TO: Parties of Record  
FROM: Blanca S. Bayó, Director *BSB/lf*  
Division of Records and Reporting  
RE: Docket No. 961153-TL - Petition for numbering area relief for 904 area code, by BellSouth Telecommunications, Inc.

This is to inform you that the Commission has reported the following communication in the above-referenced docket.

- Letter from Alan C. Hasselwander, Chairman of the North American Numbering Council, dated February 17, 1997.

The letter, a copy of which is attached, is being made a part of the record in these proceedings. Pursuant to Section 350.042, F.S., any party who desires to respond to an ex parte communication may do so. The response must be received by the Commission within 10 days after receiving notice that the ex parte communication has been placed on the record. Please mail your response to the Division of Records and Reporting, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0870.

The Honorable Commissioner Julia Johnson  
Chairman, Florida Public Service Commission  
2540 Shumard Oak Blvd.  
Tallahassee, FL 32399

Dear Chairman Johnson:

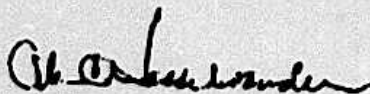

At the February 13 meeting of the North American Numbering Council we discussed Florida's request for two new area codes to accomplish a 3-way split to relieve the 904 area. The issue had been raised by the North American Numbering Administrator in view of the NANC's consideration of conservation issues in response to the Report and Order in CC Docket No. 92-237.

It is our understanding that under the proposed relief plan two of the codes are estimated to exhaust in 2006, while the third code would likely exhaust more than 20 years thereafter. Current industry guidelines state that boundaries should be set so that codes exhaust at roughly the same time, but that in no event should there be more than 15 years difference in exhaust dates. We understand further that there are other plans that could provide relief to the present exhaust problem in Northern Florida.

There was significant concern expressed at the meeting about the potential assignment because of the ramifications of such a decision on conservation of number resources. We believe that the assignment could be viewed as precedential and that there are a number of like requests that could potentially be made as a result to the face of a growing scarcity of this resource.

We would request that you delay proceeding with the 3-way split while reconsideration is given to an alternative more consistent with the guideline. It is not our intention to introduce significant delay in the solution of your exhaust problem, and we would be happy to review this issue with you in more detail and provide whatever assistance we can.

Sincerely,

Alan C. Hesselwander  
Chairman, North American Numbering Council
