  
10 many cases this has reduced our water consumption  
11 substantially. To ask us to pay our water company for  
12 something we're already paying SWFWMD for is  
13 ludicrous.

14           If Minnesota Power and Light is so concerned  
15 about SSU not making an adequate return on their  
16 investment, we suggest that they give serious  
17 consideration to letting the counties buy back the  
18 systems they now own. I'm sure that a reasonable  
19 price could be arranged. Most systems were purchased  
20 at fire sale values and are now being shown as highly  
21 inflated assets. Then they can concentrate on owning  
22 auto auctions which appears to be their latest  
23 boondoggle. (Applause)

24           MR. TWOMEY: Mr. Jones.

25           CHAIRMAN CLARK: Thank you, Mr. Jones.

1 Questions?

2

**EXAMINATION**

3 BY MR. TWOMEY:

4 Q Very quickly, Mr. Jones. The modified  
5 stand-alone rates that the Public Service Commission  
6 ordered SSU to impose after the reversal of uniform  
7 rates at the First DCA, you are familiar with those  
8 rates, right?

9 A Yes.

10 Q The same rate structure that the PSC has now  
11 approved interim rate increases for most systems,  
12 although I think yours came down --

13 A Yes.

14 Q You're familiar with those, right?

15 A This is the one that just happened last  
16 week.

17 Q Mr. Jones, isn't that modified stand-alone  
18 type rate structure precisely what SSU Witnesses  
19 Cresse and --

20 A I'm sorry, I misunderstood what you said.

21 BY MR. TWOMEY:

22 Q The rate structure that SSU has now ordered  
23 by the PSC, modified stand-alone rates, do you recall  
24 whether or not that was precisely the rate structure  
25 that Witnesses Cresse and Ludsen asked for on behalf

1 of SSU in the '93 case?

2 A You're younger than I am, and I don't think  
3 I can recall that from memory. Sorry.

4 Q Fair enough. Do you want your money back on  
5 the refund?

6 A I don't know why, they need it to buy  
7 another auto auction?

8 MR. SHREVE: Thank you, Mr. Jones.

9 (Witness Jones excused.)

10 MR. SHREVE: Ralph Neeley.

11 - - - - -

12 **RALPH NEELEY**

13 was called as a witness on behalf of the Citizens of  
14 the State of Florida and, having been duly sworn,  
15 testified as follows:

16 WITNESS NEELEY: Good evening,  
17 Commissioners. My name is Ralph Neeley. My address  
18 is 111 Byrsonima Circle, Homosassa, Florida 34446.

19 I appreciate this opportunity to tell you  
20 why I am against uniform rates. The water and  
21 wastewater systems owned by SSU vary as to design,  
22 construction, condition, type of operation and other  
23 factors which cause operational costs to vary widely.  
24 Uniform rates cannot take all of these factors into  
25 consideration and they, thereby, create extreme

1 hardship on some who must rely on food stamps,  
2 supplemental security income, Medicaid, and so forth,  
3 by doubling their water bill while subsidizing others  
4 whose income exceeds \$50,000 a year. This is unfair,  
5 unjust and unreasonable.

6 Stand-alone rates take all of these factors  
7 into consideration, and you pay for what you knowingly  
8 bought and get. No one is required to subsidize  
9 anyone else. This is fair, just, and reasonable to  
10 SSU and its customers.

11 SSU has knowingly purchased substandard  
12 systems with design shortcomings expecting uniform  
13 rates to provide the revenue required to upgrade these  
14 systems. Environmental impact is being used as a  
15 lever to attain a uniform rates ruling. The PSC  
16 should not abet SSU in this discriminatory and  
17 inequitable practice.

18 Uniform rates may very well be  
19 unconstitutional in that Article V of the U. S.  
20 Constitution states in part, "No person shall be  
21 deprived of property without due process of law, nor  
22 shall private property be taken for public use without  
23 just compensation."

24 Sugarmill Woods customers of SSU received a  
25 letter signed by an SSU official, dated December 29,

1 1995, that provides false data on water and wastewater  
2 rates and makes statements that are, at best,  
3 half-truths and are misleading. This gives the  
4 appearance that veracity is not an overriding factor  
5 with SSU. I hope you will take this into  
6 consideration when making water rate decisions.

7           We all know that uniform rates would  
8 considerably decrease the workload of SSU and the PSC  
9 Staff. However, that should not be a consideration of  
10 Commissioners in establishing rates. What should be  
11 considered is that SSU continues to thwart the rulings  
12 of the PSC and the Florida courts.

13           I am strongly against uniform rates for the  
14 very valid reasons stated. I thank you for your time.

15           CHAIRMAN CLARK: Thank you, Mr. Neeley.

16           MR. TWOMEY: Madam Chairman, one short  
17 question.

18                           **EXAMINATION**

19 BY MR. TWOMEY:

20           Q     The first attachment you have to your  
21 testimony, Mr. Neeley, is that the mailing you  
22 referred to? The second page?

23           A     Oh, the second. That's the letter that I  
24 referred to that has the false data and the misquotes.  
25 The third page is the explanation of my claiming them

1 to be half-truths and telling what the truths really  
2 are.

3 Q Yes, sir. Is one of your points on the  
4 December 29th letter, one, that it was mailed --

5 A It was mailed late, yes.

6 Q -- January.

7 A It was mailed after -- at least I've been  
8 told, I didn't see the postmark on the envelope. I  
9 didn't pay much attention to it then; but I've been  
10 told since, so I can't verify it. But I've been told  
11 since that it was after the Commission had already  
12 approved the new rates.

13 Q The modified --

14 A The modified stand-alone rates, yes.

15 Q Okay. And your point is, is it not, that  
16 the modified stand-alone rates don't appear on this  
17 contrast, comparison?

18 A That's right. They are not on there.  
19 They're not in that letter.

20 BY MR. TWOMEY:

21 Q And isn't the effect, Mr. Neeley, of this  
22 that by not showing the more moderate stand-alone --  
23 modified stand-alone rates, that customers receiving  
24 this document have only the comparison of the uniform  
25 rates that SSU is asking for and in many cases the

1 much, much higher stand alone rates? Is that correct?

2 A It goes pack to my part where I claim that  
3 they are misleading because that's exactly what they  
4 are doing in this case.

5 MR. TWOMEY: Okay. Thank you very much,  
6 sir.

7 CHAIRMAN CLARK: Thank you, Mr. Neeley.  
8 Mr. Shreve.

9 MR. SHREVE: Thank you.

10 (Witness Neeley excused.)

11 MR. SHREVE: Belle Garber.

12

- - - - -

13

**BELLE GARBER**

14 was called as a witness on behalf of the Citizens of  
15 the State of Florida and, having been duly sworn,  
16 testified as follows:

17 WITNESS GARBER: Good evening, ladies and  
18 gentlemen of the Public Service Commission. I'm Belle  
19 Garber. I live at 46 Hollyhock Court, Sugarmill  
20 Woods, Homosassa. We appreciate your coming out here  
21 to the hinterlands tonight to hear all these people  
22 complain.

23 For the past year, I have served as vice  
24 president of the Sugarmill Woods Civic Association.  
25 And as you know, we have been asking for a return to

1 our original stand-alone rates ever since the uniform  
2 rates have been instituted. I personally feel that  
3 uniform rates are actually unlawful. Sugarmill Woods  
4 homeowners pay for our good water and sewer system at  
5 the time that they purchase their lots.

6 I do not understand why we in Sugarmill  
7 should be required to give aid to SSU in upgrading  
8 their inferior systems. The uniform rates have been  
9 ruled unlawful by the courts, and it seems that this  
10 should be sufficient reason for the reinstatement of  
11 stand-alone rates as they had been. Also, it seems  
12 odd that they can be asking for a rate increase on the  
13 interim rates. I also get the feeling from all that I  
14 have heard tonight and have heard prior to this that  
15 it seems that it is time for someone to investigate  
16 SSU's practices. That's it.

17 MR. TWOMEY: Thank you. (Applause)

18 CHAIRMAN CLARK: Thank you, Ms. Garber.

19 MR. SHREVE: Thank you.

20 (Witness Garber excused.)

21 - - - - -

22 MR. SHREVE: Ms. Deul.

20  
21  
22  
23  
24  
25

was called as a witness on behalf of the Citizens of the State of Florida and, having been duly sworn, testified as follows:

WITNESS DEUL: Hi, good evening, my name is Heidi Deul. I'm what they call a snowbird. I moved here three years ago, and all of a sudden when I came here, I got heartburn. I didn't know. I thought with the age it's heartburn. So I went back to Germany; my heartburn was gone. I go to the doctor, and my husband was very sick, too.

I came back last year, and it was the same. I thought maybe the food or something. I eat more citrus fruit or something, and I couldn't make it out so I stopped it because I saw the advertisement, eat Tums, and all of this junk.

And then this year I came back in September, the 15th of September, and I was in the summer in Germany, I didn't have one day of heartburn. And I came back, and on the 17th of September, I started with heartburn again. And I said, "Gosh, there must be something wrong." Then two weeks later, my daughter came from Germany, and she is only 24 years old. After two days she says, "Mom, I have heartburn." I said, What, you are only 24." She

1 says, "I don't know." So, I said to her, "Eat Tums."

