ORIGINAL
FILE COPY

GTE Florida Incorporated's Request)
for Confidential Classification of)
Quarterly Report Schedules 8 and 20)
_____)

Docket No.
Filed: April 30, 1997

**GTE FLORIDA INCORPORATED'S
REQUEST FOR CONFIDENTIAL CLASSIFICATION**

Under Commission Rule 25-22.006, GTE Florida Incorporated (GTEFL) seeks confidential classification and a protective order for Schedules 8 and 20 of its Quarterly Report. This information is required to be filed in accordance with Commission Rule 25-4.0185. While a ruling on this Request is pending, GTEFL understands that the information at issue is exempt from Florida Statutes section 119.07(1) and Staff will accord it the stringent protection from disclosure required by Rule 25-22.006(3)(d).

Highlighted, unredacted copies of the confidential material are attached to only the original of this Request as Exhibit A. Redacted copies of these items are attached to this Request as Exhibit B.

All of the information for which GTEFL seeks confidential treatment falls within Florida Statutes section 364.183(3)(e), which defines the term, "proprietary confidential business information," to include "information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of information."

The confidential information covered in this filing is GTEFL's access lines counts by exchange area and class and grade of service. (Both schedule 8 and schedule 20 show access line data, but they are arranged somewhat differently.) These data will be very valuable in the competitive local exchange market sanctioned by the 1995 revisions

to Chapter 364. With this information, alternative local exchange carriers (ALECs)—a number of which have already been certified—can discern the number of GTEFL's access lines by location and type of service. They will know the level of GTEFL's presence in the specified locations or exchanges and lines of business. Moreover, because this information is provided quarterly, its ongoing public disclosure would allow GTEFL's competitors to determine growth and market trends in GTEFL's specific exchange areas and types of services. With this knowledge, competitors can tailor their marketing, entry and expansion plans accordingly, avoiding much of the trial and error that is the hallmark of an openly competitive marketplace.

The information for which GTEFL seeks protection is analogous to interexchange carriers' (IXCs') market share and traffic data, which reveals where a carrier's customers are located and their distribution across lines of business. The Commission customarily grants protection for the IXCs' data because of the competitive nature of the marketplace. The introduction of full local competition compels the same kind of protection for the LECs' access line data.

In a competitive business, any knowledge obtained about a competitor can be used to the detriment of the entity to which it pertains, often in ways that cannot be fully anticipated. GTEFL emphasizes that while it has amply supported this request with explanations of the most likely uses to which competitors may put GTEFL's data, it is impossible for GTEFL to know precisely how a particular competitor can use this information. GTEFL's competitors are, of course, most familiar with their own operations, objectives, and marketing plans, and only they can know how best to use these data to

their advantage. GTEFL's inability to anticipate fully how competitors might use its confidential information only exacerbates the problems inherent in forcing GTEFL to disclose it publicly. The resulting, unfair advantage afforded GTEFL's competitors will skew the operation of the market, to the ultimate detriment of the telecommunications consumer. It is critical to prevent these regulation-induced distortions now before any further market entry occurs. As noted, numerous ALECs have been certificated in Florida; GTEFL knows that Intermedia Communications Inc. is already operating as both a facilities- and non-facilities-based carrier in GTEFL's service area. The local service promotions of other well-recognized and well-financed carriers--among them AT&T and MCI--are also underway. ALEC activity will rapidly grow more intense as more and more carriers complete interconnection and resale contracts with GTEFL pursuant to the Telecommunications Act of 1996. To this end, GTEFL's arbitration proceedings with AT&T, MCI, and Sprint have finished, and contracts with AT&T and MCI have been submitted for Commission approval.

If the Commission orders public disclosure of GTEFL's competitively sensitive information in this environment, GTEFL will certainly be harmed, as will the market, which cannot operate efficiently if regulators introduce non-market handicaps for some competitors. The Commission can never correct for the market share and other losses to GTEFL. This effect is particularly troublesome and unfair because ICI, AT&T, MCI, Sprint, and GTEFL's other ALEC competitors are under no obligation to make their competitively sensitive market information known to GTEFL.

The above-described rationale for confidential protection applies to the following, specific lines in Schedules 8 and 20. (GTEFL notes that it has not sought confidential protection for the high-level aggregate numbers in the totals columns on Schedule 8 or the total access line number on Schedule 20.)

Schedule 8

Columns B-I, Lines 1-24: Access line data for each GTEFL exchange, broken down by class of service.

Schedule 20

Page 1, Columns F, H and I, Lines 1-31; Page 2, Columns F, H and I, Lines 32-62; and Page 3, Columns F, H and I, Lines 63-91, with the exception of the total figure in Column H, Line 91: Access line numbers by exchange and breakdown of lines per exchange as percentage of total lines.

For the reasons set forth in this filing, GTEFL asks the Commission to grant this request for confidential classification of the specified information and to issue a permanent protective order with regard to these data. GTEFL further requests return of these data when they are no longer useful to the Staff, or when they are superseded by the next Quarterly Report GTEFL files with the Commission, whichever comes first.

Respectfully submitted on April 30, 1997.

Kimberly Caswell
