City Gas has contacted staff and has indicated they would like to file a revision to their request for confidential classification for document 09309-96.

Each page within document 09309-96 is also present within document 08597-96; therefore, in response to the utility revision of their request, you may return unneeded pages found within document 09309-96 to the utility.

As you deem necessary, I will be glad to assist you in this effort.
