BELLSOUTH TELECOMMUNICATIONS, INC.
DIRECT TESTIMONY OF A. J. VARNER
BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION
DOCKET NO. 920260-TL
July 31, 1996

Q. Please state your name, employer, position and business address.

A. My name is Alphonso J. Varner. I am employed by BellSouth Telecommunications, Inc. ("BellSouth") as Senior Director for Regulatory Policy and Planning for the nine state BellSouth Region. My business address is 675 West Peachtree Street, Atlanta, Georgia.

Q. Please summarize your background and experience.

A. I graduated from Florida State University in 1972 with a Bachelor of Engineering Science degree in systems design engineering. I immediately joined Southern Bell in the division of revenues organization with the responsibility for preparation of all Florida investment separations studies for division of revenues and for reviewing interstate settlements. Subsequently, I accepted an assignment in the rates and tariffs organization with responsibilities for administering selected rates and tariffs including preparation of tariff filings. In January 1994, I was appointed

1 Senior Director of Pricing for the nine state region. I assumed my current
2 responsibilities in August of 1994.

3

4 Q. What is the purpose of your testimony?

5

6 A. My testimony describes price reductions which BellSouth has filed to
7 comply with order number PSC-94-0172-FOF-TL dated
8 February 11, 1994, associated with Docket Number 920260-TL. I also
9 address the issues associated with the filing and describe why the
10 BellSouth proposal is the most appropriate proposal.

11

12 Q. How were the services chosen for this filing?

13

14 A. The services for this filing were chosen to provide benefits to a broad base
15 of Florida customers. Those customers receiving benefits include
16 Interexchange Carriers, both large and small business customers, and
17 residence customers.

18

19 Q. What is the required amount of revenue reduction from the Stipulation and
20 Implementation Agreement?

21

22 A. The stipulation calls for an \$84 Million reduction in 1996. Of that amount,
23 \$40 Million is required to bring switched access charges to parity with
24 December 1993 interstate levels, as discussed in Mr. Hendrix' testimony.
25 This leaves a remainder of \$44 Million.

1

2 Q. What is the level of reductions which BellSouth is proposing?

3

4 A. The company is proposing \$48 Million in reductions as previously noted in
5 correspondence, shown as Attachment AJV-1.

6

7 Q. Which services will be affected by this filing?

8

9 A. The following services are being reduced in this filing:

	Annual effect
10	
11 -Switched Access	(\$16,400,067)
12 -Selected Secondary Service Charges	
13 -Residence	(\$3,609,180)
14 -Business	(\$2,203,791)
15 -First Line Connection Charge	
16 for Business Customers	(\$3,222,592)
17 -PBX monthly & term contracts	(\$13,451,394)
18 -DID Recurring	(\$987,012)
19 -DID Nonrecurring	(\$893,625)
20 -WATS & 800 Service Access Line	(\$355,721)
21 -Secondary Service Charge for WatsSaver ®	
22 (Registered Service Mark of BellSouth)	(\$301,093)
23 -Business Line Monthly Rates	(\$622,518)
24 -AREA PLUS® for Business customers	(\$2,254,140)
25 -Usage Charge on RCF	(\$2,010,198)

1	-Special Number Assignment Charges for	
2	Business	(\$70,500)
3	-MegaLink® interoffice	(\$579,192)
4	-DS1 interoffice	(\$39,216)
5	-Extended Calling Service	(\$1,096,628)
6		=====
7	TOTAL	(\$48,096,867)

8
9 I will be discussing the details of all the services in the filing except
10 Switched Access, which will be addressed separately by Mr. Hendrix.

11
12 Q. What proposals have been made by other parties?

13
14 A. The following list of proposals has been made in this docket:

15 A) The BellSouth proposal described above.

16 B) Joint Proposal of ATT, MCI, Sprint Communications, FIXCA, Ad Hoc
17 and McCaw Communications:

18		<u>Millions</u>
19	1) Reduce PBX and DID trunk charges	(\$11.00)
20	2) Eliminate the Residual Interconnection Charge	(\$35.00)
21	3) Reduce mobile interconnection rates	(\$2.00)
22		=====
23		(\$48.00)

24 C) Public Counsel:

25

1 **Establish a reserve fund to assist BST customers who have experienced**
2 **problems with conversion to the 954 NPA.**

3 **D) FCTA:**

4 **Eliminate nonrecurring charges for interconnection trunks and special**
5 **access circuits ordered by ALECs.**

6 **E) Palm Beach Newspapers, Inc./Florida Today:**

7 **Reduce usage rates for N11 service to \$.02 per minute.**

8

9 **Q. Does BellSouth support the Joint Proposal of ATT, MCI, Sprint**
10 **Communications, FIXCA, Ad Hoc and McCaw Communications?**

11

12 **A. No. BellSouth's proposal already contains reductions for PBX and DID**
13 **totaling in excess of \$15 Million. The Residual Interconnection Charge will**
14 **be discussed in Mr. Hendrix' testimony. The proposed reduction in mobile**
15 **interconnection rates should not be considered at this time since rates are**
16 **being addressed by the courts as result of the November 13, 1995 appeal**
17 **to the Florida Supreme Court of Order No. PSC-95-1247-FOF-TL by**
18 **McCaw Communications of Florida, Inc. In addition, the FCC is examining**
19 **interconnection related issues per the Telecommunications Act with rules**
20 **governing all interconnection expected to be issued later this year. Mobile**
21 **interconnection issues are expected to be addressed in the FCC**
22 **proceeding, and any action on reduction in these rates should wait until the**
23 **FCC and the court rule on the issues.**

24

25 **Q. Does BellSouth support the proposal by Public Counsel?**

1

2 A. BellSouth is currently addressing the Public Counsel concerns through the
3 Industry Plan which allows customers to utilize Remote Call Forwarding
4 (RCF), at a rate not to exceed \$12.00 for a seven month period, including
5 waiving of Extended Calling Service and toll usage charges. BellSouth is
6 also addressing these same concerns by the proposed reduction in RCF
7 rates. This will allow customers to continue the use of RCF with no usage
8 charges, since these charges would be eliminated in the proposal.

9

10 Q. Does BellSouth support the proposal by FCTA?

11

12 A. The FCTA proposal to eliminate nonrecurring charges for interconnection
13 trunks and special access circuits ordered by ALECs will be discussed by
14 Mr. Hendrix.

15

16 Q. Does BellSouth support the proposal by Palm Beach Newspapers,
17 Inc./Florida Today?

18

19 A. No. The current price levels of N11 service have created a viable market
20 with a waiting list of customers. Further reduction of the rate would be an
21 inappropriate price change for this scarce resource of N11 codes.

22

23 Q. Further describe the BellSouth proposal beginning with Secondary Service
24 Charge reductions.

25

1 A. This filing proposes a tariff revision in A4 of the GSST to waive the
2 Secondary Service Charge when existing residence and business
3 subscribers order selected services. Customers currently pay \$10.00
4 (Residence) or \$19.00 (Business) for adding selected features unless
5 there is a waiver campaign. The proposed tariff revision in A4 will waive
6 the Secondary Service Charge when existing residence and business
7 subscribers order one or more of the following:

8

9 Custom Calling services

10 RingMaster* (Service Mark of BellSouth Corporation) service

11 TouchStar* service

12 Prestige* Communications service

13 Message Waiting Indication service

14 Customized Code Restriction

15 Remote Call Forwarding

16 Designer Listings

17

18 Although the proposal is to waive this charge, recurring rates for the above
19 services in aggregate would cover the cost. Existing customers would not
20 be charged a secondary service charge when adding the above services.
21 Absent a waiver, this charge would apply.

22

23 The revenue impact is shown below. Existing quantities of service charges
24 used for the analysis were reduced to include the effects of the service
25 charge waiver for Complete Choice*.

