**BY HAND DELIVERY**

Dear Ms. Bayo:

Enclosed for filing are an original and fifteen copies of AT&T Wireless Services of Florida, Inc.'s Petition for Arbitration with GTE Florida, Inc.

Please indicate receipt of this document by stamping the enclosed extra copy of this letter.

Thank you for your assistance in this matter.

Sincerely,

**BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION**

In Re: Petition by AT&T Wireless	)	
Services of Florida, Inc., for Arbitration	)	Docket No.
with GTE Florida, Inc., pursuant to the	)	Filed: March 7, 1997
Telecommunications Act of 1996	)	
<hr/>		

**PETITION OF AT&T WIRELESS SERVICES OF FLORIDA, INC.,  
FOR ARBITRATION WITH GTE FLORIDA INC.**

AT&T Wireless Services of Florida, Inc., ("AWS") for itself and as agent for each commercial mobile radio service ("CMRS") provider carrier identified on Schedule 1, appended hereto (collectively "AWS Carriers"), pursuant to Section 252(b) of the Communications Act of 1934, as amended (the "Act"), 47 U.S.C. § 252(b), hereby petitions the Florida Public Service Commission ("PSC" or "Commission") to arbitrate those issues that have not been resolved through negotiations between AWS and GTE Florida, Inc., ("GTEFL"). Specifically, AWS requests the Commission to establish rates, terms, and conditions for interconnection between the parties pursuant to Section 252(d) of the Act and those guidelines in effect that have been adopted by the Federal Communications Commission ("FCC") in its First Report and Order, FCC 96-325, CC Docket Nos. 96-98 and 95-185 (August 8, 1996) ("Interconnection Order").

In support of this petition, AWS states as follows:

**I. INTRODUCTION**

1. AWS is a Florida corporation, having its principal place of business at 11760 N. U.S. Highway 1, West Tower, Third Floor, North Palm Beach, FL 33408. AWS is the agent for the AWS Carriers, each of which are telecommunications carriers authorized by the FCC to provide commercial mobile radio services within certain designated areas in the state of Florida. The names

DOCUMENT NUMBER-DATE

02504 MAR-75

FPSC-RECORDS/REPORTING

and addresses of the representatives of AWS to whom all pleadings, notices, orders or other correspondence regarding this matter should be sent are:

Floyd R. Self  
Messer, Caparello & Self, P.A.  
P.O. Box 1876  
Tallahassee, FL 32302-1876  
Telephone: 904-222-0720  
Facsimile: 904-224-4359

B. Kelly Kiser  
AT&T Wireless Services  
11760 N. U.S. Highway 1  
West Tower, Third Floor  
North Palm Beach, FL 33408

2. GTEFL is a local exchange telecommunications company certificated by this Commission to provide local exchange telecommunications service within Florida. Section 364.02 (6), Florida Statutes (1996). GTEFL is and at all material times has been an "incumbent local exchange carrier" ("ILEC") in Florida as defined by the Act. 47 U.S.C. § 251(h).

3. The AWS Carriers have interconnected and exchanged local traffic with GTEFL for many years pursuant to the rates and guidelines set forth in GTEFL's Interconnection of Mobile Services tariff, Section A20. In an effort to promote competition among local exchange carriers and other telecommunications carriers, including CMRS carriers, Congress enacted the Telecommunications Act of 1996. The Act establishes new guidelines pursuant to which CMRS carriers, such as the AWS Carriers, may interconnect and exchange local traffic with ILECs, like GTEFL. Under the Act, the AWS Carriers are entitled to interconnect with GTEFL pursuant to reciprocal compensation arrangements for the transport and termination of traffic on rates, terms, and conditions that are "just, reasonable, and nondiscriminatory." See, §§ 251 (b) (5) and 252 (d)

(2) of the Act and §§ 51.701-717 of the FCC's implementing rules.

4. In a letter dated September 30, 1996, AWS requested interconnection and other services ("AWS Request") from GTE Telephone Operations for various states, including Florida pursuant to Section 251 of the Act. Service of the request was received by GTEFL on about October 15, 1996. A true and correct copy of AWS's request is appended hereto as Exhibit "A."

5. Subsequent to making and receiving the AWS Request, the Parties have negotiated in an attempt to reach an agreement on interconnection rates, terms, and conditions. The Parties exchanged several draft agreements, held a face-to-face meeting, conducted several telephone conference calls, and exchanged other correspondence.

6. As a result of these negotiations, in which AWS has consistently conducted itself in good faith, the Parties appeared to have reached agreement on most issues. However, no final interconnection agreement has been negotiated, and on several matters the parties have been unable to reach any agreement.

## II. PROCEDURAL REQUIREMENTS

7. Under Section 252 of the Act, parties to a negotiation for interconnection within a particular state have the right to petition the respective state commission for arbitration of any open issues whenever negotiations between them fail to yield an agreement. 47 U.S.C. § 252(b). Either Party may seek such arbitration during the period between the 135th day and the 160th day after the date the ILEC received the request for negotiation. *Id.* Because GTEFL received the AWS Request on or about October 15, 1997, the window for requesting arbitration began on February 27, 1997 and ends on March 22, 1997. Accordingly, this Petition is being filed within the time period established by the Act.

### **III. UNRESOLVED ISSUES AND POSITION OF THE PARTIES**

8. Exhibit "B" appended hereto, sets forth the unresolved issues between AWS and GTEFL. In addition, this Exhibit sets forth the respective positions of AWS and GTEFL as understood by AWS, which GTEFL will clarify in its response pursuant to Section 252(b)(3) of the Act.

### **IV. RESOLVED ISSUES**

9. The issues on which the parties appear to have tentatively reached an agreement are summarized in Exhibit "C", appended hereto, and which are more fully explained in the draft interconnection agreement attached hereto as Exhibit "D." To the extent AWS's statement of agreement is inaccurate, GTEFL's response to this petition contesting such statement shall include such issues as disputed issues for this proceeding on which AWS seeks arbitration.

### **V. PROCEDURAL MATTERS**

10. AWS recognizes that it may be necessary to obtain and provide more information regarding the issues to be arbitrated. For example, AWS expects that GTEFL may raise new matters in its reply. Accordingly, AWS hereby reserves its rights to submit additional information during the course of this proceeding and to assert its original position on any additional issues that GTEFL claims are unresolved.

11. Section 252(b)(4)(c) requires that the PSC render a decision in this proceeding not later than nine months after AWS submitted its request for negotiations to GTE Florida, *i.e.*, by July 12. In order to allow for the most expeditious conduct of this arbitration, AWS respectfully requests that the PSC convene a status conference, as promptly as possible, to establish a procedural schedule for discovery requests and the conduct of a hearing in this matter.

**VI. CONCLUSION**

WHEREFORE, for the foregoing reasons, AWS respectfully requests the following relief:

12. That the Commission arbitrate the unresolved issues between AWS and GTEFL and issue an order granting the position of AWS on the unresolved issues as stated in Exhibit "B."

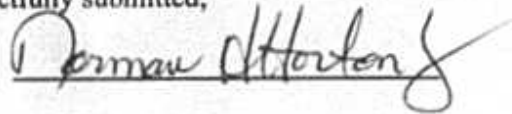

13. That, in light of the time limitations under the Act, the Commission act expeditiously on this petition and establish a schedule for the arbitration.

14. That GTEFL be required to provide AWS and the arbitrator with all relevant documents in sufficient time to allow AWS meaningfully to examine and address those documents as part of this arbitration.

15. For such other relief as the Commission determines is fair, just, and reasonable.

Respectfully submitted,

By:

Re: Interconnection Negotiations Between GTE and AT&T  
Wireless Services, Inc. (AWS)

Dear Kris:

In the wake of recent developments at the FCC regarding interconnection in CC Docket 96-98, we thought it would be helpful to outline our current position with regard to future negotiations between our companies will address: (1) the status of our current arrangements for interconnection; and (2) our request for interconnection negotiations under 47 U.S.C. Sections 251 and 252. Regardless of these matters, however, we wish to emphasize that AWS does not waive any of its positions or rights under 47 U.S.C. §332(c).

First, we wish to renegotiate our existing interconnection arrangements. We believe that our contract and other law requires that we take into account the Telecommunications Act's mandate of reciprocal, cost-based and nondiscriminatory interconnection arrangements. In sum, we believe that the current interconnection contract between our companies must be replaced.

We also wanted to inform you that, for a variety of reasons we believe it is no longer proper or legal for your company to continue to discriminate against AWS by refusing to serve AWS under existing interconnection arrangements that have been agreed to by GTE or already been approved by State Commissions for competitive landline carriers. Therefore, in the States of California, Washington, Oregon, and Florida we request that you

EXHIBIT "A"

immediately begin serving and billing us under those tariffs or agreements.

Finally, I wanted to outline a procedure to address AWS' request for interconnection negotiations under 47 U.S.C. Sections 251 and 252 of the Telecommunications Act. As you know, our companies regularly have conducted interconnection negotiations for some time. Nonetheless, we hereby confirm our request for interconnection negotiations under 47 U.S.C. Sections 251 and 252 effective today. Those negotiations will address interconnection in the States listed in Attachment A hereto. We believe both you and we will benefit from continuation of negotiations on a national basis. The subject matter of negotiations will include the following issues:

reciprocal compensation and interconnection;

unbundled access to network elements, at a minimum to include those recently defined by the FCC in Docket 96-98;

access to numbering resources;

dialing party;

procedures for notice of changes;

access to rights of way;

and collocation.

As a separate matter, I also wanted to clarify that our negotiations should include the issue of your company's compensation for termination of land-to-mobile traffic on the paging networks of AWS' affiliated or wholly-owned paging licensees in your company's territories. We look forward to negotiating those rates as part of our overall discussions under Section 251 of that Act, as well as other issues related to interconnection between your company and AWS' paging licensees.

In addition, we would expect our negotiations to address AWS' PCS licensees in the states indicated on Attachment A.

To facilitate the negotiations, we request copies of all existing agreements under Sections 251 and 252 that have either been agreed to by your company or submitted for approval to any state commission or the FCC. We also request copies, for our consideration, of any interconnection proposals you have submitted during state commission arbitrations pursuant to Section 252 of the Act or otherwise and decisions of State commissions on interconnection issues. Please provide us those

materials no later than October 21 so that we may thereafter arrange a schedule for negotiations commencing on October 28. We are, of course, willing to pay for copying or to make arrangements to review these documents at a central location.

We are hopeful that our companies can reach a negotiated agreement on the issues outlined above. We suggest, that we arrange a meeting or conference call during the week of October 28 to commence negotiations. Please call me as soon as possible to arrange such a meeting or call.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Kurt Maass".

## Exhibit B

### UNRESOLVED ISSUES

Issue 1: What are the appropriate charges for the transport and termination of mobile-to-land local calls on the GTEFL network?

