RE: Landscaping around water meter installations

Dear Customer:

We want to take this opportunity to bring to your immediate attention the necessity for correcting the intrusion of landscaping over, around and next to our water meter installation. Our recorded utility easements for (water meter installations) provide for our access to them for maintenance in serving your address and the ease of reading these meters on a monthly basis. As proscribed on Florida Powers electric transformers, like water meters are also protected by a minimum three foot set back of customers landscaping or other such intrusions. We have found a growing number of these difficulties and now it is necessary for you, our customer, to correct them.

We would like to ask you, our customer, to take the proper actions to relocate, trim, cutback and prune the customer/builder/developer installed landscaping at your address so as not to require us to over trim or spray these greeneries in an effort to protect the ease of our field personal maintaining and reading your water meter. These areas harbor wasps, ants, mosquitos and snakes. Your cooperation is greatly appreciated in advance. Should you have any questions, please feel free to contact the office as we are glad to discuss this with you (813) 949-2167.

Sincerely,
Mad Hatter Utility, Inc.

Mr. Larry G. DeLucenay, President