2 Yes.

3 You know, then my husband. And he got up at  
4 night. And he is sick already. That's why we come  
5 here in the wintertime because he wouldn't live any  
6 longer, the doctor says, if he don't go in the warm  
7 Florida; it was cold this year. (Laughter)

8 So then I got very upset. And I said,  
9 "Okay, I'm watching now my food." I even called my  
10 doctor in Germany. So he says, "Try to leave the  
11 citrus away, no bananas," and all this. I did  
12 everything, yet my heartburn was still there. So then  
13 somebody said to me, "How about drink different water.  
14 You drink water?" I said, "Oh, yes, every day, eight  
15 glasses."

16 And then it started I couldn't drink any  
17 more coffee. I don't drink much coffee, just one big  
18 cup a day I drink. So I got so much heartburn, it was  
19 terrible.

20 Then I went to Publix, and I got the water,  
21 the distilled water. And guess what? My heartburn  
22 was gone. (Laughter)

23 Then my kid and my husband still had  
24 heartburn, and I couldn't figure it out because my  
25 heartburn was gone. Then I said one day, "Hey,

1 listen, don't you use the ice cubes in your soft  
2 drinks?" "Yes." I say, "Let them go. Don't take  
3 anymore ice cubes because they come out of the  
4 refrigerator, you know, from the water. So he stopped  
5 it, so the heartburn was gone.

6 Then I talked with friends in New York, and  
7 I said, "What can I do? I can't go and buy all the  
8 water that we need," you know. And then he says, "How  
9 about thinking of getting a conditioner in your  
10 house?" So I said, "I don't want to spend so much  
11 money." So finally I did, after I did a lot of  
12 inquiries over my friends. I didn't have anybody come  
13 to my house and test my water or -- so, yes, I got a  
14 conditioner. It cost me \$1,500. And it costs me  
15 every month about \$6, \$7 for the conditioner for the  
16 water, so it is conditioned. Guess what, I drink  
17 every day eight big glasses of water right from the  
18 tap, and I've had the conditioner now six weeks, no  
19 heartburn. So that's why I oppose your water.

20 I think it's terrible you want to raise the  
21 rates, and your water is disgusting. And I think you  
22 Americans, probably all used to your bad water.

23 (Applause)

24 Then something else. When I came here in  
25 '93, I called the water company up, and I said to

1 them, "I'm going away, what can I do; I would like  
2 that you take the money out of my account." And they  
3 said they wouldn't do it. So after a big fussing,  
4 they said, Okay, you can send us money for the time  
5 you are away, and then we take the water out. I say,  
6 "I don't use your water. I do have a well for the  
7 lawn. So keep the water turned on." Yes, you know,  
8 take the money out of the money I gave you. I sent  
9 them a deposit check. It was okay.

10           Somebody watched my house. And once a  
11 month, he went and he flushed the bathrooms. And  
12 apparently, in one of the bathrooms, the water was  
13 running, and he didn't know. So all of a sudden he  
14 called me in Germany, and he says, "Hey, listen, your  
15 water has been shut off. There was a big sign on the  
16 door because you didn't pay your bill. You know, your  
17 water is shut off." I said, "What? I didn't use any  
18 water." He says, "What can we do? We can't find a  
19 leak, nothing. I say, "Okay. When the water is shut  
20 off, leave it."

21           So I called the Company from Germany. And I  
22 said, "Hey, listen, why did you shut off my water?  
23 And he said, "Oh, you owe us money. Your water was  
24 running." I said to them, "Hey, I did tell you that  
25 I'm not there, that you have the money for the deposit

1 only for the maintenance, \$12, so much I have to pay."  
2 I said, "Now, there is a leak somewhere, and you  
3 should have shut it off early. And then another  
4 thing, I wasn't home, and put a big sign for any to  
5 see that comes along, Hey, there's nobody home. Come,  
6 go and break in because everybody could see it was --  
7 you know, it says the water is shut off, was on the  
8 door, and nobody took it off because my friends didn't  
9 go every day to the house." And I think that's messy,  
10 too.

11 That's what I have to say.

12 MR. TWOMEY: I have a question ma'am.

13 WITNESS DEUL: Yes.

14 MR. TWOMEY: I want to know, the big bills  
15 you get from SSU, don't they give you heartburn?

16 WITNESS DEUL: No, because I have a well, so  
17 my bill isn't too big. What did gave me heartburn was  
18 the water. Yes, now I have to say my water is okay,  
19 because I pay now for it. First of all, I paid  
20 \$2,500; and it costs me about \$7 a month for the  
21 conditioning, you know. And now its okay.

22 MR. TWOMEY: Thank you very much.

23 CHAIRMAN CLARK: Just a minute. Would you  
24 tell me your last name again and spell it and tell me  
25 what facilities you receive your water from?

1 WITNESS DEUL: Pine Ridge.

2 CHAIRMAN CLARK: Pine Ridge.

3 WITNESS DEUL: And my last name is Deul,

4 D-E-U-L.

5 CHAIRMAN CLARK: Thank you. (Applause)

6 (Witness Deul excused.)

7 MR. SHREVE: Marvin Lesser.

8

- - - - -

9

**MARVIN LESSER**

10 was called as a witness on behalf of the Citizens of  
11 the State of Florida and, having been duly sworn,  
12 testified as follows:

13 WITNESS LESSER: Hello. My name is Marvin  
14 Lesser, and I live at 257 Pine Street in Sugarmill  
15 Woods. Do you need my telephone number? All right.  
16 I don't represent anyone but myself, and I just have a  
17 very short observation.

18 Firstly, we in Sugarmill Woods had already  
19 paid for an efficient water and sewage system with  
20 purchases of our lots. I know this has been said  
21 before. Through a transparent scheme devised by SSU,  
22 solely to enhance SSU's bottom line, efficient systems  
23 are being required to pay for the upgrading of  
24 inadequate systems. Other than for increasing the  
25 value of SSU's assets, there is absolutely no basis in

1 logic for unifying the rates of nonunified entities.

2 Thank you. (Applause)

3 CHAIRMAN CLARK: Thank you, Mr. Lesser.

4 MR. SHREVE: Thank you.

5 (Witness Lesser excused.)

6 MR. SHREVE: James Porcello.

7

- - - - -

8

**JAMES PORCELLO**

9 was called as a witness on behalf of the Citizens of  
10 the State of Florida and, having been duly sworn,  
11 testified as follows:

12 WITNESS PORCELLO: Good evening,  
13 Commissioners. My name is James Porcello. I live at  
14 32 Byrsonima Loop West, B-Y-R-S-O-N-I-M-A, Homosassa  
15 34446.

16 I didn't come with the idea of speaking  
17 tonight, but I stayed to join the party, I guess. My  
18 comments are that Southern States Utilities do not  
19 deserve a rate increase of any kind until they comply  
20 with a court ordered dissolution of their uniform rate  
21 schedule and return to the stand-alone rates. What do  
22 you have to do in order to have Southern States comply  
23 with the court's ruling and the Public Service  
24 Commission's concurrence with that ruling? The Public  
25 Service Commission should levy a daily fine of X

1 amount of dollars for every day that passes with  
2 noncompliance of that order.

3 I do not feel qualified to comment on the  
4 validity of the rate schedules to provide a, quote,  
5 "fair return," but I do know that numbers may be  
6 juggled to present any kind of an impression that you  
7 want to make. And we've just witnessed our national  
8 budget figure mess. Thank you.

9 CHAIRMAN CLARK: Thank you.

10 MR. SHREVE: Thank you.

11 (Witness Porcello excused.)

12 - - - - -

13 MR. SHREVE: Ann Schuknecht.

14 WITNESS SCHUKNECHT: I don't have anything  
15 further to add, but I am against the rates.

16 MR. SHREVE: Thank you.

17 Robert Govern.

18 - - - - -

19 **ROBERT GOVERN**

20 was called as a witness on behalf of the Citizens of  
21 the State of Florida and, having been duly sworn,  
22 testified as follows:

23 WITNESS GOVERN: I'm Bob Govern, and I don't  
24 have any technical information for you tonight. It  
25 just -- oh, I live at 10 Begonias Court.

1           And just some reactions to what's been  
2 happening, since we've lost the right to dig our own  
3 wells and install septic systems and SSU holds a  
4 monopoly on supplying us with water and a sewer  
5 system, we must rely on the Public Service Commission  
6 to ensure that we are treated fairly.

7           I may be a little bit naive, but I have been  
8 comfortable with feeling that the PSC would look out  
9 for my interest, and I don't like to have that  
10 confidence questioned or eroded. But not so long ago,  
11 the Sugarmill Woods Civic Association paid a bunch of  
12 money to fight rate increase. The result was they  
13 found we were being overcharged, and a refund had to  
14 be granted. There seems to be other instances of this  
15 nature, and it makes me wonder if it should be  
16 necessary for a private organization to have to spend  
17 money to protect its members from overcharges such as  
18 our civic association has done when we have a  
19 Commission already established in you people.