AWS's Position: The compensation paid by AWS to GTEFL for the transport and termination of mobile-to-land local calls should be based on GTEFL's total element long run incremental cost ("TELRIC") or if TELRIC is not available the total service long run incremental cost ("TSLRIC") of call transport and termination, exclusive of any surcharges or cost elements associated with depreciation reserve, lost opportunity costs, cross-subsidies, or unrecovered embedded costs, for the services actually performed by GTEFL based upon the point of hand-off and type of interconnection facility (e.g., Type 1, Type 2A, etc.) utilized. Alternatively, AWS will accept and compensate GTEFL based upon the arbitrated rate decisions in Order No. PSC-97-0064-FOF-TP (issued on January 17, 1997, in Docket Nos. 960980 and 960847 ) as follows: (a) for Type 1 and Type 2A interconnection, the arbitrated local interconnection tandem rate of \$.00375. (b) For Type 2B interconnection the arbitrated local interconnection end office rate of \$.0025.

This Type 1/2A rate is appropriate because the arbitrated tandem local interconnection rate compensates GTEFL for tandem switching, common transport, and end office switching, the functions provided by Type 1/2A connections. The proposed Type 2B rate is appropriate because a Type 2B connection utilizes only end office switching. For purposes of these rates, the local calling area should be AWS's respective MTAs, which are the local calling areas designated by the FCC as the local calling area for purposes of CMRS reciprocal compensation.

GTEFL's Position: GTEFL has not provided any cost studies nor agreed to utilize any arbitrated rates. GTEFL's last rate proposal to AWS was that a rate of \$.012 should apply to all local

minutes of use regardless of whether the point of interconnection is a tandem or an end office. For purposes of the GTEFL rate proposal, the local calling area would be the AWS MTA (see Appendix C of Exhibit D).

Issue No. 2: What are the appropriate charges for the transport and termination of local land-to-mobile calls on the AWS network?

AWS's Position: The compensation paid by GTEFL to AWS for the transport and termination of land-to-mobile local calls on the AWS network should be the same Type 1/2A rate paid by AWS to GTEFL for Type 1/2A transport and termination irrespective of the points of handoff to AWS. This is appropriate because the functionality provided by AWS in terminating local land-to-mobile calls is comparable to the functionality provided by GTEFL terminating Type 2A mobile-to-land local calls. Using the arbitrated decision rates, this rate would be \$.00375. For purposes of these rates, the local calling area should be AWS's respective MTAs, which are the local calling areas designated by the FCC as the local calling area for purposes of CMRS reciprocal compensation.

GTEFL's Position: GTEFL has not provided any cost studies nor agreed to utilize any arbitrated rates. GTEFL's last rate proposal to AWS was that a rate of \$.012 should apply to all local minutes of use regardless whether the point of interconnection is a tandem or an end office. For purposes of the GTEFL rate proposal, the local calling area would be the AWS MTA (see Appendix C of Exhibit D).

Issue No. 3: What is the effective date of the FCC's interconnection order with respect to GTEFL's obligation to compensate AWS for the transport and termination of land-to-mobile local calls on the AWS network and what rate should apply?

AWS's Position: The effective date of GTEFL's obligation to compensate AWS for the transport and termination of land-to-mobile local calls is September 30, 1996. This is appropriate because, based upon the lifting of the Stay by the Eighth Circuit Court of Appeals, this is the effective date of Section 51.717 of the FCC's Rules. The rate that should apply is the same Type 1/2A rate that AWS has paid to GTEFL for the corresponding period.

GTEFL's Position: GTEFL believes the effective date of the rule is November 1, 1996.

Issue No. 4: What are the appropriate transit charges for the use of the GTEFL network?

AWS's Position: The compensation paid by AWS to GTEFL for the transit services to other carriers should be based on GTEFL's total element long run incremental cost ("TELRIC") or if TELRIC is not available the total service long run incremental cost ("TSLRIC") of call transport and termination, exclusive of any surcharges or cost elements associated with depreciation reserve, lost opportunity costs, cross-subsidies, or unrecovered embedded costs, for the services actually performed by GTEFL based upon the point of hand-off from AWS to the point of hand-off to the terminating carrier. Alternatively, AWS will accept and compensate GTEFL based upon the arbitrated tandem switching unbundled network element rate decisions in Order No. PSC-97-0064-FOF-TP (issued on January 17, 1997, in Docket Nos. 960980 and 960847).

GTEFL's Position: GTEFL has not provided any cost studies nor agreed to utilize any arbitrated rates. GTEFL's last rate proposal to AWS was a rate of \$.003.

## Exhibit C

### TENTATIVELY RESOLVED ISSUES

AWS and GTEFL have actively negotiated a number of issues that as of the date of this Petition appear to be resolved. The issues negotiated and potentially resolved are in the draft interconnection agreement that is attached as Exhibit D to this Petition except for certain provisions of Appendix C to that Exhibit which are in dispute and which are identified in Exhibit B to this Petition as unresolved issues. While the document in Exhibit D is not an executed agreement, AWS believes it fairly reflects those matters negotiated and upon which the parties are in substantial agreement. However, revisions to some of the language and terms may be appropriate, and such negotiations are continuing. If in GTEFL's answer to this Petition it asserts that some or all of these matters are not resolved, or are likely not to be resolved, AWS further reserves the right to seek arbitration for any such matters that GTEFL may claim are unresolved. For any additional matters that GTEFL may identify as unresolved, AWS reserves the right to assert its original position on any such issues.

Contract ID: \_\_\_\_\_

This Interconnection Agreement (the "Agreement"), is entered into by and between GTE \_\_\_\_\_ Incorporated, with its address for purposes of this Agreement at 600 Hidden Ridge Drive, Irving, Texas 75038 ("GTE"), and AT&T Wireless Services, in its capacity as a certified provider of two-way wireless mobile telecommunications service ("AWS"), with its address for this Agreement at 5000 Carillon Point, Kirkland, WA 98033 (GTE and AWS being referred to collectively as the "Parties" and individually as a "Party"). This Agreement covers services in the state of \_\_\_\_\_ (the "State").

WHEREAS, interconnection between competing carriers is necessary and desirable for the mutual exchange and termination of traffic originating on each carrier's network; and

WHEREAS, the Parties desire to exchange such traffic and related signaling in a technically and economically efficient manner at defined and mutually agreed upon points of interconnection; and

WHEREAS, the Parties wish to enter into an agreement to interconnect their respective telecommunications networks on terms that are fair and equitable to both Parties; and

WHEREAS, Section 251 of the Telecommunications Act of 1996 (the "Act") imposes specific obligations on LECs with respect to the interconnection of their networks, access to their poles, ducts, conduits and rights-of-way and, in certain cases, physical collocation of equipment in LEC premises;

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, GTE and AWS hereby covenant and agree as follows:

#### ARTICLE I SCOPE AND INTENT OF AGREEMENT

Pursuant to this Agreement, the Parties will extend certain arrangements to one another within each area in which they both operate within the State for purposes of interconnection and the exchange of traffic between their respective end user customers, and access to GTE's poles, ducts, conduits and rights-of-way. This Agreement also governs the terms and conditions of the collocation of certain equipment of AWS in the premises of GTE. This Agreement is an integrated package that reflects a balancing of interests critical to the Parties. This Agreement will be submitted to the \_\_\_\_\_ [Public Utilities] [Public Service] Commission (the "Commission"), and the Parties will specifically request that the Commission refrain from taking any action to modify, supplement, suspend or otherwise delay implementation of this Agreement. For the term of this Agreement, the Parties shall not advocate before any legislative, regulatory, judicial or other public forum that any terms of this Agreement between the Parties be modified, supplemented, suspended or eliminated. Notwithstanding this mutual commitment, the Parties

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

Contract ID: \_\_\_\_\_

agree that their entrance into this Agreement is without prejudice to any positions they may have taken previously, or may take in the future, in any legislative, regulatory, judicial or other public forum addressing any matters, including matters related to the same types of arrangements covered in this Agreement.

**ARTICLE II  
DEFINITIONS****1. General Definitions.**

Except as otherwise specified herein, the following definitions shall apply to all Articles contained in this Agreement. Additional definitions that are specific to the matters covered in a particular Article may appear in that Article.

- 1.1 An "Affiliate" of a Party means a person, corporation or other legal entity that, directly or indirectly, owns or controls a Party, or is owned or controlled by, or is under common ownership or control with a Party. For purposes of this definition, the term "own" means to have a majority ownership interest in, or have voting control of a majority of the ownership interests in, such corporation or other legal entity.
- 1.2 "Automatic Number Identification" or "ANI" refers to the number transmitted through the network identifying the calling party.
- 1.3 "Bellcore" means an organization owned jointly by the Bell regional holding companies and that may in the future be owned partially or totally by other persons, that conducts research and development projects for its owners, including development of new telecommunications services. Bellcore also provides certain centralized technical and management services for the regional holding companies and also provides generic requirements for the telecommunications industry for products, services and technologies.
- 1.4 "Business Day" shall mean Monday through Friday, except for holidays on which the U.S. mail is not delivered.
- 1.5 "CLLI codes" means Common Language Location Identifier Codes.
- 1.6 "Common Channel Signaling" or "CCS" means a high-speed specialized packet-switched communications network that is separate (out-of-band) from the public packet-switched and message networks. CCS carries addressed signaling messages for individual trunk circuits and/or database-related services between Signaling Points in the CCS network using SS7 signaling protocol.
- 1.7 "DS-1" is a digital signal rate of 1.544 Mbps.
- 1.8 "DS-3" is a digital signal rate of 44.736 Mbps.
- 1.9 "Exchange Message Record" or "EMR" means the standard used for exchange of telecommunications message information among LECs for billable, unbillable, sample,

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

ATTWRE.VIS

II-1

Contract ID: \_\_\_\_\_

settlement and study data. EMR format is contained in BR-010-200-010 CRIS Exchange Message Record, a Bellcore document that defines industry standards for exchange message records.

- 1.10 "Exchange Service" refers to all basic access line services, or any other services offered to end users which provide end users with a telephonic connection to, and a unique telephone number address on, the public switched telecommunications network ("PSTN"), and which enable such end users to place or receive calls to all other stations on the PSTN.
- 1.11 "EIS" or "Expanded Interconnection Service" means a service that provides interconnecting carriers with the capability to terminate basic fiber optic transmission facilities, including optical terminating equipment and multiplexers, at GTE's wire centers and access tandems and interconnect those facilities with the facilities of GTE. Microwave is available on a case-by-case basis where feasible.
- 1.12 "FCC" means the Federal Communications Commission.
- 1.13 "Guide" means the GTE Customer Guide for Establishment of Services - Resale and Unbundling, which contains GTE's operating procedures for ordering, provisioning, trouble reporting and repair for resold services and unbundled elements. A copy of the Guide will be provided to AWS upon request.
- 1.14 "Interconnection" means the physical connection of separate pieces of equipment, transmission facilities, etc., within, between and among networks, for the transmission and routing of Exchange Service and Exchange Access. The architecture of interconnection may include collocation and/or mid-span meet arrangements.
- 1.15 "IXC" or "Interexchange Carrier" means a telecommunications service provider authorized by the FCC to provide interstate long distance communications services between LATAs and are authorized by the State to provide long distance communications services.
- 1.16 "ISDN" or "Integrated Services Digital Network" means a switched network service providing end-to-end digital connectivity for the simultaneous transmission of voice and data.
- 1.17 "ISUP" means a part of the SS7 protocol that defines call setup messages and call takedown messages.
- 1.18 "Local Exchange Carrier" or "LEC" means any company certified by the Commission to provide local exchange telecommunications service.

