Re: Response to exemption Proceedings

Dear Mr. Walker:

Please find enclosed the following responses to your requests on July 11. I hope this information will be sufficient for you to permit issuance of exemption permits for the following communities.

The Savannahs (Docket No. 960220-WS):

Yes, the base facility charges are different. There are fifteen (15) meters each 1 1/2" in size (\$14.20/water) and (\$21.55/sewer) which makes the total base fees \$213.00/water and \$323.25/sewer.

Woodbridge @ the Lake (Docket No. 960221-WS):

Yes, the base facility charges have changed. They have three (3) meters each 3" in size (\$75.35/water) and (\$54.50/sewer) which makes the total base fees \$226.05/water and \$163.50/sewer.

Coopers Hawk (Docket No. 960222-WS):

This community has six (6) meters each 2" in size (\$39.70/water) and (\$27.30/sewer) which makes the total base fees \$238.20/water and \$163.80/sewer.

The Hamptons (Docket No. 960231-WS):

You are correct. Brevard Co. does provide the wastewater service to this property @ \$2.85/1000g. The City of Melbourne bills for the County and pays them for what they collect. At the Hamptons, you will find two (2) meters 2" in size (\$43.12/water) and (\$11.55/unit/sewer, residential B).

Also enclosed are the rates from the respective cities you needed. Please call if you have any more questions or require more information in order to make the exemptions.

Sincerely,

John S. Ranney
Director of Operations

SEWER
 Commercial/Residential Customer
 Usage \$2.90

EXAMPLE #1
 Residential customer with 5/8" meter
 consumes 800 Cu. Ft. (8 ccf) of water
 Water = \$8.45 + (8 x \$0.58) = \$13.09
 Sewer = \$3.40 + (8 x \$2.90) = 26.60
 10% Public Service Tax = \$1.31
 Total \$41.00

EXAMPLE #2
 Residential customer with 5/8" meter
 consumes 2000 Cu. Ft. (20 ccf) of water
 Water = \$8.45 + (15 x \$0.58) + (5 x \$0.73) = \$20.80
 Sewer = \$3.40 + (20 x \$2.90) = 61.40
 10% Public Service Tax = \$2.08
 Total \$84.28

Residential sewer charges are based on actual water usage up to a maximum of 3000 cubic feet per month for October through March. April through September sewer charges are based on ninety percent of actual water usage up to the above maximum to account for watering of lawns, gardens, etc.

25. Wastewater service rates.

There shall be paid to the city for any other building or structure which is connected or which may hereafter be connected to the sanitary sewerage main in the city, a special service charge for the use or availability of sewer service as set out in this chapter of the sewer services and facilities which shall be based upon the amount of water consumed by each user, to be determined by the meter reading of the water supply, except as herein specified. The rates for users shall be computed in accordance with the provisions of this article. The rates shall be based on the customer's location. Customers located within the city limits of the City of [redacted] shall pay the inside city rate. Customers located outside the city limits of the City of [redacted] shall pay the outside city rate.

Monthly service charge: Each customer connected to the city's wastewater system to whom a monthly bill shall be rendered for water furnished by the waterworks system of the city shall pay a monthly listed monthly service charge based on the reading of the water service meter in accordance with the schedule set forth below:

Monthly Service Charge	
Inside City	Outside City
\$ 4.31	\$ 5.39
10.78	13.48
21.55	26.95
34.48	43.12
68.96	86.24
107.78	134.75
215.50	269.50
344.80	431.20
624.96	781.55
To be negotiated based on customer's demand	

If a customer has received a permit for and installed an individual gray water disposal system, a credit equal to fifty (50) per cent of the monthly service and gallonage charges shall be allowed, however, that if the gray water disposal system is abandoned for any reason, this credit shall not be allowed.

(e) **Gallonage charge:** Each customer connected to the city's wastewater system to whom a monthly bill shall be rendered for water furnished by the waterworks system of the city shall pay a charge per one thousand (1,000) gallons, or portion thereof, of water passed through the water meter for wastewater services in accordance with the schedule set forth below:

Inside City	Outside City
\$3.113	\$3.891

(d) **Adjustments to bills.** The city manager or his designee shall be authorized to provide adjustments to sewer bills resulting from excessive water consumption because of leaks in the water service lines, defective plumbing fixtures or unusual circumstances where the water did not enter the sanitary sewer system as waste pursuant to the following conditions:

- (1) Excessive water consumption is defined as water consumption resulting from one of the above described causes, where the billed consumption exceeds the average monthly consumption for the previous six (6) months by at least one hundred (100) per cent and is a minimum of ten thousand (10,000) gallons above said monthly average.
- (2) The account holder shall submit a written request for adjustment within sixty (60) days of the date of the bill for which adjustment is requested.
- (3) The account holder must establish that the water did not flow through the sanitary system.
- (4) An adjustment to a sewer bill has not been granted in the previous twelve (12) months.
- (5) The amount of sewer charge adjustments shall be as follows:

Sewer Charge Related to Excessive Water Consumption	Sewer Charge Adjustment
\$200.00 to \$400.00	\$200.00
Over \$400.00 to \$600.00	\$300.00
Over \$600.00 to \$800.00	\$400.00
Over \$800.00	\$500.00

*Actual Connection
Cost*

750.00
1,500.00

To be determined by the
city on an individual ba-
sis.

The amount of the connection charge herein shall be payable prior to each unit to the city's water system. Where the applicant has made a twenty-percent payment pursuant to subsection 1, the applicant shall be entitled to a credit for a proportion of the water connection charge when the connection charge is paid.

Persons holding active building permits and having city engineering division site plan or water system plans approved on the date of this section shall be permitted to obtain water connection permits based on city water connection permits in effect prior to the adoption of this section.

In cases where it is necessary for the applicant to obtain a permit from the Florida Department of Environmental Regulation or the County Health Department, for construction of a water system, the applicant shall pay 25 percent of the total connection charge for the connection of all units to the water system prior to the city endorsing the permit to the appropriate agency.