1

2 **-Residence (\$3.6 Million)**

3 **-Business (\$2.2 Million)**

4

5 **Q. Describe BellSouth's proposal for reducing the first line connection charge**
6 **for business customers.**

7

8 **A. The purpose of this filing is to reduce the first line connection charge for**
9 **business customers from \$56.00 to \$40.00. This charge is in A4.3 of the**
10 **GSST. The first line connection charge is applied per access line**
11 **(including ESSX, Digital ESSX, MultiServ * and MultiServ Plus* lines),**
12 **trunk, or ESSX-1 NAR basis when appropriate. This nonrecurring charge**
13 **is currently \$56.00 for business customers. This rate reduction will be**
14 **attractive to both existing and new business customers. These customers**
15 **will benefit when they order new or additional access lines, trunks, or**
16 **ESSX-1 NARs.**

17

18 **Although the proposed \$40.00 charge is below the cost for business line**
19 **connection, recurring business rates in aggregate would cover the lost**
20 **revenues. The annual revenue impact of this proposed rate reduction is**
21 **(\$3.2 Million).**

22

23 **Q. Describe BellSouth's proposal for reducing PBX trunks and DID.**

24

25

1 A. The proposed filing reduces PBX trunk rates in all Rate Groups and
2 introduces Term Contracts for PBX trunks. This filing also reduces the
3 nonrecurring service establishment charge for Direct-In-Dialing (DID)
4 Service and the nonrecurring and recurring charge for DID Service Trunk
5 Terminations.

6
7 The proposed filing reduces PBX trunk rates in all Rate Groups located in
8 A3. and introduces 24 to 48 Month and 49 to 60 Month Term Contracts for
9 PBX trunks. Pages 2 and 9 of Attachment AJV-2 further explain the rates
10 for these term contracts.

11
12 Reductions in the PBX rates and the PBX Term Contracts are being
13 proposed in order to respond to customer requests for lower rates and for
14 rate stabilization.

15
16 In conjunction with the changes in PBX offerings, this filing reduces the
17 nonrecurring service establishment charge (USOC NDZ) for Direct-In-
18 Dialing (DID) Service from \$915.00 to \$55.00. The nonrecurring and
19 recurring charges for DID Service Trunk Terminations (USOC NDT) will
20 also be reduced, from \$90.00 and \$21.80 to \$65.00 and \$20.00,
21 respectively. The DID rate reduction will be attractive to both existing and
22 new business customers.

23
24 In summary, existing PBX trunk customers will receive the benefits of
25 reduced trunk rates, a reduced DID trunk establishment charge and

1 reduced DID Trunk Termination charges. In addition, PBX trunk
2 customers will also be provided with a mechanism to further reduce and
3 stabilize rates for up to 60 months.

4

5 The revenue impact is as follows:

6 -PBX monthly rates and term contracts: (\$13.5 Million)

7 -DID recurring rates: (\$1.0 Million)

8 -DID nonrecurring rates: (\$.9 Million)

9

10 Q. Describe the proposal for reducing rates for WATS and WatsSaver[®]
11 Service.

12

13 A. This filing proposes to eliminate the application of a Secondary Service
14 Charge when only WatsSaver[®] service is added and to reduce the
15 monthly rates associated with WATS and Toll Free Dialing Service (TFD)
16 dedicated access lines. These changes are being proposed to make
17 these toll services more attractive to business customers.

18

19 Currently, customers must pay a Secondary Service Charge of \$19.00
20 when only WatsSaver[®] service is added to existing service. Subscribers
21 will be able to add WatsSaver[®] service to their accounts without incurring
22 a Secondary Service Charge. Dedicated WATS and TFD Service access
23 line subscribers will receive a reduction in monthly access line rates.

24

25

1 WATS and TFD Service dedicated access lines in Florida have the highest
2 rates in the region. BellSouth has proposed to reduce the monthly rates
3 for WATS and TFD Service dedicated access lines to \$25.00 as a strategic
4 pricing move. The elimination of Secondary Service Charges from
5 WatsSaver service orders was proposed in order to bring the service more
6 in line with competitive toll services that do not charge customers to
7 purchase a usage commitment plan.

8

9 Customers will see reduced charges when ordering WatsSaver® service
10 and in their monthly WATS and TFD Service access line charges. The net
11 revenue impacts associated with this filing are:

12 -WATS and TFD Service Dedicated Access Line Reduction: (\$.4 Million)

13 -Eliminate Secondary Service Charge on WatsSaver®: (\$.3 Million)

14

15

16 Q. Describe BellSouth's proposal for reducing rates for business line monthly
17 rates.

18

19 A. This filing reduces the rate group 12 monthly rate for flat rate business
20 lines from \$29.10 to \$29.00. This change affects toll terminals,
21 independent payphone provider access lines, flat rate resale lines and 976
22 service access lines. The \$29.00 rate brings this service in line with the
23 proposed 60 month term contract rate for a PBX trunk. This rate will
24 facilitate negotiations with customers and promotional activities for the
25 service. This filing also reduces the rate group 12 rate for Back-Up* Line

1 service from \$14.55 to \$14.50. The revenue impact of this proposed
2 reduction is \$.6 Million.

3

4 Q. Describe BellSouth's proposal for Area Plus® for business customers.

5

6 A. This filing introduces Area Plus® for business customers which is an
7 expanded local calling plan that also includes a discounted toll feature.
8 This optional plan is available to new customers, as well as existing flat
9 rate or message rate individual line, PBX trunk or Network Access Register
10 (NAR) customers.

11

12 The plan consists of three geographic parts that encompass all calls within
13 the LATA:

14

15 - Basic Local Calling Area (BLCA) - is the calling scope which consists of
16 access to all lines with the central office designation of exchanges and
17 additional exchanges as defined in the tariff.

18 - Expanded Local Calling Area (ELCA) - this area extends the BLCA to a
19 40 mile calling radius, including any existing ECS areas that extend past
20 this 40 mile limit.

21 - IntraLATA Area - the area past the ELCA radius, to the intraLATA toll
22 boundary.

23

24 Each of the three components of Area Plus® is distinctly rated. The BLCA
25 is flat rated as defined by rate group. The ELCA calls are rated on a per

1 minute of use basis. The intraLATA toll calls are rated by the existing MTS
2 schedule, then discounted by 30 percent (Direct Distance Dialing calls, 0+
3 calling card and collect calls).

4

5 In addition, Back-Up* Line service is available to flat rate and message
6 rate individual line customers. The basic definition of Back-Up* Line
7 service is unchanged in the BLCA, with the addition of outward usage
8 within additional ELCA exchanges being billed at the Area Plus® ELCA
9 usage rate.

10

11 This is an optional service, available to existing and new customers. The
12 annual revenue impact of this proposed rate reduction is (\$2.3 Million).

13

14 Q. Describe BellSouth's proposal for reducing rates for Remote Call
15 Forwarding.

16

17 A. The proposed tariff eliminates basic local usage rates for Remote Call
18 Forwarding (RCF). These charges are in A13.11 of the GSST and apply
19 for calls within the basic local calling area, which are between the call
20 forwarding location and the terminating station, when RCF is provided.

21

22 This proposed rate change is consistent with our current pricing strategy
23 for the product. New and existing RCF customers will benefit from this
24 rate reduction. The annual revenue impact of this proposed rate reduction
25 is (\$2.0 Million).

1

2 Q. Describe BellSouth's proposal for reducing rates for Special Number
3 Assignment Charge (SNAC).

4

5 A The purpose of this filing is to reduce the Special Number Assignment
6 Charge for business customers for "search only" requests from \$10.00 to
7 \$5.00 and for "search and assign" requests from \$75.00 to \$25.00, which
8 will bring the business rates in line with the residence rates for the same
9 service. These charges are in A4.6 of the GSST.

10

11 Feedback from customer contact personnel indicates that existing rates for
12 this service often provide barriers to other sales. We believe that the
13 proposed rates are reasonable for business customers. Both new and
14 existing business customers will benefit from this rate reduction when
15 special number assignment charges are applied. The annual revenue
16 impact of this proposed rate reduction is (\$.1 Million).

17

18 Q. Describe BellSouth's proposal for reducing rates for Dedicated Access
19 DS1 High Capacity And Megalink® Service.

20

21 A. The Private Line MegaLink® and Dedicated Access DS1 High Capacity
22 services interoffice channel (IOC) mileage is that portion of a customer's
23 end-to-end service furnished between Company central offices. Included
24 in this filing is a reduction in the per mile portion of the IOC. The IOC
25 mileage rates for Private Line MegaLink® and Dedicated Access DS1 High

1 Capacity services are based on the airline distance between central
2 offices. The IOC rate structure consists of two separate rate elements
3 (fixed and per mile).