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

ATTWRE.VIB

II-2

Contract ID: \_\_\_\_\_

- 1.19 "Local Exchange Routing Guide" or "LERG" means the Bellcore reference customarily used to identify NPA-NXX routing and homing information.
- 1.20 "Local Traffic", for purposes of compensation between Parties, means traffic that is originated by an end user of one Party and terminates to the end user of the other Party within the same MTA (Major Trading Area) and, for GTE-originated traffic, within the same LATA, provided that the end user of AWS receives service on a wireless, mobile basis.
- 1.21 "MDF" or "Main Distribution Frame" means the distribution frame used to interconnect cable pairs and line trunk equipment terminating on a switching system.
- 1.22 "Meet-Point Billing" or "MPB" refers to an arrangement whereby two local service providers (i.e., the Parties) jointly provide the transport element of a switched access service to one of the local service provider's end office switches, with each local service provider receiving an appropriate share of the transport element revenues as defined by their effective access tariffs.
- 1.23 "MECAB" refers to the *Multiple Exchange Carrier Access Billing* ("MECAB") document prepared by the Billing Committee of the Ordering and Billing Forum ("OBF"), which functions under the auspices of the Carrier Liaison Committee ("CLC") of the Alliance for Telecommunications Industry Solutions ("ATIS"). The MECAB document, published by Bellcore as Special Report SR-BDS-000983, contains the recommended guidelines for the billing of an access service provided by two or more LECs, or by one LEC in two or more states within a single LATA.
- 1.24 "MECOD" refers to the *Multiple Exchange Carriers Ordering and Design* ("MECOD") *Guidelines for Access Services - Industry Support Interface*, a document developed by the Ordering/Provisioning Committee under the auspices of the Ordering and Billing Forum ("DBF"), which functions under the auspices of the Carrier Liaison Committee ("CLC") of the Alliance for Telecommunications Industry Solutions ("ATIS"). The MECOD document, published by Bellcore as Special Report SR-STS-002643, establish methods for processing orders for access service which is to be provided by two or more LECs.
- 1.25 "Mid-Span Fiber Meet" means an Interconnection architecture whereby two carriers' fiber transmission facilities meet at a mutually agreed-upon POI.
- 1.26 "NANP" means the "North American Numbering Plan", the system of telephone numbering employed in the United States, Canada, and the Caribbean countries that employ NPA 809.

GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION

ATTN:VJB

II-3

Contract ID: \_\_\_\_\_

- 1.27 "NID" or "Network Interface Device" means the point of demarcation between the end user's inside wiring and GTE's facilities.
- 1.28 "Numbering Plan Area" or "NPA" is also sometimes referred to as an area code. This is the three digit indicator which is defined by the "A", "B", and "C" digits of each 10-digit telephone number within the NANP. Each NPA contains 800 possible NXX Codes. There are two general categories of NPA, "Geographic NPAs" and "Non-Geographic NPAs". A Geographic NPA is associated with a defined geographic area, and all telephone numbers bearing such NPA are associated with services provided within that geographic area. A Non-Geographic NPA, also known as a "Service Access Code" or "SAC Code" is typically associated with a specialized telecommunications service which may be provided across multiple geographic NPA areas. 800, 900, 700, and 888 are examples of Non-Geographic NPAs.
- 1.29 "NXX", "NXX Code", "Central Office Code" or "CO Code" is the three digit switch entity indicator which is defined by the "D", "E", and "F" digits of a 10-digit telephone number within the NANP. Each NXX Code contains 10,000 station numbers. Historically, entire NXX code blocks have been assigned to specific individual local exchange end office switches.
- 1.30 "POI" means Point of Interconnection.
- 1.31 "Provider" means GTE and "Customer" means AWS with respect to those services performed by GTE pursuant to this Agreement. AWS shall be referred to as Provider and GTE shall be referred to as Customer with respect to those services performed by AWS pursuant to this Agreement.
- 1.32 "PSAP" means Public Safety Answering Points.
- 1.33 "Rate Center" means the specific geographic point and corresponding geographic area that are associated with one or more particular NPA-NXX Codes that have been assigned to a LEC for its provision of Exchange Services. The geographic point is identified by a specific V&H coordinate that is used to calculate distance-sensitive end user traffic to/from the particular NPA-NXXs associated with the specific Rate Center.
- 1.34 "Routing Point" denotes a location that a LEC has designated on its network as the homing (routing) point for traffic that terminates to Exchange Services provided by the LEC that bear a certain NPA-NXX designation. The Routing Point is used to calculate airline mileage for the distance-sensitive transport element charges of Switched Access Services. Pursuant to Bellcore Practice BR795-100-100, the Routing Point may be an end office location, or a "LEC Consortium Point of Interconnection." The Routing Point must be in the same LATA as the associated NPA-NXX.

MAR 3 '97 9:34

PAGE 014

Contract ID: \_\_\_\_\_

- 1.35 "Service Control Point" or "SCP" is the node in the signaling network to which informational requests for service handling, such as routing, are directed and processed. The SCP is a real time database system that, based on a query from the SSP, performs subscriber or application-specific service logic, and then sends instructions back to the SSP on how to continue call processing.
- 1.36 "Service Switching Point" or "SSP" means a Signaling Point that can launch queries to databases and receive/interpret responses used to provide specific customer services.
- 1.37 "Signaling Point" or "SP" means a node in the CCS network that originates and/or receives signaling messages, or transfers signaling messages from one signaling link to another, or both.
- 1.38 "Signaling System 7" or "SS7" means the signaling protocol, Version 7, of the CCS network, based upon American National Standards Institute ("ANSI") standards.
- 1.39 "Signal Transfer Point" or "STP" means a packet switch in the CCS network that is used to route signaling messages among SSPs, SPs, SCPs and other STPs in order to set up calls and to query databases for advanced services. GTE's network includes mated pairs of local and regional STPs. STPs are provided in pairs for redundancy.
- 1.40 "Subsidiary" of a Party means a corporation or other legal entity that is majority owned by such Party.
- 1.41 "Synchronous Optical Network" or "SONET" means synchronous electrical ("STS") or optical channel ("OC") connections between LECs.
- 1.42 "Switched Access Service" means the offering of facilities for the purpose of the origination or termination of traffic to or from Exchange Service customers in a given area pursuant to a switched access tariff. Switched Access Services include: Feature Group A, Feature Group B, Feature Group D, 800 access and 900 access services.
- 1.43 "Two-Way Wireless Mobile Telecommunications Service Provider" means a CMRS provider of telephone exchange and exchange access services. CMRS providers are authorized pursuant to 47 U.S.C. § 332 (d) (1) as interpreted by the FCC and the federal courts.
- 1.44 "Vertical Features" (including "CLASS Features") means vertical services and switch functionalities provided by GTE, including: Automatic Call Back; Automatic Recall; Call Forwarding Busy Line/Don't Answer; Call Forwarding Don't Answer; Call Forwarding Variable; Call Forwarding - Busy Line; Call Trace; Call Waiting; Call Number Delivery

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

Contract ID: \_\_\_\_\_

Blocking Per Call; Calling Number Blocking Per Line; Cancel Call Waiting; Distinctive Ringing/Call Waiting; Incoming Call Line Identification Delivery; Selective Call Forward; Selective Call Rejection; Speed Calling; and Three Way Calling/Call Transfer.

- 1.45 "Wire Center" means a building or space within a building that serves as an aggregation point on a LEC's network, where transmission facilities and circuits are connected or switched.

**ARTICLE III  
GENERAL PROVISIONS**

1. **Scope of General Provisions.** Except as may otherwise be set forth in a particular Article or Appendix of this Agreement, in which case the provisions of such Article or Appendix shall take precedence, these General Provisions apply to all Articles and Appendices of this Agreement.
2. **Term and Termination.**
  - 2.1 **Term.** Subject to the termination provisions contained in this Agreement, the term of this Agreement shall be one (1) year from the effective date of this Agreement and shall continue in effect for consecutive six (6) month terms until either Party gives the other Party at least sixty (60) calendar days' written notice of termination, which termination shall be effective at the end of the then-current term.
  - 2.2 **Post-Termination Arrangements.** Except in the case of termination as a result of either Party's default or a termination upon sale, for service arrangements made available under this Agreement and existing at the time of termination, those arrangements may continue without interruption under (a) a new arrangement voluntarily executed by the Parties; (b) standard terms and conditions approved and made generally effective by the Commission, if any; or (c) tariff terms and conditions made generally available to all competitive local exchange carriers.
  - 2.3 **Termination Upon Default.** Either Party may terminate this Agreement in whole or in part in the event of a default by the other Party; *provided however*, that the non-defaulting Party notifies the defaulting party in writing of the alleged default and that the defaulting Party does not cure the alleged default within thirty (30) calendar days of receipt of written notice thereof. Default is defined to include:
    - (a) A Party's insolvency or the initiation of bankruptcy or receivership proceedings by or against the Party; or
    - (b) A Party's refusal or failure in any material respect properly to perform its obligations under this Agreement, or the violation any of the material terms or conditions of this Agreement.
  - 2.4 **Termination Upon Sale.** Notwithstanding anything to the contrary contained herein, a Party may terminate this Agreement as to a specific operating area or portion thereof of such Party if such Party sells or otherwise transfers the area or portion thereof. The Party shall provide the other Party with at least ninety (90) calendar days' prior written notice of such termination, which shall be effective on the date specified in the notice.

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

ATTWRE.VSB

III-1

Contract ID: \_\_\_\_\_

Notwithstanding termination of this Agreement as to a specific operating area, this Agreement shall remain in full force and effect in the remaining operating areas.

- 2.5 **Liability upon Termination.** Termination of this Agreement, or any part hereof, for any cause shall not release either Party from any liability which at the time of termination had already accrued to the other Party or which thereafter accrues in any respect to any act or omission occurring prior to the termination or from an obligation which is expressly stated in this Agreement to survive termination.
3. **Amendments.** Any amendment, modification, or supplement to this Agreement must be in writing and signed by an authorized representative of each Party. The term "this Agreement" shall include future amendments, modifications, and supplements.
4. **Assignment.** Any assignment by either Party of any right, obligation, or duty, in whole or in part, or of any interest, without the written consent of the other Party shall be void, except that either Party may assign all of its rights, and delegate its obligations, liabilities and duties under this Agreement, either in whole or in part, to any entity that is, or that was immediately preceding such assignment, a Subsidiary or Affiliate of that Party without consent, but with written notification. The effectiveness of an assignment shall be conditioned upon the assignee's written assumption of the rights, obligations, and duties of the assigning Party.
5. **Authority.** Each person whose signature appears on this Agreement represents and warrants that he or she has authority to bind the Party on whose behalf he or she has executed this Agreement.
6. **Billing and Payment.**
- 6.1 **Billing.** Charges provided for on the Service Attachments shall be billed monthly. Parties agree to pay all charges specified on the Service Attachments within thirty (30) calendar days of the bill date as printed on the face of the bill. Parties shall not bill for services provided pursuant to this Agreement more than six (6) months prior to the date of the bill unless notification of a billing problem with respect to such services has been provided. In those circumstances, back-billing shall be limited to six (6) months prior to the date Parties were notified of the billing problem. Parties shall not submit a claim regarding bills more than six (6) months after the bill date or six (6) months after the date of notification of a billing problem.
- 6.2 **Dispute.** If Customer disputes a billing statement, Customer shall notify Provider in writing regarding the nature and the basis of the dispute within thirty (30) calendar days of the statement date or the dispute shall be waived. Provider and Customer shall diligently work toward resolution of all billing issues.

GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION

Contract ID: \_\_\_\_\_

- 6.3 **Late Payment Charge.** If any undisputed amount due on the billing statement is not received by Provider on the payment due date, Provider may charge, and Customer agrees to pay, interest on the past due balance at a rate equal to the lesser of one and one-half percent (1½%) per month or the maximum nonusurious rate of interest under applicable law. Late payment charges shall be included on the next statement.
- 6.4 **Taxes.** Provider shall charge and collect from Customer, and Customer agrees to pay to Provider, appropriate federal, state, and local taxes, except to the extent Customer notifies Provider and provides to Provider appropriate documentation that Customer qualifies for a full or partial exemption.
7. **Binding Effect.** This Agreement shall be binding on and inure to the benefit of the respective successors and permitted assigns of the Parties.
8. **Compliance with Laws and Regulations.** Each Party shall comply with all federal, state, and local statutes, regulations, rules, ordinances, judicial decisions, and administrative rulings applicable to its performance under this Agreement.
9. **Confidential Information.**
- 9.1 **Identification.** Either Party may disclose to the other proprietary or confidential customer, technical, or business information in written, graphic, oral or other tangible or intangible forms ("Confidential Information"). In order for information to be considered Confidential Information under this Agreement, it must be marked "Confidential" or "Proprietary," or bear a marking of similar import. Orally disclosed information shall be deemed Confidential Information only if contemporaneously identified as such and reduced to writing and delivered to the other Party with a statement or marking of confidentiality within twenty (20) calendar days after oral disclosure.
- 9.2 **Handling.** In order to protect such Confidential Information from improper disclosure, each Party agrees:
- (a) That all Confidential Information shall be and shall remain the exclusive property of the source;
  - (b) To limit access to such Confidential Information to authorized employees who have a need to know the Confidential Information for performance of this Agreement;
  - (c) To keep such Confidential Information confidential and to use the same level of care to prevent disclosure or unauthorized use of the received Confidential Information as it exercises in protecting its own Confidential Information of a similar nature;

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

ATTWDLV38

III-3

MAR 3 '97 9:37

PAGE 219

Contract ID: \_\_\_\_\_

(d) Not to copy, publish, or disclose such Confidential Information to others or authorize anyone else to copy, publish, or disclose such Confidential Information to others without the prior written approval of the source;

(e) To return promptly any copies of such Confidential Information to the source at its request; and

(f) To use such Confidential Information only for purposes of fulfilling work or services performed hereunder and for other purposes only upon such terms as may be agreed upon between the Parties in writing.

9.3 Exceptions. These obligations shall not apply to any Confidential Information that was legally in the recipient's possession prior to receipt from the source, was received in good faith from a third party not subject to a confidential obligation to the source, now is or later becomes publicly known through no breach of confidential obligation by the recipient, was developed by the recipient without the developing persons having access to any of the Confidential Information received in confidence from the source, or that is required to be disclosed pursuant to subpoena or other process issued by a court or administrative agency having appropriate jurisdiction, provided, however, that the recipient shall give prior notice to the source and shall reasonably cooperate if the source deems it necessary to seek protective arrangements.

9.4 Survival. The obligation of confidentiality and use with respect to Confidential Information disclosed by one Party to the other shall survive any termination of this Agreement for a period of three (3) years from the date of the initial disclosure of the Confidential Information.

10. Consent. Where consent, approval, or mutual agreement is required of a Party, it shall not be unreasonably withheld or delayed.

11. Cooperation on Fraud Minimization. The Parties shall cooperate with one another to investigate, minimize and take corrective action in cases of fraud. The Parties' fraud minimization procedures are to be cost effective and implemented so as not to unreasonably burden or harm one Party as compared to the other. At a minimum, such cooperation shall include, when permitted by law or regulation, providing the other Party, upon reasonable request, information concerning end users who terminate services to that Party without paying all outstanding charges, when that Party is notified that such end user seeks service from the other Party. If required, it shall be the responsibility of the Party seeking the information to secure the end user's permission (in the format required by law) to obtain the information. Although in most circumstances the end user's current telephone number may be retained by the end user when switching local service providers, if an end user has past due charges associated with the account, for which payment

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

MAR 3 '97 9:37

PAGE 020

Contract ID: \_\_\_\_\_

arrangements have not been made with GTE, the end user's previous telephone number will not be made available to AWS until the end user's outstanding balance has been paid.

## 12. Dispute Resolution

12.1 Alternative to Litigation. Except as provided under Section 252 of the Act with respect to the approval of this Agreement by the Commission, the Parties desire to resolve disputes arising out of this Agreement without litigation. Accordingly, except for action seeking a temporary restraining order or an injunction related to the purposes of this Agreement, or suit to compel compliance with this dispute resolution process, the Parties agree to use the following alternative dispute resolution procedure as their sole remedy with respect to any controversy or claim arising out of or relating to this Agreement or its breach.

12.2 Negotiations. At the written request of a Party, each Party will appoint a knowledgeable, responsible representative to meet and negotiate in good faith to resolve any dispute arising under this Agreement. The Parties intend that these negotiations be conducted by non-lawyer, business representatives. The location, format, frequency, duration, and conclusion of these discussions shall be left to the discretion of the representatives. Upon agreement, the representatives may utilize other alternative dispute resolution procedures such as mediation to assist in the negotiations. Discussions and correspondence among the representatives for purposes of these negotiations shall be treated as confidential information developed for purposes of settlement, exempt from discovery and production, which shall not be admissible in the arbitration described below or in any lawsuit without the concurrence of all Parties. Documents identified in or provided with such communications, which are not prepared for purposes of the negotiations, are not so exempted and may, if otherwise admissible, be admitted in evidence in the arbitration or lawsuit.

12.3 Arbitration. If the negotiations do not resolve the dispute within sixty (60) days of the initial written request, the dispute shall be submitted to binding arbitration by a single arbitrator pursuant to the Commercial Arbitration Rules of the American Arbitration Association. A Party may demand such arbitration in accordance with the procedures set out in those rules. Discovery shall be controlled by the arbitrator and shall be permitted to the extent set out in this section. Each Party may submit in writing to a Party, and that Party shall so respond to, a maximum of any combination of thirty-five (35) (none of which may have subparts) of the following: interrogatories, demands to produce documents, or requests for admission. Each Party is also entitled to take the oral deposition of one individual of another Party. Additional discovery may be permitted upon mutual agreement of the Parties. The arbitration hearing shall be commenced within sixty (60) days of the demand for arbitration. The arbitration shall be held in Dallas County, Texas. The arbitrator shall control the scheduling so as to process the matter expeditiously. The Parties may submit written briefs. The arbitrator shall rule on the

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

Contract ID: \_\_\_\_\_

dispute by issuing a written opinion within thirty (30) days after the close of hearings. The times specified in this section may be extended upon mutual agreement of the Parties or by the arbitrator upon a showing of good cause. Judgment upon the award rendered by the arbitrator may be entered in any court having jurisdiction.

12.4 **Costs.** Each Party shall bear its own costs of these procedures. A Party seeking discovery shall reimburse the responding Party the costs of production of documents (including search time and reproduction costs). The Parties shall equally split the fees of the arbitration and the arbitrator.

13. **Entire Agreement.** This Agreement constitutes the entire agreement of the Parties pertaining to the subject matter of this Agreement and supersedes all prior agreements, negotiations, proposals, and representations, whether written or oral, and all contemporaneous oral agreements, negotiations, proposals, and representations concerning such subject matter. No representations, understandings, agreements, or warranties, expressed or implied, have been made or relied upon in the making of this Agreement other than those specifically set forth herein.

14. **Expenses.** Except as specifically set out in this Agreement, each Party shall be solely responsible for its own expenses involved in all activities related to the subject of this Agreement.

15. **Force Majeure.** In the event performance of this Agreement, or any obligation hereunder, is either directly or indirectly prevented, restricted, or interfered with by reason of fire, flood, earthquake or like acts of God, wars, revolution, civil commotion, explosion, acts of public enemy, embargo, acts of the government in its sovereign capacity, labor difficulties, including without limitation, strikes, slowdowns, picketing, or boycotts, unavailability of equipment from vendor, changes requested by Customer, or any other circumstances beyond the reasonable control and without the fault or negligence of the Party affected, the Party affected, upon giving prompt notice to the other party, shall be excused from such performance on a day-to-day basis to the extent of such prevention, restriction, or interference (and the other Party shall likewise be excused from performance of its obligations on a day-to-day basis until the delay, restriction or interference has ceased); *provided however*, that the Party so affected shall use diligent efforts to avoid or remove such causes of nonperformance and both Parties shall proceed whenever such causes are removed or cease.

16. **Governing Law.** This Agreement shall be governed by and construed in accordance with the domestic laws of the state where the Services are provided or the facilities reside and shall be subject to the exclusive jurisdiction of the courts therein.

17. **Headings.** The headings in this Agreement are inserted for convenience and identification only and shall not be considered in the interpretation of this Agreement.

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

Contract ID: \_\_\_\_\_

18. **Independent Contractor Relationship.** The persons provided by each Party shall be solely that Party's employees and shall be under the sole and exclusive direction and control of that Party. They shall not be considered employees of the other Party for any purpose. Each Party shall remain an independent contractor with respect to the other and shall be responsible for compliance with all laws, rules and regulations involving, but not limited to, employment of labor, hours of labor, health and safety, working conditions and payment of wages. Each Party shall also be responsible for payment of taxes, including federal, state and municipal taxes, chargeable or assessed with respect to its employees, such as Social Security, unemployment, workers' compensation, disability insurance, and federal and state withholding. Each Party shall indemnify the other for any loss, damage, liability, claim, demand, or penalty that may be sustained by reason of its failure to comply with this provision.

19. **Liability and Indemnity.**

19.1 **Indemnification.** Each Party agrees to release, indemnify, defend, and hold harmless the other Party from all losses, claims, demands, damages, expenses, suits, or other actions, or any liability whatsoever, including, but not limited to, costs and attorney's fees, whether suffered, made, instituted, or asserted by any other party or person, for invasion of privacy, personal injury to or death of any person or persons, or for losses, damages, or destruction of property, whether or not owned by others, proximately caused by the indemnifying Party's negligence or willful misconduct, regardless of form of action.

19.2 **End User and Content-Related Claims.** Customer agrees to release, indemnify, defend, and hold harmless Provider, its affiliates, and any third-party provider or operator of facilities involved in the provision of Services, unbundled network elements or facilities under this Agreement (collectively, the "Indemnified Parties") from all losses, claims, demands, damages, expenses, suits, or other actions, or any liability whatsoever, including, but not limited to, costs and attorney's fees, suffered, made, instituted, or asserted by Customer's end users against an Indemnified Party arising from Services, unbundled network elements or facilities. Customer further agrees to release, indemnify, defend, and hold harmless the Indemnified Parties from all losses, claims, demands, damages, expenses, suits, or other actions, or any liability whatsoever, including, but not limited to, costs and attorney's fees, suffered, made, instituted, or asserted by any third party against an Indemnified Party arising from or in any way related to actual or alleged defamation, libel, slander, interference with or misappropriation of proprietary or creative right, or any other injury to any person or property arising out of content transmitted by Customer or Customer's end users, or any other act or omission of Customer or Customer's end users.