20           When we purchased our lot we paid a fee for  
21 water, as the previous speaker mentioned in our source  
22 system. And then it was taken over, of course, by  
23 SSU. It was a relatively new system in good condition  
24 with low maintenance costs. And I think it unfair for  
25 us to have to be lumped with all the other systems to

1 establish the single rate. And I just want to say I  
2 hope that you people will not destroy my confidence in  
3 you and give us a good shake. Thank you.

4 CHAIRMAN CLARK: Thank you, Mr. Govern.

5 MR. SHREVE: Thank you, sir.

6 (Witness Govern excused.)

7 MR. SHREVE: Mr. John Mahoney.

8 - - - - -

9 JOHN MAHONEY

10 was called as a witness on behalf of the Citizens of  
11 the State of Florida and, having been duly sworn,  
12 testified as follows:

13 WITNESS MAHONEY: Commissioners, good  
14 evening. My name is John Mahoney. I live at 7 Sweet  
15 William Court, Homosassa 34446.

16 CHAIRMAN CLARK: Did you say Mahoney?

17 WITNESS MAHONEY: Mahoney, that's correct.

18 My wife would tell you that this is actually  
19 past my bedtime, but I'll try to get along with it as  
20 briefly as I can.

21 I would like to take a few moments to review  
22 for you the number of resident complaints to SSU from  
23 the citizens of Sugarmill Woods for the year 1994, the  
24 only year that I have data at this time. A total of  
25 538 compliance were filed during that time. A

1 breakdown according to the most frequently cited  
2 categories is as follows: Excessively high billing,  
3 205; leaks in the system, 69; questioning meter  
4 accuracy, 50; interruption in service, no water, 49;  
5 low pressure, 35; water quality, 19; sewer backup, 16;  
6 sewer odor, 13; sewer stoppage, 6, and there were  
7 others of lesser numbers.

8           The breadth and scope of these complaints  
9 more than adequately reflects the general  
10 dissatisfaction of the residents of Sugarmill Woods  
11 with the services they have been receiving from SSU.  
12 It does not seem that this level of dissatisfaction  
13 warrants any increase in that which is charged for  
14 water.

15           It was mentioned previously about SSU's  
16 concern for the environment for conservation. And I  
17 asked this question: Is SSU really concerned with our  
18 Florida environment?

19           Recently I read an article in the news  
20 letter prepared by the parent of SSU, Minnesota Power,  
21 and there was lament due to the fact that earnings  
22 were less than had been anticipated. And this was so,  
23 according to the article and as stated, because  
24 rainfall in much of SSU's territory was above normal,  
25 which resulted in much less water being used by the

1 homeowners to water their lawns. To me one truly  
2 concerned with the environment would call for  
3 rejoicing, not lamenting the fact.

4 Let's not generate profits over sound  
5 conservation efforts. Thank you for your time.

6 (Applause)

7 CHAIRMAN CLARK: Thank you, Mr. Mahoney.

8 (Witness Mahoney excused.)

9

- - - - -

10 MR. SHREVE: Eugene Gift.

11 CHAIRMAN CLARK: Would you repeat that name  
12 again?

13 MR. SHREVE: Mr. Gift.

14

- - - - -

15 **EUGENE GIFT**

16 was called as a witness on behalf of the Citizens of  
17 the State of Florida and, having been duly sworn,  
18 testified as follows:

19 WITNESS GIFT: Madam Chair, Commissioners  
20 and Staff, my name is Eugene Gift. I live at 8234  
21 West Cecil Lane, Homosassa, Florida. I'm the  
22 president of the Spring Gardens Property Owner  
23 Association and represent those members.

24 I have to interrupt my program a little bit  
25 based on all the conversations that I've heard out

1 here this evening, so I am not going to follow this  
2 pattern totally. There are good and bad in  
3 everything, and we have to relate that as I go through  
4 this.

5 I want to make one point as I go through  
6 this that with proper controls, expenditures by  
7 utility companies and those systems and how they  
8 affect the property owners is the basis of this  
9 report. And in the future that could be very  
10 upsetting to our community.

11 Our community is made up of 66 single family  
12 homes and 33 vacant lots in addition. There are  
13 additional sections. There are 32 vacant lots. In  
14 addition, there are three addition sections: The  
15 commons; the apartment complex of 38 subsidized  
16 apartments; Homosassa Spring Gardens, 18 garden  
17 villas. We have a commercial section which includes  
18 First Federal Savings and Loan with water and sewer  
19 hookup, Barnett Bank with sewer only, and an office  
20 building with several.

21 At the time SSU purchased these utilities,  
22 everybody has to understand, our little subdivision  
23 went through years of frustration with the utility  
24 company that we had. At the time that SSU purchased  
25 that, which was last summer, the repair work

1 authorized by the Public Service Commission and funded  
2 by the users in our subdivision was nearly complete.

3 On the upside, before the transfer of Lake  
4 Utilities was actually in effect, SSU was supporting  
5 our utilities. At that point we are pleased with SSU.  
6 Their response during storms was excellent.

7 On the downside, we see a problem coming.  
8 At the time SSU received transfer of Lake Utilities,  
9 the moratorium on sewer hookups was in effect and  
10 still is. This moratorium was partly due to our  
11 discussions with the Public Service Staff.

12 Today for the number of hookups, we have a  
13 working wastewater treatment plant, and our water  
14 system at its present load is not best, but it is  
15 satisfactory.

16 I had a phone conversation with the DEP in  
17 Tampa on January 17th, 1996. I was informed by the  
18 DEP, it will be necessary for SSU to improve,  
19 construct new or enlarge the water treatment plant  
20 before any further sewer hookups can be made. When  
21 the Public Service Commission investigated the  
22 condition of our plant, it was suggested new settling  
23 ponds were needed. Land was the problem. 19 and one  
24 half acres was available, but was determined to be too  
25 expensive. This property is now owned by the Citrus

1 County parks.

2 Our concern is how will SSU improve the  
3 treatment plant for future connections, where will the  
4 money come from, how will the debt be paid, what  
5 position does the Public Service Commission take in  
6 this matter. We believe SSU should prepare an  
7 operating budget and submit to the Public Service  
8 Commission for review and approval. We also believe  
9 the increase as authorized in the past for the  
10 utilities is upright, and those rates were in order.

11 We believe that our rates should stand alone  
12 as the system is today. Our last rate increase was  
13 granted in 1991 and was supposed to give the utility a  
14 return of 11.47%. Based on 8,500 gallons per month,  
15 this would result in a consumer cost of 38.83. The  
16 proposed uniform rate would result in a cost of  
17 \$73.56, or an increase of 89%. We viciously oppose  
18 this.

19 We are aware costs have risen and  
20 regulations have been more stringent. The interim  
21 rate of 30% increase would be more than any incomes  
22 have risen, which is less than 20%, and more than  
23 consumer price index for the past five years.

24 In summarizing the above comments, we want  
25 to go on record. SSU purchased a system that would

1 only meet yesterday's usage. And should SSU spend  
2 money to upgrade the water treatment plant and system,  
3 where would the money come from, and should not be  
4 borne by the property owners in Spring Gardens. Thank  
5 you very much.

6 MR. TWOMEY: One quick question, sir. The  
7 38 units you spoke of that are subsidized?

8 WITNESS SLEZAK: Yes.

9 MR. TWOMEY: Now, am I correct in  
10 understanding that under the proposed uniform rate  
11 schedule by SSU, that those people would be paying  
12 subsidies? Do you understand that to be the case?

13 WITNESS SLEZAK: Would they be paying what?

14 MR. TWOMEY: Subsidies. Would they be  
15 paying -- do you know whether or not they'd be forced  
16 to pay --

17 WITNESS SLEZAK: I don't know that.

18 MR. TWOMEY: -- more than their own cost?

19 WITNESS SLEZAK: I can't answer that. I  
20 don't know that.

21 MR. TWOMEY: Thank you.

22 MR. SHREVE: Thank you, sir.

23 CHAIRMAN CLARK: Thank you, Mr. Gift.

24 (Witness Gift excused.)

25 MR. SHREVE: Carl Isabelle. Mr. Isabelle?

1 Robert Spangler.

2

- - - - -

3

**ROBERT SPANGLER**

4 was called as a witness on behalf of the Citizens of  
5 the State of Florida and, having been duly sworn,  
6 testified as follows:

7

WITNESS SPANGLER: My name is Robert  
8 Spangler. I live at 7431 East Allen Drive, and I'm on  
9 the Gospel Island Estates.

10

Right now, we have a 25% group here.  
11 There's two of us. (Laughter)

12

I've got one question for the SSU man,  
13 that's all, because the uniform rates and that, as far  
14 as I'm concerned, I'm tired of it. I've never got a  
15 straight answer from any of the letters I ever got  
16 from SSU. The letter telling me about this meeting  
17 specified a stand-alone rate for me of  
18 \$80-and-some-odd-cents for just the service charge.  
19 In your letter there, it's now \$33, so there was a \$47  
20 drop in, we'll say, five days or six, whatever it was.  
21 Why can't I drill my own well, furnish my own water,  
22 put in an iron filter and take care of it myself?  
23 I've done it where I lived before out in the Sherwood  
24 Forest area, and I'm more than willing to do it again,  
25 because I'm tired of this hassle with SSU and the

1 rates going up and down like a yo-yo. Would it be  
2 legal for me to drill my own well and take care of my  
3 own water because I have a septic tank.

