

FLORIDA PUBLIC SERVICE COMMISSION

VOTE SHEET

DATE: July 30, 1996

RE: DOCKET NO. 950985-TP - Resolution of petition(s) to establish nondiscriminatory rates, terms, and conditions for interconnection involving local exchange companies and alternative local exchange companies pursuant to Section 364.162, F.S.

Participation is limited to Commissioners and staff unless oral argument is granted.

Issue 1: Recommendation that the Commission deny BellSouth's request for oral argument on its motion for reconsideration.

APPROVED

Issue 2: Recommendation that the Commission deny BellSouth's motion for reconsideration on mutual traffic exchange as a compensation arrangement. The motion does not raise a material and relevant point of fact or law which was overlooked or which the Commission failed to consider when it rendered the order in the first instance.

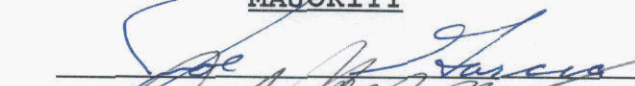

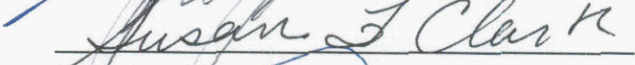

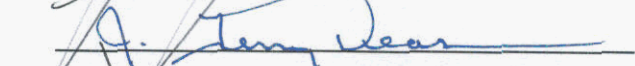

APPROVED

COMMISSIONERS ASSIGNED: Full Commission

FPSC-RECORDS/REPORTING

Issue 3: Recommendation that the Commission deny BellSouth's motion for reconsideration regarding the Commission's decision that the residual interconnection charge be billed and collected by the carrier terminating the call. The motion does not raise a material and relevant point of fact or law which was overlooked or which the Commission failed to consider when it rendered the order in the first instance.

APPROVED

Issue 4: Recommendation that the Commission reconsider its decision not to set a charge for intermediary handling of local traffic for BellSouth. The rate should be set at the same level as the tandem switching element in BellSouth's Switched Access Switched Transport tariff, which is \$.00050 per access minute, and should be assessed only where ALECs involved in the call are not collocated in the same wire center.

APPROVED

Issue 5: Recommendation that the Commission deny FCTA's and Time Warner's motions for reconsideration of Order No. PSC-96-0445-FOF-TP. The motions do not raise a material and relevant point of fact or law which was overlooked or which the Commission failed to consider when it rendered the order in the first instance.

APPROVED

Vote Sheet
Docket No. 950985-TP
July 30, 1996

Issue 6: Recommendation that the Commission, on its own motion, should reconsider its decision in Order No. PSC-96-0445-FOF-TP as to whether originating or terminating access charges should apply for the toll default. The company terminating the call should receive terminating switched access from the originating company unless the originating company can prove that the call is local. The portion of the order should be modified as follows:

When it cannot be determined whether a call is local or toll, the local exchange provider originating the call shall be assessed terminating switched access charges for that call unless the local exchange provider originating the call can provide evidence that the call is actually a local call.

In addition, BellSouth and the respective ALECs should work out how they will define their local calling areas and how they will use the NXXs, so that the local-toll distinction will not be a problem. In addition, the ALECs should identify and provide their local calling areas to the LECs.

APPROVED

Issue 7: Recommendation that the Commission, on its own motion, should reconsider the portion of Order No. PSC-96-0445-FOF-TP regarding filing tariffs. The following sentence should be added to the body of the order in Section III, and to the ordering paragraphs:

BellSouth should file its tariff for its interconnection rates, terms, and conditions within 30 days from the date of the issuance of the order on reconsideration.

APPROVED