19.3 **DISCLAIMER.** EXCEPT AS SPECIFICALLY PROVIDED TO THE CONTRARY IN THIS AGREEMENT, PROVIDER MAKES NO REPRESENTATIONS OR WARRANTIES TO CUSTOMER CONCERNING THE SPECIFIC QUALITY OF ANY SERVICES, UNBUNDLED NETWORK ELEMENTS OR FACILITIES PROVIDED

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

Contract ID: \_\_\_\_\_

single point of contact for the transmission of such data from AWS to GTE and from GTE to AWS. The requirements and implementation of such a data transfer system are subject to future agreements by AWS and GTE. Until such time as a gateway is established, the BI to be used shall be of the same quality and timeliness as is currently utilized by GTE, as may be modified during the interim period.

10.4 Performance Requirements. Due dates for the installation or conversion of connecting facilities covered by this Agreement shall be based on GTE's standard intervals or mutual agreement of the Parties in accordance with the availability of local interconnection facilities and equipment.

## 11. Acceptance and Testing

11.1 Acceptance. Within thirty (30) days after the in-service date of connecting facilities, AWS shall inform GTE of any problems or deficiencies in the connecting facilities installed. GTE shall correct such problem or deficiency at no additional cost to AWS if GTE is notified of the problem or deficiency within such thirty (30) day period and where the problem or deficiency is found in facilities provided by GTE, not when the problem or deficiency is isolated to equipment or facilities provided by AWS. After all problems of which GTE has been given notice within the thirty (30) day period have been corrected, the interconnection service will be deemed by the Parties to have been accepted by AWS. Any problems that AWS becomes aware of following such thirty (30) day period will be handled by GTE as set forth in the section of this agreement dealing with trouble reporting and maintenance.

11.2 Testing and Inspection. GTE and AWS shall each do such testing and inspections as may be necessary to ensure that the interconnections provided for herein are and remain in good operating condition and to conform to the maintenance and operations procedures specified in the section of this Agreement dealing with trouble reporting and maintenance. All testing, inspection and actions in response to trouble or malfunction reports shall be conducted in accordance with the terms of the section of this agreement dealing with trouble reports and maintenance. Each Party shall conduct the necessary inspection and testing on its own premises and shall be responsible for the maintenance and testing of its own facilities.

## 12. Trouble Reporting and Maintenance

### 12.1 Trouble Reporting

12.1.1 In order to facilitate trouble reporting and to coordinate the repair of connecting facilities, trunks and other interconnection arrangements provided by the Parties under this Agreement, GTE has established a single point of contact (a "Maintenance SPOC") available at \_\_\_\_\_. The Maintenance SPOC is staffed twenty four (24) hours per day, seven (7) days per week. AWS shall call

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

ATTWDLVSB

IV-11

Contract ID: \_\_\_\_\_

such telephone number to report trouble with connecting facilities, trunks and other interconnection arrangements, to inquire as to status of trouble ticket numbers in process and to escalate trouble resolution with GTE. AWS may also report troubles by using GTE's automated trouble reporting system, when such system becomes available.

- 12.1.2 GTE shall refer all trunk trouble reports and other problems to the following AWS maintenance number: \_\_\_\_\_. This contact number is staffed twenty four (24) hours per day, seven (7) days per week.
- 12.1.3 Before either Party reports a trouble condition, it must first use its reasonable efforts to isolate the trouble to the other Party's facilities, service and arrangements. Each Party will advise the other of any critical nature of the inoperative facilities, service and arrangements and any need for expedited clearance of the trouble. In cases where a party has indicated the essential or critical need for restoration of the facilities, services or arrangements, the other Party shall use its best efforts to expedite the clearance of trouble.
- 12.1.4 GTE and AWS will meet to determine jointly the nature of information that must be provided to the other Party when reporting trouble with facilities, service or arrangements pursuant to this Agreement.

## 12.2 Intercept Arrangements

- 12.2.1 GTE and AWS shall provide a voice intercept announcement or distinctive signals to the calling party when a call is directed to a number that is not assigned by either carrier.
- 12.2.2 When GTE or AWS is not able to complete calls because of a malfunction, such carrier shall provide proper signaling to the calling party advising that the call cannot be completed.
- 12.2.3 GTE and AWS shall provide supervisory tones or voice announcements to the calling party on all calls, consistent with standard industry practices.

## 12.3 Maintenance Procedures

- 12.3.1 GTE shall provide repair, maintenance, testing and surveillance for all services in accordance with the terms and conditions of this Agreement.
- 12.3.2 GTE shall cooperate with AWS to meet maintenance standards for all services ordered under this Agreement, as specified in the section dealing with

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

ATTWDLV/SB

IV-12

Contract ID: \_\_\_\_\_

provisioning. Such maintenance standards shall include generally accepted industry standards for testing and network management.

- 12.3.3 GTE and AWS acknowledge that the Ordering and Billing Forum is establishing uniform industry standards for electronic interfaces. Until such time as such standards have been developed and implemented, GTE shall cooperate with AWS to establish a real-time electronic interface for gateway or automated access by AWS to GTE's maintenance systems and databases, in order to allow AWS maintenance personnel and customer service representatives to perform the following functions for AWS customers: the ability to enter a new trouble ticket into the GTE maintenance system for an AWS customer; the ability to receive a commitment time for repair on a real-time basis; the ability to receive immediate notification in the event a repair person is unable to be present for, or anticipates missing a scheduled repair appointment; the ability to retrieve all applicable time and material charges at the time of ticket closure (itemized by time spent, price of materials used, amounts incurred in each such category and total by customer, per event); and the ability to confirm dispatch and ticket closure. The Parties shall agree upon a ticket closure procedure.
- 12.3.4 GTE shall provide AWS with the same scheduled and non-scheduled maintenance, including required and recommended maintenance intervals and procedures, for all connecting facilities provided to AWS under this Agreement that it currently provides for the maintenance of its own network. The Parties shall provide each other at least sixty (60) days' advance notice of any scheduled maintenance activity which may impact AWS's customers. Scheduled maintenance shall include such activities as switch software retrofits and major equipment replacements. Both Parties will mutually agree on the information to be included in plans for scheduled maintenance.
- 12.3.5 The Parties will advise each other of all non-scheduled maintenance, testing, monitoring and surveillance activity to be performed on any connecting facilities, including any hardware, equipment, software or system providing service functionality which may potentially impact either Party's customers. The Parties shall provide the maximum advance notice of such non-scheduled maintenance and testing activity possible under the circumstances provided, however, that each Party shall provide emergency maintenance as promptly as possible to maintain or restore service and shall advise the other Party promptly of any such actions it takes.
- 12.3.6 The Parties shall jointly develop a detailed description of, and implementation actions for, emergency restoration plans and disaster recovery plans, which shall be in place during the term of this Agreement.

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

ATTWRE:VJB

IV-13

Contract ID: \_\_\_\_\_

12.3.7 The Parties shall establish mutually acceptable methods and procedures for the referral, between the Parties, of any and all misdirected calls from customers requesting repair.

12.3.8 GTE's repair bureau shall conform to the following performance and service quality standards when providing repair and maintenance to AWS under this Agreement.

(a) The GTE repair bureau, including the electronic interface to be established pursuant to this Agreement, shall be on-line and operational twenty four (24) hours per day, seven (7) days per week.

(b) The GTE repair bureau shall provide to AWS the same level of performance offered to end user customers of GTE.

12.3.9 These standards shall be subject to review no more than once per year and subject to modification upon mutual consent.

#### 12.4 Maintenance Charges

12.4.1 When either Party (the "reporting Party") reports trouble to the other Party (the "notified Party") for clearance and no trouble is found in the notified Party's facilities, the reporting Party shall be responsible for payment of a maintenance of service charge for the period of time from when the notified Party's personnel are dispatched to the reporting Party's premises to when the work is completed.

12.4.2 The reporting Party shall be responsible for payment of a maintenance of service charge when the notified Party dispatched personnel to the reporting Party's premises, and the trouble is identified within a reasonable time period as being in the equipment or communications systems provided by other than the notified Party.

12.4.3 The charges for maintenance of service shall be mutually agreed upon between the Parties.

13. Performance Standards. All interconnection facilities shall meet industry standards of engineering, design and operation. The grade of service for all facilities between the GTE end office or tandem and the AWS MSC shall be engineered to achieve P.01 grade of service based on forecasts provided by both Parties.

UNDER THIS AGREEMENT. PROVIDER DISCLAIMS, WITHOUT LIMITATION, ANY WARRANTY OR GUARANTEE OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARISING FROM COURSE OF PERFORMANCE, COURSE OF DEALING, OR FROM USAGES OF TRADE.

- 19.4 Limitation of Liability. Provider's liability, whether in contract, tort or otherwise, shall be limited to direct damages, which shall not exceed the pro rata portion of the monthly charges for the Services, Unbundled Network Elements or Facilities for the time period during which the Services, Unbundled Network Elements or Facilities provided pursuant to this Agreement are inoperative, not to exceed in total Provider's monthly charge to Customer. Under no circumstance shall Provider be responsible or liable for indirect, incidental, or consequential damages, including, but not limited to, economic loss or lost business or profits, damages arising from the use or performance of equipment or software, or the loss of use of software or equipment, or accessories attached thereto, delay, error, or loss of data. In connection with this limitation of liability, the Parties recognize that Provider may, from time to time, provide advice, make recommendations, or supply other analysis related to the Services, unbundled network elements or facilities described in this Agreement, and, while Provider shall use diligent efforts in this regard, Customer acknowledges and agrees that this limitation of liability shall apply to provision of such advice, recommendations, and analysis.
- 19.5 Intellectual Property. Neither Party shall have any obligation to defend, indemnify or hold harmless, or acquire any license or right for the benefit of, or owe any other obligation or have any liability to, the other based on or arising from any claim, demand, or proceeding by any third party alleging or asserting that the use of any circuit, apparatus, or system, or the use of any software, or the performance of any service or method, or the provision or use of any facilities by either Party under this Agreement constitutes direct or contributory infringement, or misuse or misappropriation of any patent, copyright, trademark, trade secret, or any other proprietary or intellectual property right of any third party.
20. Multiple Counterparts. This Agreement may be executed in multiple counterparts, each of which shall be deemed an original, but all of which shall together constitute but one and the same document.
21. No Offer. Submission of this Agreement for examination or signature does not constitute an offer by Provider for the provision of the products or services described herein. This Agreement will be effective only upon execution and delivery by both Parties.
22. Notice. Any notice to a Party required or permitted under this Agreement shall be in writing and shall be deemed to have been received on the date of service if served personally, on the date receipt is acknowledged in writing by the recipient if delivered by regular U.S. mail, or on the date stated on the receipt if delivered by certified or registered mail or by a courier service that

obtains a written receipt. Notice may also be provided by facsimile, which shall be effective on the next Business Day following the date of transmission. "Business Day" shall mean Monday through Friday, except for holidays on which the U. S. mail is not delivered. Any notice shall be delivered using one of the alternatives mentioned in this section and shall be directed to the applicable address indicated below or such address as the Party to be notified has designated by giving notice in compliance with this section:

If to GTE:                   GTE \_\_\_\_\_ Incorporated

23. Protection.

23.1 Impairment of Service. The characteristics and methods of operation of any circuits, facilities or equipment of either Party connected with the services, facilities or equipment of the other Party pursuant to this Agreement shall not interfere with or impair service over any facilities of the other Party, its affiliated companies, or its connecting and concurring carriers involved in its services, cause damage to their plant, violate any applicable law or regulation regarding the invasion of privacy of any communications carried over the Party's facilities or create hazards to the employees of either Party or to the public (each hereinafter referred to as an "Impairment of Service").