4

5 While the rate structure remains the same, rates associated with the per
6 mile portion of the interoffice channel for Private Line MegaLink® service
7 and Dedicated Access DS1 High Capacity service have been reduced.

8

9 New and existing customers will see a rate decrease. The revenue impact
10 of this filing is:

11 -MegaLink®	(\$.6 Million)
12 -DS1	(\$.04 Million)

13

14 Q. Describe why BellSouth is including the prior conversion of Extended
15 Calling Service on some routes in its proposal.

16

17 A. During the first half of 1996, ECS has been implemented on seven routes
18 between BellSouth exchanges and Independent Company exchanges.

19 This implementation was based on orders issued by the Florida
20 Commission in 1995 and in 1996. The revenue impact has not been
21 accounted for in prior filings or proceedings. The affected routes, order
22 numbers, implementation dates, and revenue impacts are shown in
23 Attachment AJV-3.

24

25

1 During the July 16, 1996 agenda session, countywide EAS was approved
2 for all Bay County routes (Docket No. 950700-TL). Implementation will
3 take place within six months from the date of the order. Those routes, and
4 the estimated revenue impacts are listed in Attachment AJV-3. During the
5 May 7, 1996 agenda session, the Commission approved ECS on the Lake
6 City to High Springs route (Docket No. 951098-TL). An order was issued
7 on May 29, 1996. The estimated revenue effect is listed in Attachment
8 AJV-3.

9

10 Q. Please summarize your testimony.

11

12 A. This filing complies with the Stipulation and Implementation Agreement
13 and is the best proposal to meet the needs of a wide range of Florida
14 customers.

15

16 Q. Does this conclude your testimony?

17

18 A. Yes.

19

Ms. Blanca S. Bayo
Director, Records and Reporting
Florida Public Service Commission
2540 Shumard Oak Boulevard
Betty Easley Conference Center, Rm. 110
Tallahassee, Florida 32399-0850

Dear Ms. Bayo:

Subject: BellSouth Tariff Filing Docket No. 920260-TL

On May 31, 1996, BellSouth, pursuant to Order#PSC-94-0172-FOF-TL, Docket 920260-TL, made a tariff filing which consisted of rate reductions totaling \$88.1 million.

As part of the Stipulation and Agreement (page 5 of 17, item 5.D),

"On October 1, 1996, Southern Bell shall further reduce its gross revenues by \$84 million, on an annualized basis."

Also as part of the Implementation Agreement (pages 5 & 6 of 19, item C),

"On October 1, 1996, Southern Bell will further reduce its Intrastate Switched Access Charge rates to a level that is in parity with Southern Bell's Interstate Switched Access Charge rates in effect on January 11, 1994." "The PARTIES understand that the amount of such reduction will be approximately \$35 million in annual revenues. The remainder of the \$84 million designated for rate reductions on October 1, 1996 pursuant to paragraph 5.D of the Stipulation (approximately \$49 million) will be disposed of in accordance with Paragraphs 3.C and 4 of this Implementation Agreement."

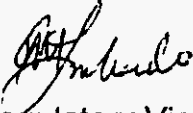

In order to bring the interexchange access rates to a level that is in parity with the January 11, 1994, interstate access rates, a reduction of \$40 million is required. Based on the Stipulation and Agreement and the Implementation Agreement, \$44 million remains of the \$84 million in gross revenues to be used for further rate reductions.

Ms. Blanca S. Bayo
June 20, 1996
Page 2

BellSouth's proposal includes \$48 million in additional rate reductions which is \$4 million above what is required. This additional amount should only be considered if BellSouth's proposal is approved as filed. If a proposal other than BellSouth's is adopted by the Commission, then only the required rate reduction amount of \$44 million should be considered available to the Commission in implementing such a proposal.

If you have any questions, or need any additional information, please let me know.

Very truly yours,

Regulatory Vice President

A3. BASIC LOCAL EXCHANGE SERVICE

A3.4 Flat Rate Service

A3.4.1 General

- A. Monthly exchange rates shown in A3.4.2 are applicable in each exchange for classes of basic local exchange service offered.

Business PBX Trunks are available on a month-to-month basis or under Term Contract periods with rates based on contract lengths of 24 to 48 months and 49 to 60 months. Rates in effect at the time service is ordered will be applicable until the contract expires. Rates under contract will not be subject to Company initiated rate increases. The contract period can be extended at the contract expiration date for a period equal to or less than the original contract period. Month-to-month rates are also available upon contract expiration. Term Contracts which are discontinued prior to the expiration date will be billed a Cancellation Charge. The Cancellation Charge shall be \$480 per PBX trunk under the 24 to 48 months contract period and \$960 per PBX trunk under the 49 to 60 months contract period. The Cancellation Charge shall be reduced by fifty percent during the month in which one half of the Term Contract period is satisfied.

A3.4.2 Monthly Rates

- A. The rates specified herein entitle subscribers to an unlimited number of messages to all exchange access lines bearing the designation of central offices within the serving exchange and extended area service additional exchanges or portions of exchanges as shown in A3.3.1 of this Tariff.

F. Auxiliary Line Service (Inward Service) (Cont'd)

2. The auxiliary line must terminate on the same premises as that in which the two-way service is located.
3. The auxiliary line is to be used for one way (inward to the subscriber) service only.
4. Auxiliary line service may or may not be arranged for rotary, hunting or similar service which allows completion of an incoming call from a line that is called but is in use, by means of an arrangement of central office equipment on a full time basis.
5. Auxiliary line service is furnished at a rate for each line equal to the rate applicable for business individual line flat rate service for that exchange. Where the lines are arranged for rotary, hunting or similar service, the rotary charge will apply as specified in A3.6.

a. Rates

(1) Rate Groups 1-6

	1	2	Group 3	4	5	6	USOC
(a) Per Auxiliary line	\$19.80	\$20.00	\$21.90	\$22.90	\$23.85	\$24.90	7FB
(2) Rate Groups 7-12							

	7	8	Group 9	10	11	12	USOC
(a) Per Auxiliary line	\$25.75	\$26.60	\$27.40	\$28.00	\$28.60	\$29.00	7FB

G. Mobile Service Exchange Charge

1. See Section A17. for Rates.

H. Outgoing Only Service

1. See A3.29 for regulations and rates.

A3.4.3 Complete Choice* Service

A. General

1. Complete Choice* service provides the features specified following in conjunction with a flat rate access line.
2. The rates specified herein may only be applied in addition to the rates specified in A3.4.2.B.1.a for residence individual line service.
3. The rates specified herein also entitle a residence subscriber to unlimited use of the services/features specified in the following sections of this Tariff:

- A13.9 Custom Calling Services
- A13.19 TouchStar* service
- A13.20 Customized Code Restriction
- A13.34 RingMaster* service

A subscriber may select an unlimited number of compatible services or features from the sections listed above. All rules, regulations and limitations specified in the sections listed apply to the respective services/features requested as part of this service. Service Charges specified in Section A4. of this Tariff do not apply for transactions involving only additions, deletions or changes to the services/features requested as part of this service.

4. Normal service charges specified in Section A4. of this Tariff do not apply for a conversion from basic flat rate service or other existing service to Complete Choice* service or vice versa.
5. Existing Complete Choice* customers can not take advantage of special promotions for Complete Choice* service or any of the services/features specified in 3. preceding unless specifically allowed by the terms of the special promotion.

