RE: Docket 951354-TL  
Friess Regulation

Dear Michael:

I have attached to this letter a copy of the Proposed Stipulation. The language is the same as I read to you over the telephone previously, except for the introductory clause at the beginning of the second sentence. Please let me know if this addition, as well as the language that we previously discussed, is acceptable.

Also, please let me know if the pages and lines of Varner's testimony that I've indicated in the Stipulation accurately reflect what you previously sent to me.

After you have had a chance to review the attached, please call me so that we can try to finalize the Stipulation prior to the prehearing conference.

Sincerely,

J. Phillip Carver

BellSouth Rate Regrouping  
Additional Facts to be Stipulated

- The current prices for the various BellSouth rate groups were established prior to and were in effect on July 1, 1995.
  
- The process of rate regrouping, that is moving a community from one rate group to another because of a change in the number of access lines accessible by the customers in the community, does not alter the prices for the individual rate groups.
  
- A BellSouth residential local exchange customer on January 1, 1996, physically moving from a BellSouth-served community in rate group 3 to a BellSouth-served community in rate group 4 or higher will, on January 3, 1996, pay more for his or her basic residential local exchange service than he or she was paying while a resident of the rate group 3 community.
  
- The basis for different flat-rate local exchange service prices for the different rate groups is to reflect the value and benefit to the customer from the number of other customers that can be reached without having to pay a toll charge for the call.
