BELLSOUTH TELECOMMUNICATIONS, INC.'S NOTICE OF
INTENT TO REQUEST SPECIFIED CONFIDENTIAL CLASSIFICATION

COMES NOW, BellSouth Telecommunications, Inc. ("BellSouth" or "Company"), and pursuant to Rule 25-22.006, Florida Administrative Code, files its Notice of Intent to Request Specified Confidential Classification.

1. On August 14, 1997, the Staff of the Florida Public Service Commission requested during the Deposition of William N. Stacy in the above-referenced docket Late Filed Exhibits in order to obtain certain information.

2. The information requested in the Late Filed Deposition Exhibits is customer specific information that is deemed proprietary by BellSouth. This information is clearly confidential and proprietary under Florida Statutes, Section 364.183 and Rules 25-22.006, Florida Administrative Code.

3. Because this information is proprietary, BellSouth is filing this Notice of Intent to Request Specified Confidential Classification, pursuant to Rule 25-22.006(3)(a), Florida Administrative Code, in order to allow the Staff to take possession of the information without delay. The original of this notice has been filed with the Division of Records and Reporting, and a copy has been served on the Division requesting the information.

BellSouth Telecommunications, Inc.
Docket No. 960786-TL
Stacy Deposition
August 14, 1997
Late Filed Exhibit No. 1
Page 1 of 1

REQUEST: Preliminary data for OSS response time.

RESPONSE: BellSouth has implemented procedures for programmatically measuring the amount of time that LENS requires for accessing our legacy systems in connection with a pre-order or an order. Response time is computed utilizing built-in tracing and debugging features of the BellSouth Navigator middleware software. Measurement is from the time a client process issues a request until the response is presented to the client.

The following chart show response time results for LENS Navigator calls from the most recent monthly report from production:

< 3 sec	< 2 sec	< 1 sec	> 20 sec
89%	76%	40%	.5%

REQUEST: Add BST-Florida information to WNS-E and WNS-F.

RESPONSE: BST-Florida information (except as a part of the BST-Total) was not being accumulated under the interim format of the reports upon which Exhibits WNS-E and WNS-F were based. Such information is a part of the design for the AT&T type formats which will become available beginning in September to reflect August, 1997 data.

To: All Competitive Local Exchange Carriers

BellSouth is pleased to provide you initial target intervals for the provisioning of Unbundled Network Elements (UNEs). This attached list replaces any other information you may have received from BellSouth on this subject.

Your company can use these target intervals when placing firm service order requests or for general planning purposes. BellSouth will make every effort to accommodate service requests utilizing these intervals. As with all service provisioning requests, these target intervals assume normal working conditions including safety, load, weather, and availability of equipment and facilities. Final due date commitments will be provided via the Firm Order Confirmation (FOC) process for each individual order.

BellSouth hopes that this list will meet your product and planning needs to facilitate your conducting business. Please address any questions and concerns you may have on this subject through your account team representative.

Sincerely,

A handwritten signature in black ink, appearing to read 'J. M. Baker', written over a horizontal line.

REQUEST: Most recent version of WNS-D.

RESPONSE: The most recent version of WNS-D was that filed with the Commission with the original testimony and which was distributed to the parties. A slightly shorter earlier version may have been distributed internally within BST. Attached is another copy along with a cover letter signed by Mr. Joseph M. Baker which distributed the information to all ALECs as of June 1, 1997; this copy is designated as WNS-D (Revised).