B. Rates and Charges

1. The following rates must be and may only be used in addition to the rates for residence individual line service specified in A3.4.2.B.1.a preceding. USOCs VR3 and VSB must both be used with this service.

a. Individual line service

(1) Rate Groups 1-6

	Group						
	1	2	3	4	5	6	SOC
(a) Per residence line	\$18.70	\$18.30	\$17.90	\$17.60	\$17.20	\$16.85	NA

(2) Rate Groups 7-12

	Group						
	7	8	9	10	11	12	USOC
(a) Per residence line	\$16.50	\$16.20	\$15.95	\$15.70	\$15.55	\$15.35	NA

A3.4.4 Area Plus[®] Service

A. General

1. Area Plus[®] service provides the features specified following in conjunction with a flat rate access line.
2. The residence rates specified herein may only be applied in addition to the rates specified in A3.4.2.B.1.a for residence individual line service which entitle a residence subscriber to an unlimited number of messages to all exchange access lines in the subscriber's local calling area as defined in A3.3.1 of this Tariff. (C)
3. The business rates specified in A3.4.4.B.1. may only be applied in addition to the rates specified in A3.4.2.B.1.b. for business individual line service, in A3.4.2.C. for PBX trunk service, and in A3.13.3.A. for Network Access Register (NAR) Package Service, which entitle a business subscriber to an unlimited number of messages to all exchange access lines in the subscriber's exchange and the Extended Area Service (EAS) additional exchanges in the subscriber's local calling area as defined in A3.3.1. of this Tariff. In addition, business Area Plus[®] service subscribers are entitled to local calling to the Extended Calling Service (ECS) and Area Plus[®] service additional exchanges in the subscriber's local calling area as specified in A3.3.1. of this Tariff at the usage rates specified in C. following. (N)
4. Subscribers to Area Plus[®] service (APS) receive a thirty percent discount on rates specified in A18.3.1.H.1. This discount supersedes the volume discounts defined in A18.3.7 and A18.13.6.D. and is applied after the appropriate time period discounts specified in A18.3.1.H.4. have been applied and after the calls have been aggregated to a monthly total. This discount applies to covered customer-dialed sent paid calls originated from the subscriber's service; to covered customer-dialed calling card calls, including the calling card surcharges on these calls; and to covered customer-dialed collect calls accepted by the APS subscriber, including the operator surcharges on these calls. The discount is applied on a per line basis to each call type after the calls have been aggregated to a monthly total. (C)
5. Residential customers may also subscribe to Area Plus[®] service and Complete Choice[®] service. Rules and regulations for Complete Choice[®] service are specified in A3.4.3.A. Rates for Area Plus[®] service with the Complete Choice[®] option are specified in A3.4.4.B.2. following. (T)
6. Normal service charges specified in Section A4. of this Tariff do not apply for a conversion from basic flat rate service or other existing service to Area Plus[®] service or Area Plus[®] service with the Complete Choice[®] option or vice versa. (T)
7. Residential Area Plus[®] service and Area Plus[®] service with Complete Choice[®] option customers may not subscribe to Local Usage Detail (LUD). Business Area Plus[®] service customers may subscribe to LUD at no charge. (C)
8. Back-up[®] Line service, as described in A3.38, is available to individual line business APS subscribers. (N)

A3.4 Flat Rate Service (Cont'd)

A3.4.4 Area Plus® Service (Cont'd)

C. Usage Rates

1. The following charges apply on a per call basis for customer dialed and operator handled local calls originated from business service equipped for APS placed to ECS and APS additional exchanges specified in A3.3.1. (N)

	Per Minute	USOC
(a) Per minute on a per call basis	0.08	NA

2. The usage charges specified in 1.(a) preceding are billed in six second (.1 minute) increments or any fraction thereof with a minimum of thirty seconds (.5 minute) billed for each call. (N)

A3.5 Message Rate Service

A3.5.1 General

- A. Business and residence individual line message rate service is offered in all exchanges except where noted in the Local Exceptions A3.8 of this Tariff. Residence individual line message rate service is offered in all exchanges where facilities permit. The rates specified entitle subscribers to the number of messages specified to all exchange access lines bearing the designation of central offices of the serving exchange and extended area service additional exchanges as shown in A3.3.1 of this Tariff. (M)
- B. Subscribers to message rate service are regularly billed monthly in advance. Messages in excess of the monthly message allowance are billed monthly in arrears. Local messages not used in one month's allowance are not credited to the subscriber's account for any other month service is rendered. (M)

A3.17 Reserved for Future Use

A3.18 Reserved for Future Use

A3.19 Reserved for Future Use

A3.20 Reserved for Future Use

A3.21 Reserved for Future Use

A3.22 Local Usage Detail (LUD)

A3.22.1 General

- A. Local Usage Detail (LUD) is an option for customers who desire a printed listing of expanded call details in addition to the usual summary billing of all dialed, sent-paid, billed expanded local usage.
- B. The provision of LUD will coincide with the billing period(s) for the access lines to receive detailed billing; i.e., the reporting of expanded call details will start at the beginning of a billing period and stop at the end of a billing period. For existing customers, LUD should be ordered at least five days prior to the billing date to ensure the timely start or stop of detailed reporting. However, if LUD is requested on an order which establishes service, detailed reporting will start coincident with establishment of the service.
- C. LUD will be provided on a per account basis. For PBX, ESSX[®] service, Digital ESSX[®] service, MultiServ[®] service, and MultiServ PLUS[®] service accounts, all main station lines will be included.
- D. Charges for LUD are in addition to applicable local usage charges specified in this Tariff.
- E. LUD is available for the following services:
 - Local Calling Plus (LCP)
 - Extended Calling Service (ECS)
 - Area Plus[®] service (APS) for business customers (N)

A3.22.2 Rates and Charges

- A. The following charge applies for LUD.

- 1. Per monthly printed listing of call details

	Charge	USOC	
(a) Per call listed for LCP and ECS service only	\$01	NA	(C)
(b) Per call listed for APS service only	0.00	NA	(M)

- B. To initiate LUD, a Secondary Service Order charge is applied for LCP and ECS service only. (C)

A3. BASIC LOCAL EXCHANGE SERVICE

A3.28 Trunk Side Access Facility (Cont'd)

A3.28.3 Rates and Charges

A. Access Line Charges

1. The following rates and charges are for trunk-side connected local exchange access facilities for use with Uniform Access Number/Automatic Number Identification Service and are applicable to individual business lines, PBX trunks, MegaLink® channel service or LightGate® service lines.

a. Facilities Connected at a TOPS Tandem Office^{1,2}

(1) Single Voice Grade Facility, Rate Groups 1-6

	1	2	Group 3	4	5	6	USOC	
(a) Per Facility	\$33.00	\$33.00	\$33.00	\$33.00	\$39.00	\$39.00	B1E	(R)

(2) Single Voice Grade Facility, Rate Groups 7-12

	7	8	Group 9	10	11	12	USOC	
(a) Per Facility	\$39.00	\$44.00	\$44.00	\$44.00	\$44.00	\$44.00	B1E	(R)

(3) MegaLink® channel service, Rate Groups 1-6

	1	2	Group 3	4	5	6	USOC
(a) Per NAR	\$11.74	\$12.34	\$12.98	\$13.58	\$14.14	\$14.77	6QN

(4) MegaLink® channel service, Rate Groups 7-12

	7	8	Group 9	10	11	12	USOC
(a) Per NAR	\$15.28	\$15.78	\$16.25	\$16.60	\$16.96	\$17.26	6QN

(5) LightGate® service, Rate Groups 1-6

	1	2	Group 3	4	5	6	USOC
(a) Per NAR	\$11.74	\$12.34	\$12.98	\$13.58	\$14.14	\$14.77	6QG

(6) LightGate® service, Rate Groups 7-12

	7	8	Group 9	10	11	12	USOC
(a) Per NAR	\$15.28	\$15.78	\$16.25	\$16.60	\$16.96	\$17.26	6QG

Note 1: The TOPS tandem trunk is required for Automatic Number Identification (ANI) service. Uniform Access Number (UAN) is required for ANI service.

Note 2: Rates shown are same as rates specified in A3.4.2.C. and A3.13.3.A. of this Tariff.

A3. BASIC LOCAL EXCHANGE SERVICE

A3.38 Back-Up[®] Line (Cont'd)

A3.38.1 Regulations and Rates (Cont'd)

L The following usage charges apply to outward calls which originate from Back-Up[®] Line service:

1. The local calling area of a Back-Up[®] Line coincides with the local calling area of the customer's primary service.

a. Calls made within the flat or message rate local calling area specified in A3.3, or a measured service local exception specified in A3.8, or with Area Plus[®] service specified in A3.4.4 will be rated as follows: (C)

(1) Calls within a flat or message rate local calling area, or within a measured service local exception, or with Area Plus[®] service: (C)

	Rate Per Minute Of Use	USOC
(a) Usage charge	1.05	NA

b. Calls terminated within Extended Calling Service (ECS) or Local Calling Plus (LCP) exchanges will be billed at the appropriate ECS or LCP rates specified in A3.8.49 or A3.8.50, respectively.

c. Calls made by customers subscribing to an optional local calling plan will be billed according to the rates in the associated optional local calling plan tariff: A3.7.1 for basic Optional Extended Area Service (OEAS); A3.7.2 for Enhanced OEAS; A3.8.29, A3.8.30 or A3.8.31 for Optional Calling Service; A3.8.24, A3.8.25 or A3.8.26 for Optional Extended Area/Local Calling.

d. Calls made by Area Plus[®] service subscribers that terminate within ECS or APS additional exchanges in the subscriber's local calling area as specified in A3.3.1 of this Tariff, will be rated as follows: (N)

(1) Calls within ECS or APS additional exchanges: (N)

	Rate Per Minute Of Use	USOC
(a) Usage charge	3.08	NA

2. Calls terminating in exchanges outside the customer's local calling area will be billed at rates as specified in Section A18. of this Tariff.

