RE: Docket No. 960833-TP

Dear Mrs. Bayo:

Enclosed please find **Page 4** of the **Revised** Attachment 15 (to the joint interconnection agreement) which we filed yesterday. Due to a copying error, Page 4 was inadvertently omitted.

Sincerely,

A handwritten signature in cursive script that reads "Tracy Hatch".

FPSC-RECORDS/REPORTING

Subcommittee (SOSC) of the Telecommunications Industry Forum/Electronic Data Interchange (TCIF/EDI) committee. The most current version of the SOSC implementation guideline for EDI is version 6.

- 5.1.2 The information exchange will be forms-based, using Local Service Request (LSR) Form, End User Information Form, and the Resale Service Form developed by the OBF. The SOSC interpretations of the 850, 860, 855, 864, 865, and 997 transactions, in accordance with the OBF forms, will be used to convey, when available and where applicable, all the necessary data to connect, modify or disconnect Local Services of BellSouth that AT&T resells, including the capability to establish directory listings and perform service suspension, denial and restoral. In the absence of SOSC interpretations of the 850, 860, 855, 864, 854, and 997 transactions, both Parties agree to use the defined EDI mappings for Phase 1 and Phase 2.
- 5.1.3 If the EDI translator of BellSouth detects a syntax error(s), BellSouth will reject the order using the 997 transaction, identifying the type of syntax error(s) and indicate to AT&T that the entire order must be resubmitted. If BellSouth detects that agreed upon data is missing or incorrect, subsequent to the EDI translator processing, BellSouth will reject the AT&T order and indicate the need for AT&T to resubmit the order. BellSouth agrees to develop an acceptable X.12 EDI transaction type for identifying and advising AT&T of missing or incorrect data.
- 5.1.4 AT&T and BellSouth will use an X.400 message standard, until it is replaced with a transaction-based protocol, and a mutually agreeable X.25 or TCP/IP based transport network for exchange of transactions. AT&T and BellSouth will translate ordering and provisioning requests originating in their internal processes into the agreed upon forms and EDI transactions.
- 5.15 Both Parties agree to complete the defined translations, establish a query-response cycle time commitment, including but not limited to order rejection and firm order confirmation, and proceed to systems readiness testing, as more fully described in Section 7, that will result in a fully operational interface for resale of Local Service by March 31, 1997.
- 5.1.6 AT&T and BellSouth agree to adapt the interface based on evolving standards. To the extent changes to SOSC implementation guidelines affect local service ordering, the Parties agree to use best efforts to implement such changes, including testing of changes introduced, within 7 months of the publication date of the TCIF/SOSC guidelines. This preceding target implementation obligation may be modified by mutual agreement.

CERTIFICATE OF SERVICE

DOCKET NO. 960833-TP, 960846-TP and 960916-TP

I HEREBY CERTIFY that a true copy of the foregoing has been furnished by U. S. Mail or hand-delivery to the following parties of record this 12th day of February, 1997:
