RE. Park Manor Waterworks; Docket No. 960601-WS
Water and Wastewater Extension
Our File No. 18215.13

Dear Travis:

This letter is in response to your June 10, 1996 correspondence regarding additional information required by the PSC Staff to process the above-referenced application. With regard to the legal description and map issue, Al Land advises me that he will need approximately four weeks to handle those matters, so I would appreciate an extension of time from the date you originally requested that information.

I have not yet heard from you regarding the original water and wastewater certificates which we believe are still in the Staff's possession in Docket No. 950919-WS. If you have not been able to find the original certificates in that docket file, then new certificates will have to be prepared.

Very truly yours,

MARTIN S. FRIEDMAN

RE: Park Manor Waterworks; Docket No. 960601-WS
Water and Wastewater Extension
Our File No. 18215.13

Dear Travis:

I have researched the location of the original water and wastewater Certificates of Park Manor Waterworks, Inc. Our records disclose that we received those certificates from Mr. Redemann on August 10, 1995 and on that same day forwarded them to the Division of Records and Reporting in connection with Park Manor's certificate amendment case in Docket No. 950919-WS. Enclosed is the PSC Clerk's copy of that letter which purports to show that the original certificates were sent to Mr. Redemann in connection with Docket No. 950919-WS. Our records do not reflect that the certificates have been returned to us.

Thank you for your attention to this matter and please do not hesitate to contact me should you have any questions.

Very truly yours,

MARTIN S. FRIEDMAN