4 MR. ARMSTRONG: I really don't know the  
5 answer to it.

6 WITNESS SPANGLER: You have to speak up. I  
7 didn't hear you.

8 CHAIRMAN CLARK: Mr. Spangler, that wouldn't  
9 be something under our control or the Utilities'  
10 control.

11 WITNESS SPANGLER: What do you mean?

12 CHAIRMAN CLARK: It probably is a -- you'd  
13 probably have to check with the county or --

14 WITNESS SPANGLER: I've got a well for my  
15 sprinkling system. They gave me a permit. I've been  
16 using it because I couldn't afford the SSU rates for  
17 the water, so why can't I just -- and I had the well  
18 tested to make sure it was satisfactory for drink. I  
19 haven't used it yet. Why can't I just switch over?  
20 What I want to know is am I going to have to pay the  
21 service charge?

22 CHAIRMAN CLARK: Pay a service charge?

23 WITNESS SPANGLER: Well, the basic facility  
24 charge.

25 CHAIRMAN CLARK: The basic facility charge

1 is part of the rate structure.

2 WITNESS SPANGLER: I know that. Will I have  
3 to pay that even though I don't use any water? That's  
4 my concern.

5 MR. TWOMEY: Not if you don't have service  
6 from them you won't.

7 CHAIRMAN CLARK: Yes.

8 WITNESS SPANGLER: In other words, I can  
9 just shut their valve off?

10 MR. TWOMEY: No, sir, no. I'm not saying --  
11 what they are all saying is probably -- whether you  
12 can drill a well or not is based on a county  
13 ordinance, probably.

14 WITNESS SPANGLER: I've got a well. It was  
15 put in, and I paid a permit to get it. But what I  
16 want to know is if I turn the valve off for SSU, do I  
17 still have to pay the base facility charge to them?

18 CHAIRMAN CLARK: Mr. Spangler, if you are no  
19 longer a customer of them, no, you don't. But if you  
20 are taking service from them, you do. And it's not  
21 clear to me at this point that you can just turn the  
22 water off and use your well water. I think we would  
23 have to check the county ordinances on that.

24 COMMISSIONER GARCIA: Mr. Spangler, could  
25 you tell me what system you belong to?

1 WITNESS SPANGLER: Gospel Island Estates.

2 COMMISSIONER GARCIA: Thank you.

3 CHAIRMAN CLARK: Mr. Spangler, we can find  
4 out the answer to that.

5 WITNESS SPANGLER: Well, I would appreciate  
6 it.

7 CHAIRMAN CLARK: I would direct you to my  
8 aide in the back, Billy Stiles, and we will get you an  
9 answer to that question.

10 WITNESS SPANGLER: Okay. Thank you.

11 MR. SHREVE: Mr. Spangler? I understand  
12 your comments, Mr. Spangler, and I'd like to ask you.  
13 Now, Gospel Island before the '92 case was paying in  
14 revenue of \$1,148 total for the system. Now,  
15 Southern States is asking for \$7,967. Do you see any  
16 reason at all that your rates or revenues that the  
17 company gets should increase by seven times?

18 WITNESS SPANGLER: No. The only thing I can  
19 remember, the iron filter went kerflooy (phonetic) and  
20 started leaking, and we had the green sand all through  
21 the whole system because I had to clean out all my  
22 sprinkler heads and everything else like that. They  
23 put in a new iron filter. And, well, the same went  
24 for the toilet flush; it was running all the time and  
25 everything else. So they put in a new iron filter, I

1 know of. I don't know of any other improvements.

2 MR. SHREVE: But for eight customers, the  
3 rates were increased by eight -- seven times.

4 WITNESS SPANGLER: Well, I don't know if  
5 there's ten or eight. There's not very many.

6 MR. SHREVE: The number they turned in was  
7 eight.

8 WITNESS SPANGLER: Thank you.

9 MR. SHREVE: Thank you, sir. (Applause)  
10 (Witness Spangler excused.)

11 MR. SHREVE: Mr. Henry Charland.

12 - - - - -

13 HENRY R. CHARLAND

14 was called as a witness on behalf of the Citizens of  
15 the State of Florida and, having been duly sworn,  
16 testified as follows:

17 WITNESS CHARLAND: Yes, that's Charland,  
18 Henry Charland, C-H-A-R-L-A-N-D.

19 CHAIRMAN CLARK: You need to speak louder.

20 WITNESS CHARLAND: And my address is 890  
21 North Sabal Palm Way, Inverness, Florida, which is at  
22 the Lakeside community.

23 CHAIRMAN CLARK: Get close to that  
24 microphone.

25 WITNESS CHARLAND: Pardon me?

1 CHAIRMAN CLARK: Get closer to the  
2 microphone. We're having difficulty hearing you.

3 WITNESS CHARLAND: Okay. I'm  
4 extemporaneous, so I don't have a bunch of paperwork  
5 here. I don't think it is as hard as everybody is  
6 making it. I think here tonight what our problem is,  
7 is that you folks are here -- maybe look at my house;  
8 I've got a house for sale. I think you're going to be  
9 in this county a lot at the rate we're going.

10 But the uniform rates, I think, is what has  
11 to prevail, but I think it has to be fair and  
12 equitable to everybody. Just because certain people  
13 think they're going to be supplementing somebody  
14 else's water supply, that's their problem. However, I  
15 think if we're going -- if we're going to be talking  
16 where it's going to be fair and equitable, then do it  
17 in all systems, but make it uniform for everybody  
18 within that system. It's going to make a lot of  
19 people work a lot harder. But being that we know how  
20 much money you people make now, we should make you  
21 work harder for your money.

22 But I think that overall the problem is that  
23 SSU is over charging everybody, not only in this  
24 county, but probably in the whole state. I think  
25 there should be a figure that they should be able to

1           A     With the rates that I originally had and  
2 that we have at the present time, yes. However, the  
3 proposed rates I'm not too happy with at all.

4           Q     I want to ask you this. I want you to  
5 assume that SSU in the next year goes out and buys a  
6 bunch of dog systems, okay, receiver bankrupt systems  
7 that they have to have an extra million dollars a year  
8 to operate in, like I read in that letter. I don't  
9 know if you were here. If they go out and buy a bunch  
10 of dog, run-down, dilapidated systems and it causes  
11 your rates to double under the uniform rates, are you  
12 still happy with them?

13          A     No, counselor. Maybe you misunderstood me.  
14 I said it should be a uniform rate. I don't care.  
15 Just take a uniform rate.

16                   Lakeside, here, we own this system. This is  
17 what we paid for it, this is what we're into it for,  
18 this is what it's going to cost us, and we want to  
19 make this kind of a profit, and it's going to be  
20 uniform for your --

21          Q     For your system.

22          A     Now, maybe you consider that a stand-alone  
23 rate. I don't consider it that way.

24          Q     I'm sorry. That's the stand-alone rate.

25          A     All right. Go ahead.

1 Q I didn't know you were one of my people.

2 A It's got to be uniform for everybody. And  
3 I'm so glad that we are all paying for you, because  
4 you are doing a really good job tonight.

5 CHAIRMAN CLARK: Thank you, Mr. Charland.

6 (Witness Charland excused.)

7 CHAIRMAN CLARK: Mr. Shreve.

8 MR. SHREVE: Mr. James Warner.

9 WITNESS WEAVER: Weaver.

10 MR. SHREVE: Weaver.

11 - - - - -

12 **JAMES WEAVER**

13 was called as a witness on behalf of the Citizens of  
14 the State of Florida and, having been duly sworn,  
15 testified as follows:

16 WITNESS WEAVER: My name is Jim Weaver. I  
17 live at 901 North Sabal Palm Way, Inverness, and I  
18 live in Lakeside.

19 Previous speakers have raised sufficient  
20 questions and provided facts and figures for  
21 consideration. Also, reference has been made by  
22 others to laws and statutes which implies the PSC has  
23 no authority to rule on uniform rates.

24 Most laws are written by lawyers and are  
25 also subject to adjudication. In other words, further

1 interpretation. And as a reference, you folks that  
2 read Reader's Digest, if you read "That's Outrageous,"  
3 you'll understand what I just said.

4 I have a problem understanding the logic and  
5 the fairness of us to pay a proposed stand-alone rate  
6 of approximately 600% on the base rate and 400%  
7 gallonage rate versus Sugarmill Woods. Now, I only  
8 use Sugarmill Woods because it happened to be the  
9 first one I looked at here, because it was a big one  
10 and a big difference.

11 Also, my reason for that -- or question,  
12 rather, relative to the percentage increases is that  
13 the aquifer, as I understand it, is a common  
14 connector, and it runs -- now, you can sit there and  
15 shake your head, but I don't agree with that at all,  
16 and I don't think you can prove that beyond a shadow  
17 of a doubt. If you can tell me that one area,  
18 Sugarmill Woods, gets it from a different place than I  
19 do, maybe, I don't know. I don't think so.