J. Usage charges, if appropriate, also apply to the calling party for calls which terminate on Back-Up[®] Line service.

K. A monthly Calling Activity Summary is provided as part of the regular monthly bill. This report includes a monthly count of incoming and outgoing calls, minutes of use, and associated charges.

A4. SERVICE CHARGES

A4.2 Application of Charges (Cont'd)

A4.2.3 Line Change Charge Application (Cont'd)

- D. The Line Change Charge applies: (Cont'd)
4. For each line or trunk, for each NAR on ESSX-1 being temporarily suspended at the request of a customer.
 5. For changing from loop start to ground start and vice versa and for changing from a line to a trunk and vice versa, for changes in direction, etc..
 6. For changing from Foreign Central Office Service to home wire center and vice versa.

A4.2.4 Secondary Service Charge Application

- A. The Secondary Service Charge will not apply if a Line Connection Charge or Line Change Charge is applicable.^{*}
- B. The Secondary Service Charge applies for adding or rearranging:
1. Custom Calling Service
 2. Prestige[®] Communications service
 3. Grouping Service
 4. RingMaster[®] service
 5. TouchStar[®] service
 6. Customized Code Restriction
 7. Customer requested directory listing changes
 8. Remote Call Forwarding
 9. Other features or services for which the Line Connection Charge and Line Change Charge are not *applicable*. (T)
- C. The Secondary Service Charge applies for:
1. Transfers of responsibility.
 2. Changing from residence to business service and vice versa. The business charge applies when changing to business and the residence charge applies when changing to residence. If the telephone number changes the Line Change Charge applies in lieu of the Secondary Service Charge.
 3. Rearrangement of drop wire, protector, and/or network interface. Additionally, Premises Work Charges will apply.
 4. Installing a Network Interface jack at the customer's request on existing service. Additionally, Premises Work Charges will apply.
 5. Changing call referrals to another number at the customer's request.
- D. The Secondary Service Charge is also applicable:
1. When installing or changing a station line or changing a station number on ESSX-1 service.
 2. When adding or changing the operation of a NAR on ESSX[®] service, Digital ESSX[®] service or MultiServ PLUS[®] service. (T)
- E. Beginning *October 1, 1996*, a special waiver of the Secondary Service Charge will apply when subscribers order one or more of the following services: Custom Calling services, Message Waiting Indication service, Prestige[®] Communications service, TouchStar[®] service, Designer Listings, Customized Code Restriction, Remote Call Forwarding or RingMaster[®] service. (C)

A4.2.5 Premises Work Charge Application

- A. The appropriate Line Connection Charge, Secondary Service Charge or Line Change Charge applies in addition to the Premises Work Charge.

EFFECTIVE: October 1, 1996

A4. SERVICE CHARGES

A4.2 Application of Charges (Cont'd)

A4.2.5 Premises Work Charge Application (Cont'd)

- B. Premises Work Charges apply per customer request, per Company employee performing billable work on the customer's premises. The sum of their time is used to determine the number of 15-minute increments to be billed. Only one initial increment is to be billed per customer request except when the customer specifically requests more employees than the Company would normally dispatch. Where additional employees are specifically requested by the customer, the initial increment charge will also apply per additional Company employee specifically requested.
- C. Premises Work Charges apply:
 - 1. For, but not limited to, rearrangement of drop wire, protector and/or network interface.
 - 2. For work performed beyond the protector for semi-public telephone service.
- D. The charge for a Network Interface jack applies in addition to the appropriate Premises Work Charges for installing a Network Interface at the customer's request on existing service.

A4.2.6 Service Charge Exceptions

- A. Service Charges do not apply for:
 - 1. Adding Touch-Tone Service when no other services are requested. (M)
 - 2. Changing from a private or semiprivate listing to a listed number.
 - 3. Changing the primary listing of a residence customer to the name of the remaining spouse in event of death or divorce of the spouse currently listed. (M)
 - 4. Converting existing customers to Lifeline. (M)
 - 5. Changing from one flat, measured or message rate basic local service (including Area Plus[®] service and Complete Choice[®] options) to another. (M)
 - 6. Adding WatsSaver[®] service. (M)
 - 7. The move from a premises which has been destroyed or made untenable by a disaster such as a hurricane, tornado, fire, flood, etc., when equivalent service is established, to the new/temporary location or for the move back into the original location.
 - 8. Changing telephone numbers when in the judgment of the Company such changes are necessary for continuation of satisfactory service.
 - 9. Requests for establishing toll credit cards. (M)
 - 10. Requests for full or partial disconnection. (M)
 - 11. Upgrades from Back-Up[®] Line service to business individual line service. (M)
- B. When a customer's request is provided:
 - 1. In accordance with a promotional waiver, additional service subject to an equal or lesser Service Charge may be made a part of the promotional order. Charges for Line Connection, Line Change, or Premises Work will apply, if applicable, for additional service. (M)
 - 2. In accordance with the Service Charge waivers listed in A4.2.6.A.2. through 6. preceding, additional features or services subject to the Secondary Service Charge may be made a part of the waiver order. (M)

A4.3 Schedule of Charges for Connecting or Changing Service

A4.3.1 Rates and Charges

A. Line Connection Charge

1. Applies per exchange access line, trunk, or per NAR for ESSX-1.

	Residence	Business	USOC	(R)
(a) First Line	\$40.00	\$40.00	NA	
(b) Additional Line (each)	12.00	12.00	NA	

B. Line Change Charge

1. Applies per exchange access line, trunk, or per NAR for ESSX-1.

(a) First Line	23.00	38.00	NA
(b) Additional Line (each)	11.00	11.00	NA

C. Secondary Service Charge

1. Applies per customer request

(a) Each	10.00	19.00	NA
----------	-------	-------	----

D. Premises Work Charge

1. First 15-minute increment or fraction thereof

(a) Per increment	25.00	28.00	NA
-------------------	-------	-------	----

2. Each additional 15-minute increment or fraction thereof

(a) Per increment	9.00	9.00	NA
-------------------	------	------	----

A4.4 Dual Service

A4.4.1 General

- A. Dual Service is a service offering which supplies the same dial tone concurrently to two different addresses served from the same wire center for a limited period of time (90 days maximum) for nondesignated services only. The provision of Dual Service assures the customer continual service at both locations during the time of a move.
- B. A request for Dual Service occurs on orders for a transfer of service (T&F) within the same wire center where no telephone number change is involved.
- C. Dual Service will be offered subject to the availability of facilities and technical limitations.

A4. SERVICE CHARGES

A4.6 Special Number Assignment Charge (Cont'd)

A4.6.1 General (Cont'd)

- C. All specific number requests other than numerical patterns must be made by specifying the digits desired.
- D. If requesting a specific number, the customer will be allowed to name one or two alternative specific numbers, in order of preference, that would be acceptable if the first choice is not available.
 If the customer does not wish to name any specific alternative choices, he may state a desire for two "easy" number alternatives. If his first choice is not available, he will be provided with two "easy" number candidates from which to choose. The customer may name one alternative specific number as his second choice and state a desire for an "easy" number as a third alternative. If his first and second choice are not available, he will be provided with one "easy" number candidate to consider.
 If the customer has no specific number to request but merely desires an "easy" number, he will be provided with three "easy" number candidates from which to choose.
 In the case of both specific and "easy" numbers, only one number may be assigned per each charge listed.
- E. The appropriate charge applies in addition to all otherwise applicable charges, e.g., Number Change, Record Service Order, Foreign Central Office, etc.
- F. If a customer obtains a number under this Tariff that must subsequently be changed for Company reasons (e.g., area transfer), this charge will not apply for providing this same customer a special number from the newly available pool. A customer that moves but remains in the same serving office or wire center may retain his special number at no additional charge. Any requests to change to a new special number will be chargeable.
- G. The charges apply for searching for and, if available, assigning a workable number and are not refundable. The number itself remains the property of the Company as stated in Section A2. of this Tariff.
- H. This service is available where facilities or arrangements permit.

