Issue 2: Recommendation that staff and the parties have addressed all the proposals, issues, positions, and alternatives on the disposition of the 1996 unspecified amount, in Issue No. 1. Therefore, if the Commission approves staff's recommendation in Issue 1, this issue of how the Commission should implement the scheduled rate reduction is moot.

APPROVED

Issue 3: Recommendation that, pursuant to the terms of the Settlement, the rate reductions were to have been effective October 1, 1996. In the event the effective date is delayed, BST agreed to provide refunds in the same manner as was done in Docket No. 880069-TL for the period of the delay. Therefore, the following should be approved:

- 1) Tariffs implementing the Commission's decision in Issue 1 should be filed no later than ~~January 13, 1997~~, to become effective ~~five days after correct tariffs have been filed~~. *Feb. 3, 3/1/97*
- 2) Refunds, including interest, should cover the pro rated portion of \$44 million for the period October 1, 1996 through the effective date of the tariffs.
- 3) Refunds should be made, based on access lines, pro rata according to rate level, to customers of record as of ~~November 30~~, 1996. ESSX customers should receive refunds based on applicable Network Access Register rates. Subscribers who pay usage rates plus some percentage of the equivalent flat rate should receive refunds based on either the applicable flat rate surrogate if there is one, or, if no tariffed flat rate surrogate exists, the full equivalent flat rate.