20 In any case a uniform rate structure would  
21 seem to be both logical and fair. I trust that common  
22 sense will prevail both in the proposed rate increase  
23 and the various rate structures, and that SSU will be  
24 forced to justify all increases to the satisfaction of  
25 all concerned.

1 I would also compliment those people from  
2 Sugarmill Woods relative to their fight against the  
3 rate increases, even though I disagree with their  
4 stand on the stand-alone versus uniform. I thank you.

5 CHAIRMAN CLARK: Thank you, Mr. Weaver.

6 MR. SHREVE: Thank you, sir.

7 (Witness Weaver excused.)

8 MR. SHREVE: Mr. Slusher.

9

- - - - -

10

**HAROLD SLUSHER**

11 was called as a witness on behalf of the Citizens of  
12 the State of Florida and, having been duly sworn,  
13 testified as follows:

14 WITNESS SLUSHER: My name is Harold Slusher.

15 I live at 4 Redbay Court West, Homosassa, Florida  
16 34446. That's Sugarmill Woods.

17 Most of the comments that have been made  
18 tonight have already covered what I want to talk  
19 about, but I would like to bring up the fact that the  
20 SSU propaganda, as you might want to call it, has been  
21 most misleading. If they were ever called up on a  
22 truth in advertising, they might be in trouble on  
23 that. I think the letters that they send out and all  
24 the information they pass out, whether it be to the  
25 citizens or to the PSC, it's certainly advertising.

1           The next point, the uniform rates have been  
2 declared illegal. I think it would be -- speed things  
3 up considerably if the PSC would not consider any more  
4 rate increases until after SSU has mailed out all the  
5 refunds. There has been a court order for them, and  
6 they should comply with that before they can get a new  
7 consideration on new rate increases.

8           The third point is SSU went in and bought  
9 these inefficient small systems with their eyes wide  
10 open. They knew exactly what they were going to do.  
11 The aquifer, whether it be common to all the systems  
12 or whether it not be common, is irrelevant. What we  
13 are talking about is the cost of getting the water out  
14 of the ground and furnishing it to the customer. And  
15 when they buy these inefficient systems on purpose,  
16 they are going to cost a lot more money to get the  
17 water to the customer than it does when they buy a new  
18 large system that is about as efficient as modern-day  
19 science can make it. I think that should be a  
20 consideration of the PSC when they consider these  
21 rates.

22           To make my final point clear, I'm very much  
23 opposed to the uniform rates. It should be stand-  
24 alone rates, and there should be some way of making  
25 these small systems so that they don't have to have

1 such an exorbitant price for the small number of  
2 customers that they have. Thank you.

3 CHAIRMAN CLARK: Thank you, Mr. Slusher.

4 (Applause)

5 MR. SHREVE: Thank you, sir.

6 (Witness Slusher excused.)

7 - - - - -

8 MR. SHREVE: Mr. John Mayles.

9 CHAIRMAN CLARK: Mr. Shreve, we need to take  
10 another break. We're going to take another ten-minute  
11 break, and allow her to change the paper and we'll be  
12 back.

13 (Brief recess.)

14 - - - - -

15 CHAIRMAN CLARK: We're ready to call the  
16 hearing back to order.

17 Go ahead, Mr. Shreve.

18 MR. BECK: Mr. Harold Steffen. Mr. William  
19 Colbert.

20 WITNESS MAYLES: With all due respect to the  
21 Commissioners, I was named next.

22 CHAIRMAN CLARK: Go ahead.

23 - - - - -

24

25

**JOHN MAYLES**

1  
2 was called as a witness on behalf of the Citizens of  
3 the State of Florida and, having been duly sworn,  
4 testified as follows:

5           WITNESS MAYLES: And it was my inclination  
6 to go home and save you the travail of listening to  
7 anymore. But, anyway, my name is Mayles, M-A-Y-L-E-S,  
8 John. I live at 103 Douglas Street in Sugarmill  
9 Woods, Florida 34446.

10           I had prepared a few points, but they've all  
11 been very adequately and very completely addressed by  
12 people who have preceded me. However, in listening to  
13 the testimony that has been given here this evening,  
14 it has occurred to me that one of the reasons, perhaps  
15 the most compelling reason why SSU has seen fit to buy  
16 very small and very inefficient systems, is precisely  
17 at hearings like this, to bring the poor people from  
18 Rosemont, from Lakeside, from Rolling Green here to  
19 testify, it forms a pressure point against stand-alone  
20 rates. Because these people, of course, are all  
21 calling for uniform rates because they can point to  
22 the obscene increases that they are being forced to  
23 pay.

24           So, I think, I have formed a very unworthy  
25 thought this evening, which may have occurred also to

1 some of the members of the Commission, that the reason  
2 that SSU buys these facilities is precisely to have a  
3 power block, not a power block, but people that they  
4 can point to and the people who can answer the -- that  
5 can telephone the Public Service Commission in  
6 Tallahassee to signify their endorsement and their  
7 approval that uniform rates be maintained.

8 I feel that to use that argument and to say  
9 that because some of these people are facing these  
10 quite grotesque increases and to use that as the  
11 reason to restore uniform rates is like throwing the  
12 baby out with the bathwater. So I urge the Public  
13 Service Commission to insist that SSU pay the refund  
14 which has been ordered by the courts, and to make sure  
15 that the customers in Sugarmill Woods, not just  
16 Sugarmill Woods, all the other installations that have  
17 been purchased, similarly efficient systems to the one  
18 that we have, that they should not be expected to pay  
19 the artificially inflated rates to ensure the  
20 profitability of systems totally unrelated to ours,  
21 except by the common denominator of ownership. Thank  
22 you very much.

23 CHAIRMAN CLARK: Thank you, Mr. Mayles.

24 MR. SHREVE: Thank you, sir.

25 (Witness Mayles excused.)

1 MR. SHREVE: Mr. Colbert. Mr. William  
2 Colbert. Mr. Jordan. Mr. A. C. Jordan. Mr. Radder.  
3 Mr. Bill Radder.

4 - - - - -

5 **BILL RADDER**

6 was called as a witness on behalf of the Citizens of  
7 the State of Florida and, having been duly sworn,  
8 testified as follows:

9 WITNESS RADDER: Good evening. My name is  
10 Bill Radder, R-A-D-D-E-R. I live at 24 Hemlock Court  
11 South, Sugarmill Woods, Homosassa, Florida. Just as a  
12 slight preface, thank you for allowing me to speak.

13 You might want to adopt your rules to the  
14 fact that if someone is going to speak before your  
15 committee, seeing as the hour is late now, you might  
16 limit it to five or six minutes. Many people I've  
17 seen before me this evening had prepared statements.  
18 You will all get a chance to read these. We don't  
19 need to hear an on-and-on lengthy statement out here.  
20 Let them give a synopsis. That's just an observation.

21 I'm here tonight representing myself. And  
22 as part of the largest small business entity in  
23 America, my wife is a chairman. I'm a homeowner. We  
24 are all homeowners. I'm not here tonight to talk to  
25 you about facts and figures about SSU. I'm here

1 tonight to talk to you about common sense.

2 I purchased my property in Sugarmill Woods  
3 in 1988, the same year that Southern States purchased  
4 the utility. Rates at that time for water were about  
5 38 cents per thousand. Now we are talking \$1.22,  
6 \$1.50, \$1.70, Lord knows what, 300%, 400%.

7 Ladies and gentlemen, as a homeowner, had I  
8 had purchased a home in a neighborhood worth \$100,000,  
9 and it was a \$100,000 neighborhood, and I knew that I  
10 would have to invest in the next eight years \$200,000  
11 to \$300,000 to make it livable, and I understood that  
12 without a guardian angel someplace, I would still only  
13 get 100,000 for it, I would use my common sense; I  
14 wouldn't buy it.

15 But Southern States has gone out and  
16 purchased properties which are apparently uneconomical  
17 to operate, need a great deal of revision, and then  
18 counted on utilizing this to put together what they  
19 call a uniform rate structure, which you have  
20 apparently upheld. And using the status that the  
21 ability for you to generate rate cases, arguments for  
22 or against to generate the information necessary, is  
23 impossible at 126 different levels, then it makes more  
24 sense to do it at one. Thank goodness you don't  
25 control the health care costs in Florida. We all have

1 to use a doctor and a hospital. But I'm not going to  
2 pay health care costs for Miami. I'm not going to pay  
3 car insurance rates for Miami. I'm not going to pay  
4 education expenses in Hillsborough County. I'm paying  
5 taxes here. And I think you have to get a look at  
6 stand-alone rates and what they mean.

7           What they mean basically is this is Citrus  
8 County. I don't make wages like they make in  
9 Hillsborough or Orlando. I don't have public  
10 transportation like they do in Jacksonville. I  
11 probably don't even have a good networking operation  
12 for my computer as they do in Tallahassee, but I  
13 accept it because this is Citrus County. I understand  
14 that the guy that's shoring the roof on out here is  
15 making 5, 6 bucks an hour. He's not making 15 or 20.  
16 I understand that the doctor who doesn't charge as  
17 much as he does in Tallahassee, he doesn't have to;  
18 our overheads are lower.

