Rule 25-17.0021, Florida Administrative Code, requires the Commission to set numeric conservation goals for utilities under the jurisdiction of the s. 366.82(1), Florida Statutes, at least every five years. In October 1994, the Commission set numeric conservation goals for Florida Power and Light Company, Florida Power Corporation, Gulf Power Company, and Tampa Electric Company. In order to insure that the October 1999 deadline for setting goals is met, dockets should be established at this time. If you have any questions, please contact me.
