Re: Docket No: 960028-WS; Application for Certificate  
to Provide Water and Wastewater Service in Manatee  
County by Sunny Shores Water Company, Inc. Under  
Grandfather Rights

\* Certified Mediator  
\*\* Board Certified Civil Trial Lawyer

Dear Sir or Madam:

This is in response to Christine Tomlinson's  
letter of February 8, 1996. Each item addressed in the  
letter has been corrected.

1  
With respect to the initial connection fee that  
was specified on Original Sheet No. 15.0, that charge  
has been eliminated to zero (0) in this amended filing.  
I have spoken with the Manatee County Utility  
Department and have confirmed that the County will be  
collecting the connection fee directly from any new  
customers instead of it being collected by Sunny Shores  
Water Company, Inc. and passed on to the County. This  
change carries over to Sheet No. 16.0 in the line for  
Customer Connection (Tap-In Charge).

With respect to the \$250.00 charge that was  
previously shown for Meter Installation, we have  
revised that figure to reflect the Utility's actual  
costs. The charge that the Utility seeks approval for  
is now \$115.00, derived as follows:

1  
\* Plumber's Charge (Labor) \$50.00  
Materials: \$65.00

2  
\* (Meter \$30.00, Couplings \$ 5.00, Meter Box &  
Lid \$15.00, Hose Bib \$ 5.00, Backflow Vacuum  
Breaker \$ 5.00, Miscellaneous Pipes & Fittings  
\$ 5.00).

The Meter Installation Fee is based strictly on costs, with no mark-up. The actual cost varies to some extent due to changes in outside labor and materials costs, but since this franchise area is for all practical purposes built-out, this item does not represent a significant source of revenue for the Utility. If the preferred practice is to show this line item as "Actual Cost", the Utility certainly has no objection to using that approach. On the other hand, if the preferred practice is to specify an amount, the Utility is willing to set this fee as indicated above since costs have not changed significantly in the last few years. I have included two versions of Sheet No. 16.0 and your staff may feel free to adopt either one it prefers. We simply need to be advised as to which one is selected.

I appreciate your assistance in this matter. If there is anything further that you need, please let me know.

Very truly yours,

  
Omar Causey

SERVICE AVAILABILITY POLICY

Note: The Company serves an area that is almost entirely built-out and does not presently have any detailed service availability policy for developers.

1. Application for the installation of new meters and service connections require the existence of a valid building/plumbing permit and payment of all fee's prior to installation of meter and water being turned on. Manatee County Resolution R-95-219 effective 10/1/95, Sunny Shore Backflow Policy effective 3/1/92 and applicable laws, regulations and codes require the installation of a Double Check Valve assembly device at the service connection, minimum clearance 6" from meter box, and vacuum breakers on all hose connections. Meter installation time is ten days to two weeks or as soon as possible after the above conditions are met.

2. All Backflow Prevention devices must be re-certified annually in order for the premise to remain in compliance with appropriate laws, codes and policies. Failure to comply shall mean disruption of service until such time as the premise comes into compliance. Turn off or turn on field charge will apply. It is not the responsibility of SSWC to remind the property owner to have them inspected. If at any time, upon inspection, they are found in non-compliance we will remind you of your responsibility to have it re-certified. This will be done prior to any other action being taken.
