 RE: Docket No. **971263-TS**, The City of Tallahassee, Financial Analysis for Certificate *HK*  
 Application for Shared Tenant Service *[Signature]*

Section 364.339 (2), Florida Statutes, requires the following:

The commission shall grant certificates to telecommunications companies upon showings that the applicants have sufficient technical, financial, and managerial capabilities to provide shared tenant services.

Also Section 364.01 (3) and (4) states that:

(3) The Legislature finds that the competitive provision of telecommunications service, including local exchange telecommunications service, is in the public interest.

and

(4)(d) The Commission shall exercise its exclusive jurisdiction in order to: (d) Promote competition by encouraging new entrants into telecommunications markets . . .

Regarding the showing of financial capability, the Finance staff has analyzed the audited combined financial statements of the City of Tallahassee (Tallahassee) for the period ending September 30, 1996. Tallahassee is a Municipal Corporation and as such follows Governmental Accounting Standards Board's (GASB) guidelines in presenting its financial information. As the attached schedule shows, Tallahassee has adequate liquidity and \$1.7 billion in assets.

In this matter, Tallahassee is asking for a certificate to provide Shared Tenant service. For purposes of granting a certificate based on the financial information provided, the financial capability appears adequate. The applicant attests to its financial capability to provide and maintain the proposed telecommunications service. Tallahassee will provide the initial start-up funds and will maintain capital through internally generated funds. The telecommunications operations will be classified as a proprietary fund type in accordance with GASB. Based on this showing, the applicant appears to meet the financial capability standard of Section 364.337, Florida Statutes.
