Re: Docket No. 970540-EG

Dear Ms. Bayo:

On behalf of more than 2000 member communities and the more than a quarter million multi-family units in these communities throughout the FP&L service area, the Florida Apartment Association hereby files protest to the FPSC agency action approving FP&L's petition to modify the existing Duct System Testing and Repair Program (Docket No. 970540-EG).

The proposed changes would adversely affect these residents and communities, and we request any changes to the existing program be deferred pending such time as that a hearing on the issue may occur before the FPSC. Thank you for your consideration in this matter.
