FPSC-RECORDS/REPORTING

CUSTOMER NOTICE

During 1996, Pasco County reduced their charges for bulk wastewater service to several PSC regulated utilities within the County which purchased such bulk service. As a result of this change in cost, the Florida Public Service Commission initiated proceedings to investigate the cost savings to the PSC regulated utilities and whether such costs savings would result in over earnings to those utilities. As a result of that investigation, Mad Hatter Utilities proposed to reduce wastewater rates on a going forward basis for a substantial portion of those costs savings. The PSC accepted that proposal in Order No. PSC-97-0681-FOF-SU and that decision has now become final.

As a result of the PSC decision above, your wastewater rates are being reduced on a going forward basis. These rates will be effective for service rendered after the effective date of the revised rate tariffs filed with the PSC. The current and new rates are shown on the back of this notice. If you have any questions with regard to this rate reduction, please contact the utility's offices at the number listed on your bill and please have your account number available when you call.
