Re: Docket No. 951056-WS, Application for Increased Water and Wastewater Rates by Palm Coast Utility Corporation in Flagler County

Dear Ms. Bayo:

The Applicant, Palm Coast Utility Corporation provides the following response to Mr. Charles Hill's letter of January 16, 1996 regarding deficiencies in its minimum filing requirements filed December 27, 1995.

ITEM 1. In response to Item 1, the Applicant submits sixteen (16) copies of Minimum Filing Requirements (MFR) Volume I, Replacement Schedules A-1, page 1 of 1; A-2, page 1 of 1; B-1, page 1 of 1 and B-2, page 1 of 1. Each is dated 2/7/96 to distinguish them from the schedules originally filed 12/27/95.

Replacement Schedules A-1 & A-2 include four new columns. Columns (1), (2) and (3) headed Base Year, Per Books show the 13 Mo Avg Balance, 12/31/94, the Year End Balance, 12/31/94 and the Supporting Schedule Page No. for each rate base component. Column (6) shows the Adjustments from 12/31/94 Year End to 12/31/95 Year End. These columns had not been included in the December 27, 1995 filing because the Per Book balance information was already available, as the supporting schedule references in Column (4) indicate, and the adjustment information in Column (6) just summarizes information in existing schedules. Only the Non-Used & Useful Plant and Net Debit Deferred Taxes (Used) had to be calculated so that the "per books" base year rate base could be compared in a consistent manner with the projected year rate base.

Replacement Schedules B-1 & B-2 include one new column, Column (2), designated Unadjusted 1994 Base Year. This column had not been included in the December 27, 1995 filing because the "per book" information was already available in Section G - Interim of the MFR. Only one new column was added because net income, per

books for the base period is same for an average or year end test year. Rate of return is shown for the 13 month average rate base.

Although we have provided replacement schedules, we believe the filing was not deficient because the "per book" base year information requested is available in other sections of the MFR.

ITEM 2. In response to Item 2, the Applicant submits sixteen (16) copies of MFR Volume I, additional Schedules B-5, page 14a of 14 & B-6, page 3a of 3. Each is dated 2/7/96.

These additional schedules summarize all departmental O&M expenses by primary account. These schedules were not provided in the December 27, 1995 filing because, consistent with every previous rate filing of this company, they were not provided or requested. This includes the last rate case filing, Docket No. 890277-WS, which was filed under existing Commission rules. Palm Coast Utility Corporation's O&M expenses have always been booked by primary account, by department and its rate applications have always presented these expenses by primary account, by department.

Although we have provided these additional schedules, we believe the filing is not deficient because the MFRs as submitted are consistent with previously accepted filings and provide the information requested in the instructions for Schedules B-5 & B-6 of the MFR; i.e., O&M expenses by primary account for each month. Nothing in the schedule instructions indicates that providing this information by department is not acceptable. The additional schedules provide no new or useful information.

ITEM 3. In response to Item 3, the Applicant submits sixteen (16) copies of MFR Volume I, additional Schedules B-7, page 1a of 2 [& B-8, page 1a of 2]. Each is dated 2/7/96.

These additional schedules provide a comparison of current test year and prior test year summarized raw, unadjusted O&M expenses by primary account. [Note: Only Schedule B-7, pertaining to water accounts, was requested in the deficiency letter. Although not mentioned, it was assumed that Schedule B-8, relating to wastewater accounts, was intended to be requested, also]. As PCUC is organized into functionally related departments, and as its expenses are budgeted and controlled on a departmental basis, the company has consistently analyzed its expenses and adjusted them for non-used and useful considerations on a departmental basis. Without consideration of these adjustments and without recognition

Letter to Ms. Blanca S. Bayo
February 12, 1996
Page Three

of the netting of interdepartmental charges, comparisons of the differences in expenses from one test period to the next is not useful. For those reasons, the December 27, 1995 MFR submittal included Schedules B-7 & B-8 presented only on a departmental basis. And for these reasons, we believe Schedules B-7 and B-8 are not deficient.