19           There's a lot of things that common sense  
20 tells me. I live here for a reason. And one of those  
21 reasons is it's less expensive to live here. Would  
22 you in God's name tell me why I have to pay for  
23 somebody someplace else? They've got a system; it's  
24 theirs. Please let them pay for it. I'm not paying  
25 for roads in Michigan. I'm not paying for school

1 districts in Alabama. This is our system. If they  
2 purchased it -- and you had to look at it when they  
3 did -- I'm sure they didn't say to you, "Look, we are  
4 going to need to increase these rates to these figures  
5 in the year of 1996." You wouldn't have allowed them  
6 to purchase it. If common sense would have told you,  
7 "Hey, please don't buy it; it's not worth it."

8           You know, if the Ford Motor Company had  
9 taken your theory back in the late '50s when Edsel  
10 said, "Let's put this car out and called it an Edsel,"  
11 and they didn't make any money on it, they blew  
12 millions, and somebody had said, "Well, look, we'll  
13 just raise the price of the Ford Fairlane." They  
14 wouldn't have sold any Ford Fairlanes; Chevy would  
15 have gobbled them up, and there wouldn't be a Ford  
16 Motor Company today. But if they had had an guardian  
17 angel, they could have done that.

18           You are here as the Public Service  
19 Commission. I'm asking you to look at the homeowner.  
20 You are all homeowners. You are like me. You are not  
21 a Commissioner or anything else. You own a piece of  
22 property, and it's your home. And you use common  
23 sense every day of the week in operating your budget.  
24 You make X amount of dollars a year. You spend X  
25 amount of dollars a year. You would in no way think

1 that you could spend 300% of your income this year to  
2 live, or consider that maybe next year would you have  
3 to. You would say common sense tells me I can't do  
4 it. Let's look up where we have to cut.

5 But because they have massive amounts of  
6 attorneys, and massive amounts of accountants -- my  
7 little business doesn't have that. There's just me  
8 and the wife and we sit down and we figure up; we're  
9 getting this much this week, I guess we can buy this  
10 much tomorrow. If the price of bread had went up in  
11 this county 300%, I wouldn't buy it. If those county  
12 commissioners had raised taxes 300%, we'd have a  
13 lynching. And nobody is going to guarantee that eight  
14 years from now my house is worth 300% more than it is  
15 now. I'll be damn lucky to get what I got.

16 Common sense. If they bought a system, dig  
17 in and find out what the problem is. Find out if you  
18 need to get help. Don't wash it off and say, "We  
19 can't do it." You're the Public Service Commission,  
20 go to the legislature and say, "Hey, we need money to  
21 do this. We need to hire a firm that's going to come  
22 in, a consulting firm." Are they buying pipe that's  
23 too expensive? Are they buying trucks every year or  
24 six months? Are they paying guys to dig ditches at  
25 \$15 an hour in a \$5-an-hour neighborhood? That's a

1 your job. You're the Public Service Commission,  
2 common sense.

3 Like I said, I don't mean to come here and  
4 spiel out, but it's -- I'm going to wait it out. It's  
5 a quarter to ten. Sorry about that.

6 All I ask is you look at the people out  
7 here. Nobody has had a 300% increase in anything that  
8 they've invested in in the past eight years. Wages  
9 haven't gone up 300%. You heard your President last  
10 night tell you that the minimum wage has to go up.  
11 It's been \$4.25 for God knows how long, and the people  
12 out here are paying that.

13 It's your responsibility to determine that  
14 the rates these people are asking for are fair, just,  
15 and reasonable. That's what it says here, fair, just,  
16 and reasonable. And to do that you've got to dig.  
17 You've got to find out why they spend so much money  
18 doing what they did. And you have got to discount  
19 that and say, "No, we are not going to give you an  
20 increase on that. We are not going to allow you to go  
21 out here and buy a piece of junk for nothing and think  
22 you're going to turn it into a gold mine at the  
23 expense of the customer."

24 And if you don't want to do that, then do me  
25 just one more favor. Go to the state legislature and

1 say, "Listen, I want you to pass a law that says any  
2 deed restrictions out there regarding water or water  
3 treatment are all null and void. Anyone that owns a  
4 piece of property in any area cannot be prohibited  
5 from putting in a septic system or digging their own  
6 well and providing for themselves.

7 This is not an electric utility. I can cut  
8 my costs on electric utilities. I can put in solar  
9 systems. I can put in gas systems.

10 I don't even need the phone company. I can  
11 get a cell phone. I don't need to bother with them at  
12 all.

13 And as far as TV, I can put an antenna up.  
14 I can buy RCA systems. I can get television down the  
15 street.

16 But I have got to drink water and where I  
17 live says you will drink the water out of that tap,  
18 then I've got to pay their price. It's your  
19 responsibility to make sure that price is fair and  
20 it's just and it's equitable.

21 One final comment, and I don't mean to  
22 insult anyone here. It says that you are the Florida  
23 Public Service Commission. The actions I've seen here  
24 since I've moved in the past eight years, I doubt that  
25 you are public and whether you provide a service. And

1 that's not meant to insult any of you, because none of  
2 you were here when Southern States purchased this  
3 piece of property. But a 300% rate increase is  
4 audacious. It doesn't work. You haven't had 300%  
5 raise. Nobody out here has. I haven't. Why do they  
6 justify it, and how can they even think to justify it?  
7 If these numbers aren't stacked, I've got a bridge to  
8 sell you. Thank you very kindly for your attention.

9 CHAIRMAN CLARK: Thank you, Mr. Radder.

10 (Applause)

11 (Witness Radder excused.)

12 MR. SHREVE: Mr. Sinemus.

13 - - - - -

14 **HERMAN A. SINEMUS**

15 was called as a witness on behalf of the Citizens of  
16 the State of Florida and, having been duly sworn,  
17 testified as follows:

18 WITNESS SINEMUS: My name is Herman  
19 A. Sinemus, S-I-N-E-M-U-S. I live at 12000 South  
20 Brierwood Point, and that's B-R-I-E-R-W-O-O-D Point in  
21 Floral City 34436. I've lived there over 10 years,  
22 and I participated extensively in the last time they  
23 tried to uniform rates and was turned down. We got a  
24 rebate from that one.

25 I endorse everything our last speaker said.

1 I was going to talk about efficiency, one thing you  
2 have to consider. You should consider. You don't  
3 have to do anything, I guess. But you should consider  
4 the efficiency of the operation of a company,  
5 particularly a company that doesn't make a product.  
6 They are just transporting a product from underground  
7 to us. So they are putting a service charge is all  
8 they are putting, not a manufacturing charge.

9           And they are entitled to a profit, but I  
10 don't believe they are entitled to mismanagement,  
11 inefficient management, and I found some of those  
12 things out in that last docket where they had status  
13 to add so many employees. He added up the positions  
14 -- the employees, they had positions, but they didn't  
15 have employees, but they were charging off on it.

16           I want to speak on the uniform rates. The  
17 efficiency was covered by the last subject. On the  
18 uniform rate, they are saying the aquifer is a common  
19 connector. Some people said it. The aquifer really  
20 isn't a common connector. I live in Oak Forest. Our  
21 water tests the same as Zephyrhills. We are known as  
22 the Weeki-Wachi Aquifer. If I go into Floral City  
23 Bank, they have sulfur in their water. It's a  
24 different aquifer, different supply of water. If I go  
25 up into Crystal River in somebody's private well, it

1 has a different taste, so there are different aquifers  
2 down there. Our water tests exactly the same as  
3 Zephyrhills. Five miles away, it's different. So  
4 that's not a common.

5           And one of the arguments that I used the  
6 last time was a common connector should be for uniform  
7 service. Your lighting is a common supplier. You  
8 have a main feeder. Your lights come in. One plant  
9 goes out, something happens to the power supply in St.  
10 Petersburg, they can transfer it around and give us  
11 water.

12           Sugarmill Woods cannot provide water to me  
13 in Oak Forest in Citrus County. There's no common  
14 connection, so they can't provide water; therefore,  
15 you do not have a common supplier.

16           Let's consider the investments of our land  
17 value. I bought my lot, and there was a plant -- a  
18 central water supply on there. That put a certain  
19 value on that residential property I bought. And it's  
20 a reasonable system. I could find property with lower  
21 values, and they had a less adequate facility of water  
22 plant. So this is a consideration as was reported in  
23 the U.S. Constitution of private property protection,  
24 so you should consider that item in your deliberations  
25 about the rate increase sometime down the future.

1           And the investment that we have, the  
2 investments that the utility company has, and the  
3 reasonable profit and efficiency of operation -- I  
4 think this thing is about ready to go our or I don't  
5 need it, either one.

6           Anyhow, just be reasonable and use common  
7 sense for the citizens here. As you heard, 300%.  
8 We're not getting any increase. I'm retired. I've  
9 been retired 10 years. I'm making it all right now,  
10 but if everything starts going up like this, we're  
11 not going to make it, and we'll leave. They'll be  
12 other places, and the land values will go down. But  
13 you still need a reasonable quality of water and a  
14 fair profit. And let's be a Public Service Commission  
15 instead of a utility service commission. Thank you.

16 (Applause)

17           CHAIRMAN CLARK: Thank you.

18           MR. SHREVE: That's all we have.

19           CHAIRMAN CLARK: That's all we have signed  
20 up? Is there anyone else who wishes to make a comment  
21 who did not sign up? I don't see any hands.

