as local traffic to the extent that BellSouth cannot distinguish between local traffic and intralATA toll traffic. National Tel and BellSouth agree, subject to the second sentence of this paragraph, to use NXX codes in a manner that will allow the terminating party to distinguish local traffic (measured and flat rate) from intralATA toll traffic. In the event a third-party becomes the numbering administrator, BellSouth agrees, if it is National Tel's CMDS host, to support National Tel's requests and assist National Tel in obtaining revenue accounting office codes, and any other billing and accounting codes necessary for the provision of local telephone numbers within BellSouth's jurisdiction. After final telecommunications numbering administration guidelines, plans or rules have been adopted pursuant to Section 251(e) of the Act, the parties shall comply with such guidelines, plans and rules.

ARTICLE XI

OPERATIONAL MATTERS AND UNBUNDLED NETWORK FEATURES

11.01 Interim Service Provider Number Portability

a. The parties agree to provide interim Service Provider Number Portability ("SPNP") on a reciprocal basis between their networks to enable their end user customers to utilize telephone numbers associated with an exchange service provided by one party, in conjunction with an exchange service provided by the other party, upon the coordinated or simultaneous termination of the first exchange service and activation of the second exchange service. The parties shall provide reciprocal SPNP immediately
