Florida Water Services Corporation  
P. O. Box 609520  
Orlando, FL 32860-9520

Re: Docket No. 970328-SU - Petition to establish rates for a new class of service for residential wastewater only (RWO) service in all jurisdictional service areas included in Docket No. 950495-WS and currently without authorized RWO rates by Florida Water Services Corporation.

Dear Mr. Feil:

Staff has reviewed Florida Water Services Corporation's filing and believes it reasonable and necessary to require further amplification and explanation regarding the utility's rate request, and to require production of additional and/or corroborative data. Please respond to the following by July 7, 1997:

1. Of the service areas included in your application for RWO rates, which service areas currently serve customers who require an RWO rate?
2. List the number of current customers, by service area, who need an RWO rate.
3. Over the next 2 years, how many total connections does the utility anticipate needing an RWO rate?
4. According to Order No. PSC-96-1320-FOF-WS, issued on October 30, 1996 in Docket No. 950495-WS docket, customers in all of the wastewater only service areas except Tropical Isles were receiving water service from unmetered private wells. Is this still true?

5. Do any other situations exist in the utility's service areas, aside from customers receiving water service from unmetered private wells, which make it necessary to have in place an RWO rate?
6. Provide the revenue by service area, that will be generated by the current customers requiring an RWO rate?
7. Provide the anticipated revenue by service area that will be generated by future customers requiring an RWO rate?
8. Since, as stated in the application, the need for an RWO rate is occasional and not frequent, why should FWSC not request an RWO rate on a case by case basis?
9. Estimate any cost savings which will occur by implementing an RWO rate.

Sincerely,

Tim Vaccaro  
Senior Attorney
