Re: Spruce Creek South Utilities, Inc.; Docket No. 960134-WS
Application for Amendment of Water and Wastewater Certificates
Our File No. 28039.02

Dear Ms. Bayo:

As a further clarification of the letter dated March 18, 1996, from John Wharton of my firm, I am writing on behalf of Spruce Creek South Utilities, Inc., to state the Utility's purpose for including within its extension application in the above referenced docket, certain areas which are currently served by septic tanks which, to our knowledge, are operating efficiently and effectively. These areas were included simply to indicate that to the extent they were ever provided with central sewer service that service should come from Spruce Creek South Utilities, Inc.

Spruce Creek South Utilities, Inc. has no intention of taking any action to require that those persons receive central sewer service from Spruce Creek South Utilities, Inc., as long as those systems are operating effectively and efficiently, or so long as no such requirement is imposed upon the Utility by law or regulatory agency. At the current time, no such laws or regulatory requirements exist and, to our knowledge, none are currently anticipated.

I hope that this will clarify our position and alleviate the customers' concerns who currently utilize septic systems which are in good working order and who wish to continue to utilize such systems.
