Re: Docket No. 960846-TP, 960833-TP, 960916-TP

Dear Ms Bayó:

On Friday, April 4, 1996, MCImetro filed its version of the signed interconnection agreement with BellSouth (document number 3527-97).

We discovered today that page IV-1 of Attachment IV inadvertently failed to copy.

Enclosed are the original and fifteen copies of this page, which should be inserted into the document filed on Friday. I apologize for any inconvenience that this has caused.

Very truly yours,

Richard D. Melson

ATTACHMENT IV
INTERCONNECTION

Section 1. Local Interconnection Trunk Arrangement

A. One-way and two-way trunks. The parties may use either one-way or two-way trunking or a combination, as mutually agreed.

1.1 The parties shall initially reciprocally terminate local exchange traffic and IntraLATA/InterLATA toll calls originating on each other's networks as follows:

1.1.1 The parties shall make available to each other either one way or two-way trunks for the reciprocal exchange of combined local traffic and non-equal access IntraLATA toll traffic

1.1.2 Separate two-way trunks will be made available for the exchange of equal-access InterLATA or IntraLATA interexchange traffic that transits BellSouth's network, and local transit traffic to other LECs. Local transit traffic to other LECs shall only be assessed the local interconnection charge.

1.1.3 Separate trunks connecting MCI's switch to each 911/E911 tandem.

1.1.4 Separate trunk group connecting MCI's switch to BellSouth's operator service center for operator-assisted busy line interrupt/verify. MCI, at its option, may establish trunks from its own operator services platform directly to BellSouth's operator service center.

1.1.5 Separate trunk group connecting MCI's switch to BellSouth's directory assistance center in instances where MCI is purchasing BellSouth's unbundled directory assistance service.

1.1.6 The parties shall attempt to develop a solution whereby local, interLATA and intraLATA traffic may all be combined on a single trunk group.

1.2 Interconnection Point
