ORDER APPROVING TARIFF

BY THE COMMISSION:

On May 2, 1996, Northeast Telephone Company, Inc. (Northeast or the company) filed a tariff introducing Interconnection of Mobile Services into its General Subscriber Tariff. Within this new section, the Company proposes to provide a land-to-mobile calling plan, with information, regulations, rates and charges to mobile service providers (MSPs).

Land-to-mobile calling is a plan which allows intraLATA direct-dialed long distance calls and extended local calling area calls originating from telephone numbers served by the company, and terminating in a MSP's network, to be billed to the MSP and not to the originating customer. In connection with this new offering, the Company also proposes to provide a dedicated NXX and to activate DID numbers for MSPs.

Upon consideration, we shall approve Northeast's tariff. The land-to-mobile option is a standard part of local exchange company Mobile Interconnection tariffs. Further, the Company has received a request by a paging company to provide this service.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that Northeast Telephone Company, Inc.'s tariff introducing Interconnection of Mobile Services into its General Subscriber
