Re: Global TeleMedia International, Inc.
Docket No. 960787-TI

Dear Commission:

Pursuant to Staff request, enclosed for filing are the original and six (6) copies of Global TeleMedia International, Inc.'s revised tariff pages. The additional revisions directed by the Commission's staff are as follows:

Sheet 16: Clarifies language re timing of calls;

Sheet 20: Adds language regarding Calculation of Distance (in the event the Company adds a distance-sensitive product to its tariff);

Sheets 21-22: Renumbers subsections; and

Sheet 23: Adds language regarding Directory Assistance discounts (in the event the Company adds directory assistance to its tariff in the future).

Thank you for your assistance in this matter.

Sincerely,

Susan Davis Morley

FPSC-RECORDS/REPORTING

SECTION 3 - DESCRIPTION OF SERVICE

3.1 Timing of Calls

- 3.1.1 Long distance usage charges are based on the actual usage of GTMI's network. Timing begins when the called party answers the call (i.e., when two-way communication is established). The Company will determine that a call has been established through industry standard answer detection methods, including hardware and software answer detection.
- 3.1.2 Minimum billed call duration and billing increments differ from product to product. Product specific information is included in Section 4 of the Rate Schedules.
- 3.1.3 Usage is measured and rounded to the next higher billing increment for billing purposes.
- 3.1.4 Chargeable time ends when either party "hangs up" thereby releasing the network connection. Incomplete calls are not billed.

FPSC-RECORDS/REPORTING

SECTION 4 - RATES

4.2 Calculation of Distance

Where applicable, usage charges for all mileage sensitive products will be based on the airline distance between the serving wire center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the serving wire centers as defined by BellCore (Bell Communications Research), in the following manner:

Step 1 - Obtain the "V" and "H" coordinates for the serving wire center of the Customer's switch and the destination point.

Step 2 - Obtain the difference between the "V" coordinates of each of the Rate Centers. Obtain the Difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 - Divide the sum of the square obtained in Step 4 by ten. Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating serving wire centers of the call.

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

SECTION 4 - RATES, CONT.

4.8 Time of Day Rate Periods

The appropriate rates apply for day, evening and night/weekend calls based on the following chart:

	MON	TUES	WED	THUR	FRI	SAT	SUN
8:00 AM TO 5:00 PM*	DAYTIME RATE PERIOD						
5:00 PM TO 11:00 PM*	EVENING RATE PERIOD						EVE
11:00 PM TO 8:00 AM*	NIGHT/WEEKEND RATE PERIOD						

* to, but not including

Calls are billed based on the rate in effect for the actual time period (s) during which the call occurs. Calls that cross rate period boundaries are billed the rates in effect for each portion of the call.

SECTION 4 - RATES, CONT.**4.0 Rates, cont.****4.9 Exemptions and Special Rates****4.9.1 Discounts for Hearing Impaired Customers**

A telephone toll message which is communicated using a telecommunications device for the deaf (TDD) by properly certified hearing or speech impaired persons or properly certified business establishments or individuals equipped with TDDs for communicating with hearing or speech impaired persons will receive, upon request, credit on charges for certain intrastate toll calls placed between TDDs. The credit to be given on a subsequent bill for such calls placed between TDDs will be equal to applying the evening rate during business day hours and the night/weekend rate during the evening rate period. Discounts do not apply to surcharges or per call add on charges for operator service when the call is placed by a method that would normally incur the surcharge.

4.9.2 Telecommunications Relay Service

Intrastate toll calls received from the relay services will be discounted fifty percent (50%) off of the otherwise applicable rate for a voice nonrelay call except that where either the calling or called party indicates that either party is both hearing and visually impaired, the call shall be discounted sixty percent (60%) off of the otherwise applicable rate for a voice nonrelay call. The discount applies to the time sensitive element of a charge for the call and does not apply to per call charges such as a credit card surcharge.

4.9.3 Directory Assistance for Handicapped Persons

Should the Company undertake to provide directory assistance, there will be no charge for Directory Assistance for calls from handicapped persons, with a maximum of 50 inquiries per monthly billing cycle. Such persons must contact the Company for credit on their directory assistance calls.