A4.6.2 Rates and Charges

- A. Nonrecurring Charges, per request for a number to be assigned.
 - 1. Search Only

	Nonrecurring Charge	USOC	
(a) Residence	\$5.00	RNC SO	
(b) Business	5.00	RNC SO	(R)
2. Search and Assign			
(a) Residence	25.00	RNC SN	
(b) Business	25.00	RNC SN	(R)

A4.7 Link-Up Florida

A4.7.1 General

- A. Link-Up Florida is offered in all exchanges to provide subsidized assistance to qualifying applicants. It is intended to preserve and promote subscribership among low income households by providing a credit to and a deferred schedule for payment of the installation and connection charges applicable to the provisioning of residence service.

A13. MISCELLANEOUS SERVICE ARRANGEMENTS

A13.11 Remote Call Forwarding (Cont'd)

A13.11.6 Message Charges (Cont'd)

A. (Cont'd)

2. Between the call forwarding location and the terminating station.

The Remote Call forwarding customer is responsible for the applicable Local Usage Rate Service charges as specified in A13.11.6.A.4 following of this Tariff or for the applicable customer-dialed station-to-station charges specified in this or any other applicable Tariff. These charges apply to all calls answered at the terminating station, including person-to-person and collect calls, even though such calls might not be accepted at the answering location.

3. (DELETED)

4. Local Usage Rate Service Charges

a. Where non-optional local exception rates are applicable for basic local exchange service customers, these rates are also applicable for similar "local" calls placed via the Remote Call Forwarding service. Examples of such services are: Extended Calling Service as described in A3.7.3 of this Tariff, and Local Calling Plus as described in A3.8.50 of this Tariff.

- b. No discounts, caps or allowances apply to these usage charges.

(D)
(T)
(T)

A13.11.7 Service Charges

A. Service Charges as shown in Section A4 of this Tariff apply as follows:

1. For the initial or subsequent installation of RCF features, the Secondary Service Charge shall apply.
2. For the subsequent addition of additional access facilities (RCAs) to an existing RCF service, the Secondary Service Charge shall apply.
3. To change the number at the Call Forwarding location, the number for the terminating location or both numbers on the same order, the Secondary Service Charge shall apply.

A18. LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

A18.13 Calling Plans - Saver[®] Service (Cont'd)

A18.13.1 Description of Service (Cont'd)

D. (Cont'd)

- Saver[®] service, when offered in conjunction with Remote Call Forwarding, is available on a Revenue Accounting Office (RAO) basis only; i.e., a customer must select from the available plan options for each RAO which provides billing for specific geographic locations within the Company's serving area.
- E. The service is offered on an account basis only which would include the number of individual lines, MultiServ[®] service Main Station Lines, PBX trunks, Centrex equivalent trunks or ESSX[®] service, Digital ESSX[®] service and MultiServ PLUS[®] service network access registers in the account.
- F. All Saver[®] service plans designated as Outside Expanded Local (OEL) plans are limited to subscribers whose main (billing) location is in an area where an Extended Calling Service plan has been implemented. Only intrastate, intraLATA toll calls are subject to OEL rates in A18.13.6.

A18.13.2 General Regulations

- A. A customer may subscribe to only one Section A18. toll Optional Calling Plan.
- B. Except as otherwise stated in this Tariff, the minimum service period is one month.
- C. Suspension of the service is not allowed.
- D. This Tariff sets forth the minimum, maximum and current rates for Saver[®] service. Following a 30 day notice to the Commission and existing subscribers, the Company may increase or decrease rates within the minimum and maximum ranges specified in this Tariff unless denied or suspended by this Commission.

A18.13.3 Use of the Service

- A. Resale or shared use of Saver[®] service is permitted. Use of the service is subject to regulations in this Section and in Section A2. of this Tariff, with the exceptions of A2.2.1.A. and A2.2.1.B. which restrict the use of service.
- B. The service is offered on an account basis only, which would include the number of individual lines, MultiServ[®] service Main Station Lines, PBX trunks, Centrex equivalent trunks or ESSX[®] service, Digital ESSX[®] service and MultiServ PLUS[®] service network access registers in the account.

A18.13.4 Limitation of Service

- A. The service is not available for use with intraLATA only Outward WATS and combined Outward WATS in Section A19. of this Tariff, Foreign Exchange Service, Mobile Telephone Service, Dormitory Communications Service, Public and Semi-public Telephone Service.

A18.13.5 Nonrecurring Charges

- A. Service Charges as specified in Section A4. of this Tariff *will not apply when an order is issued to add WatsSaver[®] service.* (C)
- B. Saver[®] service can be offered with or without Remote Call Forwarding Service as specified in A13.11. (C)

A18.13.6 Saver[®] Service Options

- A. Budgeting Plan. Depending upon the Option selected, a customer may use up to the initial block of time of toll calling per account for a fixed monthly rate. In the same billing period, usage which exceeds the initial block of time will be prorated based on the rate of the initial block.
1. Method of Determining Monthly Usage Charges
- a. Usage is determined for each call based on minutes and tenths of minutes (or fraction thereof), with a minimum call duration of thirty seconds. This value is then multiplied by the rate per minute for the rate option selected by the customer. The resultant amount is truncated to whole cents for each call.

A19. WIDE AREA TELECOMMUNICATIONS SERVICE

A19.1 General

- A. Wide Area Telecommunications Service (WATS) is the furnishing of facilities by the Company and the concurring Local Exchange Carriers and, when applicable, an interLATA carrier for dial type telecommunications between a station associated with a WATS access line or an exchange access line and stations using the public switched network within the State of Florida in accordance with the regulations and schedule of charges specified in this Tariff and, when applicable, the tariff of the interLATA carrier. The WATS charges set forth in this Tariff are in payment for the service furnished between the calling and called stations within Florida. Toll Free Dialing (TFD) Service is the term now used to describe the service formerly known as 800 Service. Currently, Toll Free Dialing Service provides incoming service utilizing 800 and 888 numbers. This service will be expanded, as required, at a later date to include additional 8XX toll free dialing numbers, e.g., 877, 866, 855, etc. For both Outward WATS and Toll Free Dialing Service, intraLATA service may be subscribed to separately or may be subscribed to in combination (Combined WATS) with an interLATA carrier's interLATA WATS or WATS-like service requiring the use of the Company's WATS serving office. Combined Outward WATS and intraLATA only Outward WATS require the use of a WATS access line from A19.3.4 of this Tariff. Option TFD Service and Open TFD Service¹ can be terminated, at the direction of the customer, on a WATS access line from A19.3.4 of this Tariff or on an exchange line purchased from the appropriate tariff. See A19.3.20, following for applicable² charges when terminating on an exchange line. For WATS Access Lines arranged for bijurisdictional use, refer to A19.3.3.E, following. For the rules, regulations and rates of the interLATA portion of these services, refer to the interLATA carrier's tariffs.
1. The rates and charges specified herein for WATS provide for a WATS access line. The WATS access line consists of all Central Office line equipment and all outside plant facilities up to and including the Company-provided standard network interface as defined in Section A1. of this Tariff.
 2. WATS access line extensions associated with an intraLATA WATS access line must be located within the same LATA as the WATS access line.³ (C)
 3. Jack charges for Company-provided jacks, other than the standard network interface, used in association with WATS are specified in Section A14. of this Tariff.
- B. Dial type telecommunications, as specified in A. preceding, for Combined WATS and intraLATA only Outward WATS must be dialed and completed from or to a WATS Access Line. For Option TFD Service and Open TFD Service, service can be completed to a WATS Access Line or an exchange access line. In all cases communications must be completed without the assistance of a Company operator⁴, except that a Company operator will:
1. Reestablish a call which has been interrupted after the called number has been reached.
- C. Each WATS access line will be arranged at the customer's option for either Outward WATS or Toll Free Dialing Service but not for both. Option TFD Service and Open TFD Service, at the direction of the customer, can be terminated on a WATS access line arranged for inward calling only or on an exchange access line. For service terminating on an exchange access line, only one Toll Free Dialing number can be assigned to terminate on any one exchange access number. An exchange access number may include residence or business line or trunk numbers including DID numbers from Section A12. of this Tariff. The termination of Toll Free Dialing Service to an existing Outward WATS or Open TFD Service or Option TFD Service telephone number is prohibited. These services are subject to the provisions and regulations outlined herein and in Section A2. of this Tariff. A WATS access line may also be provided over an intraLATA High Capacity Channel Service equipped with Outward WATS or Toll Free Dialing Service functionality. See Section B7. of the Private Line Service Tariff for additional applicable charges.