22           I wish to thank everyone who stayed with us,  
23 and thank you for coming out.

24           This hearing is adjourned.

25           (Thereupon, the hearing concluded at 9:50 p.m.)

1 STATE OF FLORIDA)

from the  
**CITRUS COUNTY CHRONICLE**  
Crystal River, Citrus County, Florida  
**PUBLISHED DAILY**

**BEFORE THE FLORIDA PUBLIC  
SERVICE COMMISSION  
NOTICE OF SERVICE HEARING  
DOCKET NO. 950495-WS**

STATE OF FLORIDA  
COUNTY OF CITRUS

Before the undersigned authority personally appeared R. CHRIS ORDWAY of the Citrus County Chronicle, a newspaper published daily at Crystal River, in Citrus County, Florida, that the attached copy of advertisement being a public notice in the matter of the

Docket No. 950495-WS -- Application by Southern States Utilities, Inc. to rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus Clay, Collier, Duval, Highlands, Lake Lee, Marion, Martin, Nassau, Orange Osceola, Pasco, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.

Notice is hereby given that the Florida Public Service Commission will conduct a service hearing to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for the utility's customers in Citrus and Marion County(ies) will be held at the following time and place:

Public Hearing Rate Increase

January 24, 1996  
6:00 P.M.  
Citrus County Fairgrounds  
Auditorium - U.S. 41  
3610 S. Florida Avenue  
Inverness, FL 34450

Court, was published in said newspaper in the issues of December 28, 1995

All persons who wish to testify are urged to be present at the beginning of the service hearing as the hearing may be adjourned early if no customers are present. Any persons requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior to the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) OR 1-800-955-8771 (TDD).

Affiant further says that the Citrus County Chronicle is a newspaper published at Crystal River in said Citrus County, Florida, and that the said newspaper has heretofore been continuously published in Citrus County, Florida, each week and has been entered as second class mail matter at the post office in Inverness in said Citrus County, Florida, for a period of one year next preceding the first publication of the attached copy of advertisement; and affiant further says that he/she neither paid nor promised any person, firm or corporation any discount, rebate, commission or refund for the purpose of securing this advertisement for publication in the said newspaper.

**PURPOSE**

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly \$100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity, and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.

R. Chris Ordway  
The foregoing instrument was acknowledged before me this 28th day of Dec 19 95 by R. CHRIS ORDWAY

**AFFIDAVIT**

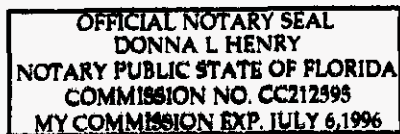

STEVEN M. GALLIS, having been duly sworn, states as follows:

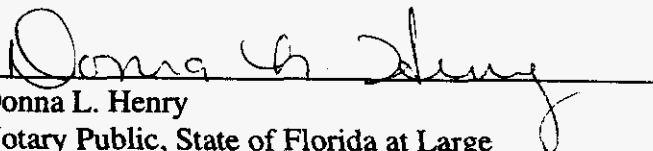

1. I am Supervisor of Administrative Services in the Office Services Department of Southern States Utilities, Inc. ("SSU"), whose central office is located in Apopka, Florida.
2. As part of my duties, I am responsible for administering mailings to SSU customers, such as notices required by Florida Public Service Commission Rules and Orders.
3. In my presence and under my supervision, SSU personnel mailed to the customers in Citrus County a copy of the document identified as "Notice To Customers Of Service Hearing Letter" attached hereto and marked "Exhibit A."
4. The names and addresses of the aforesaid customers were obtained by SSU from SSU's Information Services Customer Address Files. A copy of the list of SSU customer names and addresses used to print the mailing labels for customers in the aforesaid county is attached hereto and marked "Exhibit B." "Exhibit C" attached hereto, is the presorting report printed from SSU's Information Services Customer Address Files to prepare the mailing.
5. On December 26, 1995, my staff and I machine postmarked the labeled envelopes containing copies of Exhibit A and hand delivered the envelopes to a representative of the United States Postal Service for delivery.
6. Attached hereto and marked "Exhibit D" is a copy of the relevant page of SSU's Office Services' Postage meter logbook. The logbook is used to record mailings from SSU's Office Services Department. Exhibit D contains information pertinent to the aforementioned mailing, to wit: on December 26, 1995, SSU mailed 6,097 total batch items, which included mail fitting the description of "Customer Service Hearing Inverness Meeting - Citrus County." I personally made this entry into the logbook, and the recordation therein coincides with my personal observation.
7. The total batch count on the logbook included 6,097 pieces of mail as listed in Exhibit C mailed to those persons listed in Exhibit B. If applicable, any logbook totals which are less than Exhibit B & C totals reflect automation malfunctions in copying and sorting. In such cases, envelopes were reprocessed by hand and metered separately for mailing the same day.

8850 E. Rosemont St.  
Inverness, FL 34450

Re: Docket No.950495-WS

Ladies and Gentlemen:

During the past six months or so, we have been receiving information from SSU and the newspapers regarding the Application of Docket No.950495-WS by SSU for a rate increase to compensate the company for their water and wastewater facilities operation. The information we have been exposed to is confusing to say the least.

1. As an example, SSU states that they have 152 facilities in one correspondence and 127 in two other. The Chronicle states that the Company has 150 facilities. The St. Petersburg Times states that the Company has 127 facilities.

**Question:** How many facilities are there?

2. The St. Petersburg Times states, in its January 8, 1996 edition, page 10A, that "The first District Court of Appeals last year correctly ruled that the PSC didn't have the authority to approve uniform rates in the absence of a central system. So the PSC ordered an \$8 million refund. The Company responded by filing for a \$12.3 million rate hike.

**Question:** What has become of the refund?

3. On Thursday, January 4, 1996, the Public Service Commission approved an interim rate increase designed to produce **additional revenues** of \$3.1 million for the Company's water operation and \$2.8 million for wastewater operations. An article in the January 5, 1996 issue of the Chronicle mentions that Mr. Hansen, speaking for Sugarmill Woods residents, states that the current uniform water rates will drop, under the new approved interim rates.

**Question:** Unless Mr. Hansen's statement is a personal opinion, how can the lowering of rates for Sugarmill Woods achieve the additional revenue granted by the PSC to SSU?

*Please note that by lowering the rates in one area, you must raise the rates in another in order to achieve a balanced return. How can this be justified?*

4. A notice from SSU, dated January 9, 1996, attempts to compare the "uniform" rate versus a "stand-alone" rate as to how they affect the consumer of Southern States Utilities. There is no logical description in this notice as to how these figures are arrived at. The only way I could rationalize the amounts stated was to go back to the undated tabulation labeled Plant 988/985, (see attached) using the figures presented in the columns under potential final rates and calculating the results using a consumption of 12,577 gallons per month.

**Question:** Where are the actual analyses describing the cost of operation and improvements claimed by SSU for updating the standards to comply with EPA requirements?

5. On January 18, 1996, I received a letter from SSU dated January 1996, signed by Judy Lee Sweat, Manager, Customer Business Office.

This letter (*see attached*), second paragraph states, "On January 4, 1996, the Commission approved an interim revenue increase based on the supplemental information provided. The interim rates approved by the Commission to permit SSU to recover the additional revenue, along with your current rates, are provided on the schedule set forth on the back of this page. Please be advised that the interim rates will be effective for service rendered on or after January 23, 1996."

**Question:** If the Commission, on January 4, 1994, approved only 42% of the interim rates requested by SSU, how can SSU state that they will include the "Stand Alone Rate" of \$23.15 in their January 23, 1996 billing? Did the Commission include the final "Stand Alone Basic Facility Rate" when they approved only 42% of the requested interim rate?

6. The Basic Facility Charge, which now stands at \$5.13 for a 5/8" X 3/4" meter to be raised to \$23.15, represents a 351% increase. What in the world has been included to warrant such an increase? Actually, I would like to know what does the Basic Facility Charge actually cover. As you all know, you cannot make an accurate analysis unless you have all the accurate facts to establish rates for consumption and a reasonable return.

7. Ladies and gentlemen, in an effort to place this problem before us into some form of perspective, I have attempted some calculations of my own regarding the requested rates and their affect, based on the interim rates approved by the Public Service Commission on January 4, 1996.

The following exhibits will show you how the approved and proposed rates will affect all of us.

My first exhibit shows an actual water consumption experienced during the year of 1995.

**EXHIBIT I**

MONTH	GALS.	MONTH	GALS.
January	15,330	July	19,050
February	25,340	August	24,930
March	49,190	September	20,150
April	39,640	October	8,330
May	29,000	November	7,210
June	20,140	December	5,270
	<u>178,640</u>		<u>84,940</u>

$$\text{Average per month} = \frac{178,640 + 84,940}{12} = 21,965 \text{ gals./mo.}$$

Say: 22,000 gals./mo.

**EXHIBIT II**

Existing Costs/month based on 22,000 gallons.

