RE: TOLL CALL RATE TO ORLANDO FROM ORANGE CITY

DEAR MS. SHELFER,

The last time we spoke, we discussed the twenty-five cent toll call between Orange City and Daytona Beach. It seems that the PSC has acted on this in a positive manner and local customers should soon expect a ballot to select their modified extended calling service plan. However, since that time, DeBary and Deltona are currently under consideration for having access to twenty-five cent calls to the Orlando area. When I inquired of United Telephone as to how the City, being in such close proximity to these Cities, could also have access to this extended calling service, they stated that the City would have to adopt a Resolution requesting this and forward it to PSC. This was done and the Resolution of the City Council was adopted on January 23, 1996 and the original is attached to this letter.

You have been very helpful in the past on helping the City with the technical aspects of applying for PSC consideration in these matters. After you have received the Resolution, could you kindly contact me and advise me of what further information and/or filing requirements are necessary to move this to the PSC docket?

I look forward to hearing from you in the near future.

Sincerely,

Robert E. Mearns
City Manager
