**Re: Program Standards**

Dear Mr. Floyd:

Pursuant to Order Nos. PSC-97-1475-FOF-EG, PSC-97-1476-FOF-EG, PSC-97-1479-FOF-EG, PSC-97-1480-FOF-EG, PSC-97-1481-FOF-EG, PSC-97-1482-FOF-EG and PSC-97-1483-FOF-EG enclosed for filing with the Staff on behalf of Florida Power & Light Company (FPL) are the original and one (1) copy in legislative format and the original and three (3) copies in final format of the following program standards; Commercial/Industrial Lighting, Commercial/Industrial Off-Peak Battery Charging, Residential Air-Conditioning, Duct System Testing and Repair Program, Residential Building Envelope, Commercial/Industrial Building Envelope and Commercial/Industrial Heating Ventilation & Air-Conditioning.

Given that training of field personnel and other aspects of program implementation will take several months, FPL respectfully requests that the Staff proceed with its review but approve the standards effective March 1, 1998. FPL cannot implement the program changes before March 1, but a prompt review and approval would facilitate training and other transitional arrangements.

If you or your Staff have any questions regarding this filing, please contact me at 222-2300.