ITEM 4. In response to Item 4, the Applicant does not submit any replacement to the referenced Schedule B-9.

Schedule B-9 requires a listing of outside services, "by type of service." The schedule instructions state, "Specific detail is not necessary for charges which are less than 2% of the test year revenues for that system." The only service meeting that criteria is data processing, and for that service, the vendor was identified and the service described. The method of allocating charges for contractual services was detailed in Schedules B-12 and B-3-O&M.

Schedule B-9, as originally submitted, is not deficient.

ITEM 5. In response to Item 5, the Applicant does not submit any replacement to the referenced Schedule B-12.

The instructions for Schedule B-12 require "a schedule detailing expenses subject to allocation between systems (water, sewer, gas, etc.) showing allocation percentages, gross amounts allocated, and a detailed description of the method of allocation."

Schedule B-12, as originally submitted, clearly identifies the expenses which are subject to allocation (all of the expenses in the administrative departments), the method of allocation (based on the ratio of the unadjusted 1995 water and wastewater expenses, excluding administrative expenses) and specifies that the details of the allocation including the gross amounts and the amounts allocated can be found at Schedule B-3-O&M.

Schedule B-3-O&M shows the gross amounts and the amounts allocated, by department. This is consistent with previous filings accepted by the Commission. No where in the instructions is there a requirement that the allocations be detailed by primary account, as requested in the deficiency letter.

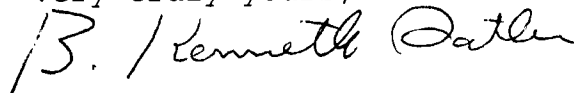

Letter to Ms. Blanca S. Bayo
February 12, 1996
Page Four

Schedule B-12, as originally submitted, is not deficient.

ITEM 6. In response to Item 6, the Applicant submits three (3) copies of MFR Volume III, additional Schedule titled SUMMARY OF INFORMATION PROVIDED IN COMPLIANCE WITH 25-30.436(4)(h), consisting of three pages. It is dated 2/7/96.

Information on costs charged or allocated by a parent or affiliate was submitted December 27, 1995 as the first section of Volume III of the MFRs, Additional Information Required by PSC Rules. The information was not provided in schedule format, however, it is incorrect to state that this information was not provided. The SUMMARY OF INFORMATION PROVIDED now being submitted summarizes information that we believe has generally been provided, in one form or another, in the original filing. We believe that the information originally provided was not deficient.

Very truly yours,

A handwritten signature in cursive script that reads "B. Kenneth Gatlin". The signature is written in dark ink and is positioned above the typed name.

B. Kenneth Gatlin

NOTE: PCUC is organized into functionally related departments. Expenses are controlled and budgeted on a departmental basis. This schedule is a summation of the expenses of all wastewater departments as detailed in the preceding 3 pages.

Operation & Maintenance Expense Comparison - Water
 By Primary Account
 Company: Palm Coast Utility Corporation
 Docket No.: 951056-WS
 Test Year Ended: 12/31/95

Florida Public Service Commission

Schedule: B-7
 Page 1a of 2
 Preparer: Seidman/PCUC
 2/7/96

Explanation: Complete the following comparison of the applicant's current and prior test year O&M expenses before this Commission. Provide an explanation of all differences which are not attributable to the change in customer growth and the CPI-U. If the applicant has not had a previous rate case, use the year 5 years prior to the test year for comparison. Provide an additional schedule, if necessary, to explain differences.

Operation & Maintenance Expense Comparison – Sewer
 By Primary Account
 Company: Palm Coast Utility Corporation
 Docket No.: 951056-WS
 Test Year Ended: 12/31/95

Florida Public Service Commission

Schedule: B-8
 Page 1a of 2
 Preparer: Seidman/PCUC
 2/7/96

Explanation: Complete the following comparison of the applicant's current and prior test year O&M expenses before this Commission. Provide an explanation of all differences which are not attributable to the change in customer growth and the CPI-U. If the applicant has not had a previous rate case, use the year 5 years prior to the test year for comparison. Provide an additional schedule, if necessary, to explain differences.
