Re: Docket Nos. 960847-TP and 960980-TP  
Petitions by AT&T Communications of the Southern States, Inc.,  
MCI Telecommunications Corporation and MCI Metro Access  
Transmission Services, Inc. for arbitration of certain terms and conditions  
of a proposed agreement with GTE Florida Incorporated concerning  
interconnection and resale under the Telecommunications Act of 1996

Dear Ms. Bayo:

Enclosed are an original and fifteen copies of a Request for Confidential Classification  
and Motion for Protective Order in connection with certain information submitted in  
response to AT&T's First Set of Interrogatories in the above matter. Service has been  
made as indicated on the Certificate of Service. Please call me if you have any  
questions regarding this matter.

Very truly yours,

Anthony P. Gillman

Docket No. 960980-TP

**GTE FLORIDA INCORPORATED'S REQUEST FOR CONFIDENTIAL  
CLASSIFICATION AND MOTION FOR PROTECTIVE ORDER**

GTE Florida Incorporated (GTEFL) seeks confidential classification and a permanent protective order for certain information submitted in response to AT&T's First Set of Interrogatories in this docket. Staff introduced these responses into the record at the hearing.

All of this information falls within Florida Statutes §364.183(3)(e), which defines the term "proprietary confidential business information" to include "information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of that information." The documents in question contain information about GTEFL's avoided costs. If competitors are able to acquire this detailed and sensitive costing information regarding GTEFL, they could more easily develop entry and marketing

DOCUMENT NUMBER-DATE

12532 NOV 21 96

FPSC-RECORDS/REPORTING

strategies to ensure success in competing with GTEFL. These competitors would be more adept at pricing their own services if they possess details about GTEFL's cost structure. This affords them an unfair advantage while severely jeopardizing GTEFL's competitive position. In a competitive business, any such knowledge obtained about a competitor can be used to the detriment of the entity to which it pertains. This unfair advantage skews the operation of the market, to the ultimate detriment of the consumer. Furthermore, because the information would be disclosed to competitors through a regulatory proceeding--rather than through legitimate market trial and error processes--the marketplace will be skewed, to the ultimate detriment of the consumer. This effect is particularly troublesome in the context of this docket, which is intended to set rules for encouraging rational and efficient competition, rather than providing any entity a competitive advantage.

While a ruling on this request is pending, GTEFL understands that the information at issue is exempt from Florida Statutes, Section 119.01(1) and Staff will accord it the stringent protection from disclosure required by Rule 25-22.006(3)(d). One highlighted, unredacted copy of the confidential material, labeled Exhibit A, is attached to the original of this Request. Redacted copies of these items are attached to this Request as Exhibit B. A detailed justification of the confidentiality of the information at issue is attached as Exhibit C.

Respectfully submitted on November 21, 1996.

### **GRANDFATHERED SERVICES**

Footnote: (1) The retail rates above do not include the Carrier Access Line Charge (CALC). The ALEC will be responsible for the business charge, \$6.00

Footnote: (2) Confidential and proprietary. This document is subject to the terms and conditions of the nondisclosure agreement between customer and GTE.

Footnote : (3) This matrix is subject to Legal and/or Regulatory constraints.

Footnote: (4) The Initial Service Order charge is \$41.50, the Subsequent Service Order charge is \$24.00 and the Installation per line charge is \$28.25.

The Outside Facility Connection Charge will apply when field work is required for establishment of a new resale service. The term conditions and rates that apply for this work are described in the Company's retail local service tariffs.

Footnote: (5) Prices contained in this price list have been calculated according to the formula: (1) retail price, less (2) avoided retail costs. However, for all basic exchange access services, e.g., business line (BT), PBX trunk, CentralNet Line, or ISDN line, a further adjustment to service costs will be required to recognize the foregone contribution associated with complementary intraLATA toll service. Therefore, prices for these services must be recalculated according to the formula: (1) retail price, less (2) avoided retail costs, plus (3) toll opportunity loss (toll contribution), less (4) access opportunity gain from lost toll (access contribution).

## Exhibit C

Exhibit No. 62, Response to AT&T Interrogatory No. 1, Attachment A, Pages 1-25. These pages are a matrix of GTEFL's grandfathered and obsoleted services that GTEFL will offer for resale subject to the condition imposed by the FCC's Part 51 Rules that the reseller may offer the service only to those customers who are eligible to subscribe to the service from GTEFL. These pages contain GTEFL's avoided cost information. This information would allow competitors to determine where GTEFL is most vulnerable in its retail operations and how best to devise a pricing and marketing strategy that will best ensure success in competing with GTEFL.

Exhibit No. 62, Response to AT&T Interrogatory No. 3, Attachment A, Page 1. This is GTEFL's Electronic Interface nonrecurring costs. Such information about GTEFL's cost structure would allow competitors to better tailor their networks to compete effectively with GTEFL.

Exhibit No. 62, Response to AT&T Interrogatory No. 7, Attachment A, Pages 2-3. These pages represent costs broken down by specific accounts, including product management, sales, advertising, etc. Knowledge of these detailed, account-level data for GTEFL would allow competitors to structure their operations in the way that is the most efficient and that will ensure success in competing with GTEFL without the usual market trial and error.

Exhibit No. 62, Response to AT&T Interrogatory No. 31(d), Attachment A, Pages 1-17. These pages support GTEFL's calculation of forward looking joint and common costs. The pages include a Contribution Analysis Workpaper with supporting schedules which provide detail of the revenue components shown in Table 1 - Recovery of Joint and Common Costs. Such detailed knowledge about GTEFL's costs would allow competitors to establish their networks in the way that is most efficient and that will ensure success in competing with GTEFL without the usual market trial and error.

**CERTIFICATE OF SERVICE**

I HEREBY CERTIFY that copies of the foregoing Request for Confidential Classification and Motion for Protective Order in Docket Nos. 960847-TP and 960980-TP were sent via U.S. mail on November 21, 1996 to the parties listed below.
