Re: Docket No. ~~97~~1186-SU, Application For Approval of Reuse Project Plan and Increase for Wastewater Rates by Sanlando Utilities, Corporation in Seminole County

Dear Messrs. Lowndes & Simmons:

We have reviewed the company's application including the minimum filing requirements submitted on September 11, 1997, on behalf of the above mentioned utility. After reviewing this information, we find the minimum filing requirements to be deficient since it does not contain all of the data required by Section 367.0817, Florida Statutes. The specifics are identified below:

1. Several of the schedules and supporting schedules contain illegible numbers. The specific schedules are as follows:

- ACK _____ Exhibit A, Schedule 4, Page 1
- AFA _____ Exhibit A, Schedule 4, Page 2
- APP _____ Exhibit A, Schedule 4, Page 3
- CAF _____ Exhibit A, Schedule 4, Page 4
- CMU _____ Exhibit A, Schedule 4, Page 5
- CTR _____ Exhibit A, Schedule 4, Page 6
- EAG _____ Exhibit A, Schedule 4, Page 7
- LEG _____ Exhibit A, Schedule 4, Page 8
- LIN _____ Exhibit A, Schedule 4, Page 9
- OPC _____ Exhibit A, Schedule 4, Page 10
- RCH _____ Exhibit A, Schedule 5, Page 1
- SEC 1 _____ Exhibit A, Schedule 5, Page 2
- WAS _____ Exhibit A, Schedule 5, Page 3
- OTH _____

DOCUMENT NUMBER - DATE
-097114 SEP 24 5
FPSC-RECORDS/REPORTING

John F. Lowndes

Exhibit A, Schedule 5, Page 4
Exhibit A, Schedule 5, Page 5
Exhibit A, Schedule 5, Page 6
Exhibit A, Schedule 5, Page 7
Exhibit A, Schedule 5, Page 8
Exhibit A, Schedule 5, Page 9
Exhibit A, Schedule 5, Page 10

Provide revised schedules for the above referenced schedules which contain legible numbers.

2. The St. John's Water Management District Consumptive Use Permit (Issued 2/13/90) is illegible. Provide a legible copy of this WMD consumptive use permit.

3. Although Schedules 4 and 5 were provided which propose rates for recovering rates, these schedules do not contain the necessary data used by the utility to calculate its proposed rates. The following information should be provided:

For Schedule No. 4:

- a. Provide the source for the 1,039,367 gallons. This should include a billing analysis for the wastewater customers broken down by customer class and meter size.
- b. Provide the ERCs and gallons used to calculate the base facility and usage charges.
- c. Provide the percentages used to allocate the reuse revenue requirement to the base facility and gallonage charges for the effluent disposal customers.

For Schedule No. 5:

- a. Provide documentation supporting the 401,865 gallons projected to be used by the irrigation customers.
- b. Provide the ERCs and gallons used to calculate the base facility and usage charges.
- c. Provide the percentages used to allocate the reuse revenue requirement to the base facility and gallonage charges for the irrigation customers and the effluent disposal customers.

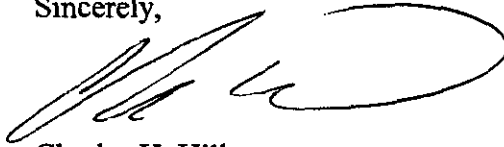

In order to comply with the requirements of Section 367.0817, Florida Statutes, the applicant must provide the above requested information. Your application will not be deemed filed and an official filing date will not be established until we have received the above requested information required by statute.

John F. Lowndes

In addition, Section 367.0817(3), Florida Statute, provides that the utility can recover the costs of a reuse project from the utility's water, wastewater, or reuse customers, or any combination thereof as deemed appropriate by the Commission. In order for staff to explore the sharing of the reuse costs with the utility's water customers, we will need a complete billing analysis for a twelve month period. We request that you provide a billing analysis broken down by customer class and meter size for the twelve month period ending December 31, 1996, for this purpose.

The requested information should be submitted no later than October 20, 1997.

Sincerely,

Charles H. Hill
Director
