FLORIDA PUBLIC SERVICE COMMISSION

DOCKET NO. 910525-TL

RULE TITLE:

RULE NO.:

Application for Certificate

25-24.471

PURPOSE AND EFFECT: Portions of the proposed rule amendments are corrections to the rule which had been inadvertently sent for publication and became effective in March 1996. The incorrect version failed to include the changes voted on by the Commission such as to recognize alternative local exchange carriers (ALECs) as providers of 0- service and to provide that ALECs meet certain service standards. The incorporation by reference of PSC/CMU Form 31 was also not included. This amendment makes the corrections to conform the rule to that which was approved by the Commission at its February 6, 1996, agenda conference. The amendment also removes the restriction that reserved all 1+ and 0+ dialed intraLATA toll calls to the local exchange companies (LECs), and allows interexchange carriers (IXCs) the ability to provide 1+ and 0+ intraLATA toll calls.

THE FULL TEXT OF THE RULE IS:

25-24.471 Application for Certificate.

(1) An applicant desiring to apply for a certificate shall submit an application on Commission Form PSC/CMU 31 ~~(XX/XX) (4/91)~~, which is incorporated into this rule by reference. Form PSC/CMU 31 ~~(XX/XX) (4/91)~~, entitled "Application Form for Authority to Provide Interexchange Telecommunications Service Between Points Within the State of Florida," may be obtained by contacting the Commission's Division of Communications. A non-refundable application fee of \$250.00 must accompany the filing of all applications.

(2) An original and ~~12 twelve (12)~~ copies of the application shall be filed with the Division of Records and Reporting.

(3) A certificate will be granted if the Commission determines that such approval is in the public interest.

(4) Any authority granted to interexchange companies (IXCs) previously or hereafter is subject to the following:

(a) Toll authority granted to all companies is statewide. A company may provide toll service over its own or resold facilities. However, end user dialed 0+ local and all 0- calls shall be initially routed to the serving local exchange company or alternative local exchange company ~~the local exchange company shall be the sole carrier for 0+ local, 0- local and 0- intralATA toll calls dialed by end users.~~ When operator services are provided by the alternative local exchange company, the alternative local exchange company must also provide access to emergency service, busy line verification, and emergency interrupt service to the end user on at least the same level as that provided by the local exchange company. Call aggregators and IXCs shall not change or augment the dialing pattern of end users for 0+ local or 0- such calls. ~~IXCs may only provide intralATA toll services to end users with whom they have a prior and ongoing relationship or who dial the appropriate access code, e.g., 950, 800, or 10XXX.~~

(b) Minor ~~inter~~interexchange companies are not required to provide service throughout their certificated service area, but must accept customers on a nondiscriminatory basis. Companies deemed major interexchange companies on December 31, 1994, are required to provide service in any exchange that is not equal access capable to all customers in that exchange making a request for service.

(c) Where only one interexchange carrier is available in a confinement facility, that interexchange carrier shall provide for completion of all inmate calls allowed by the confinement facility.

(d) A certificate to provide interexchange service does not carry with it the authority to provide local exchange, shared

tenant, alternative access, alternative local exchange, or pay telephone service. A separate application must be made for such authority.