Note 1: The Area of Service for Open TFD Service provided on a WATS Access Line must be the state.

Note 2: Refer to the interLATA carrier's tariff for rates and charges applicable to WATS access line extensions terminated in a LATA other than the WATS access line.

Note 3: Due to the technical limitations of certain interLATA carriers' services, operator assistance as specified in A19.1.B. preceding cannot be provided with the Combined Outward WATS offered in conjunction with interLATA carriers having these technical limitations. (T)

A19. WIDE AREA TELECOMMUNICATIONS SERVICE

A19.1 General (Cont'd)

- D. WATS arranged for Statewide¹ or combined outward service provides for the origination of calls from a station associated with WATS for telecommunications with stations within this State by way of the WATS access line and the public switched network. WATS arranged for intraLATA only outward service provides for the origination of calls from a station associated with WATS for telecommunications with stations within the same LATA and this same State by way of the WATS access line and the public switched network. WATS arranged for interLATA only outward service provides for the origination of calls from a station associated with WATS for telecommunications with stations in a different LATA and the same state by way of the WATS access line and the public switched network.¹
- E. WATS arranged for Open TFD Service provides for the termination of calls from stations within this State, for telecommunications with a station associated with a Toll Free Dialing Service access line or exchange access line for Open TFD Service located within this State.¹ WATS arranged for Option TFD Service provides for the termination of calls from stations within the same LATA and the same State for telecommunications with a station associated with a Toll Free Dialing Service access line or exchange access line located within the same LATA and State.
- F. WATS is furnished only if the necessary facilities are available in the offices technically capable of providing the service.
- G. Combined Outward WATS is furnished only in offices where the interLATA carrier has purchased appropriate Feature Group C or D access facilities.
- H. Directory Assistance Service for customers of the Company requesting telephone number of subscribers who are located outside their local calling area but within the same Number Plan Area is furnished under the provisions of A18.7 of this Tariff. Such calls will be included in the determination of WATS usage charges.
- I. Option TFD Service and Open TFD Service are provided by the Company utilizing Toll Free Dialing Number Service.

1. Toll Free Dialing Number Assignment

Toll Free Dialing Number Service provides for the assignment of a single ten digit TFD Number to the customer which can be used on a statewide basis for Option TFD Service or Open TFD Service.² Toll Free Dialing Number Service provides the customer with one TFD number statewide for Option TFD Service or Open TFD Service. Toll Free Dialing Number Service, when used for Option TFD Service, can be selected for an area consisting of less than an entire state by specifying the desired Area of Service. Option TFD Service customers shall contain in all advertisements, publications or any other communication containing the Option TFD Service number a commonly understood description of all geographic calling limitations. Area of Service is described in 2. following. The assigned TFD number can terminate to a WATS Access line provided in A19.5.4 following or to an exchange access line. A19.5.20 following provides the applicable charges for Option TFD Service and Open TFD Service terminating to an exchange access line. In the provisioning of Open TFD Service, the Company will be the Responsible Organization (RESPORG). The Company will require the 10-digit POTS number for intraLATA screening.

Note 1: Refer to the interLATA carrier's tariff for rates applicable to interLATA usage. Refer to the Statewide carrier's tariff for rates applicable to Statewide usage.

Note 2: The Area of Service for Open TFD Service provided on a WATS Access Line must be the state.

A19. WIDE AREA TELECOMMUNICATIONS SERVICE

A19.3 Limitation of Service

- A. Wide Area Telecommunications Service does not include person-to-person, collect, conference, or other calls requiring operator handling except as provided in A19.1.B. preceding.
- B. WATS is not represented as adapted for connection to other services of the Company. This service contemplates the provision of satisfactory transmission only between the WATS access line or exchange access line for Option TFD Service and Open TFD Service and the called or calling station.
- Extensions from WATS access lines are restricted to the use of the subscriber, his representatives and associates and are furnished only on the same or different premises of the same subscriber except that extensions from Toll Free Dialing Service may be located on other than the subscriber's premises for the purpose of answering calls when the subscriber is not available at the main station and except that WATS access line extensions may be shared, provided those extension lines are located on the customer's premises.
- Connection of WATS to other services is permitted on a switched basis only. No permanent connection between WATS and other service may be established. However, satisfactory transmission cannot be assured when the WATS access line is connected to other Company services or to customer-provided equipment or services.
- WATS may be terminated at a premises where telecommunications management functions are performed on behalf of the customer only if the customer has a requirement to communicate over the WATS line to or from premises of that customer located in the State of Florida. In such cases the premises where telecommunications management functions are performed will be considered a customer's premises. WATS access lines and extensions will be terminated only at premises located within the State of Florida.
- C. Toll Free Dialing Service is furnished upon condition that the customer accept and make use of the terminations or connections provided in accordance with A19.1.E. preceding, and that the customer obtain a sufficient number of WATS access lines or exchange access lines for Option TFD Service and Open TFD Service to prevent the percent of calls completed to calls attempted (including busy and unanswered calls) from falling below 50% for two consecutive months. Customers falling below the 50% level of completions will be required to subscribe to additional WATS access lines or exchange access lines for Option TFD Service and Open TFD Service to handle the incoming calls with at least a 50% completion level. Should the customer refuse to subscribe to these lines, the Company, without incurring any liability, may terminate the Toll Free Dialing Service, provided that, in case of termination of service, at least five days have elapsed following written notification to the subscriber by mail or in person of the Company's intention to terminate the service for such cause.
- D. Any arrangement permitting customer control of the number of calls completed to a Toll Free Dialing Service access line is not permitted.

A19.4 Reserved for Future Use

A19.5 Rates

A19.5.1 Reserved for Future Use

A19.5.2 Reserved for Future Use

A19.5.3 Recurring Rate Structure

- A. The separate recurring usage rate structures of the Local Exchange Carrier and the interLATA carrier providing Combined IntraLATA/interLATA Outward WATS are based on separate identification of intraLATA and interLATA usage as directed by the Commission.
- B. For Option TFD Service and Open TFD Service, Combined Outward WATS, and IntraLATA Outward WATS, the intraLATA usage is applied to the Schedule of Monthly Usage Charges in A19.5.4.C. following, and the interLATA usage is applied to the approved tariff rates of the interLATA carrier. (C)

19. WIDE AREA TELECOMMUNICATIONS SERVICE

A19.5 Rates (Cont'd)

A19.5.3 Recurring Rate Structure (Cont'd)

- C. The Schedule of Monthly Usage Charges in A19.5.4.C. requires a separate monthly charge for each WATS access line or exchange access line for Option TFD Service or Open TFD Service independent of usage on that line.
- D. Monthly usage charges are computed on the total hours of use per WATS access line account or the total hours of use per exchange access line utilized for Option TFD Service or Open TFD Service according to the schedule and methodology found in A19.5.4.C and A19.5.5. following. WATS access lines and exchange access lines will not be mixed at any one customer location for termination of Option TFD Service and Open TFD Service traffic associated with a given Toll Free Dialing number.
- E. WATS Access Lines Arranged for Bijurisdictional Use
 The following parameters apply only to WATS Access Lines arranged for bijurisdictional use.
 - 1. "1+" and "0" intraLATA usage carried over outward WATS Access Lines, having both intra and interstate capability (bijurisdictional) and provided from the BellSouth Telephone Companies Tariff FCC No. 1 or other appropriate Local Exchange Carrier (LEC) interstate tariff, will be completed over LEC facilities at LEC intraLATA outward WATS rates and subject to rules and regulations applicable to LEC intraLATA outward WATS. Subscribers using a bijurisdictional access line for Toll Free Dialing Service may choose either the Company or the interexchange carrier to complete and bill intraLATA calls according to the appropriate rates, rules and regulations. The "1+" and "0" intraLATA usage will be billed to the customer (end user or IXC) where the closed end of the bijurisdictional WATS Access Line is terminated. Customer billing information must be provided to the Company at the time the bijurisdictional WATS Access Line is ordered when the Company is used to complete intraLATA calls.
 - 2. Local calling and seven digit access to originating intrastate FGA and FGB Service are prohibited.