23.2 Resolution. If either Party causes an Impairment in Service, the Party whose network or service is being impaired (the "Impaired Party") shall promptly notify the Party causing the Impairment of Service (the "Impairing Party") of the nature and location of the problem and that, unless promptly rectified, a temporary discontinuance of the use of any circuit,

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

Contract ID: \_\_\_\_\_

facility or equipment may be required. The Impairing Party and the Impaired Party agree to work together to attempt to promptly resolve the Impairment of Service. If the Impairing Party is unable to promptly remedy the Impairment of Service, then the Impaired Party may at its option temporarily discontinue the use of the affected circuit, facility or equipment.

24. Publicity. Any news release, public announcement, advertising, or any form of publicity pertaining to this Agreement, provision of services, unbundled network elements or facilities pursuant to it, or association of the Parties with respect to provision of the services described in this Agreement shall be subject to prior written approval of both GTE and AWS.
25. Regulatory Agency Control. This Agreement shall at all times be subject to changes, modifications, orders, and rulings by the Federal Communications Commission and/or the applicable state utility regulatory commission to the extent the substance of this Agreement is or becomes subject to the jurisdiction of such agency. Notwithstanding the date set forth in the first paragraph of this Agreement, if this Agreement is subject to advance approval of a regulatory agency, this Agreement shall not become effective until five (5) Business Days after receipt by the Parties of written notice of such approval. Such date (i.e., five Business Days after the Parties receive the written notice of approval) shall become the "effective date" of this Agreement for all purposes.
26. Rule of Construction. No rule of construction requiring interpretation against the drafting party hereof shall apply in the interpretation of this Agreement.
27. Section References. Except as otherwise specified, references within an Article of this Agreement to a Section refer to Sections within that same Article.
28. Severability. If any provision of this Agreement is held by a court or regulatory agency of competent jurisdiction to be unenforceable, the rest of the Agreement shall remain in full force and effect and shall not be affected unless removal of that provision results in a material change to this Agreement. If a material change as described in this paragraph occurs as a result of action by a court or regulatory agency, the Parties shall negotiate in good faith for replacement language. If replacement language cannot be agreed upon within a reasonable period, either Party may terminate this Agreement without penalty or liability for such termination upon written notice to the other Party.
29. Subcontractors. Provider may enter into subcontracts with third parties or affiliates for the performance of any of Provider's duties or obligations under this Agreement.
30. Subsequent Law. The terms and conditions of this Agreement shall be subject to any and all applicable laws, rules, regulations or guidelines that subsequently may be prescribed by any federal, state or local governmental authority. To the extent required by any such subsequently

GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION

ATTN:VJH

III-10

MAR 3 '97 9:41

PAGE 226

Contract ID: \_\_\_\_\_

prescribed law, rule, regulation or guideline, the parties agree to modify, in writing, the affected term(s) and condition(s) of this Agreement to bring them into compliance with such law, rule, regulation or guideline.

31. **Trademarks and Trade Names.** Except as specifically set out in this Agreement, nothing in this Agreement shall grant, suggest, or imply any authority for one Party to use the name, trademarks, service marks, or trade names of the other for any purpose whatsoever.
32. **Waiver.** The failure of either Party to insist upon the performance of any provision of this Agreement, or to exercise any right or privilege granted to it under this Agreement, shall not be construed as a waiver of such provision or any provisions of this Agreement, and the same shall continue in full force and effect.
33. **Rate Modification.** The Parties acknowledge that certain proceedings may affect the pricing and terms of the agreement and, accordingly, agree as follows with respect to modification of the rates initially provided for herein:
- 33.1. **Generally Applicable Rates.** The Parties shall adjust compensation for the transport and termination of Local Traffic once the Commission approves GTE's Transport and Termination rates which may be under review in cost analysis proceedings in the State considering the cost of GTE services on a generally applicable basis (the "Commission Approved Rate"), such that each Party shall receive compensation at Commission Approved Rates, to become effective as of the effective date of the Commission Approved Rates. If the Commission Approved Rate is appealed or otherwise challenged, the rate adjustment provided for hereunder shall nevertheless be made unless the Commission Approved Rate is stayed or otherwise does not become effective as a result of any action by the Commission, the FCC or a court of competent jurisdiction. The rate adjustment shall be completed within forty-five (45) days of the date GTE's Commission Approved Rates are implemented pursuant to Commission order or the order of any appellate authority or order of court, if appealed or challenged, such adjustment to also include any needed true-up for the difference between rates included in this Agreement and the Commission Approved Rate during this forty-five (45) day period. If the rate adjustment and true-up is effectuated but the Commission Approved Rate is later modified as the result of appeal or judicial review, then the true-up shall be reversed and the Parties will true-up to the rate resulting from appeal or judicial review.
- 33.2. **Option to Reopen Agreement.** The Parties agree that for all prices other than those addressed by the foregoing provisions, after six (6) months or more after the effective date of this Agreement, that either Party may require in writing that negotiations be reopened in relation to the pricing contained in this Agreement. Upon receipt of such request to reopen negotiations as permitted herein, the parties will negotiate in good faith for a maximum time period of forty five (45) days. If at the end of 45 days closure is not

GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION

ATTWDLVIB

MAR 3 '97 9:41

PAGE 027

Contract ID: \_\_\_\_\_

obtained on the permitted pricing issues open for renegotiation, either Party may petition the Commission to resolve the dispute under the Commission's pricing authority granted by the Telecommunications Act of 1996 and to determine the final rates for each of the pricing items in controversy. The pricing contained in this Agreement shall remain in place and in effect until such time as the parties reach closure on any replacement prices under this provision or final rates are in effect at the conclusion of the Commission's proceedings including exhaustion of all appellate remedies under Section 252(e)(6) of the Act. In the event either Party exercises the foregoing option, replacement prices or final rates under this provision shall be made effective as of the date of the notice to reopen this Agreement. The parties will perform a true-up, with any compensation owed to be remitted to the other party as set forth in this provision. The Parties further agree that the nonprice terms and conditions of this Agreement were based on the legal status and requirements in effect at the time the Agreement was executed. Any modifications to those requirements as a result of federal court review or other judicial action will supersede to the extent applicable any terms and conditions of this agreement.

**ARTICLE IV  
INTERCONNECTION AND TRANSPORT AND TERMINATION OF TRAFFIC**

1. Services Covered by This Article.
  - 1.1 Types of Services. This Article governs the provision of internetwork facilities (i.e., physical interconnection services and facilities), meet point billing by GTE to AWS or by AWS to GTE and the transport and termination of Local Traffic between GTE and AWS. The services and facilities described in this Article shall be referred to in this Article IV as the "Services."
  - 1.2 Service Locations for Interconnection Services and Facilities. Appendix A, Service Matrix, attached to this Agreement and made a part hereof, sets forth the Services and each location in the State where a Service shall be provided (the "Service Locations") and the Point of Interconnection ("POI") for such Services. The Parties shall update Appendix A (including the accompanying Service Attachment - Appendix B) whenever a new Service or a new Service Location is added to this Agreement in accordance with Section 1.3.
  - 1.3 Additional Services or Service Locations. If, during the term of this Agreement, GTE desires to provide to AWS and AWS desires to purchase from GTE, or AWS desires to provide to GTE and GTE desires to purchase from AWS, additional services in the State, or existing Services in new locations in the State, GTE shall complete a new Appendix A Service Matrix and Appendix B Service Attachment(s) and provide to AWS. The Appendix A shall be signed by GTE's authorized Account Manager and an authorized representative of AWS, applied to this agreement, and thereby made wholly a part of and subject to this Agreement. Upon the date indicated on the Service Attachment accompanying the Service Matrix and continuing through the remaining term of this Agreement, the new Services shall be deemed part of the Services provided pursuant to this Article and/or the new locations shall be deemed part of the Service Locations.
2. Billing and Rates.
  - 2.1 Rates and Charges. Customer agrees to pay to Provider the rates and charges for the Services set forth in the applicable appendices to this Agreement. GTE's rates and charges are set forth in Appendix C attached to this Agreement and made a part hereof.
  - 2.2 Billing. Provider shall render to Customer a bill for interconnection services on a current basis. Charges for physical facilities and other nonusage sensitive charges shall be billed in advance, except for charges and credits associated with the initial or final bills. Usage sensitive charges, such as charges for termination of Local Traffic, shall be billed in arrears. Other information related to billing is contained in Appendix C.

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

ATTWRE.VJB

IV-1

MAR 3 '97 9:42

PAGE 329

Contract ID: \_\_\_\_\_

3. Transport and Termination of Traffic.

- 3.1 Types of Traffic. The Parties shall reciprocally terminate Local Traffic originating on each other's networks utilizing either direct or indirect network interconnections as provided in this Article IV. Only traffic originated by the Parties' end user customers is to be exchanged. This agreement is specifically limited to traffic of GTE end user customers for which GTE has tariff authority to carry. This agreement is specifically limited to traffic of AWS end user customers to which AWS provides service on a two-way wireless, mobile basis. This agreement does not include traffic of AWS end user customers to which AWS may provide service on a fixed or landline basis, except that this agreement does include traffic to and from administrative lines of AWS that may be provisioned on a fixed, wireless basis.
- 3.2 Audits. Either Party may conduct an audit of the other Party's books and records, no more frequently than once per twelve (12) month period, to verify the other Party's compliance with provisions of this Article IV. Any audit shall be performed as follows: (i) following at least thirty (30) days' prior written notice to the audited Party; (ii) subject to the reasonable scheduling requirements and limitations of the audited Party; (iii) at the auditing Party's sole cost and expense; (iv) of a reasonable scope and duration; (v) in a manner so as not to interfere with the audited Party's business operations; and (vi) in compliance with the audited Party's security rules. Audit findings may be applied retroactively for no more than 12 months from the date the audit began, such date being the earlier of the date of an audit opening meeting or the date on which the first request for information is received by the audited Party.
- 3.3 Compensation For Exchange Of Traffic. The Parties shall compensate each other for the exchange of Local Traffic in accordance with Appendix C attached to this Agreement and made a part hereof. Charges for the transport and termination of non-local traffic shall be in accordance with the Parties' respective Intrastate or interstate access tariffs, as appropriate.
- 3.4 Tandem Switching Services (Transiting). GTE will provide tandem switching at GTE access tandems for traffic between AWS and GTE end offices subtending the GTE access tandem, as well as for traffic between AWS and non-GTE end offices subtending GTE access tandems. By transporting traffic to a non-GTE end office(s) via a GTE tandem, AWS assumes responsibility for compensation to GTE for all such tandem switched traffic between AWS and the non-GTE end office(s). By transporting traffic to non-GTE end offices via a GTE tandem, AWS assumes responsibility for compensation to the non-GTE end office company. GTE will bill AWS for each minute of use AWS generates that is tandem-switched. The applicable rate for this charge is identified in Appendix C.

GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION

Contract ID: \_\_\_\_\_

4. Direct Network Interconnection.
- 4.1 Network Interconnection Architecture. Where the Parties mutually agree to directly interconnect their respective networks, interconnection will be as specified in the following subsections. The POIs shall be set forth in Appendix A attached to this Agreement and made a part hereof.
- 4.1.1 Subject to mutual agreement, the Parties may use the following types of network facility interconnection. For each POI set forth in Appendix A, the Parties shall specify the type of interconnection used at that POI.
- (a) A Mid-Span Fiber Meet within an existing GTE exchange area whereby the Parties mutually agree to jointly plan and engineer their facility meet-point at a designated manhole or junction location. The meet point is the demarcation between ownership of the fiber transmission facility. Each party is individually responsible for its incurred costs in establishing this arrangement.
- (b) A Virtual or Physical EIS arrangement at a GTE wire center subject to the rates, terms, and conditions contained in GTE's applicable tariffs.
- (c) A special access arrangement terminating at a GTE wire center subject to the rates, terms, and conditions contained in GTE's applicable tariffs.
- 4.1.2 Virtual or Physical EIS arrangements are governed by appropriate GTE tariffs. GTE shall not permit direct connections (optical patch panel) or cross-connection ("DSX") between any Virtual EIS arrangements at the same wire center location. However, this Agreement does not preclude AWS from acquiring GTE special access service to connect a Virtual EIS arrangement to a distant GTE wire center or connect between Virtual EIS arrangements in different wire centers.
- 4.2 Compensation. The Parties agree to the following compensation for internetwork facilities, depending on facility type.
- 4.2.1 Mid-Span Fiber Meet: GTE will charge special access (flat rated) transport from the applicable intrastate access tariff and will rate charges between the POI and GTE's interconnection switch. Charges will be reduced to reflect the proportionate share of the facility that is used for transport of traffic originated by GTE. AWS will charge flat rated transport to GTE for AWS facilities used by GTE. AWS will apply charges based on the lesser of, (i) the airline mileage from the POI to the AWS switch; or (ii) the airline mileage from the GTE switch to the serving area boundary.

GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION

ATTWRE.VFB

MAR 3 '97 9:44

PAGE 231

Contract ID: \_\_\_\_\_

- 4.2.2 Virtual EIS: GTE will charge Virtual EIS rates from the applicable GTE tariff. AWS will charge GTE flat rated transport to reflect the proportionate share of the facility that is used for transport of traffic originated by GTE. AWS will apply charges based on the lesser of; (i) the airline mileage from the POI to the AWS switch; or (ii) two (2) times the airline mileage from the GTE switch to the serving area boundary.
- 4.2.3 Special Access: GTE will charge special access rates from the applicable GTE intrastate access tariff. Charges will be reduced to reflect the proportionate share of the facility that is used for transport of traffic originated by GTE.
- 4.2.4 The Parties' proportionate share of flat rated transport facilities will be based upon the Parties' proportionate usage of the facilities, as specified in Appendix C.
- 4.3 Trunking Requirements. Trunking will be established on a two-way basis between the Parties where mutually agreeable.
- 4.3.1 GTE shall make available to AWS trunks over which AWS shall terminate to end users of GTE-provided Exchange Services, Local Traffic and intraLATA toll or optional EAS traffic originated from end users of AWS-provided two-way wireless mobile telecommunications services.
- 4.3.2 AWS shall make available to GTE trunks over which GTE shall terminate to end users of AWS-provided Exchange Services, Local Traffic and intraLATA toll or optional EAS traffic originated from end users of GTE-provided Exchange Service.
- 4.3.3 AWS and GTE shall, where applicable, make reciprocally available, by mutual agreement, the required trunk groups to handle different traffic types. AWS and GTE agree to work cooperatively to agree on network trunking within sixty (60) days following full execution of this Agreement. AWS and GTE will support the provisioning of trunk groups that carry combined or separate Local Traffic and intraLATA toll and optional EAS traffic. GTE requires separate trunk groups from AWS to terminate interLATA calls and to provide Switched Access Service to IXCs.
- 4.3.4 Each Party agrees to route traffic only over the proper jurisdictional trunk group. Each Party shall only deliver traffic over the local interconnection trunk groups to the other Party's access tandem for those publicly-dialable NXX Codes served by end offices that directly subtend the access tandem. In no event shall either Party route Switched Access Service traffic over local interconnection trunks.

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

ATTWRELYSD

IV-4

Contract ID: \_\_\_\_\_

- 4.3.5 AWS will provide Percent Local Usage (PLU) factors to GTE on a quarterly basis to identify the proper jurisdiction of each call type that is carried over the required trunks. If these percentages are not received quarterly, the Parties shall use the last previous reported percentages. The PLU factor is identified on Appendix C.
- 4.3.6 Reciprocal traffic exchange arrangement trunk connections shall be made at a DS-1 or multiple DS-1 level, DS-3, (SONET where technically available) and shall be jointly-engineered to an objective P.01 grade of service.
- 4.3.7 AWS and GTE agree to use diligent efforts to develop and agree on a Joint Interconnection Grooming Plan prescribing standards to ensure that the reciprocal traffic exchange arrangement trunk groups are maintained at consistent P.01 or better grades of service. Such plan shall also include mutually-agreed upon default standards for the configuration of all segregated trunk groups.
- 4.3.8 Signaling System 7 (SS7) Common Channel Signaling will be used to the extent that such technology is available.
- 4.4 Calling Scopes. Where interconnection is made at a GTE access tandem, this agreement allows AWS to originate traffic to and receive traffic from only those end user customers served by end offices subtending that access tandem. Where interconnection is made at a GTE end office, this agreement allows AWS to originate traffic to and receive traffic from only those end user customers served by that end office.
5. Indirect Network Interconnection. Either Party may deliver traffic destined to terminate at the other Party's end office via another LEC's tandem provided that the Parties have established compensation agreement(s) specific to this arrangement. Neither Party shall deliver traffic destined to terminate at the other Party's end office via another LEC's end office. In addition, neither Party shall deliver traffic destined to terminate at an end office subtending the other Party's access tandem via another LEC's access tandem.
6. Number Resources.
- 6.1 Number Assignment. Nothing in this Agreement shall be construed to, in any manner, limit or otherwise adversely impact AWS's right to employ or to request and be assigned any NANP number resources including, but not limited to, Central Office (NXX) Codes pursuant to the Central Office Code Assignment Guidelines. Any request for numbering resources by AWS shall be made directly to the NANP Number Plan Administrator. Except with respect to those areas in which GTE is the NANP Number Plan administrator, GTE shall not be responsible for the requesting or assignment of number resources to AWS. AWS shall not request number resources to be assigned to any GTE switching entity.

GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION

ATTACHED

IV-5

Contract ID: \_\_\_\_\_

- 6.2 **Rate Centers.** For purposes of compensation between the Parties and the ability of GTE to appropriately apply its toll tariff to its end user customers, the Parties will utilize Rate Centers published in the LERG for all NPA-NXX codes.
- 6.3 **Routing Points.** AWS may designate one or more routing points for each of its NPA-NXX codes. Routing points may or may not correspond with the published LERG. Routing points may only be designated at POIs.
- 6.4 **Code Administration.** The Parties will comply with code administration requirements as prescribed by the FCC, the Commission, and accepted industry guidelines.
- 6.5 **Programming Switches.** It shall be the responsibility of each Party to program and update its own switches and network systems pursuant to the Local Exchange Routing Guide (LERG) guidelines to recognize and route traffic to the other Party's assigned NXX codes at all times. Neither Party shall impose any fees or charges whatsoever on the other Party for such activities.
7. **Meet-Point Billing.**
- 7.1 **Meet-Point Arrangements.**
- 7.1.1 AWS may establish Meet-Point Billing ("MPB") arrangements with GTE in order to provide Switched Access Services to third parties (or to AWS if acting as an IXC) via a GTE access tandem in accordance with the MPB guidelines adopted by and contained in the Ordering and Billing Forum's MECAB and MECOD documents, except as modified herein.
- 7.1.2 Except in instances of capacity limitations, GTE shall permit and enable AWS to sub-tend the GTE access tandem(s) nearest to the AWS Rating Point(s) associated with the NPA-NXX(s) to/from which the Switched Access Services are homed. In instances of capacity limitation at a given access tandem, AWS shall be allowed to subtend the next-nearest GTE access tandem in which sufficient capacity is available.
- 7.1.3 Interconnection for the MPB arrangement shall occur at the POI.
- 7.1.4 Common Channel Signaling rather than in-band signaling shall be utilized in conjunction with MPB interconnection arrangements to the extent such signaling is resident in the GTE access tandem switch.
- 7.1.5 AWS and GTE will use diligent efforts, individually and collectively, to maintain provisions in their respective federal and state access tariffs, and/or provisions

GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION

ATTWDLVIB

IV-6

Contract ID: \_\_\_\_\_

within the National Exchange Carrier Association ("NECA") Tariff No. 4, or any successor tariff, sufficient to reflect this MPB arrangement, including MPB percentages.

- 7.1.6 As detailed in the MECAB document, AWS and GTE will, in a timely fashion, exchange all information necessary to accurately, reliably and promptly bill third parties for Switched Access Services traffic jointly handled by AWS and GTE via the meet-point arrangement. Information shall be exchanged in Electronic Message Record ("EMR") format, on magnetic tape or via a mutually acceptable electronic file transfer protocol.
- 7.1.7 AWS and GTE shall work cooperatively to coordinate rendering of Meet-Point bills to customers, and shall reciprocally provide each other usage data and related information at no charge.

## 7.2 Compensation.

- 7.2.1 Initially, billing to third parties for the Switched Access Services jointly provided by AWS and GTE via the MPB arrangement shall be according to the multiple-bill/multiple-tariff method (MB/MT method). The MB/MT method means that each company will render their bill at their own rates to the third party.
- 7.2.2 Subsequently, AWS and GTE may mutually agree to implement one of the following options for billing to third parties for the Switched Access Services jointly provided by AWS and GTE via the MPB arrangement: single-bill/single tariff method, single-bill/multiple tariff method, multiple-bill/single tariff method, or to continue the multiple-bill/multiple tariff method. Should AWS prefer to change among these billing methods, AWS shall notify GTE of such a request in writing, ninety (90) days in advance of the date on which such change is desired to be implemented.

## 8. Common Channel Signaling.

- 8.1. Service Description. The Parties will provide Common Channel Signaling ("CCS") to one another via Signaling System 7 ("SS7") network interconnection, where and as available, in the manner specified in FCC Order 95-187, in conjunction with all traffic exchange trunk groups. The Parties will cooperate on the exchange of all appropriate SS7 messages for local and intraLATA call set-up signaling, including ISUP and Transaction Capabilities Application Part ("TCAP") messages to facilitate full interoperability of all CLASS Features and functions between their respective networks. Any other SS7 message services to be provided using TCAP messages (such as data base queries) will be jointly negotiated and agreed upon.

GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION

ATTWDELVSJ8

IV-7

Contract ID: \_\_\_\_\_

- 8.2 Signaling Parameters. All SS7 signaling parameters will be provided in conjunction with traffic exchange trunk groups, where and as available. These parameters include Automatic Number Identification ("ANI"), Calling Party Number ("CPN"), Privacy Indicator, calling party category information, originating line information, charge number, etc. Also included are all parameters relating to network signaling information, such as Carrier Information Parameter ("CIP"), wherever such information is needed for call routing or billing.
- 8.3 Privacy Indicators. Each Party will honor all privacy indicators as required under applicable law.
- 8.4 Connection Through STP. AWS must interconnect with the GTE STP(s) serving the geographic area in which the traffic exchange trunk groups are interconnected.
- 8.5 Third Party Signaling Providers. AWS may choose a third-party SS7 signaling provider to transport messages to and from the GTE SS7 network. In that event, that third-party provider must present a letter of agency to GTE, prior to the testing of the interconnection, authorizing the third party to act on behalf of AWS in transporting SS7 messages to and from GTE. The third-party provider must interconnect with the GTE STP(s) serving the geographic area in which the traffic exchange trunk groups are interconnected.
- 8.6 Multi-Frequency Signaling. In the case where CCS is not available, in band Multi-Frequency ("MF"), wink start, E & M channel associated signaling with ANI will be provided by the Parties. Network signaling information, such as CIC/OZZ, will be provided wherever such information is needed for call routing or billing.
9. Transition and Implementation. The Parties acknowledge that there may be certain instances in which existing arrangements between the Parties are not in accordance with the requirements of this agreement. Existing interconnection arrangements that are not in compliance with the requirements of this agreement shall not fall under the scope of this agreement until they are brought into compliance with the requirements of this agreement. Until such arrangements are brought into compliance with the requirements of this agreement, compensation will be in compliance with effective FCC rules, specifically §51.717, and related services or options currently provided to AWS by GTE in the State shall continue to be provided under the terms and conditions of such existing agreements subject to the limitations of this transition period. The Parties agree to use their best efforts to bring all arrangements into compliance with the terms and conditions of this agreement within six (6) months of the effective date of this agreement or within whatever other period may be mutually agreeable to the Parties.
10. Ordering and Provisioning

GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION

ATTWBL VSB

IV-8

Contract ID: \_\_\_\_\_

**10.1 General Provisioning Requirements**

- 10.1.1 GTE shall provide provisioning services to AWS Monday through Friday from 8:00 a.m. to 5:00 p.m. within each continental U.S. time zone. AWS may request GTE to provide Saturday, Sunday, holiday and/or off-hour provisioning services. If AWS requests that GTE perform provisioning services at times or on days other than as required proceeding, GTE shall provide rates for such services. If AWS accepts GTE's rates, GTE shall perform such provisioning services.
- 10.1.2 GTE shall provide a single point of contact for provisioning (the "Provisioning SPOC") and a single point of contact for ordering (the "Ordering SPOC") for all ordering and provisioning contacts and order flow involved in the purchase and provisioning of GTE's services. The SPOCs shall provide an electronic interface twenty-four (24) hours a day, seven (7) days a week for all ordering and provisioning order flows, except for scheduled maintenance and processing down time. The SPOCs shall also provide to AWS a toll-free nationwide telephone number (operational from 8:00 a.m. to 5:00 p.m., Monday through Friday, within each respective continental U.S. time zone) which will be answered by capable staff trained to answer questions and resolve problems in connection with the provisioning of connecting facilities.
- 10.1.3 GTE and AWS shall work jointly to develop and implement a mutually acceptable interface contingency and disaster recovery plans associated with the recovery of any systems and/or functions connected with the ordering and provisioning of GTE's connecting facilities.
- 10.1.4 Within sixty (60) days after the effective date of this Agreement, GTE and AWS shall in good faith develop a mutually agreeable escalation process by which service ordering and provisioning can be provided.
- 10.1.5 GTE and AWS shall in good faith negotiate and finalize interface agreements between their respective work centers detailing systems and establishing a change control process between the Parties. Such agreements shall be completed within sixty (60) days after the written request of either Party but no sooner than sixty (60) days of the effective date of this Agreement.

**10.2 Specific Ordering and Provisioning Requirements**

- 10.2.1 GTE will provide AWS with written confirmation for each order (an "Order Confirmation") within twenty four (24) hours of GTE's receipt of a valid, error-free order. The Order Confirmation must contain an enumeration of AWS's

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

ATTWBLVJD

IV-9

Contract ID: \_\_\_\_\_

ordered facilities, options, physical interconnection, quantity and GTE commitment date for order completion (the "Due Date").

- 10.2.2 Upon work completion, and joint turn-up and testing for interconnection facilities, GTE will provide AWS electronically (unless otherwise agreed upon by the Parties) with written notification of completion for each order that states when that order was completed (a "Completion Notice"). The date indicated on a Completion Notice shall be referred to in this Agreement as the "in-service date." GTE shall respond with specific order detail as enumerated on the Order Confirmation referred to preceding and shall state any additional charges (e.g., special construction, as described following) up to a previously agreed upon limit associated with that order.
- 10.2.3 Special construction costs incurred by GTE may require advance payment and termination liability arrangements by AWS. Upon receiving a request for service from AWS, GTE will provide to AWS a good faith estimate of the costs of each component of such special construction. Final charges and liabilities will be settled prior to installation of the services requested and will be handled under a separate contract.
- 10.2.4 GTE will perform pre-testing as per industry standards and will provide in writing or electronically, as agreed upon by the Parties, all test and turn-up results in support of the connecting facilities ordered by AWS.
- 10.2.5 As soon as identified, GTE shall provide notification electronically (unless otherwise agreed upon by the Parties) of rejections or errors contained in any of the data element(s) fields contained on any AWS order.
- 10.2.6 As soon as identified, GTE shall provide notification electronically (unless otherwise agreed upon by the Parties) of any instances when GTE's due dates are in jeopardy of not being met by GTE on any element or feature contained in any order for connecting facilities. GTE shall concurrently indicate its new committed due date.
- 10.2.7 Within twenty four (24) hours after AWS's request, GTE will perform cooperative testing with AWS (including trouble shooting to isolate any problems) to test connecting facilities purchased by AWS in order to identify any performance problems.

10.3 Ordering Interfaces. GTE shall provide to AWS an electronic interface (EI) for transferring and receiving order confirmations, completion notices and other provisioning data, materials and documents. This EI shall be administered through a gateway that will serve as a

Contract ID: \_\_\_\_\_

**ARTICLE V**  
**ADDITIONAL SERVICES AND COORDINATED SERVICE ARRANGEMENTS**

1. Coordinated Repair Calls. The Parties will employ the following procedures for handling misdirected repair calls:
  - 1.1 The Parties will educate their respective customers as to the correct telephone numbers to call to access their respective repair or customer care centers.
  - 1.2 To the extent that the correct provider of service to the customer is identifiable, the Parties will refer customers that make misdirected repair calls to the other Party to the telephone number provided by the provider of service to that customer. Such referrals will be made in a courteous manner and at no charge to the other Party. Communications with end users of the other Party during such misdirected calls other than referral to the correct number are prohibited.
  - 1.3 The Parties will provide their respective repair/customer care contact numbers to one another on a reciprocal basis.
2. 911 Arrangements. To provide basic 911 services by connection to GTE's 911 selective router (i.e. 911 tandem), the following terms and conditions will apply.
  - 2.1 Description of Service. GTE will provision basic 911 service over an auxiliary connection. A minimum of two 911 trunks, or that quantity necessary to provide P.01 Transmission Grade of Service is required. Basic 911 does not include detailed location information. AWS will compensate GTE for the full cost of provisioning the auxiliary connection and a selective router port charge. Charges for the selective port will be at the rates set forth in GTE General Exchange Tariff addressing 911 service. Mobile to Land usage charges are not applicable on the 911 trunks.
  - 2.2 Transport. AWS may obtain transport from GTE for the transport of the auxiliary connection at the rates set forth in GTE's intrastate switched access tariff or in GTE's intrastate special access tariff.
  - 2.3 Cooperation and Level of Performance. The Parties will work together to facilitate the prompt, reliable and efficient interconnection of the AWS's systems to the 911 platform, without degradation to the AWS's existing 911 level of performance and grade of service.
  - 2.4 Enhanced 911 (E911). When technically feasible, the Parties agree that they shall make provisions to ensure access by all of AWS's customers to E911, as required by FCC Docket 94-102. The Parties are responsible for their own network requirements to

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

ATTWIRE.V18

V-1

Contract ID: \_\_\_\_\_

establish E911 connectivity. A separate agreement is necessary between the Parties for E911 services to be provided by GTE.

3. Information Services Traffic.

- 3.1. Routing. Each Party shall route traffic for information services (e.g. 900, 976, N11, weather lines, sports lines, etc.) that originates on its network to the appropriate information services platforms connected to the other Party's network over the Local/IntraLATA trunks.
- 3.2. Recording. The Party on whose network the information services traffic originated (the "Originating Party") shall provide the recorded call detail information to the Party to whose information platform the information services traffic terminated (the "Terminating Party").
- 3.3. Rating. The Terminating Party shall provide to the Originating Party all rating information necessary to bill the information services traffic to the Originating Party's end users pursuant to the Terminating Party's agreements with each information provider.
- 3.4. Billing and Collection. The Originating party shall bill and collect such information service charges and shall remit the amounts collected to the Terminating Party less:
- (a) a mutually agreed upon fee for providing billing and collection of the information service charges; and
  - (b) any uncollectibles reserve, which shall be calculated based on the uncollectibles reserve in the Terminating Party's billing and collection agreement with the applicable information services provider; and
  - (c) any customer adjustment provided by the Originating Party.
- 3.5. Blocking. Nothing in this Agreement shall restrict either Party from offering to its end user customers the ability to block the completion of information service traffic.
4. Directory Assistance (DA) and Operator Services. At AWS's request, GTE will provide to AWS directory assistance services and/or operator services pursuant to applicable tariffs or separate contracts to be negotiated in good faith between the Parties.

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

Contract ID: \_\_\_\_\_

**ARTICLE VI  
COLLOCATION**

1. **Physical Collocation.** GTE shall provide to AWS physical collocation of equipment necessary for interconnection or for access to unbundled network elements, provided that GTE may provide virtual collocation in place of physical collocation, or in some cases deny a particular collocation request entirely, if GTE demonstrates that physical collocation, or perhaps even virtual collocation, is not practical because of technical reasons or space limitations, as provided in Section 251(c)(6) of the Act. GTE will provide such collocation for purposes of interconnection or access to unbundled network elements pursuant to the terms and conditions in the applicable GTE federal and state collocation tariffs.
2. **Existing Virtual Collocation.** If, on the effective date of this Agreement, AWS is virtually collocated in a GTE premise, AWS may (i) elect to retain its virtual collocation arrangement in that premise or (ii) unless it is not practical for technical reasons or because of space limitations, convert its virtual collocation arrangement at that premise to physical collocation. If AWS elects the latter option, AWS's request shall be treated as a new physical collocation request and AWS shall pay GTE at the applicable tariff rates for construction and rearrangement of AWS's equipment as well as all applicable tariffed physical collocation recurring charges.

**GTE CONFIDENTIAL - WORKING DRAFT - SUBJECT TO MODIFICATION**

ATTW09LVB

VI-1