Basic Facility Rate: \$ 5.13

Consumption: \$1.23 x 22 = 27.06

\$32.19/month

or \$32.19 x 12 = \$386.28/year

**EXHIBIT III**

Based on SSU Notice to Customers of Application: Docket No.950495-WS  
 Rosemont/Rolling Green Service Area, Citrus County

PROPOSED RATE SCHEDULE					
BASIC RATES				STAND ALONE FINAL RATE	
Class Meter	Present Rate	Prop. Interim	% Increase	Prop. Rate	% Increase
5/8" x 3/4"	\$5.13	\$6.71	31%	\$23.15	351%
GALLONAGE CHARGE PER 1000 GALS. CONSUMPTION					
	\$1.23	\$1.61	31%	\$3.24	163%

**EXHIBIT IV**

Based on the Chronicle article printed January 5, 1996, the Public Service Commission approval of **only about half** of SSU's sought in an interim rate increase represents the following:

The interim rates approved by the PSC are designed to produce **additional** revenues of \$3.1 million for its water operations and \$2.8 million for wastewater operations. The company (SSU) had sought **additional** revenues in its consolidated **water operations** of \$7.4 million.

Therefore the PSC approval represents:

Request = \$7.4 million (consolidated water)

Approved = \$3.1 million (consolidated water)

Difference = \$4.3 million

$$\frac{3.1}{7.4} = 41.89\% \text{ of request approved}$$

**EXHIBIT V APPROVED INTERIM RATES:****Basic Facility Rate:**

$$\$5.13 + [(6.71-5.13)(0.4189)] = \$5.79$$

**Gallage Rate: /1000 gallons**

$$\$1.23 + [(1.61-1.23)(0.4189)] = \$1.39$$

**EXHIBIT VI COST BASED ON APPROVED INTERIM RATES: (22,000 gals.)**

**Basic Facility Rate:** \$ 5.79

**Consumption:**  $\$1.39 \times 22 = 30.58$   
 $\$36.37/\text{month}$

or  $\$36.37 \times 12 = \$436.44/\text{year}$  (Represents 12% increase)

**EXHIBIT VII COST BASED ON SSU PROPOSED FINAL UNIFORM RATES: (22,000 gals.)**

**Basic Facility Rate:** \$ 9.17

**Consumption:**  $\$2.16 \times 22 = 47.52$   
 $\$56.69/\text{month}$

or  $\$56.69 \times 12 = \$680.28/\text{year}$  (Represents 76% increase)

**EXHIBIT VIII COST BASED ON SSU PROPOSED**

FINAL STAND-ALONE RATES: (22,000 gals.)

**Basic Facility Rate:** \$23.15

**Consumption:**  $\$3.24 \times 22 = 71.28$   
\$94.43/month

or  $\$94.43 \times 12 = \$1,133.16/\text{year}$  (Represents 193% increase)

Ladies and Gentlemen, if you analyze these exhibits presented to you, I am sure that you will be left with these questions in your mind;

- 1. What is the real basis for the requested hikes, as presented to you?**
- 2. What justification is there for a rate hike that approaches 200 percent?**
- 3. Is such a rate hike justified?**

8. In spite of all I have said and the confusion created by the data presented, I must admit that any company is not unreasonable to expect a 10% return on its operation, but this return must also be based on solid facts of expenditures for operation versus the income levied on its customers.

In closing, I would like to make the following recommendation, as seed for thought; Florida depends strongly on its aquifer for potable water, therefore if we are looking to save water and at the same time offer the utility company an equitable return for its operation of the systems, why not consider a uniform rate and a graduated rate charge. The user gets to pay a basic rate for water consumption up to 20,000 gals./month. After that, a stepped up rate for the next 10,000 gals. over the 20,000 gals. and again another higher rate above the 30,000 gals. used. This system will deter the user from using water indiscriminately and save our aquifer from depletion.

Finally, I would like to add that something does not fit, if it doesn't fit, look into it.

Thank you,

Dante J. Caldera

January 9, 1996

Dear Rolling Green/Rosemont Customer:

For the third time in just three years, the Florida Public Service Commission (FPSC) will once again deliberate on whether "uniform" or "stand-alone" rates are appropriate for customers of Southern States Utilities. The FPSC has found that a "uniform rate" structure is the fairest in two prior proceedings. Yet, a decision in a court case brought by customers of two of 127 service areas has forced that the issue be heard again. The FPSC ordered interim rates on a "modified stand-alone" basis on January 4, 1996.

All of this has caused a tremendous amount of confusion on what are the current rates to be charged, what a change in the rate structure will mean to you and what is the fairest final rate structure in the current rate request. Hopefully, this letter will help clarify the situation for you.

- Rate structure does not impact the revenues for SSU. Revenues the company needs are determined first. Then, a rate structure is selected. Rate structure is how the total revenues are divided up in the form of charges to customers.
- The government has passed very extensive environmental laws to protect the groundwater and waterways. Florida's source of potable water is unique in that all Floridians get their water from a series of interconnected underground aquifers which need significant and expensive protection. Uniform rates spread the very high costs of this environmental compliance across the largest customer base, providing rate stability and avoiding "rate shock" on individual customers.
- Uniform rates also reduce rate case expense which is traditionally passed on to customers.
- Other utilities -- electric and telephone companies -- have uniform rates. Uniform rates have been in effect in other states and in Florida for many years.
- The rates in the vast majority of SSU's service areas will be lower with uniform rates. However, uniform rates benefit all customers even those in the few service areas where the rates might initially be higher on a uniform basis. When expensive environmental compliance improvements are essential in those service areas, they will also receive the economies of scale.

A second service hearing will be held in your area on January 24, 1996 at 6 p.m. at the Citrus County Fairgrounds Auditorium, 3610 S. Florida Ave., Inverness. We urge you to attend this hearing and let your views be known to the Florida Public Service Commission.

Depending on the rate structure, your water rates, for the 12,577 gallon average monthly consumption in your area, could be:

		<u>Water</u>
New Interim Modified Stand Alone Rate:		\$59.29
Final Rate Alternatives:	Stand Alone	\$63.90
	Modified Stand Alone	\$59.78
	Uniform	\$36.34

We urge you to call and/or write the Florida Public Service Commission and express your opinion in addition to attending the service hearing. They can be contacted at 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, Telephone, 1-800-342-3552.

Southern States continues to support the uniform rate structure as the fairest and most equitable way to pay for the protection of Florida's aquifers.

Sincerely,

Ida M. Roberts  
Manager of Communications,  
Conservation and Community Affairs

WATER FOR FLORIDA'S **FUTURE**

DOCKET NO. 950495-WS**

**NOTICE TO CUSTOMERS OF APPROVAL OF INTERIM RATES**

**Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in Osceola County and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Highlands, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.**

**Dated: January, 1996**

Dear Customer:

On June 28, 1995, SOUTHERN STATES UTILITIES, INC. ("SSU") filed an application for increased water and wastewater rates and service availability charges ("Application") with the Florida Public Service Commission ("Commission"). On August 2, 1995, the Commission accepted SSU's Application as complete. SSU's Application included a request for interim revenues which are revenues to be collected subject to refund pending a final decision by the Commission. The Commission denied SSU's initial request for interim revenues on October 6, 1995. Thereafter, SSU filed supplemental information to support its interim and final rate requests.

On January 4, 1996, the Commission approved an interim revenue increase based on the supplemental information provided. The interim rates approved by the Commission to permit SSU to recover the additional revenue, along with your current rates, are provided on the schedule set forth on the back of this page. Please be advised that the interim rates will be effective for service rendered on or after January 23, 1996. As indicated above, the Commission may order a refund, with interest, of any interim revenues which are collected that may exceed the final revenues authorized by the Commission at the conclusion of this case. The Commission is currently scheduled to vote on SSU's final revenue and rate requests on July 31 and August 15, 1996.

The interim rates the Commission approved for those communities which were included in SSU's 1992 Consolidated Rate Case, Commission Docket No. 920199-WS, are designed using a modified stand alone rate structure rather than the uniform rate structure currently in effect. SSU has requested that uniform rates be re-instituted at the conclusion of this case and has requested that the Commission reconsider its October 1995 Order in Docket No. 920199-WS to replace uniform rates with modified stand alone rates.

If you have any questions concerning your bill or this notice, please call our Customer Service Representatives at (407) 880-0100 or toll-free at (800) 432-4501 between the hours of 7:00 a.m. and 8:00 p.m. weekdays.

Written comments to the Commission regarding SSU, its rates or service may be directed to the following address: Director, Division of Records and Reporting, Florida Public Service Commission, 2540 Shumard Oak Boulevard, Tallahassee, FL 32399-0850. Such correspondence should refer to "Docket No. 950495-WS: Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges." You may also call the Commission's Division of Consumer Affairs at the following toll-free number: 1-800-342-3552.

Sincerely for Southern States Utilities, Inc.,

Judy Lee Sweat

Re: Southern States Utilities, "Uniform vs Stand-alone" rates

The residents of Lakeside Country Club petition to plead with the Florida Public Service Commission to decide in favor of the "Uniform" rate structure that is being considered throughout Florida areas being served by the Southern States Utilities. We attach our signatures as evidence of pleading.

We will be tremendously and adversely affected by "Stand-alone" rates.

Thank you very much.
