Portions of the above area have previously been approved for the Utility. This Extension Application was necessitated as a result of a recent discovery that the service territory authorized for this Utility by the Public Service Commission approximately 16 years ago failed to include the great majority of Rainbow Springs development. The purpose of this Application is simply to correct that oversight and to include only those areas within the existing or proposed development within the Utility's designated service territory. There should be no impact on the customers whatsoever from this Application as it is simply to correct an oversight from many years ago in describing the Utility service territory. In fact, through service to a greater number of customers, the Utility hopes to keep utility costs to a minimum in the long run.

Written objections of the above noted extension must be filed with the Director of the Division of Records and Reporting, Florida Public Service Commission, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0870, and a copy provided to F. Marshall Deterding, ROSE, SUNDSTROM & BENTLEY, LLP, 2548 Blairstone Pines Drive, Tallahassee, Florida 32301, no later than 30 days after the last date this notice was mailed or published whichever is later.
