RE: Docket No. 970432-TL

Dear Ms. Bayo:

Each year we require assistance from the Department of Revenue in providing us with certain information necessary to the production of fair and equitable tax rolls. The Public Telephone Provider list from your agency is one such item we have come to rely on.

We recognize that the property appraiser's office, like the Department of Revenue, is bound by the confidentiality requirements of Section 213.053, Florida Statutes.
