As requested, I am writing an objection to the letter I received regarding the extension given to Rainbow Springs Utilities, L.C. 8625 located at 200th Circle Drive, Fla. 34431-5325.

Upon moving into Rainbow Springs three years ago, I assumed the cost and the responsibility for obtaining my own water. This was one of the conditions of buying my lot and building a house on said lot.

Now three years later I receive a letter stating that extended service will be extended to me for something that I do not want. I am also informed, which is stated in your letter, "there will be no impact whatsoever from this application". Later on in the same letter it is stated, "Utility hopes to keep the utility costs to a minimum". I can not understand how it is stated that there will be no impact on me but, the cost will be minimum.

This extra burden that you are imposing on me I feel that I can and will not except. I hope that this matter can be settled with out any legal action on part and on the part of my neighbors.