A19.5.5 Method of Determining Usage Charges

- A. For Combined IntraLATA/InterLATA Outward WATS or IntraLATA Outward WATS, apply the following to the intraLATA calls and usage. For Option TFD Service or Open TFD Service, apply the following to only the intraLATA Toll Free Dialing calls and usage. (C)
1. Determine the total number of completed calls for the WATS access line account for each rate period.
 2. Determine the equivalent hours used for each rate period by applying the minimum average time requirement of 30 seconds (1 call x 30 seconds).
 3. Determine the total actual hours used for each rate period for each WATS access line account, rounded to the nearest tenth (one decimal place).
 4. Determine the total chargeable hours for each rate period for each WATS access line account. This is the greater of 2. or 3. preceding, rounded to the nearest tenth (one decimal place).

A23. INTERCONNECTION OF LOCAL EXCHANGE SERVICES TO SHARED TENANT SERVICE

A23.1 Provision of Service (Cont'd)

A23.1.4 Rates and Charges (Cont'd)

A. The following charges will apply for Resale of Local Exchange Service. (Cont'd)

7. Usage Charges

a. The following usage charges apply for outward calls within the local calling area¹ other than those specified in b. following.

(1) Usage Charges

	Initial Minute or Fraction Thereof	Additional Minute, Each or Fraction Thereof	USOC
(a) Each	\$0.0275	\$0.0125	NA

b. The following usage charges apply for ourward calls within the local calling area¹ placed between 12:00 P.M. and 2:00 P.M., 9:00 P.M. and 9:00 A.M., and Saturday and Sunday all day.

(1) Usage Charges

(a) Each	\$0.0175	\$0.0075	NA
----------	----------	----------	----

c. Local usage charges do not apply on calls to 911, the Company operator, Company Repair (611) or on calls to the Company Business Office.

d. Calls to local Directory Assistance (411) will be charged the tariffed rate for such calls as specified elsewhere in this Tariff.

e. Calls to telephone numbers for which a charge is applicable to the caller, i.e., 900, 976, will be charged for at the appropriate rates for these services.

8. Resale Lines - Flat Rate, Rate Groups 1 - 6

a. Flat Rate Resale Lines will only be provided in the situations specified below:

(1) For sharing or resale configurations that do not exceed a total of six local exchange lines in a key system common billing arrangement.

(a) Per line ²	Group						USOC
	1	2	3	4	5	6	
	\$19.00	\$20.00	\$21.90	\$22.90	\$23.85	\$24.90	NA

9. Resale Lines - Flat Rate, Rate Groups 7 - 12

a. Flat Rate Resale Lines will only be provided in the situations specified below:

(1) For sharing or resale configurations that do not exceed a total of six local exchange lines in a key system common billing arrangement.

(a) Per line ²	Group						USOC
	7	8	9	10	11	12	
	\$25.75	\$26.60	\$27.40	\$28.00	\$28.60	\$29.00	NA (R)

Note 1: Calls within the local area are each charged for at least one (1) minute of use. For local calls that exceed one (1) minute, usage charges are based on conversation time rounded up to the nearest one tenth (1/10) minute.

Note 2: Monthly rate is 100% of the Business Flat Rate Exchange Access Line Rate.

B7. DIGITAL NETWORK SERVICE

B7.1 MegaLink® Service (Cont'd)

B7.1.2 Regulations (Cont'd)

E. Features

1. Clear Channel Capability

- a. Clear Channel Capability (CCC) is an arrangement that alters a DS1/1.544 Mbps signal with unconstrained information bits, to meet pulse density requirements outlined in Technical Reference 73525. This will allow a customer to transport an all zero octet over a MegaLink® service channel providing an available combined maximum 1.536 Mbps data rate. This arrangement requires the customer signal at the channel interface to conform to Bipolar with 8 Zero Substitution (B8ZS) line code as described in Technical Reference 73525.
- b. CCC is provided on MegaLink® service channels between two customer designated premises, from a customer premises to their Serving Wire Center or Node Central Office and/or to a remote Serving Wire Center or Node Central Office, and from a Central Office to a Central Office, and is subject to the availability of facilities. This optional feature may be ordered at the same time the MegaLink® service channel is ordered, or it may be ordered as an additional feature of an existing MegaLink® service channel.
- c. When providing CCC via a DS3/44.736 Mbps High Capacity channel, that DS3 channel must be designated, in Company records, as having Clear Channel Capability prior to the provisioning of a DS1/1.544 Mbps High Capacity channel with CCC. Customers must agree to out-of-service periods required to add this feature to an existing MegaLink® service channel to be optioned for B8ZS.

F. Payment Arrangements and Credit Allowance

- 1. The minimum period for which MegaLink® service is furnished and for which charges are applicable is one month.
- 2. Suspension of service is not allowed.

B7.1.3 Rates and Charges¹

- A. A Digital Local Channel is furnished between a Serving Wire Center and the customer's premises. Rates are based on the airline distance between the Serving Wire Center and the customer's premises.

1. Digital Local Channel, each²

	Nonrecurring Charge	Month To Month	24 to 48 Months	49 to 72 Months	73 to 96 Months	USOC
(a) First 1/2 Mile	\$350.00	\$96.90	\$95.05	\$95.05	\$95.05	1LDPZ
(b) Each additional 1/2 Mile, or fraction thereof		44.00	43.00	41.00	39.00	1LDPA

- B. Interoffice Channels furnished between Central Offices. Rates are based on the airline distance between Central Offices.³

1. Interoffice Channel, each channel 0-8 miles

(a) Fixed Monthly Rate	100.00	64.35	59.75	59.75	59.75	1LNO1
(b) Each Airline Mile, or fraction thereof	-	28.80	22.25	20.35	18.50	1LNOA (R)

Note 1: Contract lengths are flexible to allow customer choice of payment period per B2.4.9. (T)

Note 2: MegaLink® ISDN service, specified in B7.5 of this Tariff references rates and charges for this rate element.

Note 3: Refer to B3.3.3 of this Tariff for mileage measurement methodology.

(a) Superframe Format (SF)	\$-	\$-	\$635.00	CCOS
(b) Extended Superframe Format (ESF)	-	-	635.00	CCOEF

D. Move Charge

A move charge, per MegaLink® service channel, applies for each Digital Local Channel moved to a new location in the same building. This move charge is equal to the sum of the Digital Local Channel Nonrecurring Charge, Service Change Charge - Inside Moves, and Premises Visit Charge.

A move charge, per MegaLink® service channel under CSPP, applies for each MegaLink® service moved to a new location in Company territory within the same state. This move charge is equal to the sum of all nonrecurring charges applicable to a new MegaLink® service channel installation at the new location.

- Note 1: Contract lengths are flexible to allow customer choice of payment period per B2.4.9. (T)
- Note 2: MegaLink® ISDN service, specified in B7.5 of this Tariff references rates and charges for this rate element.
- Note 3: Refer to B3.3.3 of this Tariff for mileage measurement methodology.

E9. DIRECTORY ASSISTANCE ACCESS SERVICE

E9.5 Rate Regulations and Charges (Cont'd)

E9.5.2 Rate Categories (Cont'd)

- A. There are three (3) rate categories which apply to Directory Assistance (DA) Access Service: (Cont'd)
2. **Directory Assistance (DA) Service Call**
 The Directory Assistance (DA) Service Call rate category provides for the use of the Company DA operators and DA equipment.
 3. **Directory Assistance Interconnection**
 The DA Interconnection rate category provides for switching capability and network functions not assigned to other DA Service rate categories. This charge is assessed to all ICs and is applied on a per DA call basis.
- B. Nonrecurring charges will apply for the installation of Directory Transport facilities, service rearrangements or features as defined in E9.2.2.B.3 preceding.
